

The Search For Identity In The Works Of James Baldwin

John Knowles' beloved classic has been a bestseller for more than 30 years and is one of the most moving and accurate novels about the trials and confusions of adolescence ever written. Set at an elite boarding school for boys during World War II, *A Separate Peace* is the story of friendship and treachery, and how a tragic accident involving two young men forever tarnishes their innocence.

In Search of an Identity: The Autobiography of an Immigrant recounts the story of an Italian immigrant's experience of coming to Canada. Stella Bordignon was born in a small town in Calabria, Italy and following the devastation of World War II, she immigrated as a young teen in the late 1950s with most of her family to Toronto, Canada. The story highlights the difficulties and challenges of learning a new language, finding work and integrating into a new culture. As a young woman, Stella marries, has children and eventually returns to school to become a social worker. She recounts her struggles in balancing family, taking care of her aging mother, and asserting herself through her education and career. All throughout, she recounts stories of not only loss and hardship, but of love and success. This is her story of a tumultuous yet blessed life in which she seeks to understand her identity.

First published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

A parent's guide to teenagers explores thirty-six common teen issues and problems, from sexuality to suicide, offering advice on how to lead struggling teens through these difficult challenges. Original.

Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian Reservation. Determined to take his future into his own hands, Junior leaves his troubled school on the rez to attend an all-white farm town high school where the only other Indian is the school mascot. Heartbreaking, funny, and beautifully written, *The Absolutely True Diary of a Part-Time Indian*, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike.

Memories establish a connection between a collective and individual past, between origins, heritage, and history. Those who have left their places of birth to make homes elsewhere are familiar with the question, "Where do you come from?" and respond in innumerable well-rehearsed ways. Diasporas construct racialized, sexualized, gendered, and oppositional subjectivities and shape the cosmopolitan intellectual commitment of scholars. The diasporic individual often

has a double consciousness, a privileged knowledge and perspective that is consonant with postmodernity and globalization. The essays in this volume reflect on the movements of people and cultures in the present day, when physical, social, and mental borders and boundaries are being challenged and sometimes successfully dismantled. The contributors - from a variety of disciplinary perspectives - discuss the diasporic experiences of ethnic and racial groups living in Canada from their perspective, including the experiences of South Asians, Iranians, West Indians, Chinese, and Eritreans. *Diaspora, Memory, and Identity* is an exciting and innovative collection of essays that examines the nuanced development of theories of Diaspora, subjectivity, double-consciousness, gender and class experiences, and the nature of home. The National Book Award-winning author of *The Noonday Demon* explores the consequences of extreme personal differences between parents and children, describing his own experiences as a gay child of straight parents while evaluating the circumstances of people affected by physical, developmental or cultural factors that divide families. 150,000 first printing. This study of Israeli culture affords a meaningful insight into a society in a state of transition.

An account of the author's view the Nation of Islam at Chicago headquarters and it's importance in serving the Black Nationalism movement.

The Search for identity: The journey of an Indian Girl was written in the light of Indian being a patriarchal society since ages, where the differences between the feelings, dreams and aspirations for girls and boys are considered differently until today. The author pens it down as a journey of love, passion, hurt, betrayal, affection, courage and introspection. As a psychologist, psychopathologist and a social analyst, the author has seen the families of India very closely for 20 years. She has the eyes of being a psychological detective of the minds of people. She has tried to pen down the feelings of a girl since the time of birth until adulthood in a beautiful manner. The book talks about the birth of the girl and how she grows up in the surrounding of the patriarchy. She grows, blossoms and turns into a young girl with dreams and tonnes of strengths. The book further dwells upon how she faces various challenges and overcomes them through her strong self-identity and comes up with flying colours. The book also explains ways to handle various real life situations faced by girls and women of the society keeping in mind the scientifically proven techniques.

