At a time when many proclaim the death of active investing, Rupal J. Bhansali, global contrarian, makes a clarion call for its renaissance. Non-consensus thinking has resulted in breakthrough successes in science, sports, and Silicon Valley. Bhansali shows how to apply it to the world of investing to improve one's odds of achieving above-average returns with below-average risks. Her upside-down investment approach focuses on avoiding losers instead of picking the winners, asking the right questions instead of knowing the right answers, and scoring upset victories to achieve the greatest bang for one's research buck. Through a series of counterintuitive concepts and contemporary case studies from her firsthand experience of investing in fifty markets around the globe, Bhansali describes how to perform differentiated fundamental research to uncover mispriced stocks. She candidly shares her failures and mistakes as well as her successes and triumphs. She also weaves in her personal journey, recounting how she overcame the odds to succeed in a male-dominated profession and offering advice on breaking the glass ceiling. Non-Consensus Investing is a must-read for anyone who seeks to understand why active investing disappointed and how it can succeed—analysts and amateurs, fiduciaries and financial advisors, aspiring and practicing money managers, as well as students or investment enthusiasts. Historians of religion have examined at length the Protestant Reformation and the liberal idea of the self-governing individual that arose from it. In *Spiritual Despots*, J. Barton Scott reveals an unexamined piece of this story: how Protestant technologies of asceticism became entangled with Hindu spiritual practices to create an ideal of the "self-ruling subject" crucial to both nineteenth-century reform culture and early twentieth-century anticolonialism in India. Scott uses the quaint term "priestcraft" to track anticlerical polemics that vilified religious hierarchy, celebrated the individual, and endeavored to reform human subjects by freeing them from external religious influence. By drawing on English, Hindi, and Gujarati reformist writings, Scott provides a panoramic view of precisely how the specter of the crafty priest transformed religion and politics in India. Through this alternative genealogy of the self-ruling subject, *Spiritual Despots* demonstrates that Hindu reform movements cannot be understood solely within the precolonial tradition, but rather need to be read alongside other movements of their period. The book's focus moves fluidly between Britain and India—engaging thinkers such as James Mill, Keshub Chunder Sen, Max Weber, Karsandas Mulji, Helena Blavatsky, M. K. Gandhi, and others—to show how colonial Hinduism shaped major modern discourses about the self. Throughout, Scott sheds much-needed light how the rhetoric of priestcraft and practices of worldly asceticism played a crucial role in creating a new moral and political order for twentieth-century India and demonstrates the importance of viewing the emergence of secularism through the colonial encounter.

"Imagining the sacred" helps readers expand their imagination and experience what it means to live, wonder, think and pray from within a religious tradition other than one's own. As neighborhood skylines in every region in the world grow richer with a montage of church spires, mosques, synagogues, and temples, Ruland surveys this living and evolving religious world.

This work contrasts the living guru in whom disciples place their trust to other objects of faith found in the world religions. Of these, two main alternatives emerge: past founders and great gods, to whom all may have access; and the sanctified way of life known to those within enduring cultures. Coming together in diverse configurations within different religious traditions, these primary objects of faith are taken as the basic elements of a syntax of religious perception. Although Daniel Gold focuses on examples from North Indian Hinduism, he writes for generalists in religious studies, developing a broad comparative framework and reflecting on some possibilities for the growth of knowledge in history of religions.

Jeff Griggs gives the reader the essentials of Close's biography: his childhood in Kansas, early years as an actor, countercultural exploits in the 1960's, years with the Compass Players and then with Second City, experimentation with every drug imaginable, which cost him his health and ultimately his life.

From the winner of the Nobel Prize in Literature, here is the universally acclaimed novel—winner of the Booker Prize and the basis for an award-winning film. This is Kazuo Ishiguro's profoundly compelling portrait of Stevens, the perfect butler, and of his fading, insular world in post-World War II England. Stevens, at the end of three decades of service at Darlington Hall, spending a day on a country drive, embarks as well on a journey through the past in an effort to reassure himself that he has served humanity by serving the "great gentleman," Lord Darlington. But lurking in his memory are doubts about the true nature of Lord Darlington's "greatness," and much graver doubts about the nature of his own life.

