

The Secret Space Program And Breakaway Civilization Richard Dolan Lecture Series Book 1

Antarctica is a land about to be exposed over its well-guarded secrets and ancient hidden mysteries ... In 1955, as a result of a secret agreement reached between the Eisenhower Administration and a German breakaway group in Antarctica, a transnational corporate space program began to emerge. The secret infusion of personnel and resources from US military contractors into Antarctica allowed this transnational corporate program to steadily grow into a major space power, which would eventually surpass and eclipse the secret space programs run by the US Navy, Air Force, and the classified space programs of other nations. Whistleblower claims substantiate that many of the classified programs conducted there violate the 1961 Antarctic Treaty, and constitute crimes against humanity due to the abuse of a captive slave labor force. Dr. Michael Salla daringly exposes the major corporations involved in these illegal programs, and how the truth is hidden from company shareholders and the public. Today, Antarctica's secrets are slowly being revealed by the increasing volcanic activity that is melting the massive ice shelves, exposing ancient artifacts and crashed extraterrestrial spacecraft. Full disclosure of Antarctica's history, and current events involving multiple space programs and transnational corporations, will vitally aid in transforming our planet, and prepare humanity for the major geological events that lie ahead as the melting ice unveils all that has previously been hidden.

In 1977 in the quiet English countryside a film called *Alternative Three* was aired. It was so shocking that for more than 30 years it's been discussed and analyzed. But what if *Alternative Three* was in fact real? Was it the blueprint for surviving the end of the world? How does it connect to the Secret Space Program, Nazi UFO's, SDI and even Chemtrails? Are there bases on the Moon? For the first time ever shocking details about the Secret Space Program and *Alternative Three* are exposed as is the connections between some of the greatest conspiracies of all time and a secret government program to move to Mars to survive the coming global apocalypse. Contents includes: Coming of Age in the Secret Space Race; *Alternative Three*—The Most Dangerous Show Ever Produced; Geoengineering, Chemtrails and Global Dimming; D.U.M.B Projects and the End of the World; Agenda 21, The Population Bomb and the Georgia Guidestones; The Nazi Flying Saucers; Close Encounters of the Totally Germanic Kind; Lasers, UFOs, and SDI—Evidence of the War in Space, Space Warden and the Hidden Military Machine in Orbit; Weapons in Orbit—Arming the High Frontier; Moon Bases, Mars Bases and The Great Beyond; Staffing the Solar War Machine—Mysterious Disappearances, National Parks, and the Break Away Civilization; more. Includes 4-page color section.

Space expert Mike Bara looks at the secret space program of the American military that has been going on for over 60 years. Bara looks the Army Ballistic Missile Agency's proposed Project Horizon which was a study to determine the feasibility of constructing a scientific / military base on the Moon. On June 8, 1959, a group at the Army Ballistic Missile Agency (ABMA) produced for the U.S. Department of the Army a report entitled *Project Horizon, A U.S. Army Study for the Establishment of a Lunar Military Outpost*. The permanent outpost was predicted to cost \$6 billion and was to become operational in December 1966 with twelve soldiers stationed at the Moon base. Wernher von Braun, head of ABMA, appointed Heinz-Hermann Koelle to head the project team at Redstone Arsenal. Their plans called for 147 early Saturn A-class rocket launches to loft spacecraft components for assembly in low Earth orbit at a spent-tank space station. A lunar landing-and-return vehicle would have shuttled up to 16 astronauts at a time to the base and back. While officially Project Horizon was scrapped by the military, or was it? Bara looks into the secret space program, the possibility of secret bases on the Moon and many rumors surrounding the military's secret projects in space. The book will ask and answer many questions. Was Wernher von Braun involved in the Roswell crash investigation? Why did he suddenly become fascinated with highly advanced theoretical physics propulsion systems during the Apollo years, and why did all of this public research suddenly "go black" in the early 1960s? Did NASA and the Pentagon know and expect to find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the TV cameras in order to hide their explorations of one of these bases? What was the top secret "Chapel Bell" experiment on Apollo 16? Has teleportation been developed from captured alien technology and used to transport humans to secret NASA/DOD bases on Mars? Do space shuttle videos taken in the 1990s show proof of a highly advanced secret US space fleet? Does hacker Gary Mackinnon's discovery of defense department documents identifying "non-terrestrial officers" serving in space mean that the US has secret space platforms designed to fight a war with an alien race? And, have these secret military space platforms been photographed by civilian observers here on Earth?

