

The Young Country Doctor Book 4 Bilbury Country

A powerful true story about a Muslim doctor's service to small-town America and the hope of overcoming our country's climate of hostility and fear. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY PUBLISHERS WEEKLY In 2013, Ayaz Virji left a comfortable job at an East Coast hospital and moved to a town of 1,400 in Minnesota, feeling called to address the shortage of doctors in rural America. But in 2016, this decision was tested when the reliably blue, working-class county swung for Donald Trump. Virji watched in horror as his children faced anti-Muslim remarks at school and some of his most loyal patients began questioning whether he belonged in the community. Virji wanted out. But in 2017, just as he was lining up a job in Dubai, a local pastor invited him to speak at her church and address misconceptions about what Muslims practice and believe. That invitation has grown into a well-attended lecture series that has changed hearts and minds across the state, while giving Virji a new vocation that he never would have expected. In *Love Thy Neighbor*, Virji relates this story in a gripping, unforgettable narrative that shows the human consequences of our toxic politics, the power of faith and personal conviction, and the potential for a renewal of understanding in America's heartland.

Bilbury Chronicles is the first of a series of books (all available on Amazon as Ebooks) describing the adventures (and misadventures) of a young doctor who enters general practice as an assistant to an elderly and rather eccentric doctor in Devon, England. When he arrives in Bilbury, a small village on the edge of Exmoor where central heating is a log fire in the middle of the room and where doors are never locked, the young doctor doesn't realise how much he has to learn. But he soon finds the extent of his ignorance when he meets his patients. There is Anne Thwaites who gives birth in the middle of a field and local rogue Thumper Robinson who knows a good many tricks that aren't in any textbooks. And there is Mike Trickle, a TV show host, who causes great excitement when he buys a house in the village. The young doctor's employer is elderly Dr Brownlow who lives in a house that looks like a castle, drives an old Rolls Royce and patches his stethoscope with a bicycle inner tube repair kit. The local pub, the Duck and Puddle, is run by Frank, the inebriate landlord, and the village shop is run by Peter who also drives the local taxi, delivers the mail and acts as the local undertaker. There is Miss Johnson, the receptionist with a look that can curdle milk; Mrs Wilson, the buxom district nurse and Len, her husband who is the local policeman with an embarrassing secret. And there is Patsy. The author of the *Bilbury* series of books, Dr Vernon Coleman, is a qualified doctor who has written over 100 books which have sold more than two million copies in hardback and paperback in the UK and been translated into 24 languages. Welcome to the colourful Ulster village of Ballybucklebo, where two doctors work hand in hand to mend the bodies and spirits of the town's diverse and engaging inhabitants. But who is looking after the wounded hearts of the doctors? After less than a year, young Barry Laverty, M.B., is settling in to the village, with only a few months to go before he becomes a full partner in the practice. He's looking forward to becoming a fixture in the community, until an unexpected romantic reversal gives him second thoughts. Will he truly be happy tending to routine coughs and colds for the rest of his career? After all, even when a more challenging case comes along, like a rare tropical disease, all he can do is pass it on to a qualified specialist or big-city hospital. As much as Barry enjoys the rough and tumble of life in County Down, is running a humble GP's shop all he wants out of life? Barry's mentor, Doctor Fingal Flahertie O'Reilly, is going through some personal upheavals as well. After mourning his deceased wife for decades, he's finally allowed a new woman into his life. But this budding courtship is not going over well with Kinky Kincaid, the doctors' redoubtable housekeeper, who fears having her position usurped by O'Reilly's new flame. Tact, diplomacy, and a fair amount of blarney may be required to restore peace to the household. Meanwhile, life goes on in Ballybucklebo, presenting both doctors with plenty of distractions from their own troubles. From a mysterious outbreak at the local school to a complicated swindle involving an unlucky racehorse, the two partners will need all of their combined wit and compassion to put things right again--just in time for their lives to change forever. An Irish Country Love Story is the eleventh heartwarming installment in New York Times and Globe and Mail bestselling author Patrick Taylor's beloved Irish Country series. It's the winter of 1967 and snow is on the ground in the colorful Irish village of Ballybucklebo, but the chilly weather can't stop love from warming hearts all over the county. Not just the love between a man and woman, as with young doctor, Barry Laverty, and his fiancée Sue Nolan, who are making plans to start a new life together, but also the love of an ailing pensioner for a faithful dog that's gone missing, the love of the local gentry for the great estate they are on verge of losing, or Doctor Fingal Flahertie O'Reilly's deep and abiding love for his long-time home and practice. For decades, ever since the war, Number One Main Street, Ballybucklebo, has housed O'Reilly and his practice. In recent years, it has also opened its doors to O'Reilly's wife, Barry Laverty, and a new addition to the practice, Doctor Nonie Stevens, a sultry and occasionally prickly young woman who may not be fitting in as well as she should. It is to Number One that patients young and old come when they need a doctor's care, for everything from the measles to a rare and baffling blood disease. An unexpected turn of events threatens to drive O'Reilly from his home for good, unless the entire village can rally behind their doctor and prove that love really can conquer all. It is one of Tolstoy's most celebrated

