Ten songs, from “Bill Bailey, Won’t You Please Come Home” (1902) to “You Made Me Love You” (1913), ignited the development of the classic pop ballad. In this exploration of how the style of the Great American Songbook evolved, Michael G. Garber unveils the complicated, often-hidden origins of these enduring, pioneering works. He riffs on colorful stories that amplify the rising of an American folk art composed by innovators both famous and obscure. Songwriters, and also the publishers, arrangers, and performers, achieved together a collective genius that moved hearts worldwide to song. These classic ballads originated all over the nation—Louisiana, Colorado, Illinois, Michigan—and then the Tin Pan Alley industry, centered in New York, made the tunes unforgettable sensations. From ragtime to bop, cabaret to radio, new styles of music and modes for its dissemination invented and reinvented the intimate, personal American love ballad, creating something both swinging and tender. Rendered by Frank Sinatra, Ella Fitzgerald, and a host of others, recordings and movies carried these songs across the globe. Using previously underexamined sources, Garber demonstrates how these songs shaped the music industry and the lives of ordinary Americans. Besides covering famous

composers like Irving Berlin, this history also introduces such little-known figures as Maybelle Watson, who had to sue to get credit and royalties for creating the central content of the lyric for "My Melancholy Baby." African American Frank Williams contributed to the seminal "Some of These Days" but was forgotten for decades. The ten ballads explored here permanently transformed American popular song.

The music of Broadway is one of America's most unique and popular calling cards. In *Broadway to Main Street: How Show Tunes Enchanted America*, author Laurence Maslon tells the story of how the most beloved songs of the American Musical Theater made their way from the Theater District to living rooms across the country. The crossroads where the music of Broadway meets popular culture is an expansive and pervasive juncture throughout most of the twentieth century--from sheet music to radio broadcasts to popular and original cast recordings--and continues to influence culture today through television, streaming, and the Internet. The original Broadway cast album--from the 78 rpm recording of *Oklahoma!* to the digital download of *Hamilton*--is one of the most successful, yet undervalued, genres in the history of popular recording. The challenge of capturing musical narrative with limited technology inspired the

imagination of both the recording industry and millions of listeners: between 1949 and 1969, fifteen different original cast albums hit number one on the popular music charts, ultimately tallying more weeks at number one than all of the albums by Frank Sinatra, Elvis Presley, and The Beatles combined. The history of Broadway music is also the history of American popular music; the technological, commercial, and marketing forces of communications and media over the last century were inextricably bound up in the enterprise of bringing the musical gems of New York's Theater District to living rooms along Main Streets across the nation. Featuring new interviews with Stephen Schwartz, Chita Rivera, Steve Lawrence, and prominent record producers and music critics, the story of this commercial and emotional phenomenon is told here in full--from the imprimatur of sheet music from Broadway in the early 20th century to the renaissance of Broadway music in the digital age, folding in the immense impact of show music on American culture and in the context of the recording industry, popular tastes, and our shared national identity. A book which connects cherished cultural artifacts to the emotional narratives at the core of American popular music, *Broadway to Main Street: How Show Tunes Enchanted America* is an ideal companion for all fans of American musical theater and popular music.

You know these songs by heart. They're the "greatest hits" of Christmas. But do you know the fascinating, inspirational stories behind them - who wrote them and how they came to be? In his latest book, Ace Collins

reveals the stories behind the greatest hits of Christmas - all the songs you have enjoyed for generations. For example, as the story goes, jazz great Mel Torme wrote "The Christmas Song" after visiting a friend in California, who, longing to escape California's heat for the cold winters of his New England, doodled these now-famous phrases on his spiral pad: "Chestnuts roasting Jack Frost nipping Yuletide carols " Torme saw those words and one of the most famous Christmas songs of all time, first recorded by Nat King Cole, was born. Within these pages, you'll discover the origins of such famous Christmas songs as "Have Yourself a Merry Little Christmas, " "Winter Wonderland, " "White Christmas, " "Little Drummer Boy, " "Feliz Navidad, " "O Holy Night, " and two dozen others. Although not yet as famous as the Christmas songs of which he writes (he's working on that), Collins's many books have sold tens of thousands of copies and have become treasured family classics, read and enjoyed by young and old alike. His new book is a treasure-trove of the kind of magic that makes Christmas the beloved holiday it is. This is Ace Collins at his storytelling best which means it's sure to become a "greatest hit" with your family

For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Musical performance has been a part of television since the introduction of the medium. The styles and production requirements of music and of television have long influenced the other. Murray Forman gives the history of this interaction, going back to the early years of television, before the broadcast networks, up through the late fifties. He explores the full range of popular music from show tunes to Latin in a wide variety of television programs, and shows how the standards of presentation and performance developed. Best known for the "dead-ant" theme to the Pink Panther films, Henry Mancini also composed the music to Peter Gunn, Breakfast at Tiffany's, Orson Welles' Touch of Evil, and the Academy Award winning soundtracks to Victor/Victoria and The Days of Wine and Roses. In a career that lasted over thirty years, Mancini amassed twenty Grammy awards and more nominations than any other composer. In his memoir, written with jazz expert Lees, Mancini discusses his close friendships with Blake Edwards, Julie Andrews, and Paul Newman, his professional collaborations with Johnny Mercer, Luciano Pavarotti, and James Galway, and his achievements as a husband, father, and grandfather. A great memoir loaded with equal parts Hollywood glitz and Italian gusto.