Is there a secret space program that is connected in some way to UFOs? In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA. Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

One of the Washington Post's 20 Books to Read This Summer A riveting history of the epic orbital flight that put America back into the space race. If the United States couldn't catch up to the Soviets in space, how could it compete with them on Earth? That was the question facing John F. Kennedy at the height of the Cold War—a perilous time when the Soviet Union built the wall in Berlin, tested nuclear bombs more destructive than any in history, and beat the United States to every major milestone in space. The race to the heavens seemed a race for survival—and America was losing. On February 20, 1962, when John Glenn blasted into orbit aboard *Friendship 7*, his mission was not only to circle the planet; it was to calm the fears of the free world and renew America's sense of self-belief. *Mercury Rising* re-creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon. Drawing on new archival sources, personal interviews, and previously unpublished notes by Glenn himself, *Mercury Rising* reveals how the astronaut's heroics lifted the nation's hopes in what Kennedy called the "hour of maximum danger."

This book introduces first hand witness and whistleblower testimonies revealing that the USA, Britain, Russia and other major national governments have been secretly conducting, or known about, diplomatic relations with different extraterrestrial civilizations since at least 1952. Galactic diplomacy (aka 'exodiplomacy') with extraterrestrial visitors began with discussions over the development of thermonuclear weapons, the first of which was detonated by the Truman administration in November, 1952. Diplomatic discussions then expanded to include issues such as technology development, alien bases, extraterrestrials living on Earth, human rights, and use of earth resources. In frustration over lack of government transparency with their citizens, some extraterrestrials began contacting private citizens to inform them of the true nature of alien activities on Earth, and relations with governments. The reader will be introduced to the basic principles of international diplomacy and how these apply to different extraterrestrial civilizations visiting Earth. Those desiring to expose secret government activity in diplomatic relations with extraterrestrial life, will be given the necessary information to hold responsible government, military and corporate officials accountable for past policies; and to ensure government transparency in the future. Alternatively, those desiring to become active in citizen diplomacy initiatives, will be given essential information for discerning the motivations and activities of visiting extraterrestrial civilizations. This is indispensable for practicing a citizen based form of galactic diplomacy. This book prepares readers for the grandest adventure of all - the journey to galactic citizenship!

The US Air Force is experiencing a profound shift! In order to aggregate the military's major space assets under one authority, they are being

moved into a new branch under the purview of the Air Force. This new branch is to be called "Space Force". The true purpose of Space Force will be to publicly unveil the most well-guarded secrets in the Air Force's stunning arsenal of exotic spacecraft, unconventional weapons and mind-blowing technologies assembled over the more than seventy years since its official emergence in 1947. This book lays out the history of the Air Force Secret Space Program: Ushering in a new era with the recovery of several extraterrestrial craft in the 1940's. Secret agreements with a breakaway German colony in Antarctica (the Fourth Reich) & different extraterrestrial groups in the 1950's. Its complicity in the German infiltration of NASA & the Military-Industrial Complex in the 1960's. Development of stealth space stations beginning from the 1970's. Deployment of squadrons of disk, triangle and rectangular-shaped craft in the 1980's & 1990's. After its 2016 discovery that it had been deceived by the Deep State and their shadowy Fourth Reich allies, Air Force leaders made the momentous decision to shift alliances and realigned their covert space program with human-looking extraterrestrials. This has led to bold steps being taken by the Air Force to reveal the existence of its arsenal of spacecraft to the US public.

In "Inside the Secret Space Program: Valiant Thor and the U.S. Air Force," former Air Force pilot Mel Noel, in a transcript from one of his rare public talks, describes his interactions with a shadowy Air Force Colonel, who provided him with many insights about the secret space program and the U.S. government's alliance with the space people. In the Epilogue, publisher Gray Barker explains that the Colonel was actually the Venusian sage, Commander Valiant Thor, who occasionally taught courses to pilots and other U.S. military personnel. David Childress, popular author and star of the History Channel show Ancient Aliens, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He looks into the strange life and death of Rudolf Hess, as well as the mystery of James Forrestal and the secret group called MJ-12. He examines Operation Highjump led by Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. He reveals that the Nazis had built secret bases in a variety of places during WWII, including Greenland, the Canary Islands, Tibet and Antarctica. Childress discusses the secret U-boat fleet that patrolled the Atlantic and Antarctic Oceans for decades after the war. He looks into the secret German space program and its flying disks and tubular aircraft; the secret technology involved, including anti-gravity propulsion technology; underground and under ice bases; strange things happening in South America; and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Antarctic with the Americans' and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Solar Warden, Lunex and Project Horizon. Does the US Space Force have a secret space program that maintains huge ships in orbit around the Earth and employs hundreds of astronauts as crew for these vehicles? Includes a 16-page color section.

The Los Angeles Air Raid on February 24/25, 1942 opened an unprecedented chapter in the evolution of the U.S. Navy. In response to this incident, a covert research program to investigate the feasibility of exotic antigravity propulsion technologies was developed. In addition, Navy operatives were embedded in Nazi occupied Europe to learn about the Germans' advanced flying saucer programs, and they discovered the Nazis were receiving assistance from two extraterrestrial groups with very different agendas. The debriefing of the operatives took place at Naval Air Station, San Diego, led by Rear Admiral Rico Botta. He instructed a -Disseminator of Naval Research and Information-, William Tompkins, to take confidential briefing packets to select think tanks, corporations and university departments around the country. Later, Tompkins worked with a number of leading aerospace companies to design massive spacecraft for a secret U.S. Navy space program, and was fatefully assisted by extraterrestrial visitors described as -Nordics-. An extensive number of documents substantiate Tompkins' claims of the existence of a covert Navy program created to study, design and build deep space battle groups. They became operational in the 1980's. Now the Navy has a new goal to enact a plan to level the universal playing field, and the election of President Donald Trump may just be the wild card they needed to reveal ... everything!