pieces of late fiction. This work stems in part from Tolstoy's anguished intellectual and spiritual struggles which led to his conversion to Christianity. Central to the story is an examination on the nature of both life and death, and how man can come to terms with death's very inevitability. The novella was acclaimed by Vladimir Nabokov and Mahatma Gandhi as the greatest in the whole

Part autobiography, part fiction, this early work by the author of *The Master and Margarita* shows a master at the dawn of his craft, and a nation divided by centuries of unequal progress. In 1916 a 25-year-old, newly qualified doctor named Mikhail Bulgakov was posted to the remote Russian countryside. He brought to his position a diploma and a complete lack of field experience. And the challenges he faced didn't end there: he was assigned to cover a vast and sprawling territory that was as yet unvisited by modern conveniences such as the motor car, the telephone, and electric lights. The stories in *A Country Doctor's Notebook* are based on this two-year window in the life of the great modernist. Bulgakov candidly speaks of his own feelings of inadequacy, and warmly and wittily conjures episodes such as peasants applying medicine to their outer clothing rather than their skin, and finding himself charged with delivering a baby—having only read about the procedure in text books. Not yet marked by the dark fantasy of his later writing, this early work features a realistic and wonderfully engaging narrative voice—the voice, indeed, of twentieth century Russia's greatest writer.

Pre-publication subtitle: A story of unraveling minds.

A powerful nineteenth-century French classic depicting the moral degeneration of a weak-willed woman

Dr Coleman has been a passionate advocate of patient's rights for over thirty years, and in writing this book he has drawn together a vast amount of information which will help readers to live longer and healthier lives. It shows how patients can protect themselves against an increasingly incompetent and dangerous medical profession.

One of "the best writers of our time" (Ann Patchett) offers this hilarious yet haunting cycle of stories—all previously uncollected. Since the explosive publication of *Oldest Living Confederate Widow Tells All*, Allan Gurganus has dazzled readers as "the most technically gifted and morally responsive writer of his generation" (John Cheever). He has been praised as "one of America's preeminent novelists, our prime conductor of electric sentences" (William Gibaldi). Above all, Allan Gurganus is a seriously funny writer, an expert at evoking humor, especially in our troubled times. Now he offers nine classic tales—never before between covers. They attest to his mastery of the short story and the growing depth of his genius. Offering characters antic and tragic, Gurganus charts the human condition—masked and unmasked—as we live it now. "Once upon a time" collides with the everyday. We meet a mortician whose dedication to his departed clients exceeds all legal limits. We encounter a seaside couple fighting to save their family dog from Maine's fierce undertow. A virginal seventy-eight-year-old grammar school librarian has her sole erotic experience with a polyamorous snake farmer. A vicious tornado sends twin boys aloft, leaving only one of them alive. And, in an eerily prescient story, cholera strikes a rural village in 1849 and citizens come to blame their doomed young doctor who saved hundreds. These meticulously crafted parables recall William Faulkner's scope and Flannery O'Connor's corrosive wit. Imbuing each story with charged drama, Gurganus, a sublime ventriloquist, again proves himself among our funniest writers and our wisest.