This book examines the paradox of collective identity in eastern Germany in the wake of German reunification. Following the fall of the Berlin Wall, citizens of the former German Democratic Republic were confronted with a dilemma: Were they already Germans without qualification, like their compatriots in the West? Or did they remain "East Germans" for the time being, with an identity tied to their distinct past, as if they were foreigners who had migrated without leaving home? *How Memory Divides* shows that these questions remain unresolved even today, less because of any "incomplete unity" between Germans in West and East, than

because of the contradictory ways in which "easterners" themselves have remembered their past. Drawing on a unique study spanning two decades, the author reveals how divergent biographical memories have given rise to life stories with a diverse array of genres and storylines at odds with official accounts of the GDR and its demise. Over time, efforts to effect unity between West and East have reproduced divisions within the East. This book will appeal to scholars and students of sociology and politics with interests in memory, heritage, and identity.

NATIONAL BESTSELLER • PEN/HEMINGWAY AWARD WINNER • One of The New York Times 10 Best Books of the Year • A wondrous and shattering novel that follows twelve characters from Native communities: all traveling to the Big Oakland Powwow, all connected to one another in ways they may not yet realize. Among them is Jacquie Red Feather, newly sober and trying to make it back to the family she left behind. Dene Oxendene, pulling his life together after his uncle's death and working at the powwow to honor his memory. Fourteen-year-old Orvil, coming to perform traditional dance for the very first time. Together, this chorus of voices tells of the plight of the urban Native American—grappling with a complex and painful history, with an inheritance of beauty and spirituality, with communion and sacrifice and heroism. Hailed as an instant classic, *There There* is at once poignant and unflinching, utterly contemporary and truly unforgettable.

Seminar paper from the year 2014 in the subject English Language and Literature Studies - Literature, grade: 1,0, University of Mannheim (Lehrstuhl für Anglistische Literatur- und Kulturwissenschaft), language: English, abstract: Travel writing helps travel writers to redefine their identity and to revise their concept of home as well as to determine its relative position in the world when using it as a frame of reference. In "Wanderlust: A Love Affaire with Five Continents", Elisabeth Eaves, both author and protagonist, renegotiates these two concepts – home and identity – in her inner journey of self-exploration. Making use of a qualitative and explorative approach, this paper investigates the question of how the search for identity and belonging is fashioned in the book. First, the theoretical part of the paper relates the concepts of home and identity to infer how home can function as a source of identity. These theoretical frameworks are then applied in the subsequent section to assess the manner and success of Elisabeth's strategies of identity construction providing an answer to the question whether her mobile lifestyle as a modern nomad leads to homelessness and lack of identity. Finally, the analysis section breaks down the narrative techniques Elisabeth uses to secure her public identity as travel writer and relates them to the construction of her personal identity.

African Philosophy in Search of Identity

This book examines the link between political identity and legitimacy in the European Union. Stimulated by the crisis of legitimacy and identity suffered by the EU after the referenda on the Constitutional Treaty, the editors have developed a theoretical framework to examine the interplay between these two

items in the problematic development of the EU into a fully-fledged political actor. The contributors to the volume seek to: Redefine the key notions in the rigorous way of political philosophy, thus avoiding the generic or imprecise language usage found in a large part of political science literature on identity Test these concepts in the analysis of EU policies that may reveal the world views and the principles upon which EU legislation is based, and whose degree of acceptance on the side of the citizens is an indicator of how far a shared political identity has developed. Featuring case studies on foreign and environmental policy, biosafety policy, biotechnology regulation, civil society, human rights promotion, as well as studies on the role of memory, space and external views on the process of European identity-building, this book will be of interest to students and researchers of political science, political philosophy, European politics and European Studies.

