Heather Laing examines, for the first time, the issues of gender and emotion that underpin the classical style of film scoring, but that have until now remained unquestioned and untheorized, thus providing a benchmark for thinking on more recent and alternative styles of scoring. Many theorists have discussed this type of music in film as a signifier of emotion and 'the feminine', a capacity in which it is frequently associated with female characters. The full effect of such an association on either female or male characterization, however, has not been examined. This book considers the effects of this association by progress through three stages: cultural-historical precedents, the generic parameters of melodrama and the woman's film, and the narrativization of music in film through diegetic performance and the presence of musicians as characters. Case studies of specific films provide textual and musical analyses, and the genres of melodrama and the woman's film have been chosen as representative not only of the epitome of the Hollywood scoring style, but also of the narrative association of women, emotion and music. Laing leads to the conclusion that music functions as more than merely a signifier of emotion. Rather, it takes a crucial role in both indicating and determining how emotion is actually understood as part of the construction of gender and its representation in film.

Born and raised in Port McNicoll, John Arpin discovered his musical talents early: at the age of four he could pick out tunes on the piano that he had heard on the radio; by ten, he had been identified as a child prodigy by a Royal Conservatory of Music adjudicator. He would go on to become one of Canada's finest keyboard virtuosos, playing at concert halls around the world. Equally at ease performing solo piano concerts, being accompanied by a full symphony orchestra, jamming with jazz greats, or accompanying

opera singers, he was, perhaps, best known as the premier ragtime pianist of his day. This authorized biography is based on more than 40 hours of conversation during the last four years of John's life and supported by extensive research. Included are his friendships with Glenn Gould, Gordon Lightfoot, and others, his years as the designated artist for Yamaha, and his rise to prominence as a veteran of the concert stage. His stories represent pure Canadian music history.

Early '70s Radio focuses on the emergence of commercial music radio "formats," which refer to distinct musical genres aimed toward specific audiences. This formatting revolution took place in a period rife with heated politics, identity anxiety, large-scale disappointments and seemingly insoluble social problems. As industry professionals worked overtime to understand audiences and to generate formats, they also laid the groundwork for market segmentation. Audiences, meanwhile, approached these formats as safe havens wherein they could re-imagine and redefine key issues of identity. A fresh and accessible exercise in audience interpretation, Early '70s Radio is organized according to the era's five prominent formats and analyzes each of these in relation to their targeted demographics, including Top 40, "soft rock", album-oriented rock, soul and country. The book closes by making a case for the significance of early '70s formatting in light of commercial radio today.

? Charlie Chaplin the actor is universally synonymous with his beloved Tramp character. Chaplin the director is considered one of the great auteurs and innovators of cinema history. Less well known is Chaplin the composer, whose instrumental theme for Modern Times (1936) later became the popular standard "Smile," a Billboard hit for Nat "King" Cole in 1954. Chaplin was prolific yet could not read or write music. It took a rotating cast of talented musicians to translate his unorthodox humming, off-key singing, and amateur piano and violin playing into the singular orchestral vision he heard in his head. Drawing on numerous transcriptions from 60 years of original scores, this comprehensive study reveals the untold story of Chaplin the composer and the string of famous (and not-so-famous) musicians he employed, giving fresh insight into his films and shedding new light on the man behind the icon.

Winner of the Pulitzer Prize for Drama and winner of the New York Drama Critics Circle Award for Best Play, this modern American classic is about family, and the legacy of slavery in America. August Wilson has already given the American theater such spell-binding plays about the black experience in 20th-century America as *Ma Rainey's Black Bottom*, *Joe Turner's Come and Gone*, and the Pulitzer Prize-winning *Fences*. In his second Pulitzer Prize-winner, *The Piano Lesson*, Wilson has fashioned perhaps his most haunting and dramatic work. At the heart of the play stands the ornately carved upright piano which, as the Charles family's prized, hard-won possession, has been gathering dust in the parlor of Berniece Charles's Pittsburgh home. When Boy Willie, Berniece's exuberant brother, bursts into her life with his dream of buying the same Mississippi land that his family had worked as slaves, he plans to sell their antique piano for the hard cash he needs to stake his future. But Berniece refuses to sell, clinging to the piano as a reminder of the history that is their family legacy. This dilemma is the real "piano lesson," reminding us that blacks are often deprived both of the symbols of their past and of opportunity in the present.

The first ever narrative biography of a towering figure in British comedy Les Dawson, more than any other comedian, spoke for the phlegmatic, pessimistic British way of life. A Northern lad who climbed out of the slums thanks to an uncommonly brilliant mind, he was always the underdog, but his bark was funnier and more incisive than many comics who claimed to bite. Married twice in real life, he had a third wife in his comic world—a fictional ogre built from spare

parts left by fleeing Nazis at the end of World War II—and an equally frightening mother-in-law. He was down to earth, yet given to eloquent, absurd flights of fancy. review) Concert pianist Diana is finally ready to marry her longtime fiance, Arie; she's even composing a beautiful love song for him, and finishes it while on tour. Before she can play it for him, though, tragedy strikes—and Diana is lost to Arie forever. But her song might not be. In Australia, the world has gone quiet for Arie and he lives his life accordingly, struggling to cope with his loss. In Scotland, a woman named Evie is taking stock of her life after the end of another lackluster almost-relationship. Years of wandering the globe and failing to publish her poetry have taken their toll, and she might finally be ready to find what her travels have never been able to give her: a real home. And through a quirk of fate or circumstance, Diana's song is passed from musician to musician. By winding its way around the world, it just might bring these two lost souls together. With heart-wrenching emotion, *The Last Love Song* explores what it means to be lost, what it means to be found, and the power of music to bring people together.