From the Booker Prize-winning author of *The Remains of the Day* and *When We Were Orphans*, comes an unforgettable edge-of-your-seat mystery that is at once heartbreakingly tender and morally courageous about what it means to be human. Hailsham seems like a pleasant English boarding school, far from the influences of the city. Its students are well tended and supported, trained in art and literature, and become just the sort of people the world wants them to be. But, curiously, they are taught nothing of the outside world and are allowed little contact with it. Within the grounds of Hailsham, Kathy grows from schoolgirl to young woman, but it's only when she and her friends Ruth and Tommy leave the safe grounds of the school (as they always knew they would) that they realize the full truth of what Hailsham is. *Never Let Me Go* breaks through the boundaries of the literary novel. It is a gripping mystery, a beautiful love story, and also a scathing critique of human arrogance and a moral examination of how we treat the vulnerable and different in our society. In exploring the themes of memory and the impact of the past, Ishiguro takes on the idea of a possible future to create his most moving and powerful book to date.

Book 2 in Ved Mehta's *Continents of Exile* series. Nearly 50 years in the making, *Continents of Exile* is one of the great works of twentieth-century autobiography: the epic chronicle of an Indian family in the twentieth century. From 1930s India to 1950s Oxford and literary New York in the 1960s-80s, this is the story of the post-colonial twentieth century, as uniquely experienced and vividly recounted by Ved Mehta. Translating individual experience into the universal, Mehta recounts the story of his mother's arranged marriage to a British-trained doctor and, by extension, of an ancient Indian family's struggle to find its place in a modern, rapidly changing world.

He made his name working on the iconic James Bond films, running publicity and advertising for both United Artists and legendary producers Albert "Cubby" Broccoli and Harry Saltzman's EON Productions. From *Dr. No* to *GoldenEye*, Juroe traveled the globe with Sean Connery, Roger Moore, Timothy Dalton and Pierce Brosnan. His entertaining memoir reads like insider history of Hollywood.

This work examines the production and performance of theatrical activities aimed at bringing about social change in both development and political intervention in Nepal. If everyday social problems can be both represented and challenged through drama-based performances, then what differentiates street theatre performed in planned development from street theatre performed within social and political movements? This multi-sited ethnography attempts to answer this question by following the works of Aarohan Theatre – a Kathmandu-based professional company, performing both *loktantrik natak* (theatre for democracy) in the context of the 2005–06 popular movement, and *kachahari natak* (forum theatre) for development projects. The analysis then extends to the forum theatre produced by one of Aarohan's partner groups, the *Kamlari Natak Samuha* – a Tharu grass-roots activist organization based in Deukhuri Valley (West Nepal) campaigning against indentured child labour.

Shortlisted for the 2020 Booker Prize, a searing literary debut novel set in India about mothers and daughters, obsession and betrayal "I would be lying if I say my mother's misery has never given me pleasure," says Antara, Tara's now-adult daughter. In her youth, Tara was wild. She abandoned her marriage to join an ashram, and while Tara is busy as a partner to the ashram's spiritual leader, Baba, little Antara is cared for by an older devotee, Kali Mata, an American who came to the ashram after a devastating loss. Tara also embarks on a stint as a beggar (mostly to spite her affluent parents) and spends years chasing a disheveled, homeless artist, all with young Antara in tow. But now Tara is forgetting things, and Antara is an adult—an artist and married—and must search for a way to make peace with a past that haunts her as she confronts the task of caring for a woman who never cared for her. Sharp as a blade and laced with caustic wit, *Burnt Sugar* unpicks the slippery, choking cord of memory and myth that binds mother and daughter. Is Tara's memory loss real? Are Antara's memories fair? In vivid and visceral prose, Tibor Jones South Asia Prize-winning writer Avni Doshi tells a story, at once shocking and empathetic, about love and betrayal between a mother and a daughter. A journey into shifting memories, altering identities, and the subjective nature of truth, *Burnt Sugar* is a stunning and unforgettable debut.