"... a great read. It is masterfully presented, and is an ideal text both for advanced undergraduates and graduate students." —International Journal of African Historical Studies "... a detailed, critical guide to fifty years of African philosophy..." —Teaching Philosophy "Masolo offers an expansive and lucidly panoramic view of the origin and developments in African philosophy." —Africa Today "The excellence of this book lies in the wealth of perspectives that it brings to the discussion on what constitutes philosophy, rationality, and meaningful reflection. It is both thought provoking and illuminating." —Ethics A Kenyan philosopher surveys themes and debates in African philosophy over the last five decades. Der Autor geht auf Fragen ein, die jeden Adventisten interessieren (sollten): Wie kamen die Adventisten zu den Glaubensüberzeugungen, die sie heute vertreten? Wie haben sich die Lehrauffassungen im Laufe der Jahre verändert? Würden die adventistischen Pioniere alle 27 Glaubenspunkte unterschreiben wollen, die heute von der Gemeinschaft der Siebenten-Tags-Adventisten als verbindlich anerkannt werden? George Knight bezweifelt das. Er legt in wohlthuender Offenheit die unterschiedlichen Strömungen innerhalb der Adventgeschichte dar und verdeutlicht, dass Adventgläubige nicht aufhören dürfen, Suchende und Lernende zu sein. So aufwühlend dies klingen mag, so beruhigend wird der Leser feststellen können: An allen untersuchten Beispielen wird erkennbar, wie wunderbar Gott die Adventgemeinde geführt hat. - How did Adventists come to believe what they believe? How have those beliefs changed over the years? With compelling candor George Knight captures the ebb and flow of the doctrinal currents within Adventism, including controversies over the shut door, the law in Galatians at the 1888 General Conference, the Trinity, pantheism, Fundamentalism, the nature of Christ, and inspiration. The Adventist Church was founded by independent thinkers who would have disagreed with several of the church's current 27 fundamental beliefs. But over the years strength arose out of contention, and consensus out of debate. From William Miller to Desmond Ford,

Knight catalogues the colorful personalities who shaped the discussion, and shows how God has led Adventism into a broader and deeper understanding of His eternal truth. - A Word to the Reader, A Note From the Author, List of Abbreviations, Chapter 1: The Dynamic Nature of "Present Truth", Present Truth: Fluid Rather Than Static, The Avoidance of Creedal Rigidity, The Pathway of Progressive Understanding, Chapter 2: Adventism Wasn't Born in a Vacuum, The Theological Roots of Adventism, Millennial Visions, Chapter 3: The Millerite Theological Foundation, Miller's Use of the Bible, Miller on the Second Advent, The First and Second Angels' Messages, The Seventh-Month Movement and the Great Disappointment, Chapter 4: What Is Adventist in Adventism? From the Preface: This book is about identity-seeking movements of modern society. It deals with such things as fashions, fads, poses, ritual, cultic movements, recreation, heroes and celebrities, and crusades, from the point of view of what they tell about the identity search of a mass society. My view, briefly, is that a collective identity search is symptomatic of the fact that some modern social systems deprive people of psychological "payoffs," the lack of which, expressed by terms such as alienation, meaninglessness, identity problem, motivates a mass groping for activities and symbols with which to restore or find new identity. People grope because they do not really know what is wrong, especially when there is physical prosperity yet a sense of being cheated. When mass movements become concerned with identity, they develop

certain characteristics, such as "ego-screaming," concern with costume and self-ornamentation, style rebellion, concern with emotional gestures rather than practical effects, adulation of heroes, cultism, and the like, with which I shall deal. Such signs show that ordinary economic and political solutions are not what is wanted. People feel the futility and irrelevance of such measures, yet do not know quite what else to do.

Widely regarded as the authoritative reference in the field, this volume comprehensively reviews theory and research on the self. Leading investigators address this essential construct at multiple levels of analysis, from neural pathways to complex social and cultural dynamics. Coverage includes how individuals gain self-awareness, agency, and a sense of identity; self-related motivation and emotion; the role of the self in interpersonal behavior; and self-development across evolutionary time and the lifespan. Connections between self-processes and psychological problems are also addressed. New to This Edition *Incorporates significant theoretical and empirical advances. *Nine entirely new chapters. *Coverage of the social and cognitive neuroscience of self-processes; self-regulation and health; self and emotion; and hypoegeic states, such as mindfulness.

"Everyone is occupied, consciously or unconsciously, with identity--one's origin and the question of one's place in humankind and society of the past, present, and future. Identity and memory are not stable and objective things, but representations or constructions of reality related to a particular interest, such as class, gender, of power relations. Identity is problematic without history and without the commemoration of history, and of course such remembrance may distort historical events and facts. When dealing with gardens, a substantial part of our physical environment, there are always unspoken questions of identity." Places of Commemoration examines commemorative sites of different character, including gardens, landscapes, memorials, cemeteries, and sites of former Nazi concentration camps, detailing the ideas behind the creation of memorials and monuments and the struggles over the narratives they present.