A brilliant and ambitious woman is eager to establish her career as a doctor but is forced to choose between her occupation and married life. This timely tale presents an internal conflict facing women in the nineteenth century and beyond. Nan is a bright young woman who grows up under the tutelage of the widowed physician, Dr. Leslie. She became interested in medicine at an early age and decides to pursue it as an adult. Unfortunately, her desire to start a career goes against the social conventions of the day. Women are expected to prioritize marriage and children over any profession. Yet, Nan struggles to desert her goals to appease others. It's a trying dilemma that pits her against her family, friends and local residents. *A Country Doctor* is a semiautobiographical story influenced by the author's personal path to independence. The novel explores the many limitations women encounter when attempting to establish a career. It's a forward-thinking tale and source of encouragement for those seeking professional growth. With an eye-catching new cover, and professionally typeset manuscript, this edition of *A Country Doctor* is both modern and readable.

In book four of the award-winning *Austin Family Chronicles* young adult series from Madeleine L'Engle, author of *A Wrinkle in Time*, Vicky Austin experiences the difficulties and joys of growing up. "This wasn't the first time that I'd come close to death, but it was the first time I'd been involved in this part of it, this strange, terrible saying goodbye to someone you've loved." These are Vicky Austin's thoughts as she stands near Commander Rodney's grave while her grandfather, who himself is dying of cancer, recites the funeral service. Watching his condition deteriorate over that long summer is almost more than she can bear. Then, in the midst of her struggle, she finds herself the center of attention for three young men. Leo, Commander Rodney's son, turns to her as an old friend seeking comfort but longing for romance.

Zachary, whose attempted suicide inadvertently caused Commander Rodney's death, sees her as the one sane and normal person who can give some meaning to his life. And Adam, a serious young student working at the nearby marine-biology station, discovers Vicky, his friend's little sister, incipient telepathic powers that can help him with his experiments in dolphin communications. Vicky finds solace and brief moments of peace in her poetry, but life goes on around her, and the strain intensifies as she confronts matters of love and of death, of dependence and of responsibility, universal concerns that we all must face. The inevitable crisis comes and Vicky must rely on openness, sensitivity, and the love of others to overcome her private grief. Once again, Madeleine L'Engle has written a story that revels in the drama of vividly portrayed characters and events of the spiritual and moral dimensions of common human experiences. *A Ring of Endless Light* is a 1981 Newbery Honor Book. There are no secrets in a small country town but if you open your mind as well as your heart, who knows what's around the corner. Twenty five years ago Paul Carter moved from inner city Melbourne to regional Victoria on a tree-changing whim. But in a country town you are not just simply the family doctor, you are also a confidante, advocate, priest, batsman, bowler, banker, topic of gossip and even best man. In the spirit of James Herriot and Whitney Otto, *The Further Tales of a Country Doctor* are Paul's stories of the tapestries of life overseeing a country practice. Rich, spirited, irresistible, sombre but overwhelmingly uplifting, the humanity of these stories will stay with you for a long time.

Fans of Flaubert's *Madame Bovary* will want to read this reimagining of one of literature's most famous failures, Charles Bovary. Part fiction, part philosophy, *Charles Bovary, Country Doctor* is also a book about love. *Charles Bovary, Country Doctor* is one of the most unusual projects in twentieth-century literature: a novel-essay devoted to salvaging poor bungler Charles Bovary, the pathetic, laughable, cuckolded husband of Madame Bovary and the heartless creation of Gustave Flaubert. As a once-promising novelist who was tortured by the Nazis and survived a year in Auschwitz, author Jean Améry had a particular sympathy for the lived experience of vulnerability, affliction, and suffering, and in this book—available in English for the first time—he asserts the moral claims of Dr. Bovary. What results is a moving paean to the humanity of Charles Bovary and to the supreme value of love.

