Moving and romantic, this coming-of-age story was written during the 1940s. As revealed in an introduction by the author's granddaughter Léna Roy, the protagonist Elizabeth is close to an autobiographical portrait of L'Engle herself as a young woman—"vibrant, vulnerable, and yearning for love and all that life has to offer." During the summer of 1946, twenty-year-old Elizabeth is doing what she has dreamed of since she was a little girl: working in the theatre. Elizabeth is passionate about her work and determined to learn all she can at the summer theatre company on the sea where she is an apprentice actress. She's never felt so alive. And soon she finds another passion:

Kurt Canitz, the dashing young director of the company, and the first man Elizabeth's ever kissed who has really meant something to her. Then Elizabeth's perfect summer is profoundly shaken when Kurt turns out not to be the kind of man she thought he was. By the author of A Wrinkle in Time, the conclusion to the Polly O'Keefe stories finds Polly taking an unforgettable trip to Europe, all by herself. Sixteen-year-old Polly is on her way to the island of Cyprus, where she will work as a gofer. The trip was arranged by Maximiliana Horne, a rich, brilliant artist who, with her longtime companion, Dr. Ursula Heschel, recently became the O'Keefe family's neighbor on Benne Seed Island. Max and Polly formed an instant friendship and Max took over Polly's education, giving her the encouragement and confidence that her isolated upbringing had not. Polly adored Max, even idolized her, until Max betrayed her. In Greece, Polly finds romance, danger, and unique friendships. But can she ever forgive Max? The first book to show that immigration laws in the US have always been motivated by racial exclusion and the desire to save the idea of a white America. Racist anti-immigration policies, from the border wall to the Muslim ban, have left many Americans wondering: How did we get here? In a sweeping account, Reece Jones reveals that although the US is often mythologized as a nation of immigrants, it has a long history of immigration restrictions that are rooted in the racist fear of the “great replacement” of whites with non-white immigrants. After the arrival of the first slave ship in 1619, the colonies that became the United States were based on the dual foundation of open immigration for whites from Northern Europe and racial exclusion of slaves from Africa, Native Americans, and, eventually, immigrants from other parts of the world.

Connecting past to present, Jones uncovers the link between the Chinese Exclusion laws of the 1880s, the “Keep America American” nativism of the 1920s, and the “Build the Wall” chants initiated by former president Trump in 2016. Along the way, we meet a bizarre cast of characters, such as John Tanton, Cordelia Scaife May, and Stephen Miller, who moved fringe ideas about “white genocide” and “race suicide” into mainstream political discourse. Through gripping stories and in-depth analysis, Jones explores the connections between anti-immigration hate groups and the Republican Party, exposing the lasting impacts of white supremacist ideas on United States law.

Time

Madeleine L'Engle's ground-breaking science fiction and fantasy classic, now a major motion picture. It was a dark and stormy night; Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem. A Wrinkle in Time is the winner of the 1963 Newbery Medal. It is the first book in The Time Quintet, which consists of A Wrinkle in Time, A Wind in the Door, A Swiftly Tilting Planet, Many Waters, and An Acceptable Time. “An unusual and beautiful book,” the first novel by the bestselling author of A Wrinkle in Time explores the life of a young artist (Los Angeles Times). At only ten years old, Katherine Forrester has already experienced her fair share of upheaval. It has been three years since she last saw her mother, a concert pianist whose career was cut short by a terrible accident. After a brief reunion, tragedy strikes once more, forcing Katherine from the familiarity of New York City to a foreign Swiss boarding school. Far from home, she struggles with the challenges

Annotation copyright Tsai Fong Books, Inc. Distributed by Tsai Fong Books, Inc. In book four of the award-winning Austin Family Chronicles young adult series from Madeleine L'Engle, author of A Wrinkle in Time, Vicky Austin experiences the difficulties and joys of growing up. "This wasn't the first time that I'd come close to death, but it was the first time I'd