How do successful people become even more successful? Almost all effective people share a common trait – they set detailed goals, and plan the amount of effort they require to put into any project they wish to start. They leave no stone unturned in the process, and live by the DIY – do-it-yourself formula. Success in life requires more than an academic qualification; it requires strength of character and a will to be different. In this book you will read real life stories and incidents that offer valuable messages, inspired by the life of a man who believed in himself. This is not an autobiography but the clear essence of success in life.

Krishnamurti Paddhati is an excellent system (Paddhati) of astrological predictions conceived & created by The Great Indian Astrology King, late Prof. K.S. Krishnamurti. As you must have experienced that accuracy of the time period of the events is difficult when one uses Traditional/Vedic or any other system. KP can give you a precise YES or NO answer astrologically to your questions. To overcome the above and similar short-comings of the conventional vedic system, KP comes as savior. The position of a planet either benefic or malefic covers a large domain of 30° within a Rasi. K.P. system tends to evolve a system by which the operation of a particular planet in a Rasi, is determined by just not its placement but by the constellation it travels and the sub lord it is positioned in. All planets moving from Vernal Equinox Aries according to the Nirayana system get their results modified as they move in the Zodiac. Thus in the first 13°20' any planet transiting in Mesha will be influenced by the constellation called Aswini and so on till Revathi in which the planet will be influenced by Mercury. As the duration of the zone 13°20' for each Nakshatra is a broad zone, they are further classed into nine parts in proportion to their duration as per their Vimshotri Dasa. This is termed as the sub-lord. Normally, Jupiter, Venus, affiliated Mercury and waxing Moon are termed as natural benefics while Sun, Mars, Saturn, Rahu & Ketu as malefics. But in KP it is determined by sub lord planet is posited in. 1. The planet in a constellation will offer the result of Bhava house occupied by the lord of the constellation. 2. The planet which is situated in a constellation is the strongest to offer the results of the house occupied by the lord of the constellation.. 3. The occupants of a house is strong to give the results of the house occupied by it. Planets in the constellation of the occupants of a Bhava will indicate the fruits of the Bhava. 4. Planet deposited in the constellation of the lord of the sign where the cusp of a house falls. 5. Then only the lord of the sign where the cusp of a house falls. The above form the various significators for the determination of a particular event. Only the conjoined planets of the above should be utilised for determining the end result. Hence it may be concluded that the planet is the resource, constellation indicates nature of the result and the sub is a deciding factor whether the matter is favourable or not. Unless the last is favourable we do not call it a benefic. Note:- Rahu & Kethu are Nodes. A node signifies firstly the results of the planet or planets with which It Is conjoined, then the results of lord of the constellation in which It is deposited, then the planet or planets aspecting it and lastly of the owner of the sign in which it is deposited.

Instead of entering into a pointless debate on whether or not God exists, it is more important to bear in mind that belief in the existence of God has little bearing on making a person a good or a bad citizen. One can be a saintly person without believing in God and a detestable villain believing in Him. In my personalized religion, there is NO GOD! Khushwant Singh, over the decades, has built up a reputation for coming up with something new and controversial in each book, and he does not disappoint his readers this time too. He begins with a chapter on the 'need for a new religion – without God', in which he questions the relevance of God. He then moves on to describe how religion has proved to be more harmful than beneficial and, in the process, debunks astrologers and the breed of so-called 'godmen'. However, he is not dismissive of religion. Through his lucid writing, he brings out the beauty and significance of holy books such as the Bhagvad Gita, the Quran and the Granth Sahib. He provides relevant extracts to highlight the poetry and the music in such books. The author next tries to dispel the prejudices held by many non-Muslims against their Muslim compatriots by giving down-to-earth examples. He also emphasizes the importance of the Ramzaan fast. Khushwant Singh's description of the life and times of Guru Nanak and Guru Gobind Singh and his in-depth analysis of the Granth Sahib throw new light on a particularly troubled period in India's history. The chapter devoted to the interaction of the author (a confirmed agnostic) with the Dalai Lama (probably the world's most renowned spiritual leader) makes for fascinating reading. Here's one book containing a wealth of knowledge and information that you would want to read or consult again and again.

Singh offers an analysis of key issues concerning the phenomenon of scriptural adaptation. The text offers an alternative understanding of religious pluralism, stressing the need to enter into dialogue with an open attitude.
