Are you tempted to go to business school? Save your money and read The Personal MBA instead. This bestselling book gives you everything you to transform your business and your career. An MBA at a top business school is an enormous investment in time and cash. And if you don't want to work for a consulting firm or an investment bank, the chances are it simply isn't worth it. The Personal MBA gives you simple mental models for every subject that's key to commercial success. From the basics of products, and marketing to the nuances of teamwork and systems, this book distils you need

to know to take on the MBA graduates and win. 'Finally, here's a £10.99 MBA. Well on its way to becoming a business classic.' Jason Hesse, *Real Business* 'No matter what they tell you, an MBA is not essential. If you combine reading this book with actually trying stuff, you'll be far ahead in the business game.' Kevin Kelly, founding executive editor of *Wired* From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (*Slate*)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. "Clever and charismatic" (*The New Yorker*), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (*Financial Times*).

Jason Barron spent 516 hours in class, completed mountains of homework and shelled out tens of thousands of dollars to complete his MBA at the BYU Marriott School of Business. Along the way, rather than taking boring notes that he would never read (nor use) again, Jason created sketch notes for each class—visually capturing the essential points of his education—and providing an engaging and invaluable resource. Once finished with his MBA, Jason launched a widely successful Kickstarter campaign distilling these same notes into a self-published book to help aspiring business leaders of all backgrounds and income levels understand the critical concepts one learns in business school. Whether you are thinking about applying to business school, are currently in college studying business, or have always wondered what is taught in an MBA program, this highly entertaining and visual book is for you.

This is the road map to a seven-figure business . . . in one year or less The word "entrepreneur" is today's favorite buzzword, and any aspiring business owner has likely encountered an overwhelming number of so-called "easy paths to success." The truth is that building a real, profitable, sustainable business requires thousands of hours of commitment, grit, and hard work. It's no wonder why more than half of new businesses close within six years of opening, and fewer than 5 percent will ever earn more than \$1 million annually. *12 Months to \$1 Million* condenses the startup phase into one fast-paced year that has helped hundreds of new entrepreneurs hit the million-dollar level by using an exclusive and

foolproof formula. By cutting out the noise and providing a clear and proven plan, this roadmap helps even brand-new entrepreneurs make decisions quickly, get their product up for sale, and launch it to a crowd that is ready and waiting to buy. This one-year plan will guide you through the three stages to your first \$1 million: • The Grind (Months 0-4): This step-by-step plan will help you identify a winning product idea, target customers that are guaranteed to buy, secure funding, and take your first sale within your first four months. • The Growth (Months 5 - 8): Once you're in business, you will discover how to use cheap and effective advertising strategies to get your product to at least 25 sales per day, so you can prove you have a profitable business. • The Gold (Months 9-12): It's time to establish series of products available for sale, until you are averaging at least 100 sales per day, getting you closer to the million-dollar mark every single day. Through his training sessions at Capitalism.com, Ryan Daniel Moran has helped new and experienced entrepreneurs launch scalable and sustainable online businesses. He's seen more than 100 entrepreneurs cross the seven-figure barrier, many of whom go on to sell their businesses. If your goal is to be a full-time entrepreneur, get ready for one chaotic, stressful, and rewarding year. If you have the guts to complete it, you will be the proud owner of a million-dollar business and be in a position to call your own shots for life.

In a society that is primarily consumer driven, it can feel as though getting ahead financially is a constant battle. For the average person, being in debt and living paycheck to paycheck is viewed as a normal way of life. The reality is, though, that becoming a wealth builder is not an impossible feat - in fact anyone at any income level can do it. Drawing from his own personal financial wins and losses, as well as his experience as a loan officer and financial coach, Keegan Harris presents a simple, straightforward, and easy to understand outline of the principles and strategies necessary for attaining wealth and reaching financial independence. No matter where you find yourself on the financial spectrum, Harris offers real-life examples and easy-to-follow steps that will lead you toward a bright financial future. Consider *Wisdom to Wealth* your personal guide to achieving the financial freedom you desire and, ultimately, the life you have always dreamed of living!

