

The Revelation Of God In Christ

RevelationCanongate Books

Just before his death, the apostle John was given a tour of the future. God revealed His plans for humanity. The book of Revelation contains John's account of that experience. Two thousand years later, we are still reading it and trying to wrap our heads around its contents. Pastor Pierre Rosa takes a thoughtful and pragmatic approach to this challenging apocalyptic literature. Through his careful study, he teaches us how to interpret prophetic biblical texts, while applying the timeless truths we find to our present-day lives. If the book of Revelation has ever stumped you, you'll appreciate the straightforward and understandable way Dr. Rosa explains it. God wants to reveal His redemptive plan to the world. He's still doing that through His Word and the book of Revelation.

This prophetic book depicts the ultimate victory of Christ.

The Book of Revelation is a storybook. It takes the reader from the scene of Christ's glory as the Father's High Priest in His heavenly temple to the final temple called New Jerusalem where His Bride will dwell eternally with Him. The Book of Revelation is the masterpiece of all Biblical stories. It begins with His glory and ends with His saints' glory. At the beginning of this story, He walks in the midst of His church but in the end, His church walks in the midst of New Jerusalem, the most spectacular city ever dreamed of. This storybook is the Revelation of Jesus Christ, the complete unveiling of all His glory.

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and biblical reading in a historical context.

In this volume, the third and last of his Systematic Theology, Paul Tillich sets forth his ideas of the meaning of human life, the doctrine of the Spirit and the church, the trinitarian symbols, the relation of history to the Kingdom of God, and the eschatological symbols. He handles this subject matter with powerful conceptual ability and intellectual grace. The problem of life is ambiguity. Every process of life has its contrast within itself, thus driving man to the quest for unambiguous life or life under the impact of the Spiritual Presence. The Spiritual Presence conquers the negativities of religion, culture, and morality, and the symbols anticipating Eternal Life present the answer to the problem of life.

Sets of seven. 666. The Whore of Babylon and the Seven-headed Beast. How would first-century readers have heard these things? One can get at an answer by asking, How does the Book of Revelation compare with contemporaneous Jewish apocalypses? God's Timetable unlocks the hitherto unseen Jewish background to the Apocalypse based on the seven weeks leading up to Pentecost, the Harvest Feast. The meaning of Revelation suddenly becomes clearer. Stramara situates the Book of Revelation in its original context as a prophetic work regarding the end of the world, the final harvest, and Jesus as the fulfillment of expectations.

A fascinating, philosophical approach to the concept of divine revelation, exploring the implications this theory may have for generating a new concept of religious truth.

The Book of Revelation contains some of the most difficult passages in Scripture. Grant Osborne's commentary on Revelation begins with a thorough introduction and the many difficulties involved in its interpretation. He also examines elements that complicate the interpretation of apocalyptic literature. As with all volumes published in the BECNT series, Revelation seeks to reach a broad audience with scholarly research from a decidedly evangelical perspective.

Peter Jensen examines the role of the Bible in divine revelation, beginning from biblical categories of the knowledge of God and the gospel. In the Contours of Christian Theology.

Expounds and extols traditional, evangelical Christianity, confronting and rebutting recent conjectural alternatives and emphasizing intelligible divine revelation and scriptural authority

Concise, pithy chapters with dozens of charts, highlighted summaries and study questions make Graeme Goldsworthy's introductory text enormously useful for understanding how the Bible fits together as the unfolding story of God's plan for salvation.

What does man seek in religion, and what should he seek in it? How does God reveal Himself in order to bring man to a knowledge of the Truth? How does suffering help this revelation to occur? These and other questions were discussed by Fr. Seraphim Rose, an Orthodox Christian monk from the mountains of northern California, during a lecture he gave at the University of California, Santa Cruz, in 1981. The contents of this lecture comprise God's Revelation to the Human Heart. Drawing from a variety of sources -- the Holy Scriptures, patristic writings, the lives of both ancient and modern saints, and accounts of persecuted Christians behind the Iron Curtain -- Fr. Seraphim goes to the core of all Christian life: the conversion of the heart of man, which causes it to burn with love for Christ and transforms one into a new being.

The author shares his perspective on how to find and know God, blending philosophy and science to argue that the knowledge is hard-wired into the brain, and introducing the seven stages one must pass through to fully experience the divine.

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

How do we know and speak about God's relation to this world? Does God reveal himself through his creation? This book recaptures a Christian vision of all reality: that the world is full of divine signs that are openings into God's glory. Bringing together insights from some of the tradition's greatest thinkers--Edwards, Newman, and Barth--Gerald McDermott resurrects a robust theology of creation for Protestants. He shows how and where meaning can be found outside the church and special revelation in various realms of creation, including nature, science, law, history, animals, sex, and sports.

The subject of God's general revelation has in our day aroused agitated and even violent discussions, and the time when Reformed theology could take the distinction between general and special revelation for granted appears to be gone forever, according to the author. Does the distinction between general and special revelation do justice to the unique and "once-for-all" character of the redemptive revelation in Jesus Christ? Does the confession of a general or universal revelation owe its existence to a flight, perhaps unconscious, from the sufficiency and absoluteness of the revelation in Christ? And is Christ to be regarded as but a special illustration of the general revelation of God in the world, a revelation richer and broader than simply that revelation in Christ? These decisive questions, involving as they do the claims of natural theology and the radical character of the history of religion since the nineteenth century, are given here a trenchant and detailed analysis.

In this edition, all the messages in the Book of Revelation are explained verse by verse and all the mysteries and symbols are unlocked and expounded in a way that will put an end to all the ignorance, confusion, misunderstandings, anxieties, fears, and misinterpretations that have been generated in the past.

This is an interdisciplinary study which constructs a dialogue between biblical interpretation and systematic theology. It examines how far a reading of the Book of Revelation might either support or question the work of leading theologians Wolfhart Pannenberg and Jürgen Moltmann on the theology of history, exploring the way in which the author of Revelation uses the dimensions of space and time to make theological points about the relationship between God and history. The book argues that Revelation sets the present earthly experience of the reader in the context of God's ultimate purposes, by disclosing hidden dimensions of reality, both spatial - embracing heaven and earth - and temporal - extending into the ultimate future. Dr Gilbertson offers a detailed assessment of the theologies of history developed by Pannenberg and Moltmann, including their views on the

nature of the historical process, and the use of apocalyptic ideas in eschatology.
