

## The Revolution Of Hope Toward A Humanized Technology Erich Fromm

An Egyptian-American journalist living in Egypt witnessed firsthand Hosni Mubarak's fall and Mohamed Morsi's struggle to stay in power. In these pages, he offers a chronicle of, and a revealing look at, the 2011 Egyptian Revolution and its aftermath, and he explains for Americans the confrontation between Islamists and seculars. The author examines how Egyptians have received the 2011 Egyptian Revolution and its progress in the two years that followed Hosni Mubarak's demise, from the moment the revolution erupted on January 25 to late in February of 2013 when protests calling for the downfall of President Mohamed Morsi were mounted in various major Egyptian cities. Since Egypt under Mubarak was America's stalwart ally in the Arab world, throughout the book the text also touches on American-Egyptian relations and whether Egyptians can achieve their dream of establishing a stable democratic state without U.S. economic assistance or 'U.S. meddling' in their country's internal affairs. The material also offers insights to help interpret events unfolding elsewhere in the Middle East and assessing U.S. involvement. While there are other books out there on the 2011 Egyptian Revolution, none of them inclusively covers its aftermath -- two years of events. Furthermore, the author wrote this in-depth work while in Egypt, offering not only the media's opinion on the issue but also conducting many interviews with ordinary Egyptians.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-wracking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA ( this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.

The charismatic former president of Mexico offers a candid and provocative perspective on the state of world affairs. As president of Mexico, Vicente Fox brought true democracy to the country after seven decades of one party rule. Elected as a political outsider with a message of honesty, change, and hope, he is truly a hero of democracy, and this vivid book interweaves his inspiring personal story with his hopeful new vision for the future of the Americas. President Fox candidly reveals the ups and downs of his relationships with world leaders from George W. Bush and Tony Blair to Fidel Castro, Vladimir Putin, and Hugo Chávez. He also speaks out on hot global topics such as immigration, the war in Iraq, racism, the United Nations, free trade, and the moral imperative to heal the global divide between rich and poor nations. Outspoken, impassioned, sincere, and engaging, Vicente Fox embodies a quality that seems all too rare in world politics these days—the moral character of a genuine leader.

We hear about inadequate mental health care. We ask questions regarding a link between mental illness and violence. We do NOT hear as much about the stigma of mental illness that complicates one's ability to cope with a diagnosis that becomes a label, resulting in "self-stigma," discouraging individuals from seeking and/or complying with treatment. Too often community members only "experience" mental illness through dramatic or dire media stories that fail to inform us about the real world of mental illness. Thus, stigma feeds, and is fed by, myths and misunderstandings leading to a community sense of hopelessness and fear of mental illness. In contrast, Geel, a stigma-free community in Belgium, has a centuries' old history of accepting those with mental illness - even as boarders in their own homes. Geel acknowledges the human needs of those with mental illness and responds to those needs by providing social opportunities and meaningful work, within the community. While the U.S. does not have the same history as Geel, we do have programs that offer a fostering environment, offering hope for those with a diagnosis of mental illness as well as for the

communities in which they live. In a language and style that can be understood by anyone and everyone, the author shares what she's learned and experienced regarding tolerance and inclusion - in Geel and in our own country - offering individuals and communities an opportunity to hear the encouraging "voices of hope for mental illness." When the general population is freed of myths and misunderstandings regarding mental illness, we can focus on mental health fostered by community care that thrives in "caring communities."

The moving, inspiring memoir of one of the great women of our times, Shirin Ebadi, winner of the 2003 Nobel Peace Prize and advocate for the oppressed, whose spirit has remained strong in the face of political persecution and despite the challenges she has faced raising a family while pursuing her work. Best known in this country as the lawyer working tirelessly on behalf of Canadian photojournalist, Zara Kazemi – raped, tortured and murdered in Iran – Dr. Ebadi offers us a vivid picture of the struggles of one woman against the system. The book movingly chronicles her childhood in a loving, untraditional family, her upbringing before the Revolution in 1979 that toppled the Shah, her marriage and her religious faith, as well as her life as a mother and lawyer battling an oppressive regime in the courts while bringing up her girls at home. Outspoken, controversial, Shirin Ebadi is one of the most fascinating women today. She rose quickly to become the first female judge in the country; but when the religious authorities declared women unfit to serve as judges she was demoted to clerk in the courtroom she had once presided over. She eventually fought her way back as a human rights lawyer, defending women and children in politically charged cases that most lawyers were afraid to represent. She has been arrested and been the target of assassination, but through it all has spoken out with quiet bravery on behalf of the victims of injustice and discrimination and become a powerful voice for change, almost universally embraced as a hero. Her memoir is a gripping story – a must-read for anyone interested in Zara Kazemi's case, in the life of a remarkable woman, or in understanding the political and religious upheaval in our world.

