Buried in the bowels of one of the several intelligence agencies in the US government is an office of clandestine medical personnel. Their mission is to analyze the health and mental state of international persons of interest and report their findings to America's policymakers. The team is on call 24/7 to comment on and analyze any written observations, pictures or videos of such persons of interest that may come into the hands of the U.S. government. The goal is to provide timely information to policymakers and negotiators so that the United States of America may achieve maximum success in dealing with the people concerned. Usually this is done in the safe confines of the Agency walls, but sometimes the analysts are forced to place themselves in harms way. Through it all and despite the circumstances, their Code of Honor is to Do No Harm.

Written by Fortune 100 executive Dan Gallagher, *The Self-Aware Leader* is a unique approach on how to become a more effective leader by increasing self-awareness in four pillars of leadership. By integrating the concepts of reinvention, servant leadership, and business transformation into a single framework that has been validated in research, *The Self Aware Leader* emphasises taking a calculated approach to change rather than merely reacting to change. *The Self-Aware Leader* also helps readers recognise three basic truths which are crucial to success within organisations: approaches to management have a shelf life; middle managers are frequently caught between “a rock and a hard place”; and, with conservatism on the rise, becoming and remaining an effective leader is extremely complex. This book offers two key takeaways: 1) a new mental framework on leadership more appropriate for today's business conditions; and 2) a functional, practical plan for putting the newly learned concepts presented into daily practice.

Sports Betting to Win is your own personal course for establishing a firm psychological foundation for long-term betting success.

Mixing emotions with money-based decisions as a beginner is usually a plan for disaster! I ask people who come to me for help if they want to be a winner and be right all the time or be a money maker. Unfortunately, too many brand new traders think that being right is more important than making money, I beg to differ and you're crazy if you look at it any other way in this business. It is a huge step when you make the decision to become a trader. Most brand new traders are getting into this business because they think they can make quick money and become rich beyond their dreams. While that may

be true, it is not as easy as one thinks and certainly will not happen as soon as one thinks. There are only two groups of people who are doing business in the markets, the professionals and the retail investors and traders by the time you're done reading this book you'll be able to join the professionals. Pay attention to the 10 steps this book lays out if you wish to compete with the top professional traders in the world, there is information in this book that they don't want you to know. By buying this book you will have taken the first step needed to end up in the group that achieves consistent low risk profits on a daily basis, the professionals and the smart money. If you are not ready to take that step yet then you may be a part of the group called the sheeple of the herd that provides those profits. While that may seem like a harsh statement, I think it's important to point out the a few of the harshest realities of how the markets work right up front, so you know what's at stake when your hard-earned money is at risk in the live market and the techniques in this book are what the smart money uses every day to make a consistent unlimited income from trading in the financial markets and you can too. Selling can be uncomfortable for professional business consultants and executive coaches. The two biggest problems are generating more qualified leads, and turning those leads into actual paying clients. Taking traditional beliefs about how best to "sell" and turning them completely upside down, author Jay Niblick rewrites the sales playbook for the consulting and coaching industry. His proven five-
