

## The Rosie Project A Novel

A bestselling modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. Nominated as one of America's best-loved novels by PBS's The Great American Read Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

Just off the boat from Italy, Nino Culotta arrives in Sydney. He thought he spoke English but he's never heard anything like the language these Australians are speaking. They're a Weird Mob is an hilarious snapshot of the immigrant experience in Menzies-era Australia, by a writer with a brilliant ear for the Australian way with words.

"An original and impressively assured debut. A gem of a novel." —Graeme Simsion, New York Times bestselling author of The Rosie Project A soaring, heartfelt debut following fifty-five days in the life of ten-year-old Rae, who must look after herself and her dog when her mother disappears. For as long as Rae can remember, it's been her and Mum, and their dog, Splinter; a small, deliberately unremarkable, family. They have their walks, their cooking routines, their home. Sometimes Mum disappears for a while to clear her head but Rae is okay with this because Mum always comes back. So, when Rae wakes to Splinter's nose in her face, the back door open, and no Mum, she does as she's always done and carries on. She tends to the house, goes to school, walks Splinter, and minds her own business—all the while pushing down the truth she isn't ready to face. That is, until her grumpy, lonely neighbor Lettie—with her own secrets and sadness—falls one night and needs Rae's help. As the two begin to rely on each other, Rae's anxiety intensifies as she wonders what will happen to her when her mother's absence is finally noticed and her fragile world bursts open. A Million Things transforms a gut-wrenching story of abandonment and what it's like to grow up in a house that doesn't feel safe into an astonishing portrait of resilience, mental health, and the families we make and how they make us in return.

The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." —The New Yorker A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert

mission: to kill a candidate running for US president . . . This “shocking, tense” and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). “Crammed with suspense.”

—Chicago Tribune “Condon is wickedly skillful.” —Time

"Meet The Adults. Claire and Matt are no longer together but decide what's best for their daughter Scarlett is to have a "normal" family Christmas. They can't agree on whose idea it was to go to the Happy Forest Holiday park, or who said they should bring their new partners. But someone did--and it's too late to pull the plug. Claire brings her new boyfriend Patrick (never Pat), a seemingly sensible, eligible from a distance, Iron-Man-in-Waiting. Matt brings the new love of his life Alex, funny, smart, and extremely patient. Scarlett, who is seven, brings her imaginary friend Posey. He's a rabbit. Together the five (or six?) of them grit their teeth over Forced Fun activities, drinking a little too much after bed-time, oversharing classified secrets about their pasts and before you know it their holiday is a powder keg that ends--where this story starts--with a tearful, frightened, call to the police... But what happened? They said they'd all be adults about this... --

In a highly anticipated sequel to The Rosie Project, Don Tillman, after his wife Rosie announces that she is pregnant, sets about learning the protocols of becoming a father while helping his best friend Gene, who is living with them, reconcile with his wife Claudia.

The lives of four very different women have been shaped—and battered—by one charming man. . . . Ireland's debonair politician Paddy de Courcy—the "John F. Kennedy Jr. of Dublin"—has captured tabloid headlines and the imagination of his country with his charm and charisma. But the crushed hearts he's left behind him reveal more about his character than his winning, votegetting smile. Lola, Grace, Marnie, and Alicia have all suffered from his selfishness and cruelty. But with Paddy's political star ascending, the time is finally ripe for redemption . . . and perhaps a bit of revenge.

Grace Lisa Vandenburg, the narrator of this pleasant neurotic-girl-meets-boy

debut, is 35 years old and has been addicted to counting since she was eight. She lives alone in Melbourne, Australia, and is on sick leave from her teaching job, filling her weeks with counting-'steps and syllables and bites and things'-and sticking to her rigid routines, which include trips to the cafe and phone calls from her mother and self-absorbed younger sister. The only person in her life Grace relates to is her 10-year-old niece, Hilary, who is as quirky and charming as Grace is. Things are fine until Grace meets Seamus Joseph O'reilly, an Irish transplant who works at the local movie theater. Grace has not been on a date in two years and six months and hasn't been in love in forever, but as things progress with Seamus, she realizes what she has been missing. With some gentle encouragement, Grace agrees to test her boundaries and tries to find a happy medium between her obsession and living a full life. The novel does everything a sweet, agreeable romantic comedy should. (Feb.)