Long before Dr. Fingal Flahertie O'Reilly came to the colourful Irish village of Ballybucklebo, young Surgeon-lieutenant O'Reilly answered the call of duty to serve in World War II. Fingal just wants to marry his beloved Deirdre and live happily ever after. First he must hone his skills at a British naval hospital before reporting back to the HMS Warspite, where, as a ship's doctor, he faces danger upon the high seas. With German bombers a constant threat, the future has never been more uncertain, but Fingal and Deirdre are determined to make a life together . . . no matter what may lie ahead.

Decades later, the war is long over, and O'Reilly is content to mend the bodies and souls of his patients in Ballybucklebo, but there are still changes and challenges aplenty. A difficult pregnancy, as well as an old colleague badly in denial concerning his own serious medical condition, tests O'Reilly and his young partner, Barry Laverty. But even with all that occupies him in the present, can O'Reilly ever truly let go of the ghosts from his past? Shifting effortlessly between two singular eras, bestselling author Patrick Taylor continues the story of O'Reilly's wartime experiences, while vividly bringing the daily joys and struggles of Ballybucklebo to life once more.

A charming Christmas entry in Patrick Taylor's beloved internationally bestselling Irish Country series, *An Irish Country Yuletide*. December 1965. 'Tis the season once again in the cozy Irish village of Ballybucklebo, which means that Doctor Fingal Flahertie O'Reilly, his young colleague Barry Laverty, and their assorted friends, neighbors, and patients are enjoying all their favorite holiday traditions: caroling, trimming the tree, finding the perfect gifts for their near and dear ones, and anticipating a proper Yuletide feast complete with roast turkey and chestnut stuffing. There's even the promise of snow in the air, raising the prospect of a white Christmas. Not that trouble has entirely taken a holiday as the season brings its fair share of challenges as well, including a black-sheep brother hoping to reconcile with his estranged family before it's too late, a worrisome outbreak of chickenpox, and a sick little girl whose faith in Christmas is in danger of being crushed in the worst way. As roaring fireplaces combat the brisk December chill, it's up to O'Reilly to play Santa, both literally and figuratively, to make sure that Ballybucklebo has a Christmas it will never forget! And who exactly is going to win the award for the best dandelion wine at this year's Harvest Festival? But while Barry and Dr. Fingal Flahertie O'Reilly and their fellow physicians deal with everything from brain surgery to a tractor accident to a difficult pregnancy, there's still time to share the comforting joys and pleasures of this very special place: fly-fishing, boat races, and even the town's very first talent competition! An Irish Country Cottage is a charming entry in Patrick Taylor's beloved New York Times and internationally bestselling Irish Country series. The New Year brings challenges and changes to the colorful Irish village of Ballybucklebo. The Christmas holidays have barely passed before a fire engulfs the humble thatched cottage housing of Donal Donnally and his family. Good thing Doctors O'Reilly and Laverty are on hand to rally the good people of Ballybucklebo to come to their aid. Rebuilding the cottage won't be quick or easy, but good neighbors from all walks of life will see to it that the Donallys get back on their feet again, no matter what it takes. Learning on the job as a newly qualified doctor, unsure of many aspects of my role, meant some problems with communication and I encountered births and deaths and in between found my feet. Patients, young and old, delightful and difficult, and colleagues presented challenges to be met, both medical and otherwise. From a toddler with a mysterious illness, to a young rascal with a hook in his hand from poaching, a philandering colleague and an elderly lady who wanted to rewrite her will, I had to cope with them all - not to mention the arrival of modern technology.

Another collection of memories from the English village of Bilbury, set in the 1970s. The book contains the usual mixture of medical and country stories and all the usual characters appear. A stand alone book which can be enjoyed by readers new to the series.