US Air Force combat pilot Colonel Steve Richardson suffers a severe head injury when his F-35 crashes in the mountains of northern Afghanistan. With help too far away, death appears imminent. When an unusual craft appears and rescues him, Richardson is convinced he's hallucinating. It conveys him to a massive spaceship in orbit, where he is treated for his wounds. Once he recovers from his injury, Richardson is introduced to a covert space force called "Solar Warden." This secret space program utilizes futuristic technology to defend earth against a paranormal alien threat intent on destroying earth's inhabitants. When Richardson joins the program, he learns that his new comrades are losing the conflict. Can he learn to operate technology half a century ahead of what he has been trained for in time to be an asset? Or will he become just another casualty in an interstellar war?

Author James David tells the inside story of how NASA became a strange bedfellow to the Department of Defense and the National Security Agency, performing covert operations such as flying over sensitive areas, launching secret telecommunications satellites, and missile launch testing.

How did China undergo its meteoric rise from a technological backwater into a military superpower in outer space? This amazing transition began in top secret US Air Force programs over 75 years ago! While living in America, a brilliant Chinese scientist is chosen to work on the US military's most classified technologies for over a decade. Suddenly, he is outlandishly targeted by the FBI, traded in a prisoner exchange by President Eisenhower and must return to China. This episode ultimately led to China's development of a military-run secret space program (SSP) using exotic electromagnetic propulsion systems now challenging US military dominance on Earth and in outer space. By 2030, China's economy will outgrow the US, and China plans to use its vast economic resources to project its presence deep into space in ways that will lead to increasing military confrontations with the newly created US Space Force. In this book, you will learn about: - The origins of China's SSP through the pioneering work of Dr. Tsien Hsue-shen who brought his advanced knowledge of SSPs in Nazi Germany and the US to China;- How ancient aviation technologies buried in China's mysterious pyramids are being secretly studied and reverse engineered;- Ancient artifacts from extraterrestrial contacts in remote regions of Tibet, the Gobi Desert, and the truth behind legends of Shamballa and Agartha;- China's participation in a United Nations run SSP designed to foster greater international cooperation in responding to the existence of extraterrestrial life;- The space weapons and electromagnetically propelled spacecraft secretly being developed and deployed by China;- The threat posed by Communist China's plan to use Artificial Intelligence to become the dominant superpower on Earth and in Space. The Rise of the Red Dragon represents both a global crisis and opportunity presented by China. Are the US and China destined to violently clash in an inevitable cataclysmic space war or are they to become strategic partners in guiding humanity's peaceful transition into a space faring galactic civilization?

IS A COVERT "BREAKAWAY CIVILIZATION" RESPONSIBLE FOR A SECRET "INVISIBLE" SPACE PROGRAM? DID THE

NAZIS LAND ON THE MOON AND MARS DURING THE FINAL DAYS OF WORLD WAR II? HAVE ASTRONAUTS PLANTED THE MASONIC FLAG ON BOTH INTERPLANETARY BODIES? ARE THE BOOMERANG AND TRIANGULAR UFOS OBSERVED WORLDWIDE PART OF A GLOBAL SURVEILLANCE PROGRAM, OFFERING EVIDENCE THAT "SOMEONE ELSE" IS CAPABLE OF TAKING OVER OUR SKY? WAS THE LATE SUPER SCIENTIST NIKOLA TESLA INVOLVED IN THE EARLY DEVELOPMENT OF THIS SECRET SPACE PROGRAM? WHAT RED BLOC NATION HAD AN ASTRONAUT PROGRAM NEARLY TWENTY YEARS BEFORE NASA LANDED ON THE MOON? IS THE FACE ON MARS DIRECT EVIDENCE THAT AN UNKNOWN "EMPIRE" HAS BEATEN US TO THE PUNCH AND ALREADY ESTABLISHED A VANGUARD ON THE RED PLANET? The Secret Space Program is among the most clandestine efforts ever undertaken and the questions are many as to who is responsible for its adaptation. Did the aliens establish colonies on the Lunar and Martian surfaces that we have seen and photographed despite attempts by NASA to eradicate them from photographic prints? Yes, the answers are of utmost importance despite the fact that the American public is being kept in the dark about a subject so intriguing, so controversial, that its mere utterance creates a frustrating clash among skeptics and those in opposition who claim they have access to undeniable proof. Indeed, are scientists and others traveling back and forth between colonies already established in space? Have their memories been erased so they have only dream-like recollections of such "adventures?" Even Jules Verne - and other early science fiction pioneers - might have hinted that secret societies had developed "advanced" technologies that enabled them to venture beyond our atmosphere.