This book guides readers through a very comprehensive, step-by-step process to produce professional-quality business plans to attract the financial backing entrepreneurs need, no matter what their dream.

The 10th anniversary edition of the bestselling foundational business training manual for ambitious readers, featuring new concepts and mental models: updated, expanded, and revised. Many people assume they need to attend business school to learn how to build a successful business or advance in their career. That's not true. The vast majority of modern business practice requires little more than common sense, simple arithmetic, and knowledge of a few very important ideas and principles. The Personal MBA 10th Anniversary Edition provides a clear overview of the essentials of every

major business topic: entrepreneurship, product development, marketing, sales, negotiation, accounting, finance, productivity, communication, psychology, leadership, systems design, analysis, and operations management...all in one comprehensive volume. Inside you'll learn concepts such as: The 5 Parts of Every Business: You can understand and improve any business, large or small, by focusing on five fundamental topics. The 12 Forms of Value: Products and services are only two of the twelve ways you can create value for your customers. 4 Methods to Increase Revenue: There are only four ways for a business to bring in more money. Do you know what they are? Business degrees are often a poor investment, but business skills are always useful, no matter how you acquire them. The Personal MBA will help you do great work, make good decisions, and take full advantage of your skills, abilities, and available opportunities--no matter what you do (or would like to do) for a living.

Start Small, Stay Small is a step-by-step guide to launching a self-funded startup. If you're a desktop, mobile or web developer, this book is your blueprint to getting your startup off the ground with no outside investment. This book

intentionally avoids topics restricted to venture-backed startups such as: honing your investment pitch, securing funding, and figuring out how to use the piles of cash investors keep placing in your lap. This book assumes: \* You don't have \$6M of investor funds sitting in your bank account \* You're not going to relocate to the handful of startup hubs in the world \* You're not going to work 70 hour weeks for low pay with the hope of someday making millions from stock options There's nothing wrong with pursuing venture funding and attempting to grow fast like Amazon, Google, Twitter, and Facebook. It just so happened that most people are not in a place to do this. Start Small, Stay Small also focuses on the single most important element of a startup that most developers avoid: marketing. There are many great resources for learning how to write code, organize source control, or connect to a database. This book does not cover the technical aspects developers already know or can learn elsewhere. It focuses on finding your idea, testing it before you build, and getting it into the hands of your customers.

What do great enterprises have in common? What sort of person starts them? A single idea can help you find the next big thing, but it takes time to trawl through hundreds of business books to find inspiration. With insightful commentaries on the landmark writings of old and new, 50 Business Classics presents the great entrepreneur stories, the best management thinking and the proven ideas on strategy, innovation and marketing - in one volume. 50 Business Classics presents the key ideas from classic texts such as My Years with General Motors and Michael Gerber's The E-Myth Revisited to contemporary business lessons from the rise of tech giants like Google, Apple and Amazon. It contains revealing biographies of luminaries like Steve Jobs and Warren Buffett, as well as lesser-known stories including creation of publishing giant Penguin and Chinese behemoth Alibaba. Here you'll find the texts and ideas that matter in: · Entrepreneurship · Leadership · Management · Strategy · Business history · Personal development · Technology and innovation Summarising the smartest thinking for today's professional success, 50 Business Classics provides inspiration and insights for entrepreneurs, executives and students of business and management alike.