**MAKE YOURSELF AT HOME IN GOD'S HEART:** After 7 years of volunteering to serve the men, women, and children at a very popular outreach center in Atlanta, GA, I stumbled upon an amazing personal discovery. I came to the humble realization that homelessness is not simply a state of physical destitution. But homelessness is also a place of spiritual and emotional emptiness. It is very true that some live in a perpetual state of misfortune and need the relationship, the challenge, and the encouragement of others to "dare to hope" that their circumstances are only temporary. Many undoubtedly need financial relief to end their state of homelessness. Yet, each of us, whether well off or destitute, can

attest to the fact that at one point or another we have felt abandoned and displaced. While serving as an outreach leader, I found a new family. I discovered though I had a physical dwelling, I too was in an emotional state of homelessness. While serving the homeless, I struggled to conquer my own issues with abandonment. I found myself desperately attempting to place the pieces of my own life in a recognizable order. And it was while serving that I found an extension of God's family that are far too often overlooked, disqualified, and misunderstood. Each month I would show up with a fresh sermon in hand-ready to inspire and motivate those whom "I thought" were in need of encouragement. But each time, I left with the discovery that I needed it more than any of them. I arrived ready to inspire, but left all the more inspired myself. HOPE FOR THE SOUL is inspired by the men, women, and children seeking love, purpose, and a reason to believe that a better experience of life exists. In this book, you too will discover that there is a secret place in God's heart to find all the rest, affirmation, and love you have been longing for. HOPE FOR THE SOUL is guaranteed to strengthen your ability to: \*Speak life to every dead dream\* Pursue your God-given power\* Declare freedom from past failures\* Perform at maximum capacity in His strength\* Trust God and His promises to build a better life!!

"The Revolution of Hope lives up to its title with an uplifting exploration of the definition of hope, what it truly means to be human, and steps that should be taken to promote humanization in an increasingly disconnected and technology-driven society. [The American Mental Health Foundation's Fromm titles] are timely, directly relevant to modern psychological and social issues, and bring absolutely invaluable humanist messages to temper psychology's scientific and healing discipline. Highly recommended, especially for college library collections." Midwest Book Review First published in 1968, the year of international-student confrontation and revolution, this classic challenges readers to choose which of two roads humankind ought to take: the one, leading to a completely mechanized society with the individual a helpless cog in a machine bent on mass destruction; or the second, being the path of humanism and hope."

In this collection of poems and her life story Stephanie Ellis shares her personal story as a single mother and how she endured and surpassed the worst of life's hardships. Hope is the one thing that keeps us going. It's like the candle that serves as our light in the dark. It's what fuels our body and soul to keep believing and keep trying to make things better. My Overdue Book: Too many stories not to tell: spells out the varied episodes in the life of a man who spent decades working in Hollywood. He began as a little boy in Cincinnati impressed early on by the broadcasting magic of radio and then TV in the middle of twentieth century America. His drive to get into broadcasting culminates in an early success that gets interrupted by an unexpected sidebar in The US Army and a subsequent tour as an Infantryman in Vietnam in the late 1960's. His yearlong excursion in "Fun City East," with its repeated life and death experiences, had lifelong effects on this soldier-of-media. Following his wanderings through the jungles of Vietnam, Bright's interactions with many of America's top public figures throughout his decades in radio and television come to life with intriguing stories that are personal, professional, positive and negative. It's life without a filter! Readers across generations will share and co-experience numerous real life feelings and emotions with writer Bright as his winding trail of life opens in front of them. book endorsement for peter bright; i always thought that peter bright and i had many things in common; we both grew up in ohio, we both had careers in the live event and variety side of television, and the few times we had times to talk i thought we shared a mutual philosophy toward the ups and downs of life. but it wasn't until i read his "overdue" book that i realized just what a rich and storied life peter has had and how much more deeply he had experienced the highs and lows, particularly during his years in the military, than i ever could have imagined. it really amazes me just how little we know about people we think we know, and just how much more we appreciate who they are when we are fortunate enough to have that background filled in by someone as articulate and able to express both facts and feelings as peter has in this book. when i started to read it, i thought all of those common events that we shared would be an interesting parallel track to my life and as such i would have a great frame of reference, but as i read on, i realized just what an amazing story peter has to tell and just how well he tells it. ken ehrlich, executive producer, the grammy awards

Have you always wanted to write a book but, just never get around to it? Do you lack confidence in yourself as a writer? Need inspiration?

