In this book he brings together all the latest science (including a new approach: Time Restricted Eating) to create an easy-to-follow programme. Recent studies have shown that 800 calories is the magic number when it comes to successful dieting – it's an amount high enough to be manageable but low enough to speed weight loss and trigger a range of desirable metabolic changes. Depending on your goals, you can choose how intensively you want to do the programme: how many 800-calorie days to include each week, and how to adjust these as you progress. Along with delicious, low-carb recipes and menu plans by Dr Clare Bailey, The Fast 800 offers a flexible way to help you lose weight, improve mood and reduce blood pressure, inflammation and blood sugars.