A voyage of exploration to the outer reaches of our inner lives. UFOs are a myth, says David J. Halperin—but myths are real. The power and fascination of the UFO has nothing to do with space travel or life on other planets. It's about us, our longings and terrors, and especially the greatest terror of all: the end of our existence. This is a book about UFOs that goes beyond believing in them or debunking them and to a fresh understanding of what they tell us about ourselves as individuals, as a culture, and as a species. In the 1960s, Halperin was a teenage UFOlogist, convinced that flying saucers were real and that it was his life's mission to solve their mystery. He would become a professor of religious studies, with traditions of heavenly journeys his specialty. With *Intimate Alien*, he looks back to explore what UFOs once meant to him as a boy growing up in a home haunted by death and what they still mean for millions, believers and deniers alike. From the prehistoric Balkans to the deserts of New Mexico, from the biblical visions of Ezekiel to modern abduction encounters, *Intimate Alien* traces the hidden story of the UFO. It's a human story from beginning to end, no less mysterious and fantastic for its earthliness. A collective cultural dream, UFOs transport us to the outer limits of that most alien yet intimate frontier, our own inner space.

Is it true that exotic propulsion technologies have been successfully developed and deployed, as part of a secret space programme - and comprehensively hidden from public view, using sophisticated methods? More than 14 years of ongoing research is collected here, to help us remove what Neil Armstrong referred to as "Truth's Protective Layers."

THIS BOOK CONTAINS SHOCKING PHOTOGRAPHIC EVIDENCE THAT WE HAVE ALREADY TRAVELED TO MARS AND SET UP SECRET BASES THERE! THANKS TO TECHNOLOGY DEVELOPED BY "THE WIZARD" NIKOLA TESLA, MARS IS NO LONGER THE MYSTERY PLANET! WHAT IS THE TRUTH ABOUT A SUPPOSED SECRET SPACE PROGRAM OUTSIDE THE JURISDICTION OF NASA? For centuries astronomers have peered through their telescopes for signs of life on the Red Planet. Some thought they saw canals or strange lights that roamed the surface. Jules Verne -- and other early pioneers of science fiction -- wrote what were then considered to be far-fetched stories about the exploration of the moon and the planet Mars. They based their classic literary works not just on their own fertile imaginations, but on "wild rumors" circulating that such voyages had already been made, accomplished by a group of scientists -- all members of the same secret lodge or society that had tapped into an unknown power source, using it to facilitate the birth of flight, years before the Wright Brothers were able to leave the ground. Contacted by this secret fraternal order, Nikola Tesla is said to have furthered their cause, coming up with his own method of interplanetary travel, soon to be stolen and used by Hitler and perhaps, the New World Order! Here is proof that scientists and engineers regularly travel back and forth between colonies that have been set up on the Martian surface and deep underground. This is all part of a super-secret space program that the public has been told nothing about.

How does one go about organizing something as complicated as a strategic-missile or space-exploration program? Stephen B. Johnson here explores the answer—systems management—in a groundbreaking study that involves Air Force planners, scientists, technical specialists, and, eventually, bureaucrats. Taking a comparative approach, Johnson focuses on the theory, or intellectual history, of "systems engineering" as such, its origins in the Air Force's Cold War ICBM efforts, and its migration to not only NASA but the European Space Agency. Exploring the history and politics of aerospace development and weapons procurement, Johnson examines how scientists and engineers created the systems management process to coordinate large-scale technology development, and how managers and military officers gained control of that process. "Those funding the race demanded results," Johnson explains. "In response, development organizations created what few expected and what even fewer wanted—a bureaucracy for innovation. To begin to understand this apparent contradiction in terms, we must first understand the exacting nature of space technologies and the concerns of those who create them."

Hidden AgendaNasa and the Secret Space Program

This is the new must-have UFO book. For beginners and experienced researchers alike, historian Richard Dolan covers the full range of this incredibly complex topic in his uniquely engaging style. He offers fresh insights on everything connected to UFOs: ancient aliens, modern encounters, abductions, channelers, the politics and cover-up, the black budget world, the bizarre science, the social dimensions (read YouTube and Facebook), the future, and much more. Toward that end, Dolan gives practical insights on how to distinguish and investigate UFOs in today's world, where we are flooded with claims and videos and data of all types. In addition, as one of ufology's pioneers in the deep analysis of the cover-up, he offers an original perspective on how it all works and why the cover-up, despite being so entrenched and insidious, is nevertheless bound to end. He also writes on the nature of contact, speculating on who these "Others" might be. Finally, Dolan takes the reader through the "weird science" of UFOs, covering everything from propulsion to spacetime to consciousness and more. *UFOs for the 21st Century Mind* is a roadmap pointing the way forward in a field filled with uncertainty and obfuscation. In so doing, it is set to reposition an ancient phenomenon into a contemporary state of mind, reminding you just why the greatest mystery of our time is also one of the most important.

