"In 1580's England, during the Black Plague a young Latin tutor falls in love with an extraordinary, eccentric young woman in this "exceptional historical novel" (The New Yorker) and best-selling winner of the Women's Prize for Fiction. Agnes is a wild creature who walks her family's land with a falcon on her glove and is known throughout the countryside for her unusual gifts as a healer, understanding plants and potions better than she does people. Once she settles with her husband on Henley Street in Stratford-upon-Avon she becomes a fiercely protective mother and a steadfast, centrifugal force in the life of her young husband, whose career on the London stage is taking off when his beloved young son succumbs to sudden fever. A luminous portrait of a marriage, a shattering evocation of a family ravaged by grief and loss, and a tender and unforgettable re-imagining of a boy whose life has been all but forgotten, and whose name was given to one of the most celebrated plays of all time, Hamnet is mesmerizing, seductive, impossible to put down--a magnificent leap forward from one of our most gifted novelists"--

An autobiographical exploration of the role and meaning of music in our world by one of India's greatest living authors, himself a

vocalist and performer. Amit Chaudhuri, novelist, critic, and essayist, is also a musician, trained in the Indian classical vocal tradition but equally fluent as a guitarist and singer in the American folk music style, who has recorded his experimental compositions extensively and performed around the world. A turning point in his life took place when, as a lonely teenager living in a high-rise in Bombay, far from his family's native Calcutta, he began, contrary to all his prior inclinations, to study Indian classical music. Finding the Raga chronicles that transformation and how it has continued to affect and transform not only how Chaudhuri listens to and makes music but how he listens to and thinks about the world at large. Offering a highly personal introduction to Indian music, the book is also a meditation on the differences between Indian and Western music and art-making as well as the ways they converge in a modernism that Chaudhuri reframes not as a twentieth-century Western art movement but as a fundamental mode of aesthetic response, at once immemorial and extraterritorial. Finding the Raga combines memoir, practical and cultural criticism, and philosophical reflection with the same individuality and flair that Chaudhuri demonstrates throughout a uniquely wide-ranging, challenging, and enthralling body of work.

Marketing visionary Martin Lindstrom has been on the front line of the branding for over twenty years. In *Brandwashed*, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned money. Lindstrom reveals eye opening details such as how advertisers and marketers target children at an alarmingly young age (starting when they are still in the womb), what heterosexual men really think about when they see sexually provocative advertising, how marketers and retailers stoke the flames of public panic and capitalize on paranoia over diseases, extreme weather events, and food contamination scares. It also presents the first ever evidence to prove how addicted we are to our smartphones, and how certain companies (like the maker of a very popular lip balm), purposely adjust their formulas in order to make their products chemically addictive, and much, much more. *Brandwashed* is a shocking insider's look at how today's global giants conspire to obscure the truth and manipulate our minds, all in service of persuading us to buy.

The *New Bruckner* provides a valuable study of Bruckner's music, focusing on the interaction of biography, textual scholarship, reception history and analysis. Dr Dermot Gault conveys a broad chronological narrative of Bruckner's compositional development, interpolating analytical commentaries on the works and critical accounts of the notoriously complex and editorial issues. Gault corrects longstanding misconceptions about the composer's revision process, and its relationship with the early editions and widely-held critical opinions. Bruckner's constantly evolving engagement with symphonic form is traced by taking each revision in due order, rather than by taking each symphony on its own, and by relating the symphonies to other mature works such as the *Te Deum*, the three great *Masses*, and the *Quintet*, and argues that Bruckner's music became more organic and less schematic as the result of his revisions. The book will be essential reading for those studying Bruckner's compositions, the complex history of their reception, and late Romantic music in general.

The *Flaming Cow* offers a rare insight into the brilliant but often fraught collaboration between Pink Floyd and composer Ron Geesin, the result of which became known as *Atom Heart Mother* – the Floyd's first UK number one album. From the time drummer Nick Mason visited Geesin's damp basement flat in Notting Hill, to the last game of golf between bassist Roger Waters and Geesin, this book is an unflinching account about how one of Pink Floyd's most celebrated compositions came to life. Alongside unpublished photographs from the Abbey Road recording sessions (the only ones taken) and the subsequent performances in London and Paris, Geesin goes on to describe how the title was chosen, why he was not credited on the record, how he left Hyde Park in tears, and why the group did not much like the work. The *Flaming Cow* rose again, firstly in France, then in London in 2008. After 40 years *Atom Heart Mother* remains a much-loved record, and *The Flaming Cow* explores its new-found cult status that has led to it being studied for the French Baccalauréat.

"3 Shape Fretboard by Gareth Evans is a thorough workbook for learning to understand and play scales on the guitar. The sheer number of different scales and modes may seem overwhelming, but the knowledge of the three basic shapes and a basic understanding of intervals will help a lot in seeing through the jungle. A tour de force of fretboard and scale knowledge" -- Mathias Lang, Guitar Teacher & Composer (Netherlands) 3-Shape Fretboard is for intermediate to advanced guitarists interested in learning how to work out guitar scales and arpeggios for themselves. Being able to create guitar scales and arpeggios yourself can give a better understanding, while knowing the logic behind them can make them more meaningful and therefore easier to learn. The Major Scale: It all starts with the major scale, the basis of music. All other scales and arpeggios can be defined in comparison to this scale. The book reflects this in practical terms by categorising the major scale into three different fundamental shapes, which once understood, can be used as templates to figure out other guitar scales and arpeggios. The CAGED System: This system can help to understand the larger CAGED guitar scale shapes in terms of their single octave components. For example, the five CAGED shapes for the major (or minor) pentatonic scales that each contain twelve notes, can be learned as only two shapes of five notes, which are joined end to end to give us the five full CAGED shapes. What Else? >> Various 3-Note per string scales can be understood as the same combination of single octave component types. >> See how basic major and minor chords are formed from within scales and look at triad and 7th chord based harmony. >> Each scale and arpeggio type has a question, with the answer at the back of the book in guitar tablature. >> 3-Shape Fretboard contains 600 fretboard diagrams. >> Intervals are grouped together in the context of the scales they are intended for, which can provide a foundation for learning intervals individually on the fretboard. Please Note: The eBook includes diagrams not suitable for smaller screens. "A logical and thorough approach to understanding scales, intervals and arpeggios on the guitar. All related to the universal CAGED idea of fretboard layout. Plenty to study and apply to your playing." -- Hedley Timbs, BA(Mus), Grad.Dip. Teaching (New Zealand) "I think the 3 pattern approach is very interesting and well documented. There is lots of good material and I like the approach. Very well organised, complete and clear with plenty of diagrams." -- Fabien Aubry, Composer, Arranger & Producer (Switzerland)
