On the Noodle Road Jen Lin-Liu,2013-07-25 A food writer travels the Silk Road, immersing herself in a moveable feast of foods and cultures and discovering some surprising truths about commitment, independence, and love. As a newlywed traveling in Italy, Jen Lin-Liu was struck by culinary echoes of the delicacies she ate and cooked back in China, where she'd lived for more than a decade. Who really invented the noodle? she wondered, like many before her. But also: How had food and culture moved along the Silk Road, the ancient trade route linking Asia to Europe—and what could still be felt of those long-ago migrations? With her new husband's blessing, she set out to discover the connections, both historical and personal, eating a path through western China and on into Central Asia, Iran, Turkey, and across the Mediterranean. The journey takes Lin-Liu into the private kitchens where the headscarves come off and women not only knead and simmer but also confess and confide. The thin rounds of dough stuffed with meat that are dumplings in Beijing evolve into manti in Turkey—their tiny size the measure of a bride's worth—and end as tortellini in Italy. And as she stirs and samples, listening to the women talk about their lives and longings, Lin-Liu gains a new appreciation of her own marriage, learning to savor the sweetness of love freely chosen.

Trail of the Tiger Radheshyam Jadhav, 2021-01-18 *Trail of the Tiger* tracks the personal and political journey of Uddhav Balasaheb Thackeray against the backdrop of the changing narrative of Hindutva, and new connotations to Hindutva's subnational plot, with the rise of Prime Minister Narendra Modi as a new Hindu Hriday Samrat. The trail of Uddhav Thackeray from a professional advertising photographer to Maharashtra's Chief Minister is not just his story. It is the story of saffron 'tiger' Balasaheb Thackeray's own family Mahabharata for political power and legacy that left the patriarch helpless

during his sunset years. It is the story of one of the biggest upheavals in Indian politics where breaking a 30-year-old alliance with the Bharatiya Janata Party (BJP), the Shiv Sena joined Sonia Gandhi's camp, holding Sharad Pawar's finger. It is also the story of the Rashtriya Swayamsevak Sangh's (RSS) dilemma to deal with the tug of war in the Hindutva camp. Based on news analysis, Trail of the Tiger unpacks media content and explores intertextuality to bring readers the authentic account of the Shiv Sena's saffron to secular trajectory under the leadership of Uddhav Balasaheb Thackeray.

Essex Walks Brian Conduit, 2001-03-19 The Essex landscape gently undulates, with the hilliest country is in the north and west, near the Herfordshire and Cambridgeshire borders. On the marshes of Essex, for example, there is a genuine feeling of solitude that is hard to find anywhere else in southern England. Colchester, the oldest recorded town in Britain, is featured in one of the walks, and there are routes through Epping and Hatfield forests, which contain some of the finest surviving fragments of England's medieval forests. The Essex-Suffolk border is Constable Country, and walkers are guided through Dedham Vale, passing Flatford Mill and Willy Lott's Cottage.

A Botanist's Guide to Parties and Poisons Kate Khavari, 2022-06-07 The Lost Apothecary meets Dead Dead Girls in this fast-paced, STEMinist adventure. Debut author Kate Khavari deftly entwines a pulse-pounding mystery with the struggles of a woman in a male-dominated field in 1923 London. Newly minted research assistant Saffron Everleigh is determined to blaze a new trail at the University College London, but with her colleagues' beliefs about women's academic inabilities and not so subtle hints that her deceased father's reputation paved her way into the botany department, she feels stymied at every turn. When she attends a dinner party for the school, she expects to engage in conversations about the university's large expedition to the Amazon. What she doesn't expect is for Mrs. Henry, one of the professors' wives, to drop to the floor, poisoned by an unknown toxin. Dr. Maxwell, Saffron's mentor, is the main suspect and evidence quickly mounts. Joined by fellow researcher--and potential romantic interest--Alexander Ashton, Saffron uses her knowledge of botany as she explores steamy greenhouses, dark gardens, and deadly poisons to clear Maxwell's name. Will she be able to uncover the truth or will her investigation land her on the murderer's list, in this entertaining examination of society's expectations.

You Say to Brick Wendy Lesser, 2017-03-14 Born in Estonia 1901 and brought to America in 1906, the architect Louis Kahn grew up in poverty in Philadelphia. By the time of his mysterious death in 1974, he was widely recognized as one of the greatest architects of his era. Yet this enormous reputation was based on only a handful of masterpieces, all built during the last fifteen years of his life. Wendy Lesser's *You Say to Brick: The Life of Louis Kahn* is a major exploration of the architect's life and work. Kahn, perhaps more than any other twentieth-century American architect, was a "public" architect. Rather than focusing on corporate commissions, he devoted himself to designing research facilities, government centers, museums, libraries, and other structures that would serve the public good. But this warm, captivating person, beloved by students and admired by colleagues, was also a secretive man hiding under a series of masks. Kahn himself, however, is not the only complex subject that comes vividly to life in these pages. His signature achievements—like the Salk Institute in La Jolla, the National Assembly Building of Bangladesh, and the Indian Institute of Management in Ahmedabad—can at first seem as enigmatic and beguiling as the man who designed them. In attempts to describe these structures, we are often forced to speak in contradictions and paradoxes: structures that seem at once unmistakably modern and ancient; enormous built spaces that offer a sense of intimate containment; designs in which light itself seems tangible, a raw material as tactile as travertine or Kahn's beloved concrete. This is where Lesser's talents as one of our most original and gifted cultural critics come into play. Interspersed throughout her account of Kahn's life and career are exhilarating "in situ" descriptions of what it feels like to move through his built structures. Drawing on extensive original research, lengthy interviews with his children, his colleagues, and his students, and travel to the far-flung sites of his career-defining buildings, Lesser has written a

landmark biography of this elusive genius, revealing the mind behind some of the twentieth century's most celebrated architecture.