Contents: Introduction 1. What Are UFOs? 2. Theories of Ancient Visitation 3. Into Modernity: Airships, Foo Fighters, and Flying Saucers, 1896 to 1969 4. UFO Secrecy and Those Who Fought It 5. Digging Deeper-The Breakaway Civilization 6. High Strangeness-UFOs from 1970 to 1990 7. UFOs, 1991 to the Present 8. Contact and Abduction 9. The Growth of Ufology 10. Who

Are They? What Do They Want? 11. Weird Science: Propulsion, Energy, Spacetime, and Consciousness 12. Into the Future, Into Ourselves Conclusion 486 p. Illustrated Endorsements: "In a field that can be so confusing, so complex, Richard Dolan has taken his many years of thinking about UFOs and written a completely fresh overview of the entire subject. . . . This is an ambitious work that truly ties the many different aspects of the subject together. It's rare to find something like this, especially considering the care and thoroughness that went into it." -- George Noory, host of Coast to Coast AM. "As a follow-up to his previous books exploring the relationship between UFOs and the National Security State, historian Richard Dolan widens his perspective to explore all aspects of this provocative phenomenon. In this role, he takes us on a journey that brings to life the subtlety and depth of this rich subject, a truly captivating read." --H. E. Puthoff, Ph.D., Director, Institute for Advanced Studies at Austin "UFOs For the 21st Century Mind represents a new kind of book - one that clearly and intelligently addresses literally every aspect and implication of the most maligned, misunderstood and compelling subject in human history. Richard Dolan's newest work is perfect reading for serious students of ufology as well as the absolute beginner. Inspired, particularly well written, and the product of a first class mind for this or any other century." --Peter Robbins, coauthor of the U.K. bestseller, Left At East Gate: A First-Hand Account of the Rendlesham Forest UFO Incident, Its Cover-up and Investigation "This is an invaluable treatment of the known facets and seemingly endless implications regarding UFOs, with a much-appreciated focus on the human experience. A job well done, Richard." -- Sam Maranto, Investigative Researcher

Unidentified flying saucers, secret moon and bases, space alien abductions and marines on mars. For more than 20 years paranoia has sought to expose the conspiracies that control our world. We have now turned our attention to near and deep space to explore vast secret space conspiracy. Edited by the Publisher and Editor and Chief of PARANOIA, we have gathered the finest convert space articles in our vast archive... Read it if you dare...

The Greatest Adventure explores the past, present, and future of the space race. The space race was perhaps the greatest technological contest of the twentieth century. It was a thrilling era of innovation, discovery, and exploration, as astronauts and cosmonauts were launched on space missions of increasing length, complexity, and danger. The Greatest Adventure traces the events of this extraordinary period, describing the initial string of Soviet achievements: the first satellite in orbit; the first animal, man, and woman in space; the first spacewalk; as well as the ultimate US victory in the race to land on the moon. The book then takes the reader on a journey through the following decades of space exploration to the present time, detailing the many successes, tragedies, risks, and rewards of space exploration.

Winner of the Emme Award for Astronautical Literature from the American Astronautical Society How does one go about organizing something as complicated as a strategic-missile or space-exploration program? Stephen B. Johnson here explores the answer—systems management—in a groundbreaking study that involves Air Force planners, scientists, technical specialists, and, eventually, bureaucrats. Taking a comparative approach, Johnson focuses on the theory, or intellectual history, of "systems engineering" as such, its origins in the Air Force's Cold War ICBM efforts, and its migration to not only NASA but the European Space Agency. Exploring the history and politics of aerospace development and weapons procurement, Johnson examines how scientists and engineers created the systems management process to coordinate large-scale technology development, and how managers and military officers gained control of that process. "Those funding the race demanded results," Johnson explains. "In response, development organizations created what few expected and what even fewer wanted—a bureaucracy for innovation. To begin to understand this apparent contradiction in terms, we must first understand the exacting nature of space technologies and the concerns of those who create them."

The long-awaited memoir of a trailblazer and role model who is telling her story for the first time. Eileen Collins was an aviation pioneer her entire career, from her crowning achievements as the first woman to command an American space mission as well as the first to pilot the space shuttle to her early years as one of the Air Force's first female pilots. She was in the first class of women to earn pilot's wings at Vance Air Force Base and was their first female instructor pilot. She was only the second woman pilot admitted to the Air Force's elite Test Pilot Program at Edwards Air Force Base. NASA had such confidence in her skills as a leader and pilot that she was entrusted to command the first shuttle mission after the Columbia disaster, returning the US to spaceflight after a two-year hiatus. Since retiring from the Air Force and NASA, she has served on numerous corporate boards and is an inspirational speaker about space exploration and leadership. Eileen Collins is among the most recognized and admired women in the world, yet this is the first time she has told her story in a book. It is a story not only of achievement and overcoming obstacles but of profound personal transformation. The shy, quiet child of an alcoholic father and struggling single mother, who grew up in modest circumstances and was an unremarkable student, she had few prospects when she graduated from high school, but she changed her life to pursue her secret dream of becoming an astronaut. She shares her leadership and life lessons throughout the book with the aim of inspiring and passing on her legacy to a new generation.