I want to try and understand why so many people commit crimes in the name of identity," writes Amin Maalouf. Identity is the crucible out of which we come: our background, our race, our gender, our tribal affiliations, our religion (or lack thereof), all go into making up who we are. All too often, however, the notion of identity—personal, religious, ethnic, or national—has given rise to heated passions and even massive crimes. Moving across the world's history, faiths, and politics, he argues against an oversimplified and hostile interpretation of the concept. He cogently and persuasively examines identity in the context of the modern world, where it can be viewed as both glory and poison. Evident here are the dangers of using identity as a protective—and therefore aggressive—mechanism, the root of racial, geographical, and colonialist subjugation throughout history. Maalouf contends that many of us would reject our inherited conceptions of identity, to which we cling through habit, if only we examined them more closely. The future

of society depends on accepting all identities, while recognizing our individualism. Julie is adopted. She is also a twin. Because their adoption was closed, she and her sister lack both a health history and their adoption papers—which becomes an issue for Julie when, at forty-eight years old, she finds herself facing several serious health issues. To launch the probe into her closed adoption, Julie first needs the support of her sister. The twins talk things over, and make a pact: Julie will approach their adoptive parents for the adoption paperwork and investigate search options, and the sisters will split the costs involved in locating their birth relatives. But their adoptive parents aren't happy that their daughters want to locate their birth parents—and that is only the first of many obstacles Julie will come up against as she digs into her background. Julie's search for her birth relatives spans eight years and involves a search agency, a PI, a confidential intermediary, a judge, an adoption agency, a social worker, and a genealogist. By journey's end, what began as a simple desire for a family medical history has evolved into a complicated quest—one that unearths secrets, lies, and family members that are literally right next door.

Beyond the Holocaust: An Immigrant's Search for Identity is Sylvie Heyman's personal narrative as a refugee, with her family, from Europe during World War II. It chronicles their journey to Brazil, the harrowing experiences as they were smuggled to Argentina, the challenges faced in those dictatorship countries and the final immigration to the United States of America when the author was a teenager. In the second part of the book, the author blends her personal experiences with scholarly theories about language, nationality, and identity to better understand the long-term struggles and challenges that immigrants face. A candid exploration of the mother-daughter relationship probes the private emotions, pains, joys, and secrets and charts the stages of a woman's life. Most people still think of themselves as belonging to a particular culture. Yet today, many of us who live in affluent societies choose aspects of our lives from a global cultural supermarket, whether in terms of food, the arts or spiritual beliefs. So if roots are becoming simply one more consumer choice, can we still claim to possess a fundamental cultural identity? *Global Culture/Individual Identity* focuses on three groups for whom the tension between a particular national culture and the global cultural supermarket is especially acute: Japanese artists, American religious seekers and Hong Kong intellectuals after the handover to China. These ethnographic case studies form the basis for a theory of culture which we can all see reflected in our own lives. Gordon Mathews opens up the complex and debated topics of globalization, culture and identity in a clear and lively style.

So many churches. So many twists on religion. So many thoughts on getting to heaven. Sometimes it's easy to get lost in the midst of searching for truth and sorting out all the opinions. Imagine growing up in the home with an older brother named Jesus and trying to keep up with him day after day, battling with the rumors of your mother's infidelity and the bold statements of Jesus that was

cutting against the religion they grew up in and still trying to find out where you fit into everything. This was James's early life before finally becoming the pastor of the first Christian church in Jerusalem. The book of James offers timely insights into finding truth about religion, social conflict, and salvation. James uses a hard-hitting style to pull back the cover and expose what makes a true Christian. In this book, Pastor Tom attempts to merge some of his own life experiences from a street kid in a broken home to being involved in legalistic churches, while all the time trying to search for his own identity as a Christian and pastor. This book was written to offer hope and help on this journey to finding biblical truth in the Christian life. Pastor Tom goes through the book of James and uses real life experiences, mistakes, conflicts, and successes to help make the journey a little easier to understand. Let Searching for Identity bring you encouragement to keep seeking truth, learning how to love, relating to others, and, most of all, finding living faith.

