Here, in a series of chapters written by leading scholars in this country and in Israel, the reader is offered a general account of how, during the first six centuries of the Common Era, Judaism and Christianity took the form we recognize today.

The Disputation at Barcelona Ramban, Rabbi Nahmanides, 2017-07-31 The Disputation of Barcelona (July 20-24, 1263) was a formal ordered medieval debate between representatives of Christianity and Judaism regarding whether or not Jesus was the Messiah. It was held at the royal palace of King James I of Aragon in the presence of the King, his court, and many prominent ecclesiastical dignitaries and knights, between Dominican Friar Pablo Christiani, a convert from Judaism to Christianity, and Rabbi Nahmanides (Moshe Ben Nachman, Ramban), a leading medieval Jewish scholar, philosopher, physician, kabbalist, and biblical commentator. During the Middle Ages, there were numerous ordered disputations between Christians and Jews. They were connected with burnings of the Talmud at the stake and violence against Jews. At Barcelona, Jews as well as Christians were given absolute freedom to speak their arguments how they wanted, making this unique among disputations.

The Making of the Bible Konrad Schmid,Jens Schröter,2021-10-29 The authoritative new account of the Bible's origins, illuminating the 1,600-year tradition that shaped the Christian and Jewish holy books as millions know them today. The Bible as we know it today is best understood as a process, one that begins in the tenth century BCE. In this revelatory account, a world-renowned scholar of Hebrew scripture joins a foremost authority on the New Testament to write a new biography of the Book of Books, reconstructing Jewish and Christian scriptural histories, as well as the underappreciated contest between them, from which the Bible arose. Recent scholarship has overturned popular assumptions about Israel's past, suggesting, for instance, that the five books of the Torah were written not by Moses but during the reign of Josiah centuries later. The sources of the Gospels are also under scrutiny. Konrad Schmid and Jens Schröter reveal the long, transformative journeys of these and other texts en route to inclusion in the holy books. The New Testament, the authors show, did not develop in the wake of an Old Testament set in stone. Rather the two evolved in parallel, in conversation with each other, ensuring a continuing mutual influence of Jewish and Christian traditions. Indeed, Schmid and Schröter argue that Judaism may not have survived had it not been reshaped in competition with early Christianity. A remarkable synthesis of the latest Old and New Testament scholarship, *The Making of the Bible* is the most comprehensive history yet told of the world's best-known

literature, revealing its buried lessons and secrets.

The Power of Kabbalah Yehuda Berg, 2004 The new big thing in terms of spiritual enlightenment, the powerful principles of the Kabbalah have attracted a swathe of celebrity followers ranging from Madonna, Jerry Hall, Elizabeth Taylor, Mick Jagger and Guy Ritchie - as well as over 3.5 million other dedicated students worldwide. Previously shrouded in secrecy, its teachings were passed down orally from generation to generation to only an elite few. Now, in *THE POWER OF KABBALAH*, Rabbi Yehuda Berg has created a user's manual for today's world, in which its wisdom is conveyed in a highly accessible, practical form for all to follow. For the first time, these secret teachings are brought to bear on the real world issues faced by us everyday - in our careers, with family and friends, and in our innermost personal thoughts. Rabbi Yehuda Berg sets out a practical collection of principles and instructions for improving our lives - helping us to get to where we really want to be emotionally, spiritually, financially and creatively in all aspects of our life.