From the New York Times bestselling author of *The Rosie Project* comes a story of taking chances and learning to love again as two people, one mourning her husband and the other recovering from divorce, cross paths on the centuries-old Camino pilgrimage from France to Spain. "The Chemin will change you. It changes everyone..." The Chemin, also known as the Camino de Santiago, is a centuries-old pilgrim route that ends in Santiago de Compostela in northwest Spain. Every year, thousands of walkers—some devout, many not—follow the route that wends through quaint small villages and along busy highways alike, a journey unlike any other. Zoe, an artist from California who's still reeling from her husband's sudden death, has impulsively decided to walk the Camino, hoping to find solace and direction. Martin, an engineer from England, is road-testing a cart of his own design...and recovering from a messy divorce. They begin in the same French town, each uncertain of what the future holds. Zoe has anticipated the physical difficulties of her trek, but she is less prepared for other challenges, as strangers and circumstances force her to confront not just recent loss, but long-held beliefs. For Martin, the pilgrimage is a test of his skills and endurance but also, as he and Zoe grow closer, of his willingness to trust others—and himself—again. Smart and funny, insightful and romantic, *Two Steps Forward* reveals that the most important journeys we make aren't measured in miles, but in the strength, wisdom, and love found along the way. Fans of *The Rosie Project* will recognize Graeme Simsion's uniquely quirky and charming writing style.

The instant New York Times bestseller and publishing phenomenon: Marina Keegan's posthumous collection of award-winning essays and stories "sparkles with talent, humanity, and youth" (*O, The Oprah Magazine*). Marina Keegan's star was on the rise when she graduated magna cum laude from Yale in May 2012. She had a play that was to be produced at the New York Fringe Festival and a job waiting for her at *The New Yorker*. Tragically, five days after graduation, Marina died in a car crash. Marina left behind a rich, deeply expansive trove of writing that, like her title essay, captures the hope, uncertainty, and possibility of her generation. Her short story "Cold Pastoral" was published on *NewYorker.com*. Her essay "Even Artichokes Have Doubts" was excerpted in the *Financial Times*, and her book was the focus of a Nicholas Kristof column in *The New York Times*. Millions of her contemporaries have responded to her work on social media. As Marina wrote: "We can still do anything. We can change our minds. We can start over...We're so young. We can't, we MUST not lose this sense of possibility because in the end, it's all we have." *The Opposite of Loneliness* is an unforgettable collection of Marina's essays and stories that articulates the universal struggle all of us face as we figure out what we aspire to be and how we can harness our talents to impact the world. "How do you mourn the loss of a fiery talent that was barely a tendril before it was snuffed out? Answer: Read this book. A clear-eyed observer of human nature, Keegan could take a clever idea...and make it something beautiful" (*People*).

"A warm, winning debut from a talented new Midwestern voice." --J. Ryan Stradal, *New York Times* bestselling author of *Kitchens of the Great Midwest* A Man Called Ove meets *The Rosie Project* in this "delightfully off-kilter" (*Rachel Yoder, Nightbitch*) tale of a grumpy introvert, her astonishing lack of social skills and empirical data-driven approach to people and relationships. Is there such a thing as an anti-social butterfly? If there were, Greta Oto would know about it--and totally relate. An entomologist, Greta far prefers the company of bugs to humans, and that's okay, because people don't seem to like her all that much anyway, with the exception of her twin brother, Danny, though they've recently had a falling out. So when she lands a research gig in the rainforest, she leaves it all behind. But when Greta learns that Danny has suffered an aneurysm and is now hospitalized, she abandons her research and hurries home to the middle of nowhere America to be there for her brother. But there's only so much she can do, and unfortunately just like insects, humans don't stay cooped up in their hives either--they buzz about and... socialize. Coming home means confronting all that she left behind, including her lousy soon-to-be sister-in-law, her estranged mother, and her ex-boyfriend Brandon who has conveniently found a new non-lab-exclusive partner with shiny hair, perfect teeth, and can actually remember the names of the people she meets right away. Being that Brandon runs the only butterfly conservatory in town, and her dissertation is now in jeopardy, taking that job, being back home, it's all creating chaos of Greta's perfectly catalogued and compartmentalized world. But real life is messy, and Greta will have to ask herself if she has the courage to open up for the

people she loves, and for those who want to love her. The Butterfly Effect is an unconventional tale of self-discovery, navigating relationships, and how sometimes it takes stepping outside of our comfort zone to find what we need the most.

In this moving, wry, and candid novel, widely acclaimed novelist Ayelet Waldman takes us through one woman's passage through love, loss, and the strange absurdities of modern life. Emilia Greenleaf believed that she had found her soulmate, the man she was meant to spend her life with. But life seems a lot less rosy when Emilia has to deal with the most neurotic and sheltered five-year-old in New York City: her new stepson William. Now Emilia finds herself trying to flag down taxis with a giant, industrial-strength car seat, looking for perfect, strawberry-flavored, lactose-free cupcakes, receiving corrections on her French pronunciation from her supercilious stepson – and attempting to find balance in a new family that's both larger, and smaller, than she bargained for. In *Love and Other Impossible Pursuits*

Ayelet Waldman has created a novel rich with humor and truth, perfectly characterizing one woman's search for answers in a crazily uncertain world.