Oxford-educated historian Joseph P. Farrell really delivers in this latest addition to his best-selling book series on suppressed technology, Nazi survival and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control few people even suspect exists. Farrell delves into the creation of a breakaway civilization by the Nazis in South America and other parts of the world. He discusses the advanced technology that they took with them at the "end" of World War II and the psychological war that they waged for decades against America and NATO. He shows how the breakaway civilization has created a huge system of hidden finance with the involvement of the Vatican Bank (among others), and how NATO established a large covert warfare network and political slush fund. He investigates the secret space programs currently sponsored by the breakaway civilization and the current militaries in control of planet Earth. Farrell includes a fascinating discussion of "emulational" technologies (those that can manipulate acts of god/nature, like earthquakes and storms) from the standpoint of the culture of "full spectrum dominance" and the culture of "plausible deniability"—yes, there are plans for mass destruction that can never be traced back to their real source. Farrell also discusses the historical origin of the breakaway civilization with the continuing airship mystery; incredibly bold counterfeiting operations; and the nexus of spy satellites, nuclear weapons and UFOs. He includes plenty of astounding accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret super-finance and technology.

Contains papers presented at the Air Force Historical Foundation Symposium, held at Andrews Air Force Base, Maryland, on September 21-22, 1995. Topics addressed are: Pt. 1, The Formative Years, 1945-1961; Pt. 2, Mission Development and Exploitation Since 1961; and Pt. 3, Military Space Today and Tomorrow. Includes notes, abbreviations & acronyms, an index, and photographs.

This new book goes behind the scenes on the award-winning TV series Battlestar Galactica to discover the concepts behind the designs of dozens of spaceships! Battlestar Galactica debuted on TV in 1978 and acquired a phenomenal following, breaking new ground for TV drama and winning several awards. It returned to TV screens in 2003 in a critically acclaimed reimagined series, with Time Magazine naming it one of the 100 Best TV Shows of All Time. This behind-the-scenes guide looks at the creation of the ships in both the original and the reimagined series, including vessels of the ragtag fleet and those of the Cylon enemy. Featuring artwork from the groundbreaking first series and the 2004 reimagined series, this volume explores the art of ship creation from the first sketches to the finished designs of the modelmakers. Covering 18 key ships from the two shows, including the Galactica itself, the Vipers and the Cylon Raiders, the pages are packed with original concept art from designers Eric Chu, Andrew Probert and legendary artist Ralph McQuarrie.

"Inside the Secret Space Programs" is a continuation of two previous works by the Author, Herbert G. Dorsey III - "Secret Science and the Secret Space Program," and "The Covert Colonization of Our Solar System." The previous two books, document the progress of antigravity propulsion, from the German Vrill Society and their Jensietsfugmaschine [otherworld flying machine], in 1923 and Thomas Townsend Brown's experiments with gravitators at about the same time, to the present black projects inside companies like Lockheed Martin, Northrup Grumman, Boeing Aerospace, and North American, which create antigravity craft for the Air Force, Navy and some private corporations like the secretive Interplanetary Corporate Conglomerate (ICC). As more information becomes available from persons, like Corey Goode, William Tompkins, and Tony Rodrigues and others who worked in the secret space programs is revealed, a better picture of what goes on inside these programs is made possible. Sufficient new information has been revealed to warrant a new book on the subject. And remarkably, the new information, not only to a large degree, reinforces the information revealed in the previous two books, but also adds important information on subjects like where these kilometers long space craft are being built on this planet and how is it being financed. If you are interested in learning more about is really going on out in space, the covert colonizing, militarization, manufacturing and mining of Mars, other planets, moons and asteroids in our Solar system and even in other star systems, or you are curious about the technology used and how it works, this would be an excellent book to study.

The New York Times bestseller about the strange history of NASA and its cover-ups regarding its origins and extraterrestrial architecture found on the moon and Mars is even more interesting in its new edition. Authors Richard C. Hoagland and Mike Bara include a new chapter about the discoveries made by ex-Nazi scientist and NASA stalwart Wernher von Braun regarding what he termed "alternate gravitational solutions," or the rewriting of Newtonian physics into hyperdimensional spheres.