How to Write a Book in a Week ( A Writer's Guide to Meeting a Deadline ) is the answer to all of these questions and more.

Bob Hope got his start in show business when he was in his twenties, remained active past the age of 90, and lived to be 100. His longevity was remarkable, especially when one considers that he was active in vaudeville, radio, motion pictures and television. He excelled in each of these popular forms of entertainment, but his films are the most genuine testaments to his timeless comedy. His smart quips, fast pace, and breezy manner were perfect ingredients for the brand of comedy that was popular during World War II and the years immediately following

the war. This book begins with a discussion of Bob Hope's early career and the short films that he starred in, and then covers each of the Hope films beginning with *The Big Broadcast* of 1938. The Hope films, the author says, do not have deep subtexts or clever cinematic innovations, but provide clever, uplifting entertainment that continues to inspire laughter and offer solid examples of the humor that made Americans smile during and after World War II. Cast and credit information is provided for each film.

"[A] landmark book . . . Solnit illustrates how the uprisings that begin on the streets can upend the status quo and topple authoritarian regimes" (*Vice*). A book as powerful and influential as Rebecca Solnit's *Men Explain Things to Me*, her *Hope in the Dark* was written to counter the despair of activists at a moment when they were focused on their losses and had turned their back to the victories behind them—and the unimaginable changes soon to come. In it, she makes a radical case for hope as a commitment to act in a world whose future remains uncertain and unknowable. Drawing on her decades of activism and a wide reading of environmental, cultural, and political history, Solnit argues that radicals have a long, neglected history of transformative victories, that the positive consequences of our acts are not always immediately seen, directly knowable, or even measurable, and that pessimism and despair rest on an unwarranted confidence about what is going to happen next. Now, with a moving new introduction explaining how the book came about and a new afterword that helps teach us how to hope and act in our unnerving world, she brings a new illumination to the darkness of our times in an unforgettable new edition of this classic book. "One of the best books of the 21st century." —*The Guardian* "No writer has better understood the mix of fear and possibility, peril and exuberance that's marked this new millennium." —Bill McKibben, *New York Times*—bestselling author of *Falter* "An elegant reminder that activist victories are easily forgotten, and that they often come in extremely unexpected, roundabout ways." —*The New Yorker*

Status-quo Christianity has traded the revolutionary story of Jesus for familiar clichés, pat answers, and domesticated programs. McLaren states, "More and more Christian leaders are beginning to realize that for the millions of young adults who have recently dropped out of church, Christianity is a failed religion...It has focused on 'me' and 'my eternal destiny,' but it has failed to address the dominant societal and global realities of their lifetime..." What he sets forth in this provocative, unsettling work is a "form of Christian faith that is holistic, integral, balanced, that offers good news for both the living and the dying, that speaks of God's grace at work both in this life and the life to come, both to individuals and to societies and the planet as a whole."

Newly updated: The bestseller "that could bring the human race a little closer to rescuing itself" from the subject of the film The Two Glorias (Naomi Wolf). Without self-esteem, the only change is an exchange of masters; with it, there is no need for masters. When trying to find books to give to "the countless brave and smart women I met who didn't think of themselves as either brave or smart," Steinem realized that books either supposed that external political change would cure everything or that internal change would. None linked internal and external change together in a seamless circle of cause and effect, effect and cause. She undertook to write such a book, and ended up transforming her life, as well as

the lives of others. The result of her reflections is this truly transformative book: part personal collection of stories from her own life and the lives of many others, part revolutionary guide to finding community and inspiration. Steinem finds role models in a very young and uncertain Gandhi as well as unlikely heroes from the streets to history. Revolution from Within addresses the core issues of self-authority and unjust external authority, and argues that the first is necessary to transform the second. This ebook features an illustrated biography of Gloria Steinem including rare images from the author's personal collection, as well as a new preface and list of book recommendations from Steinem.