This book takes a deep look into the folk medicine of Vermont. Written by a formally trained doctor who realised the local folk medicine was not only tradition but imperative to the way of life and the health of fellow Vermonters. This little guide provides knowledge and understanding of the nature and long successful uses of folk medicine and will be invaluable to anyone interested in daily increased vitality from childhood through maturity to satisfyingly active old age.

The Young Country Doctor Book 1 Bilbury Chronicles

Bilbury Grange is the second in Vernon Coleman's series of Bilbury books. The place is the English county of Devon. The time is the 1970s. A young doctor, just married and in a new home (a vast and rambling country house in desperate need of repairs and renovation), has taken over a small village practice when suddenly the authorities decide that the village isn't big enough to have its own doctor. The villagers decide otherwise. Bilbury is the village everyone dreams of living in. It's the village where people speak to strangers and where doors are left unlocked. Bilbury Grange is the story of village life in the 1970s and it centres on the young doctor and his lovely wife. But it's also about the people who live there and it is a story of great happiness and joy, some tragedy and many dramas. For sheer relaxing pleasure here's another witty tale from the doctor whose prolific writings are so well known. BBC Bookshelf 'A wonderful book for relaxing and unwinding. Makes you want to up roots and move to the rural heartland.' Lincolnshire Echo 'A cornucopia of colourful characters help to weave a rich tapestry of village life subtly tempered with gentle humour...the mixture of rural beauty, human nature and the odd whisper of nostalgia combine to make this book a real delight.' Western Gazette 'The tales he tells are truly uplifting and thought provoking. They are a breath of fresh air in a troubled world and are also very amusing.' Peoples Friend 'I have just finished reading Bilbury Grange. I found the book to be brilliant. I felt as though I was part of the community.' Mr C, Cleethorpes Vernon Coleman, a qualified doctor and GP, is the bestselling author of over 100 books which have sold more than two million copies in the UK and been translated into 24 languages. In addition to the Bilbury books his work includes Mrs Caldicot's Cabbage War (which has been filmed), Mr Henry Mulligan, Second Innings, It's Never Too Late and Paris in my Springtime. Journalist Beth Macy's definitive account of America's opioid epidemic "masterfully interlaces stories of communities in crisis with dark histories of corporate greed and regulatory indifference" (New York Times) -- from the boardroom to the courtroom and into the living rooms of Americans. In this extraordinary work, Beth Macy takes us into the epicenter of a national drama that has unfolded over two decades. From the labs and marketing departments of big pharma to local doctor's offices; wealthy suburbs to distressed small communities in Central

Appalachia; from distant cities to once-idyllic farm towns; the spread of opioid addiction follows a tortuous trajectory that illustrates how this crisis has persisted for so long and become so firmly entrenched. Beginning with a single dealer who lands in a small Virginia town and sets about turning high school football stars into heroin overdose statistics, Macy sets out to answer a grieving mother's question-why her only son died-and comes away with a gripping, unputdownable story of greed and need. From the introduction of OxyContin in 1996, Macy investigates the powerful forces that led America's doctors and patients to embrace a medical culture where overtreatment with painkillers became the norm. In some of the same communities featured in her bestselling book *Factory Man*, the unemployed use painkillers both to numb the pain of joblessness and pay their bills, while privileged teens trade pills in cul-de-sacs, and even high school standouts fall prey to prostitution, jail, and death. Through unsparing, compelling, and unforgettably humane portraits of families and first responders determined to ameliorate this epidemic, each facet of the crisis comes into focus. In these politically fragmented times, Beth Macy shows that one thing uniting Americans across geographic, partisan, and class lines is opioid drug abuse. But even in the midst of twin crises in drug abuse and healthcare, Macy finds reason to hope and ample signs of the spirit and tenacity that are helping the countless ordinary people ensnared by addiction build a better future for themselves, their families, and their communities. "An impressive feat of journalism, monumental in scope and urgent in its implications." -- Jennifer Latson, *The Boston Globe*