Ben Casnocha discovered he was entrepreneur at age 12 and hasn't slowed down since. In this remarkably instructive book, Ben dissects the entrepreneurship "gene," explaining that everyone has inherited it if they have an idea to make the world a better place. In Casnocha's case, he found a better way for city governments to communicate with constituents on the Web. Six years later, Comcate has dozens of municipal clients, a growing staff, and a record of excellence. This book is the story of his start-up, but also a conversation with his mentors, clients and fellow entrepreneurs about how to make a business idea work?and how to have the time of your life trying. From Pat Lencioni to Marc Benioff of salesforce.com, Ben has won over the best and brightest of the business world?now it's your turn! Reading Notes To Myself is one of those rare experiences that comes only once in a great while. The editor who

discovered the book said, "When I first read Prather's manuscript it was late at night and I was tired, but by the time I finished it, I felt rested and alive. Since then I've reread it many times and it says even more to me now." The book serves as a beginning for the reader's exploration of his or her own life and as a treasury of thoughtful and insightful reminders.

This is a Summary of Josh Kaufman's the personal MBA: master the art of business. Getting an MBA is an expensive choice-one almost impossible to justify regardless of the state of the economy. Even the elite schools like Harvard and Wharton offer outdated, assembly-line programs that teach you more about PowerPoint presentations and unnecessary financial models than what it takes to run a real business. You can get better results (and save hundreds of thousands of dollars) by skipping business school altogether. True leaders aren't made by business schools - they make themselves, seeking out the knowledge, skills, and experience they need to succeed. Read this book and you will learn the principles it takes most business professionals a lifetime of trial and error to master. This summary provides the essentials of entrepreneurship, marketing, sales, negotiation, operations, productivity, systems design, and much more, in one comprehensive volume. The Personal MBA distills the most valuable business lessons into simple, memorable mental models that can be applied to real-world challenges. Available in a variety of formats, it is aimed for those who want to capture the gist of the book but don't have the current time to devour all 464 pages. You get the main summary along with all of the benefits and lessons the actual book has to offer. This is a summary that is not intended to be used without reference to the original book.

"The ultimate all-in-one guide to becoming a great leader."—Daniel Pink From the creator and host of The Learning Leader Show, "the most dynamic leadership podcast out there" (Forbes) that will "help you lead smarter" (Inc.), comes an essential tactical guide for newly promoted managers. Every year, millions of top performers are promoted to management-level jobs—only to discover that the tactics that got them promoted are not the tactics that will make them effective in their new role. In *Welcome to Management*, Ryan Hawk provides practical, actionable advice and tools designed to ensure that transition is a successful one. He presents a new actionable three-part framework distilled from best practices drawn from in-depth interviews with over 300 of the most forward-thinking leaders around the world, as well as his own professional experience going from exceptional individual producer to new leader. Learn how to:

- lead yourself: build skills and earn credibility. Compliance can be commanded, but commitment cannot. People reserve their full capacity for emotional commitment for leaders they find credible, and credibility must be earned.
- build your team: develop a healthy and sustainable culture of mutual trust and respect that creates cohesion. This includes effective hiring and firing practices.
- lead your team: set a clear strategy and vision for your team, communicate effectively, and

ultimately drive the results the organization is counting on your team to deliver. Through case studies, hundreds of interviews, and personal stories, the book will help high performers make the leap from individual contributor to manager with greater ease, grace, courage, and effectiveness. Welcome to management!

When Hugh MacLeod was a struggling young copywriter, living in a YMCA, he started to doodle on the backs of business cards while sitting at a bar. Those cartoons eventually led to a popular blog - [gapingvoid.com](http://gapingvoid.com) - and a reputation for pithy insight and humor, in both words and pictures. MacLeod has opinions on everything from marketing to the meaning of life, but one of his main subjects is creativity. How do new ideas emerge in a cynical, risk-averse world? Where does inspiration come from? What does it take to make a living as a creative person? Now his first book, *Ignore Everyone*, expands on his sharpest insights, wittiest cartoons, and most useful advice. A sample: \*Selling out is harder than it looks. Diluting your product to make it more commercial will just make people like it less. \*If your plan depends on you suddenly being "discovered" by some big shot, your plan will probably fail. Nobody suddenly discovers anything. Things are made slowly and in pain. \*Don't try to stand out from the crowd; avoid crowds altogether. There's no point trying to do the same thing as 250,000 other young hopefuls, waiting for a miracle. All existing business models are wrong. Find a new one. \*The idea doesn't have to be big. It just has to be yours. The sovereignty you have over your work will inspire far more people than the actual content ever will. After learning MacLeod's 40 keys to creativity, you will be ready to unlock your own brilliance and unleash it on the world.

