At the end of a long, hard day's work, Esther can stand in the barn doorway and survey her beautiful Perry Farm with a sense of contentment. She lost her father in the Civil War, and she, her mother and her sister are three women alone. Yet she could not be happier with her hands in the soil and her heart in the land. She plans to marry a handsome farm-hand and rule over her little kingdom like a queen. Yet dark days are ahead. With deepest sorrow, she loses her mother to the wracking coughing disease of tuberculosis. Esther and her sister Lara suddenly face a crushing debt on their farm, too mountainous to overcome. A greedy neighbor shoves a mortgage deed in front of Esther, forcing her to sign. What will happen to her? How will she take care of Lara? With no home or family, the Perry sisters are orphaned and alone. On the final afternoon of owning her farm, Esther greets a strange guest. The haughty woman and her grand carriage are out of place in a farm town like Bayview, Maine. She introduces herself as Lucia Curtis and informs them she is their aunt. Esther and Lara are shocked - their mother never mentioned a sister. Aunt Curtis has an incredible proposal: she will take the Perry girls to Portland, Maine and give them a place to live for six months. Farewell to Perry Farm, and a new life awaits Esther and Lara in Portland. There will be cousins to meet, an uppity social circle to move amongst, and a handsome architect proclaimed as the most eligible bachelor in the city. Yet Aunt Curtis has her own plans for Esther. Will Esther be able to overcome her sorrows and find a new happiness in Portland? Can she attract Henry Vallencourt's admiration before he makes an ill match? And what of her mysterious uncle and the secrets behind the locked bedchamber?

In many ways, the church today has more consumers than committed participants. We see church merely as an event we attend or an organization we belong to, rather than as a calling that shapes our entire life. Many of us would be relieved if God had placed our sanctification in the hands of trained professionals, but that simply is not the biblical model. God's plan is that through the faithful ministry of every part, the whole body will grow to maturity in Christ. All of his children are called into ministry, and each of them needs the daily intervention this ministry provides. God uses people, who need change themselves, as instruments of change in others. Tripp explains how his work follows an "all of my people, all of the time" model. If you followed the Lord for a thousand years, you would still need the ministry of the body of Christ as much as you did the day you first believed. This need will remain until our sanctification is complete in Glory

Practical, effective, evidence-based reading interventions that change students' lives Essentials of Understanding and Assessing Reading Difficulties is a practical, accessible, in-depth guide to reading assessment and intervention. It provides a detailed discussion of the nature and causes of reading difficulties, which will help develop the knowledge and confidence needed to accurately assess why a student is struggling. Readers will learn a framework for organizing testing results from current assessment batteries such as the WJ-IV, KTEA-3, and CTOPP-2. Case studies illustrate each of the concepts covered. A thorough discussion is provided on the assessment of phonics skills, phonological awareness, word recognition, reading fluency, and reading comprehension. Formatted for easy reading as well as quick reference, the text includes bullet points, icons, callout boxes, and other design elements to call attention to important information. Although a substantial amount of research has shown that most reading difficulties can be prevented or corrected, standard reading remediation efforts have proven largely ineffective. School psychologists are routinely called upon to evaluate students with reading difficulties and to make recommendations to address such difficulties. This book provides an overview of the best assessment and intervention techniques, backed by the most current research findings. Bridge the gap between research and practice Accurately assess the reason(s) why a student struggles in reading Improve reading skills using the most highly effective evidence-based techniques Reading may well be the most important thing students are taught during their school careers. It is a skill they will use every day of their lives; one that will dictate, in part, later life success. Struggling students need help now, and Essentials of Understanding and Assessing Reading Difficulties shows how to get these students on track. Designed to complement the best-selling 'Courageous Conversations About Race', this facilitator's guide shows how to use professional development events to help educational leaders examine the achievement gap through the prism of race.

Becoming a Supervisor tells the story of Trevor who works as one of the production team in a small company that makes toy boats. He is thrust into the role of supervisor unexpectedly when his general manager reacts to his constant suggestions of how things could be better. When the GM becomes ill, Trevor struggles to take up the slack for several months until a new GM arrives. The core of the book follows Trevor's growth under the coaching of Julie, his new GM. As Trevor deals with one challenge after another, Julie guides him on a journey to learn the core skills needed by all front-line leaders. The reader takes away four key ideas: (1) Front-line leadership skills are not too complicated to learn. (2) These skills are something that they can develop in themselves, regardless of what their organization does. (3) Tools and skills are there to help solve real business problems; implementing the tools is not a strategy. (4) In your role as supervisor (directing or responsible for others) you have to look after the mission of the company AND look after your people – doing only one is not an option. Essentially, this book is intended to give hope to a new supervisor or team lead. They will finish the book knowing that the skills they need can be

learned and aren't that difficult to acquire. It is designed to introduce the central skills that any supervisor has to be able to master at least with a basic working competency: instructing, leading, and making improvements in their own area. It introduces some of the more widely used tools that a new supervisor may need. More importantly, it ties these tools and skills to solving particular problems. Readers will understand that the tools are not important for their own sake, but only to the extent that the tools serve the larger objective of the organization. This book is designed to give the reader an entertaining and hopeful story about the very difficult transition from worker to supervisor, from being one of the crew to directing the crew. It is an emotionally tough transition, and the idea that someone could see a model of how it can work out will be helpful to folks new in a leadership role. Finally, the book provides a reference to other sources of information that will let the reader extend their learning about each of the tools or skills referenced in the contents.