David Childress, popular author and star of the History Channel's show Ancient Aliens, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He then examines Operation High-Jump with Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. He looks into the mysterious death of Admiral Byrd's son when invited to a conference in Antarctica in Washington DC. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. Childress discusses the secret technology involved, anti-gravity propulsion technology, electro-gravity and free-energy, teleportation technology (as in the Philadelphia Project), and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Antarctic with the Americans and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Space Warden and Project Horizon. Does the US Navy have a secret space program that includes huge ships in orbit around the Earth and includes hundreds astronauts as crew for these vehicles? Includes an 8-page color section.

Reveals the Nazi-Reptilian infiltration of the U.S. government, their secret space program, and their slave colonies throughout the solar system • Details "Operation Paperclip," which enabled Nazis and their Reptilian partners to infiltrate the U.S. military-industrial complex, including NASA and the CIA • Reveals their interstellar space ports in Antarctica and on Mars, their base on the Moon, and their alien technologies, including nano-technology, antigravity propulsion, mass mind control, and hyperdimensional teleportation capabilities • Shares testimonies from American and British "supersoldiers" who participated in the "20 and Back" age-regression programs, revealing advanced human technology and our Space Armada that constitutes a counter-balance to the Nazi Dark Fleet The Nazis did not really lose World War II. They made it appear that way in order to divert attention from the alliance between the Fourth Reich and the race of aliens known as the Reptilians--an ancient galactic civilization obsessed with conquest and domination. After the German surrender in 1945, the Nazi-Reptilian alliance infiltrated the U.S. military-industrial complex. Through "Operation Paperclip," the Nazis and Reptilians removed their political opponents, such as the Kennedys, and moved into policy-making positions in post-war America, infiltrating aerospace companies, banking, media, and the U.S. government, including NASA and the CIA. But their real target was not the United States--it was the solar system. As Len Kasten reveals in startling detail--including revelations of antigravity propulsion technology, alien techniques of mass mind control, and hyperdimensional teleportation capabilities--the Nazi-Reptilian alliance used their newfound power, wealth, and influence to launch a Secret Space Program with interstellar spaceports in Antarctica and on Mars as well as an eleven-story base of operations on the Moon. They commenced mining and manufacturing operations on Mars and Ceres, forming colonies there and elsewhere in the solar system. And, most shocking, they have used thousands of human slaves, easily transported in their spaceships, for both work and sexual exploitation. Sharing testimonies from American and British "supersoldiers" who participated in the "20 and Back" age-regression programs, Kasten reveals the various forces inside and outside government that are resisting the Nazis and thwarting Reptilian attempts to achieve total dominance of the planet and the solar system. The U.S.-led Secret Space Program has its own fleet of spaceships, the Solar Warden Space Armada, which patrols the edges of the solar system and poses a growing threat to the Nazi Dark Fleet.

Follows the adventures of Paul Atreides, the son of a betrayed duke given up for dead on a treacherous desert planet and adopted by its fierce, nomadic people, who help him unravel his most unexpected destiny.

For almost 70 years the US government has engaged in an extensive "official effort" of disinformation, intimidation evidence-tampering in order to maintain a non-disclosure policy about ET presence. Writes Dr. Salla: "Ever since I began to publish the early versions of the chapters in this book in January 2003 as 'Study Papers' on my website, <http://www.exopolitics.org>, I have received a consistent stream of supportive letters encouraging my research, and unsolicited information from former government, military, intelligence employees confirming many of my hypotheses. This

has given me hope that eventually full disclosure of the extraterrestrial presence on the planet will occur, since interest is high and so much information is now in the public arena."