*Some Secrets Weren't Meant to Be Kept...* They started out as the "misfit moms"—the trio of less-than-conventional parents at their sons' tiny private school. They've shared everything. Or so they thought. Now, on a once-in-a-lifetime trip to New York City, they'll sightsee, they'll shop, they'll catch a few Broadway shows. They'll tell all... After seventeen years as a single parent, Neve will reveal a past sin that could destroy her relationship with her son. Emma will uncover the roots of her exhaustion and divulge the inappropriate feelings she has for her boss. And Flick—who knows a little about crafting a flawless exterior—will share the shocking truth that lies beneath the veneer of her perfect marriage. When the tight hold they've each kept on their secrets for years begins to slip, they must face the truth. Even if the truth will forever alter the course of their friendship and their lives.

The best minds in business—at your service MBA in a Box brings together some of the best brains in business who show how the core curriculum of an MBA program works in the real world. People like Michael Porter, Rosabeth Moss Kanter, Adrian J. Slywotzky, Warren Bennis, and Bill George give you a box full of ideas and tools that can boost your career and help you add value to your organization. For example:

- Why finance is not just about manipulating numbers but of immense importance in sustaining growth, building widespread wealth, and creating jobs.
- The profit zone and how to tell if a business is in one.
- The skill of turning an idea or invention into a product that solves a problem for a market.
- Merging the need of business to produce and grow with the environment so they are both sustained.
- The latest thinking in marketing about branding, pricing, reversing a product's life cycle, and turning what has become a commodity into a specialty.
- And much more.

Learn an entire MBA course without spending thousands and waving goodbye to two years of your life. If you want to succeed in business then an MBA programme is the best way to build expertise, knowledge and experience. But an MBA programme at any top school is an enormous investment in time, effort and money. In The Visual MBA, Jason Barron offers a radical solution, explaining all key business school concepts through illustrations. When Barron started his MBA course, he decided to draw all his notes so that other people could benefit from them. And it's a good thing he did, because research shows that more than 65% of us are visual learners and that our brains process illustrations 60,000 times faster than text. From Marketing, Ethics and Accounting to Organisational Behaviour, Finance, Operations and Strategy, The Visual MBA distills the most important principles of an MBA into an accessible, informative and easily-digestible guide. Jason Barron is a product manager and illustrator who helps people realise their creative ideas through

visual learning. He spent 516 hours in class and countless hours studying at home completing his MBA. Along the way, rather than taking notes that he would never read again, Jason created sketchnotes for each class and has turned them into an interesting and engaging resource so that you don't have to sit through another class again!

**\*\* ACCORDING TO BUSINESS INSIDER:** "Getting your MBA has never been easier. Haroun is one of the highest rated professors on Udemy, so you can expect to be in good hands through the course of your education." **\*\*** This is the book version of the popular Udemy.com course called "An Entire MBA in 1 Course." From the Author of "101 Crucial Lessons They Don't Teach You in Business School," which Forbes magazine calls "1 of 6 books that all entrepreneurs need to read right now." This book will teach you everything you need to know about business....from starting a company to taking it public. Most business books are significantly outdated. This book leverages many online resources and makes the general business, accounting and finance process very easy to understand (and enjoyable too)! There are many incredibly engaging and entertaining video links in the book to YouTube and other sources; 'edutainment' works! Although this book is close to 400 pages, I tried to visualize the content of this book as much as possible as this is a more impactful and enjoyable way to learn (think Pinterest versus the tiny words in the Economist)! The contents of this book are all based on my work experience at several firms, including Goldman Sachs, the consulting industry at Accenture, a few companies I have started, the hedge fund industry where I worked at Citadel and most recently, based on my experience at a prominent San Francisco based venture capital firm. I also included many helpful practical business concepts I learned while I did an MBA at Columbia University and a Bachelor of Commerce degree at McGill University. Think of this book as a "greatest hits" business summary from my MBA, undergraduate business degree, work experience in consulting, equities, hedge funds, venture capital and starting my own companies. As the title of this book suggests, this is an entire MBA in one book; it's also a practical manual to help you accomplish your business career goals. I have minimized "boring theoretical concepts" in this book in order to keep it as close to reality as possible. I hope you enjoy it! In addition to teaching at 4 universities in the San Francisco Bay Area, you can find other courses that I teach online at [www.udemy.com/user/chris-haroun/](http://www.udemy.com/user/chris-haroun/).