Like Sherlock Holmes's dog in the night time, sometimes the true significance of things lies in their absence. Rick Gekoski tells the very human stories that lie behind some of the greatest losses to artistic culture - and addresses the questions such disappearances raise. Some of the items are stolen (the Mona Lisa), some destroyed (like Philip Larkin's diaries, shredded, then burnt, on his dying request) and some were lost before they even existed, like the career of the brilliant art deco architect, Charles Rennie Mackintosh, which foundered amid a lack of cash - but behind all of them lies an often surprising story which reveals a lot about what art means to us. Gekoski explores in depth the greater questions these tremendous losses raise - such as the rights artists and authors have over their own work, the importance of the search for perfection in creativity, and what motivated people to queue to see the empty space where the Mona Lisa once hung in the Louvre.

Now his student, Salva Rubio, applies Blake's principles to 50 celebrated non-studio films (again with 5 beat sheets for each of Blake's 10 genres). From international sensations like *The Blair Witch Project* to promising debuts like *Pi*, from small films that acquired cult status like *Texas Chain Saw Massacre* to Euro-blockbusters like *The Full Monty*, from unexpected gems like *Before Sunrise* to textbook classics such as *The 400 Blows*, from *Dogville* to *Drive* and *Boogie Nights* to *Cinema Paradiso*, here are 50 movies that fit both the independent label and Blake Snyder's 15 beats. You'll see how hitting the beats creates a story that resonates for audiences the world over. Why is this important? Because it gives both writers and moviegoers a language to analyze film and understand how filmmakers can effectively reach audiences. And especially if you are a writer, this book reveals how screenwriters who came before you tackled the same challenges you are facing with the film you want to write or the one you are currently working on."

Don Tillman, professor of genetics, has never been on a second date. He is a man who can count all his friends on the fingers of one hand, whose lifelong difficulty with social rituals has convinced him that he is simply not wired for romance. So when an acquaintance informs him that he would make a "wonderful" husband, his first reaction is shock. Yet he must concede to the statistical probability that there is someone for everyone, and he embarks upon The Wife Project. In the orderly, evidence-based manner with which he approaches all things, Don sets out to find the perfect partner. He sets up a project designed to find him the perfect wife, starting with a questionnaire that has to be adjusted a little as he goes along. She will be punctual and logical, most definitely not a barmaid, a smoker, a drinker, or a late-arriver. Then he meets Rosie Jarman, who is everything he's not looking for in a wife. Rosie is all these things. She is also beguiling, fiery, intelligent, and on a quest of her own. She is looking for her biological father, a search that a certain DNA expert might be able to help her with. Don's Wife Project takes a back burner to the Father Project and an unlikely relationship blooms, forcing the scientifically minded geneticist to confront the spontaneous whirlwind that is Rosie, and the realization that love is not always what looks good on paper.

A New York Times bestseller, The Silver Linings Playbook was adapted into the Oscar-winning movie starring Bradley Cooper and Jennifer Lawrence. It tells the riotous and poignant story of how one man regains his memory and comes to terms with the magnitude of his wife's betrayal. During the years he spends in a neural health facility, Pat Peoples formulates a theory about silver linings: he believes his life is a movie produced by God, his mission is to become physically fit and emotionally supportive, and his happy ending will be the return of his estranged wife, Nikki. When Pat goes to live with his parents, everything seems changed: no one will talk to him about Nikki; his old friends are saddled with families; the Philadelphia Eagles keep losing, making his father moody; and his new therapist seems to be recommending adultery as a form of therapy. When Pat meets the tragically widowed and clinically depressed Tiffany, she offers to act as a liaison between him and his wife, if only he will give up watching football, agree to perform in this year's Dance Away Depression competition, and promise not to tell anyone about their "contract." All the while, Pat keeps searching for his silver lining. In this brilliantly written debut novel, Matthew Quick takes us inside Pat's mind, deftly showing us the world from his distorted yet endearing perspective. The result is a touching and funny story that helps us look at both depression and love in a

wonderfully refreshing way.

The Rosie Project was an international publishing phenomenon, with more than a million copies sold in over forty countries around the world. Now Graeme Simsion returns with the highly anticipated sequel, *The Rosie Effect*. Don Tillman and Rosie Jarman are now married and living in New York. Don has been teaching while Rosie completes her second year at Columbia Medical School. Just as Don is about to announce that Gene, his philandering best friend from Australia, is coming to stay, Rosie drops a bombshell: she's pregnant. In true Tillman style, Don instantly becomes an expert on all things obstetric. But in between immersing himself in a new research study on parenting and implementing the Standardised Meal System (pregnancy version), Don's old weaknesses resurface. And while he strives to get the technicalities right, he gets the emotions all wrong, and risks losing Rosie when she needs him most. *The Rosie Effect* is the charming and hilarious romantic-comedy of the year.
