

The Succession Scotland Act 1964 Greens Annotated Acts

This book grew out of a major European Union (EU) funded project on the Hague Maintenance Convention of 2007 and on the EU Maintenance Regulation of 2009. The project involved carrying out analytical research on the implementation into national law of the EU Regulation and empirical research on the first year of its operation in practice. The project also engaged international experts in a major conference on recovery of maintenance in the EU and worldwide in Heidelberg in March 2013. The contributions in this book are the revised, refereed and edited versions of the best papers that were given at the conference. The book is divided into four parts: (i) comparative context (ii) international, looking at national and non-European regional practice and how the Hague Convention could change things; (iii) international and the EU, looking at issues covered by both the Hague Convention and the EU Regulation; and (iv) the EU - looking at the Maintenance Regulation. This is the first study to look carefully at both of the new cross-border maintenance regimes globally and in Europe and to begin the examination of the practical operation of the latter regime. The approval of the Hague Convention by the EU on 9 April 2014 is a major step forward for its practical significance in enabling the recovery of child and spousal support, as from 1 August 2014 all of the 28 EU Member States apart from Denmark will be bound by the Convention.

The interval between the first and second editions of this book have witnessed significant changes for the food producers of the EEC. They have moved from a period of increasing production to an era of food surpluses and statutory reductions in production. This overall change in the fortunes of agriculture have greatly increased the need for sound business management. This book has been substantially updated to include all the current factors that have to be taken into consideration by farmers, as well as still providing a basic introduction to the study of farm management for students. It should prove invaluable reading to those running farms, whether experienced or inexperienced.

An innovative collaboration between academics, practitioners, activists and artists, this timely and provocative book rewrites 16 significant Scots law cases, spanning a range of substantive topics, from a feminist perspective. Exposing power, politics and partiality, feminist judges provide alternative accounts that bring gender equity concerns to the fore, whilst remaining bound by the facts and legal authorities encountered by the original court. Paying particular attention to Scotland's distinctive national identity, fluctuating experiences of political sovereignty, and unique legal traditions and institutions, this book contributes in a distinctive register to the emerging dialogue amongst feminist judgment projects across the globe. Its judgments address concerns not only about gender equality, but also about the interplay between gender, class, national identity and citizenship in contemporary Scotland. The book also showcases unique contributions from leading artists which, provoked by the enterprise of feminist judging, or by individual cases, offer a visceral and affective engagement with the legal. The book will be of interest to academics, practitioners and students of Scots law, policy-makers, as well as to scholars of feminist and critical theory, and law and gender, internationally.

The first comprehensive account of how the law and practice of child protection in Scotland has developed from its earliest origins to the present day, within the context of a changing world
Key Features Places the Scottish juvenile court in worldwide perspective and explores why the juvenile court ideals remain central to the contemporary children's hearing system in Scotland, dealing with both child offenders and neglected and abused children. Gives detailed analysis of the legislation and explores the parliamentary debates surrounding Acts including the Children Act 1908, the Adoption of Children (Scotland) Act 1930, the Children and Young Persons (Scotland) Acts 1932 and 1937, the Children Act 1948, the Social Work (Scotland) Act 1968, the Children (Scotland) Act 1995 and the Children and Young People (Scotland) Act 2014 Preserves in accessible form many long-forgotten legal and social aims, cases and secondary legislation
Kenneth Norrie traces the assumptions that underlay child protection law at particular periods of time and identifies the pressures for change - giving a clearer understanding of how and why the contemporary law is designed and operates as it does. Particular issues are traced in legislative detail, including court processes, the changing thresholds for state intervention, the increasing regulation of children's homes and foster care, the developing rules on corporal punishment and the earlier practice of compulsory emigration to the colonies of children removed from their parents. The transformation of adoption is also covered in comprehensive detail. In drawing out key themes and common threads, Norrie sets contemporary developments against their historical context and offers a fuller understanding of child protection law in Scotland.

With exclusive access to the Haughey archives, Gary Murphy presents a reassessment of Charles Haughey's life and legacy. Saint or sinner? Charles Haughey was, depending on whom you ask, either the great villain of Irish political life or the benevolent and forward-thinking saviour of a benighted nation. He was undoubtedly the most talented and influential politician of his

generation, yet the very roots of his success – his charisma, his intelligence, his ruthlessness, his secrecy – have rendered almost impossible any objective evaluation of his life and work. That is, until now. Based on unfettered access to Haughey's personal archives, as well as extensive interviews with more than eighty of his peers, rivals, confidants and relatives, Haughey is a rich and nuanced portrait of a man of prodigious gifts, who, for all his flaws and many contradictions, came to define modern Ireland. 'A superbly balanced exploration of the life and politics of one of the most fascinating figures in 20th century Ireland.' Professor John Horgan 'An indispensable read for anyone with an interest in modern Irish history.' David McCullagh 'Offers much new detail – and not a few surprises – about the personality and career of a political titan who is still, in equal measure, revered and reviled in 21st century Ireland.' Conor Brady

This report makes recommendations for reform of the law and presents two draft Bills to implement the necessary changes. Firstly, The draft Inheritance and Trustees' Powers Bill includes reforms that would: ensure that where a couple are married or in a civil partnership, assets pass on intestacy to the surviving spouse in all cases where there are no children or other descendants; simplify the sharing of assets on intestacy where the deceased was survived by a spouse and children or other descendants; protect children who suffer the death of a parent from the risk of losing an inheritance from that parent in the event that they are adopted after the death; amend the legal rules which currently disadvantage unmarried fathers when a child dies intestate; remove arbitrary obstacles to family provision claims by dependants of the deceased and anyone treated by the deceased as a child of his or her family outside the context of a marriage or civil partnership; permit a claim for family provision in certain circumstances where the deceased died "domiciled" outside of England and Wales but left property and family members or dependants here; and reform trustees' statutory powers to use income and capital for the benefit of trust beneficiaries (subject to any express provisions in the trust instrument). Secondly, The draft Inheritance (Cohabitants) Bill contains further provisions that would give certain unmarried partners who have lived together for five years the right to inherit on each other's death under the intestacy rules. Where the couple have a child together, this entitlement would accrue after two years' cohabitation, provided the child was living with the couple when the deceased died.

How should a landowner respond when a squatter occupies their land? This book discusses the issues focussing on vindicatio, possessory remedies and trespass, but also explores administrative procedures for their removal. In many cases, these actions derive from Roman laws, which are expertly explored in an introductory chapter. Also included is a chapter exploring human rights interventions in such actions. Twelve case studies offer an extensive and comparative analysis across sixteen European jurisdictions. The basic defendants covered are squatters taking over a home, environmental protesters, licensees and former tenants. The case studies include, amongst others, self-help; restitution; competing claims to ownership (and the relevance of registration systems to claims to ownership); adverse possession; neighbours; nuisance and encroachment.