What if every successful start-up followed a predictable pattern, and by knowing that pattern ahead of time, you could be more successful? In *The Hockey Stick Principles*, business consultant Bobby Martin shares his study of more than 100 new businesses, from Lending Tree to Under Armour to iContact, to show that every one of them has had a "hockey stick" growth history, starting with a tinkering period, moving through the daunting "blade years" before finally making it to the crucial inflection point that precedes surging growth. In this simple but incredibly helpful book, Martin takes us through each of those four stages of the hockey stick pattern, giving us a road map that will help any entrepreneur navigate the

inevitable ups and downs of their business's early years.

If you want to accelerate your career development and transform your skillset, but without the price tag and two-year commitment of the MBA, this is the book for you. The 30 Day MBA covers the 12 core disciplines of business: accounting, finance, marketing, organizational behaviour, business history, business law, economics, entrepreneurship, ethics and social responsibility, operations management, research and analysis and strategy. It provides the tools and techniques you need to seize business opportunities and implement strategies successfully. Complex concepts are explained in simple and practical terms, helping you to apply high level concepts to the real-life world of business. The 30 Day MBA also contains insightful case studies from leading organizations including IKEA, Cisco, Cobra Beer, Heinz, Shell, Hotel Chocolat and Chilango, to help keep you right up-to-the-minute with current trends and inspire you to explore new concepts. This book equips you with essential hard knowledge, but also helps you understand how business and current thinking is shifting in today's turbulent global markets, and broadens your mind with the knowledge and confidence to excel in a competitive career.

Practical ideas from the best brains in Business A sharp, jargon-free guide to the core curriculum of an MBA program, MBA in a Book shows how to master the big ideas of business and use them in a practical way to build and enhance career success. "In the world of business, ideas matter. . . . Some of the sharpest minds in the business world give perceptive looks into innovation, marketing, finance, strategy, and leadership, providing stimulating, useful perspectives on these core topics." —Larry Bossidy, retired chairman and CEO of Honeywell International and coauthor of Execution: The Discipline of Getting Things Done Great business thinkers such as Michael Porter, Rosabeth Kanter, and Bill George of Harvard Business School; Paul Argenti of the Tuck School at Dartmouth; Jeffrey Sonnenfeld of Yale; Peter Senge of MIT; the entrepreneur and inventor Dean Kamen; and the financial innovator Michael Milken are just a few of the best brains in business, providing the intellectual nourishment that will help you play the game of business at the highest level.

