

The Sculptor Scott Mccloud

Presents instructions for aspiring cartoonists on the art form's key techniques, sharing concise and accessible guidelines on such principles as capturing the human condition through words and images in a minimalist style.

The New York Times bestselling magnum opus from comics superstar Scott McCloud is now available in a freshly designed, over-sized hardcover! David Smith is giving his life for his art—literally. Thanks to a deal with Death, the young sculptor gets his childhood wish: to sculpt anything he can imagine with his bare hands. But now that he only has 200 days to live, deciding what to create is harder than he thought, and discovering the love of his life at the 11th hour isn't making it any easier! This is a story of desire taken to the edge of reason and beyond; of the frantic, clumsy dance steps of young love; and a gorgeous, street-level portrait of the world's greatest city. It's about the small, warm, human moments of everyday life...and the great surging forces that lie just under the surface. Scott McCloud wrote the book on how comics work; now he vaults into great fiction with a breathtaking, funny, and unforgettable work.

"Alana Massey's prose is to brutal honesty what a mandolin is to a butter knife: she's sharper; she slices thinner; she shows the cross-section of a truth so deftly--so powerfully and cannily--it's hard to look away, and hard not to feel that something has shifted in you for having read her."--Leslie Jamison, New York Times bestselling author of *The Empathy Exams* From columnist and critic Alana Massey, a collection of essays examining the intersection of the personal with pop culture through the lives of pivotal female figures--from Sylvia Plath to Britney Spears--in the spirit of Chuck Klosterman, with the heart of a true fan. Mixing Didion's affected cool with moments of giddy celebrity worship, Massey examines the lives of the women who reflect our greatest aspirations and darkest fears back onto us. These essays are personal without being confessional and clever in a way that invites readers into the joke. A cultural critique and a finely wrought fan letter, interwoven with stories that are achingly personal, *ALL THE LIVES I WANT* is also an exploration of mental illness, the sex industry, and the dangers of loving too hard. But it is, above all, a paean to the celebrities who have shaped a generation of women--from Scarlett Johansson to Amber Rose, Lil' Kim, Anjelica Huston, Lana Del Rey, Anna Nicole Smith and many more. These reflections aim to reimagine these women's legacies, and in the process, teach us new ways of forgiving ourselves.

Hubert is an autistic man who shapes his life by going to museums (in Brussels, London and Paris). The world outside is a puzzle to him. He talks to few people and only about museums and art. When his neighbour downstairs, a lonely woman, invites him again and again to come for a drink, he only goes because she has a painting that interests him. When she tries to seduce him, he doesn't understand. He takes photos of the pictures he likes -- usually of beautiful women -- and paints copies of the paintings at home. There is only one real woman who fascinates him; she lives in the opposite building and he can see her balcony from his window.

Winner of: Gourmand Magazine Best US wine book translation Slate Cartoonist Studio Award nominee A graphic novel that explores the nature of one's vocation, this book offers a look at the daily devotion to craft in two dissimilar professions. Étienne Davodeau is a comic artist—he doesn't know much about the world of winemaking. Richard Leroy is a winemaker—he's rarely even read comics. But filled with good will and curiosity, the two men exchange professions, and Étienne goes to work in Richard's vineyards and cellar, while Richard, in return, leaps into the world of comics. Providing a true-life representation of how both professions work, this insightful book investigates two fascinating fields, exploring each man's motivations and ultimately revealing that their endeavors and aspirations are not much different. Blue Beetle faces off against such DC villains as Chronos and Dr. Alchemy.

In 1993, Scott McCloud tore down the wall between high and low culture with the acclaimed international hit *Understanding Comics*, a massive comic book that explored the inner workings of the world's most misunderstood art form. Nicola Morgan is something of an authority on the teenage brain and is often invited to schools and colleges to speak on the subject. She came up with the idea of 'The Teenage Guide to Stress' because so many parents and teenagers contacted her for advice and help. The book is divided into three sections: Section one explains what stress is and looks at the ways teenage stress is different. Section two deals with a number of issues that affect teenagers - from anger, depression and sexual relationships to cyber-bullying, exams and eating disorders - and offers guidance and advice, as well as looking at how pre-existing conditions such as OCD and dyslexia are affected by adolescence. Section three is concerned with how to deal with and prevent the symptoms of stress, as well as healthy ways of looking after your mind and body.

The Guardian cartoonist relates the daily deadpan adventures of the last policeman living on the moon "Living on the

moon...Whatever were we thinking? ...It seems so silly now." The lunar colony is slowly winding down, like a small town circumvented by a new super highway. As our hero, the Mooncop, makes his daily rounds, his beat grows ever smaller, the population dwindles. A young girl runs away, a dog breaks off his leash, an automaton wanders off from the Museum of the Moon. Each day that the Mooncop goes to work, life gets a little quieter and a little lonelier. As in Goliath, Tom Gauld's retelling of the Bible story, the focus in Gauld's science fiction is personal—no big explosions or grand reveals, just the incremental dissolution of an abandoned project and a person's slow awakening to his own uselessness. Depicted in the distinctive, matter-of-fact style of his beloved Guardian strips, Mooncop is equal parts funny and melancholy. Gauld captures essential truths about humanity, making this a story of the past, present, and future, all in one.

A timeless meditation on art and commerce seen through the life of an early-twentieth-century Jewish rug maker An expectant father, Mendleman's life goes through an upheaval when he discovers he can no longer earn a living doing the work that defines him: making well-crafted rugs by hand. "My first attempt at computer-generated artwork was, by any reasonable measure, a flop. Reaction broke down into two groups: Those who despised the book and thought that the cartoony artwork and the 3D cgi backgrounds worked badly together, and a smaller group who liked the book--and thought that the cartoony artwork and the 3D cgi backgrounds worked badly together. The story followed 10-year old Byron Johnson and his friend Marcie as they try to expose an imposter Abraham Lincoln before he can reclaim and "finish" his term as President of the United States. Halfway through, the real Abraham Lincoln is resurrected to help them, and then it turns out the whole thing was an alien plot and ... oh, nevermind ..."--Scottmccloud.com

An autobiographical meditation on art from the world-renowned dancer and choreographer In this ceaselessly questioning book, acclaimed African American dancer, choreographer, and director Bill T. Jones reflects on his art and life as he describes the genesis of Story/Time, a recent dance work produced by his company and inspired by the modernist composer and performer John Cage. Presenting personally revealing stories, richly illustrated with striking color photographs of the work's original stage production, and featuring a beautiful, large-format design, the book is a work of art in itself. Like the dance work, Story/Time the book is filled with telling vignettes—about Jones's childhood as part of a large, poor, Southern family that migrated to upstate New York; about his struggles to find a place for himself in a white-dominated dance world; and about his encounters with notable artists and musicians. In particular, Jones examines his ambivalent attraction to avant-garde modernism, which he finds liberating but also limiting in its disregard for audience response. As he strives to make his work more personal and broadly engaging, especially to an elusive African American audience, Jones—who is still drawn to the avant-garde—wrestles with questions of how an artist can remain true to himself while still caring about the popular reception of his work. A provocative meditation on the demands and rewards of artistic creation, Story/Time is an inspiring and enlightening portrait of the life and work of one of the great

artists of our time.