been involved in this part of it, this strange, terrible saying goodbye to someone you've loved." These are Vicky Austin's thoughts as she stands near Commander Rodney's grave while her grandfather, who himself is dying of cancer, recites the funeral service. Watching his condition deteriorate over that long summer is almost more than she can bear. Then, in the midst of her struggle, she finds herself the center of attention for three young men. Leo, Commander Rodney's son, turns to her as an old friend seeking comfort but longing for romance. Zachary, whose attempted suicide inadvertently caused Commander Rodney's death, sees her as the one sane and normal person who can give some meaning to his life. And Adam, a serious young student working at the nearby marine-biology station, discovers Vicky, his friend's little sister, incipient telepathic powers that can help him with his experiments in dolphin communications. Vicky finds solace and brief moments of peace in her poetry, but life goes on around her, and the strain intensifies as she confronts matters of love and of death, of dependence and of responsibility, universal concerns that we all must face. The inevitable crisis comes and Vicky must rely on openness, sensitivity, and the love of others to overcome her private grief. Once again, Madeleine L'Engle has written a story that revels in the drama of vividly portrayed characters and events of the spiritual and moral dimensions of common human experiences. In this award-winning young adult series from Madeleine L'Engle, author of A Wrinkle in Time,
Vicky Austin experiences the difficulties and joys of growing up. The Austins are trying to settle
into their new life in New York City, but their once close-knit family is pulling away from each
other. Their father spends long hours alone in his study working on the research project that
brought the family to the city. John is away at college. Rob is making friends with people in the
neighborhood: newspaper vendors, dog walkers, even the local rabbi. Suzy is blossoming into
a vivacious young woman. And Vicky has become closer to Emily Gregory, a blind and brilliant
young musician, than to her sister Suzy. With the Austins going in different directions, they
don't notice that something sinister is going on in their neighborhood—and it's centered around
them. A mysterious genie appears before Rob and Emily. A stranger approaches Vicky in the
park and calls her by name. Members of a local gang are following their father. The entire
Austin family is in danger. If they don't start telling each other what's going on, someone just
might get killed. Books by Madeleine L'Engle A Wrinkle in Time Quintet A Wrinkle in Time A

Starfish Dragons in the Waters A House Like a Lotus And Both Were Young Camilla The Joys of Love

Book two in the award-winning young adult Austin Family Chronicles series from Madeleine L'Engle, author of *A Wrinkle in Time*, Vicky Austin experiences the difficulties and joys of growing up. As if simply being fourteen-years-old weren't bad enough—what with the usual teenage angst and uncertainty, Vicky Austin's always comforting and reliable home life is changing completely. Her brother John is going off to college in the fall. Maggy, an orphan taken in by the Austins two years ago, has gone to live with her legal guardian. And the rest of Vicky's family is moving from their quiet house in the country to the heart of New York City. But before the big move, the entire Austin family is taking a meandering trip across the country in their station wagon, stopping to camp along the way, with no set schedule and not a single night of camping experience among them. Wild animal attacks. Life-threatening natural disasters. Cute boys on the prowl. Anything can happen in the great outdoors. With Meg Murry's help, the dragons her six-year-old brother saw in the vegetable garden play an important part in his struggle between life and death. Simultaneous.

In A Wrinkle in Time Quintet book two, Meg Murry, now in college, time travels with her twin brothers, Sandy and Dennys, to a desert oasis that is embroiled in war. Sandy and Dennys have always been the normal, run-of-the-mill ones in the extraordinary Murry family. They garden, make an occasional A in school, and play baseball. Nothing especially interesting has happened to the twins until they accidentally interrupt their father's experiment. Then the two boys are thrown across time and space. They find themselves alone in the desert, where, if they believe in unicorns, they can find unicorns, and whether they believe or not, mammoths and manticores will find them. The twins are rescued by Japheth, a man from the nearby oasis, but before he can bring them to safety, Dennys gets lost. Each boy is quickly embroiled in the conflicts of this time and place, whose populations includes winged seraphim, a few stray mythic beasts, perilous and beautiful nephilim, and small, long lived humans who consider Sandy and Dennys giants. The boys find they have more to do in the oasis than simply getting themselves home--they have to reunite an estranged father and son, but it won't be easy, especially when the son is named Noah and he's about to start building a boat in the desert.

Told in diary form by an irresistible heroine, this “heartfelt, bittersweet, and ever-so-clever coming-of-age fantasy” (School Library Journal, starred review) named one of Publishers Weekly’s Best Books of the Year from the New York Times bestselling author of the May Bird trilogy sparkles with science, myth, magic, and the strange beauty of the everyday marvels we sometimes forget to notice. Spirited, restless Gracie Lockwood has lived in Cliffden, Maine, her whole life. She’s a typical girl in an atypical world: one where sasquatches helped to win the Civil War, where dragons glide over Route 1 on their way south for the winter (sometimes burning down a T.J. Maxx or an Applebee’s along the way), where giants hide in caves near LA and mermaids hunt along the beaches, and where Dark Clouds come for people when they die. To Gracie it’s all pretty ho-hum...until a Cloud comes looking for her little brother Sam, turning her small-town life upside down. Determined to protect Sam against all odds, her

parents pack the family into a used Winnebago and set out on an epic search for a safe place that most people say doesn't exist: The Extraordinary World. It's rumored to lie at the ends of the earth, and no one has ever made it there and lived to tell the tale. To reach it, the Lockwoods will have to learn to believe in each other—and to trust that the world holds more possibilities than they've ever imagined.

Sandy and Dennys interrupt their father's experiment and find themselves in the middle of a desert. They discover that they must not only find the way home, but must also reunite a man and his son--a boy named Noah. The first book in the Time Quartet.