A Bustle Most Anticipated Debut of the Year From The Guardian's Georgina Lawton, a moving examination of how racial identity is constructed—through the author's own journey grappling with secrets and stereotypes, having been raised by white parents with no explanation as to why she looked black. Raised in sleepy English suburbia, Georgina Lawton was no stranger to homogeneity. Her parents were white; her friends were white; there was no reason for her to think she was any different. But over time her brown skin and dark, kinky hair frequently made her a target of prejudice. In Georgina's insistently color-blind household, with no acknowledgement of her difference or access to black culture, she lacked the coordinates to make sense of who she was. It was only after her father's death that Georgina began to unravel the truth about her parentage—and the racial identity that she had been denied. She fled from England and the turmoil of her home-life to live in black communities around the globe—the US, the UK, Nicaragua, Cuba, the Dominican Republic, Vietnam, and Morocco—and to explore her identity and what it meant to live in and navigate the world as a black woman. She spoke with psychologists, sociologists, experts in genetic testing, and other individuals whose experiences of racial identity have been fraught or questioned in the hopes of understanding how, exactly, we identify ourselves. Raceless is an exploration of a fundamental question: what constitutes our sense of self? Drawing on her personal experiences and the stories of others, Lawton grapples with difficult questions about love, shame, grief, and prejudice, and reveals the nuanced and emotional journey of forming one's identity.

The 1990-1991 crisis in the Middle East and the disturbances that followed, threw the deep-seated divisions within the Iraqi population into focus. This book examines the complexities of the internal cultural, political and religious conflict within the modern state of Iraq.

This important new overview of the German Democratic Republic focuses on the country's search for identity and legitimacy throughout its history. Dr. Henry Krisch analyzes major aspects of East German life—political, economic, cultural, and

societal—to answer the fundamental question of the nature of the GDR. Arguing that East Germany has been shaped by history to an unusual degree, he explores the country's historical background, including the Soviet Zone, the origins of the GDR, and the leadership of Ulbricht and Honecker, and examines the role and structure of the party, state, and military and security forces. The main emphasis of this book, however, is upon current problems and on likely responses to them in the near future. Issues such as the viability of communist politics in a technologically advanced society, the relationship of the GDR to a common German heritage and a competing West German state, and the country's role within the Soviet alliance system are examined in detail, and current social concerns, including the peace movement, cultural trends, the role of women and youth, and the prime importance of sports, are discussed.

We are surrounded with portraits: from the cipher-like portrait of a president on a bank note to security pass photos; from images of politicians in the media to Facebook; from galleries exhibiting Titian or Leonardo to contemporary art deploying the self-image, as with Jeff Koons or Cindy Sherman. In antiquity portraiture was of major importance in the exercise of power. Today it remains not only a part of everyday life, but also a crucial way for artists to define themselves in relation to their environment and their contemporaries. In *Portrayal and the Search for Identity*, Marcia Pointon investigates how we view and understand portraiture as a genre and how portraits function as artworks within social and political networks. Likeness is never a straightforward matter, as we rarely have the subject of a portrait as a point of comparison. Featuring familiar canonical works and little-known portraits, *Portrayal* seeks to unsettle notions of portraiture as an art of convention, a reassuring reflection of social realities. Pointon invites readers to consider how identity is produced pictorially and where likeness is registered apart from in a face. In exploring these issues, she addresses wide-ranging problems such as the construction of masculinity in dress, representations of slaves, and self-portraiture in relation to mortality.

In 1939, as war loomed, Peter Gumbel's Jewish-born grandparents fled Nazi Germany for England. But within a matter of decades, their grandson, appalled by the Brexit referendum, had become a citizen of the country they fled eighty years ago. How had it come to this? Drawing on one family's migration stories, *Citizens of Everywhere* explores the nature of belonging amid cycles of pluralism and nationalism. In an increasingly global world, nativist and diasporic impulses pull many people in contradictory directions that can be difficult to even understand. In *Citizens of Everywhere*, Gumbel grapples with this complexity through his own family history, revealing the personal costs of Britain's recent isolationist retreat. Along the way, he laments the decline of British pluralism at the worst possible moment—as the nation embarks on a once-in-a-generation struggle against that most international of threats: the COVID-19 pandemic.