Bill Tompkins was embedded in the world of secrecy as a teenager, when the Navy took his personal ship models out of a Hollywood department store because they showed the classified locations of the radars and gun emplacements. He was personally present at the "Battle of L.A." when a thousand rounds of ammo were fired at UFOs, and one of the Nordic craft may have selected him to be their rep in the evolving aerospace race. This book is a partial autobiography about his life to the beginning of the 1970s including some of his early work for TRW. Selected by the Navy prior to completing high school to be authorized for research work, he regularly visited classified Naval facilities during WWII until he was discharged in 1946. After working at North American Aviation and Northrop, he was hired by Douglas Aircraft Company in 1950, and when they found out about his involvement in classified work, was given a job as a to create design solutions as a draftsman with a peripheral assignment to work in a "think tank." This work was partly controlled by the Navy personnel who used to work for James Forrestal, who was allegedly assassinated because he was going to publicly reveal what he knew about UFOs. Bill Tompkins was asked to conceive sketches of mile-long Naval interplanetary craft designs. Later, as he became involved in the conventional aspects of the Saturn Program that later became the Apollo launch vehicle, his insight to system engineering resulted in his offering some critical suggestions personally to Dr. Wernher von Braun about ensuring more reliable checkout using the missiles in their vertical position and also some very efficient launch control concepts adopted by both NASA and the Air Force. This story is peppered with very personal interactions with his co-workers and secretaries, some of whom the author believes to be Nordic aliens helping the "good guys" here on Earth. Towards the end of this volume of his autobiography, he sketches what he personally saw on TV when Armstrong was landing on the moon. Born in May 1923, Bill Tompkins is one of the few survivors of the "big war" who is still healthy, married to the same girl Mary, and is willing to tell his story about what he really did during his aerospace life in the 40s, 50s and 60s that relate to aliens, NASA and secrets that now can be told. In the first novel in New York Times bestselling author Ian Douglas' Solar Warden series, government conspiracy theories, UFO history, and thrilling space combat come together in an unforgettable interstellar military science fiction adventure. **THE TRUTH HAS ALWAYS BEEN HERE** In the final days of World War II, the Allies ransacked Berlin. Third Reich scientists were highly sought- out prizes for Americans and Russians desperate to possess the Nazi knowledge of nuclear firepower. But they failed to capture one of the most vital members of Adolf Hitler's inner circle: SS Obergruppenfuhrer Hans Kammler. One of the engineers of Auschwitz, Kammler was also a liaison with the Nazis' silent partners whose technological wonders nearly helped the Axis win the war—the alien species the Germans called the Eidechse. More than seven decades later, U. S. Navy SEAL Lieutenant Commander Mark Hunter has witnessed the impossible. On a mission in North Korea, an unidentified flying object destroyed a compound developing weapons of mass destruction. Now, he has been recruited to join a government agency that has been harboring a secret alliance with extraterrestrials since 1947. Selected to lead an elite force of soldiers, Hunter will travel across the stars to help humanity stake its claim among greater intelligent life in the universe. But the aliens who have infiltrated Earth and guided war mongering nations since the twentieth century have their own agendas...

There are areas of science that are off limits to the public and are not taught in our universities. The science and technology of anti-gravity and extracting energy from space itself was developed in the late 19th and early 20th century by scientists and experimenters like John Worrell Keely, Nicola Tesla, and Thomas Townsend Brown. But today, this science is purposely overlooked and regulated to the world of "Black Projects." The publicly acknowledged space program is but a "smoke screen" to hide a secret space program, overseen by NSA, the CIA and a secret branch of the U.N., that is so secret that even some U.S. Presidents and Congressional oversight committees are not even aware of it. Secret Science and the Secret Space Program will document and provide an in depth look at this secret science and technology and the secret space program that has already colonized Mars, built bases on our Moon and other planet's moons and given us the ability to travel to the stars. "Black" science is so far ahead of acknowledged science that this book will seem like science fiction to many who read it.

Joe and Rob discover a hidden space station inhabited by aliens in this sixth adventure in the hilarious Bots chapter book series. Many years ago, scientists on Earth sent video satellites out to the end of the universe to see what was hiding in deep space. Now, years later, these satellites have begun sending their first videos back to Earth...and the stars of the show are two goofy robots. When Joe and Rob discover a hidden space station filled with aliens, will they be able to help the aliens get home...or are the aliens looking for a new place to crash? With easy-to-read language and graphic novel art on almost every page, the Bots chapter books are perfect for emerging readers.

On September 5, 2019, a Space Futures conference was hosted by the US Air Force Space Command which analyzed evolving conditions in space up to 2060. Eight possible negative and positive futures were identified, the optimal being a "Star Trek Future" which would involve countries with space programs forming a multinational alliance collaborating in civil, military and commercial affairs in space. Today, the emergence of Space Force, signing of the Artemis Accords, and creation of NATO's Space Center promise to be the fulcrum for ushering in this Star Trek scenario. Such a future is not assured however due to the existence of uncooperative rival space programs of China and Russia. Could one or both launch a Space Pearl Harbor that could devastate the entire US GPS system, as predicted 20 years ago by a blue-ribbon Space Commission? Also, there is the wildcard of numerous secret space programs possessing reverse-engineered antigravity craft. Their existence is not officially acknowledged by major nations, but their space activities pose major challenges to a Star Trek future. Will Space Force be able to integrate the US based secret space programs or will these and their foreign counterparts be obstacles to its future operations? The ultimate question is how the existence of extraterrestrial life will factor into the activities of Space Force and its allies space forces. Will extraterrestrial visitors

respond in a benign or a belligerent way to Space Force setting up a multinational space coalition to militarily project humanity's presence far into our solar system and beyond? How will a future "Starfleet" with Space Force and NATO at its core have to deal with rogue secret space programs and alien life operating throughout our solar system? The US Navy secret space program reportedly has space battle groups built with the assistance of friendly human looking 'Nordic' extraterrestrials. Under what conditions will the Navy surrender authority over them to combine with Space Force? Space Force Our Star Trek Future provides answers to these and many other critical questions about humanity's bold emergence as an interplanetary space power.

A detailed investigation of insider testimonies regarding secret space programs, these disclosures reveal a parallel world of these programs and extraterrestrial alliances. Further exploration of "exopolitics", the study of institutions, people, and political processes associated with extraterrestrial life.
