Provides things to make that include a pharaoh's headdress, an Egyptian god puppet with moveable arms and a mummy in a sarcophagus. This title contains information boxes on each page with facts about the Egyptians.

A book from the stand-up mathematician that makes math fun again! Math is boring, says the mathematician and comedian Matt Parker. Part of the problem may be the

Access Free Things To Make And Do In The Fourth Dimension Matt Parker

way the subject is taught, but it's also true that we all, to a greater or lesser extent, find math difficult and counterintuitive. This counterintuitiveness is actually part of the point, argues Parker: the extraordinary thing about math is that it allows us to access logic and ideas beyond what our brains can instinctively do—through its logical tools we are able to reach beyond our innate abilities and grasp more and more abstract concepts. In the absorbing and exhilarating *Things to Make and Do in the Fourth Dimension*, Parker sets out to convince his readers to revisit the very math that put them off the subject as fourteen-year-olds. Starting with the foundations of math familiar from school (numbers, geometry, and algebra), he reveals how it is possible to climb all the way up to the topology and to four-dimensional shapes, and from there to infinity—and slightly beyond. Both playful and sophisticated, *Things to Make and Do in the Fourth Dimension* is filled with captivating games and puzzles, a buffet of optional hands-on activities that entices us to take pleasure in math that is normally only available to those studying at a university level. *Things to Make and Do in the Fourth Dimension* invites us to re-learn much of what we missed in school and, this time, to be utterly enthralled by it.

"The New Guide To Dog Breeds" is a comprehensive visual encyclopedia of pedigree dog breeds from all over the world. The terriers, toys, sporting dogs, working dogs and non-working dogs are all included. The dogs are fully described breed-by-breed and such important characteristics as temperament, grooming, feeding and exercise needs,

as well as average size are highlighted. Glorious photographs of each breed accompany the expert text. The perfect guide for those wishing to choose a breed to keep and for anyone interested in breeding and showing pedigree dogs either professionally or as a hobby. -- A comprehensive visual guide to more than 180 breeds from all over the world, from the lovable and familiar Golden Retriever and Springer Spaniel to the more unusual Hungarian Puli, Lhasa Apso, Bedlington Terrier, and Segugio Italiano. -- Fascinating descriptions of each breed including essential information on grooming, feeding, exercise needs as well as insights into each dog's typical character and temperament. -- A wonderful book for any dog-lover, beautifully illustrated with over 400 four color illustrations.

The stick is a universal toy. Totally natural, all-purpose, free, it offers limitless opportunities for outdoor play and adventure and it provides a starting point for an active imagination and the raw material for transformation into almost anything! As New York's Strong National Museum of Play pointed out when they selected a stick for inclusion in their National Toy Hall of Fame, 'It can be a Wild West horse, a medieval knight's sword, a boat on a stream, or a slingshot with a rubber band . . .' In this book Fiona Danks and Jo Schofield offer masses of suggestions for things to do with a stick, in the way of adventures and bushcraft, creative and imaginative play, games, woodcraft and conservation, music and more.

This volume should stimulate the imagination of every fairy-adoring little girl, as it

includes easy fairy projects in one activity book. It covers dressing-up ideas including fairy wings and flower petal skirts, to craft projects and fun presents to make.

Each activity is accompanied by illustrations of every stage, plus an image of the finished item, to ensure great results. Plus stickers which can be used to add a final decorative touch. The classic Usborne Things to Make and Do series, now revamped for a new generation. Simple craft projects which can all be completed using only the most readily-available household items. **WARNING!** Not suitable for children under 36 months because of small parts. Choking Hazard

A fun-packed art and craft ebook from the brilliantly creative, Mister Maker! Join Mister Maker and his friends and learn how to make everyday objects into art. Fun projects that use easy-to-find everyday materials. Make things that fly, fling, spin, swim, whoosh, zoom and ooze, and discover the surprising science behind them.

This book is a collection of projects for Christmas, including tree decorations, gift tags, wrapping paper, fingerprint fat robins, and paper angels.

This handy book contains 50 stimulating activities -- make your own foaming monsters, hanging crystals, kaleidoscopes and more. A fresh approach to the practical world of science, combining creative craft activities with the basics of physics, chemistry and biology. Each activity that is accompanied by illustrated,

step-by-step instructions. A great introduction to science for young children. Presents over one hundred crafts with easy-to-follow instructions to create for each season of the year.

Easy-to-follow step-by-step instructions help children create glitterbugs, flower fairy tiaras, swirly stars, mermaid bookmarks, an ice castle collage and much more. Shiny silver foil stickers are included to make projects even sparklier! Easy to follow instructions for creative and fun things for kids to make and do. Make it Wild! shows how children can enjoy the endless opportunities offered by wild places. Looking at what nature has to offer, they explore the potential of diverse raw materials such as snow, leaves, and sticks and suggest how to work with them. The book demonstrates how to use nature's free, renewable resources to make anything from a clay monster to an ice lantern or flaming balloons. Making things outdoors involves creativity and imagination, as well as learning how to solve practical problems, how to work together, the need to see a process through from start to finish, and the safe use of potentially dangerous tools — all of which help children acquire the skills they need to cope with the world and develop a commonsense understanding of the way it works.