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like,

what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

There are three types of companies in the world: Companies that don't yet benefit from data and AI Companies that use data and AI for internal purposes only Companies that harness data and AI as an asset for competitive global growth Where does your business belong? In *Growth Reinvented*, business innovation expert Mika Ruokonen takes a deep dive into the rich new landscape of data and AI-enabled business models. Building on a framework of dozens of original case studies and company examples, *Growth Reinvented* teaches ambitious business leaders how to extract value from data and AI as a conduit for systemic change. Like the steam engine or electricity, data and AI are general-purpose technologies with the potential for powerful and disruptive growth. But current literature on the topic is limited to examining benefits contained within a company's existing products or services, with an emphasis on theory rather than pragmatic detail. *Growth Reinvented* raises the bar with a concrete and easy-to-use playbook of business model options that leaders can start applying to their data and AI operations. Backed by real-life examples, these models demonstrate options for generating fresh revenue and product/service pathways, including those that open the door to a radically new type of business or industry sector. In a climate of rapidly evolving technologies and fierce global competition, companies must continually interrogate their ability to stay relevant in target markets. *Growth Reinvented* shows how to do exactly that, with a series of impact-focused and progressive strategies. Get ahead of the competition, understand the challenges and start transforming your data and AI into new, profitable and futureproof business models today. How can *Growth Reinvented* add value to your business? Build general understanding and awareness *Growth Reinvented* offers a cohesive, easy-to-follow summary of existing information around data and AI-enabled business models. It brings technology and business thinking together to serve as a synthesis for you to review and apply in real life. Extra online resources are also available for those who want to expand their learning. Deliver financial results and create a competitive edge *Growth Reinvented* shows how to generate new information using data and AI-enabled business models. For instance, you can learn how to implement models in practice to drive scalable revenue channels and competitive advantage. Avoid common pitfalls and steer towards success: Using clear and detailed case studies, *Growth Reinvented* highlights the current opportunities and challenges that companies face around data, analytics, machine learning and AI commercialisation. Who is *Growth Reinvented* for? Business leaders: build a thorough understanding of the growth opportunities behind different kinds of data and AI-enabled business models. R&D professionals: understand the business potential of your data and AI inventions, to work in harmony with corporate decision-makers. Venture capitalists or financial analysts: decide whether to invest in a company that strives to harness data and AI commercially. Students or recent graduates: kickstart your career in data and AI, dotting the line between key technology and business decisions. Mega-bestselling author Ken Blanchard and celebrated business leaders Don Hutson and Ethan Willis present an inspiring story that reveals the secrets to becoming a successful entrepreneur. In THE ONE MINUTE ENTREPRENEUR, Ken Blanchard (coauthor of the #1 bestselling business classic The One Minute Manager), Don Hutson, CEO of U.S. Learning, and Ethan Willis, CEO of Prosper Learning, tell the inspiring story of one man's challenges in creating his own business. Through a powerful and engaging narrative, we confront many of the typical problems all entrepreneurs face in starting up their business, from finding new sources of revenue to securing the commitment of their people and the loyalty of their customers. More important, we learn the secrets to becoming a successful entrepreneur, including how to build a firm foundation, how to ensure a steady cash flow, and how to create legendary service. In addition, the book offers invaluable advice, delivered through One Minute Insights, from such entrepreneurs and thinkers as Sheldon Bowles, Peter Drucker, Michael Gerber, and Charlie "Tremendous" Jones. Today, in the midst of the largest entrepreneurial surge in U.S. history, four out of five small businesses continue to fail. THE ONE MINUTE ENTREPRENEUR offers businesspeople and would-be entrepreneurs a treasure trove of wisdom on how to think, act, and succeed in creating and sustaining a business, no matter what their industry.

From the New York Times bestselling author of A Book of Angels, a wise and inspiring guide to strengthening one's intuitive abilities. Are you intuitive? Do you trust your intuitions? In The Art of Intuition, Sophy Burnham contends that we all have hunches and sudden insights and that

we need only awaken to our inborn abilities in order to develop our inner wisdom. In this fascinating book, Burnham tells the stories of individuals who have "seen without seeing" to illustrate the workings of what she calls our "intuitive hearts." Exploring such topics as how loved ones are able to communicate with one another telepathically to skeptics who deny their power to see into the future, this book represents an important spiritual thinker's take on a subject that is vital to us all. According to Burnham, intuition is always right, and when you receive messages from Spirit-be it in the form of a subtle impression or a thunderous bolt from the blue-you must always, always follow the call.
