What Your Birthday Reveals About You Phyllis Vega, 2005-10-01 Astrology meets numerology in this fascinating guide to the secrets of your birth date! Born on December 3rd? You're an ambitious, hardworking "idea person" and a dynamic leader. Born on December 14th? You're the "traveling salesperson" of the zodiac and a gifted marketer. All Sagittarians are charming, intelligent, and adventure-seeking—but which day of the month you're born on can determine the way in which you use those traits to your best advantage. In this exciting new book, master astrologer Phyllis Vega gives a detailed analysis for each birthday in the year, combining astrology and numerology to paint a true picture of the characteristics,

desires, and destinies of people born on that day. If you were born October 5th, you're a skilled negotiator with a gift for making money. But if you were born just four days later, you're a compassionate dreamer with spiritual inclinations. Aries is the sign of the determined ram, but if you were born on April 7th, you are idealistic and inspiring. Discover what's revealed in this guide about you, your loved one, coworkers, or even your favorite celebrity in this entertaining, enlightening reference!

Globalization and Literature Suman Gupta,2013-04-30 This book presents a state-of-the-art overview of the relationship between globalization studies and literature and literary studies, and the bearing that they have on each other. It engages with the manner in which globalization is thematized in literary works, examines the relationship between globalization theory and literary theory, and discusses the impact of globalization processes on the production and reception of literary texts. Suman Gupta argues that, while literature has registered globalization processes in relevant ways, there has been a missed articulation between globalization studies and literary studies. Examples are given of some of the ways in which this slippage is now being addressed and may be taken forward, taking up such themes as the manner in which anti-globalization protests and world cities have figured in literary works; the ways in which theories of postmodernism and postcolonialism, familiar in literary studies, have diverged from and converged with globalization studies; and how industries to do with the circulation of literature are becoming globalized. This book is intended for university-level students and teachers, researchers, and other informed readers with an interest in the above issues, and serves as both a survey of the field and an intervention within it.

Searching for Robert Johnson Peter Guralnick,2020-08-25 This highly acclaimed biography from the author of Last Train to Memphis illuminates the extraordinary life of one of the most influential blues singers of all time, the legendary guitarist and songwriter whose music inspired generations of musicians, from Muddy Waters to the Rolling Stones and beyond. The myth of Robert Johnson's short life has often overshadowed his music. When he died in 1938 at the age of just twenty-seven, poisoned by the jealous husband of a woman he'd been flirting with at a dance, Johnson had recorded only

twenty-nine songs. But those songs would endure as musical touchstones for generations of blues performers. With fresh insights and new information gleaned since its original publication, this brief biographical exploration brilliantly examines both the myth and the music. Much in the manner of his masterful biographies of Elvis Presley, Sam Phillips, and Sam Cooke, Peter Guralnick here gives readers an insightful, thought-provoking, and deeply felt picture, removing much of the obscurity that once surrounded Johnson without forfeiting any of the mystery. "I finished the book, declared the New York Times Book Review, feeling that, if only for a brief moment, Robert Johnson had stepped out of the mists."
