These 19 folk stories originated by the Indians of South America include tales about giants, witches, and animals

The book consists of lore as told by the Chagga tribe which lives at the foot of Mountain Kilimanjaro Tanzania. The tribal lore has been passed down from many generations.

Danish author and poet Hans Christian Andersen is regarded as one of the most important figures in the genre of children's literature. With tales such as "The Ugly Duckling," "The Little Mermaid," "The Steadfast Tin Soldier," "The Snow Queen," "Thumbelina," and "The Little Match Girl," Andersen has captivated generations of readers around the globe. This collection presents an array of

Andersen's most beloved fairy tales.

"They say that the eldest of the chief's daughters..." So begins a tale from the Basotho, unfolded by the meager light of a dung fire that burns smokily behind the reed screen sheltering the entrance of the hut. The old ones of the tribe wait until dark before telling their stories, for everyone knows horns will grow from the head of one who tells a story during daylight hours. Tales from the Basotho abounds with elements familiar to folk narrative. The heroes and heroines are the chiefs and their wives, their sons and their daughters. Fantastic creatures frequent the narratives, exhibiting their awful powers. Rustic peace and beauty pervade the stories, as Minnie Postma amply demonstrates in her versions of the tales. Something fearful may be occurring—the dreaded Koeoko pulling the only son of the chief under water—but, at the same time, girls with babies tied to their backs are searching for edible bulbs in the veld, and an old woman dreams in the gentle sunlight in front of the huts. These tales from the Basotho are for entertainment only. There is a tabu against telling tales while the sun shines, because daylight hours must be saved for work. The telling itself is the reason the story exists, for the audience is already aware of the outcome of each tale. As Wm. Hugh Jansen emphasizes in his foreword, "text" and "context" are often easily interpreted and made accessible in a translation, but Tales from the

Basotho is ultimately successful for its rendering of "texture." And texture is doubly hard to convey when the telling itself is of primary importance. Minnie Postma and Susie McDermid have transferred the art of the Basotho raconteur onto the printed page. All the simple, understandable formulas, exclamations, and repetitions used so skillfully by the native storyteller are present. Rhythm is an important element in the tales, and a word, a phrase, even a whole paragraph will be repeated until the rhythm satisfies the storyteller, in tum increasing the appreciation of the listeners.

In this book, first published in 1970, Ruth L. Tongue has collected a number of county folk tales recorded by her from childhood onwards, from old people, village children and farm round-the-fire sessions. Many of the beliefs embodied in the gipsy and witchcraft tales are still in practice today among the travelling people and locally 'gifted' healers. The tales reveal a good deal of fairy lore, some tree lore, including ghostly trees like Crooker, and the 'uncanny' Black Dog makes his appearance in more than one tale. The collection includes several of the long fireside tales which would be told on succeeding evenings on winter nights round the kitchen fire, and rhozzums from various localities.

Andersen's initial attempts at writing fairy tales were revisions of stories that he heard as a child. Andersen then brought this genre to a new level by writing a

vast number of fairy tales that were both bold and original. Initially they were not met with recognition, due partly to the difficulty in translating them and capturing his genius for humor and dark pathos. It was during 1835 that Andersen published the first two installments of his immortal Fairy Tales (Danish: Eventyr; lit. "fantastic tales"). More stories, completing the first volume, were published in 1837. The collection comprises nine tales, including "The Tinderbox", "The Princess and the Pea", "Thumbelina", "The Little Mermaid", and "The Emperor's New Clothes". The quality of these stories was not immediately recognized, and they sold poorly. At the same time, Andersen enjoyed more success with two novels, O.T. (1836) and Only a Fiddler (1837); the latter was reviewed by the young Søren Kierkegaard. After a visit to Sweden in 1837, Andersen became inspired by Scandinavism and committed himself to writing a poem that would convey the relatedness of Swedes, Danes, and Norwegians. It was in July 1839, during a visit to the island of Funen, that Andersen first wrote the text of his poem, Jeg er en Skandinaver ("I am a Scandinavian"). Andersen composed the poem to capture "the beauty of the Nordic spirit, the way the three sister nations have gradually grown together", as part of a Scandinavian national anthem. Composer Otto Lindblad set the poem to music, and the composition was published in January 1840. Its popularity peaked in 1845, after which it was

seldom sung. Andersen spent two weeks at the Augustenborg Palace in the autumn of 1844. Andersen returned to the fairy tale genre in 1838 with another collection, *Fairy Tales Told for Children*. New Collection. First Booklet (*Eventyr, fortalte for Børn. Ny Samling*), which consists of "The Daisy", "The Steadfast Tin Soldier", and "The Wild Swans". The year 1845 heralded a breakthrough for Andersen with the publication of four different translations of his fairy tales. "The Little Mermaid" appeared in the periodical *Bentley's Miscellany*. It was followed by a second volume, *Wonderful Stories for Children*. Two other volumes enthusiastically received were *A Danish Story Book* and *Danish Fairy Tales and Legends*. A review that appeared in the London journal *The Athenæum* (February 1846) said of *Wonderful Stories*, "This is a book full of life and fancy; a book for grandfathers no less than grandchildren, not a word of which will be skipped by those who have it once in hand." Andersen would continue to write fairy tales, and he published them in installments until 1872.

Native American Mythology began long before the European settlers arrived on North American soil. Contrary to popular beliefs, there is more to Native American Folklore than stories of buffalo hunts, teepee living and animal stories. Hundreds of tribes throughout North American created a huge mythological system that has rivaled that of the Greeks. Since the beginning of time every civilization has presented its own collection of strange tales and folklore. The Native American Indians are no different. Many of their stories included giants, hideous creatures, ghosts, beings from the spirit world, witches and many others. These creatures have haunted various corners of North America for thousands of years. The stories have been handed down from generation to generation. Some stories are amusing, while others are meant to be a terrifying lesson in life and contain eerie details and gruesome facts that will make your skin crawl. The stories collected in this book represent some of the best to be found. Many represent ghosts and their interaction with the living. Some evil in nature while others appear quite normal. They teach a lesson that the dead don't automatically become ghosts. Many of the stories give a brief hint to an afterlife. While some ghosts go about their everyday lives in spirit form, and others attempt to come back from the other side. Some come back for revenge on the living. The stories in this collection include: Wakinyan Tanka, The Great Thunderbird, The First Ship ,Uncegila's Seventh Spot, Tolowim Woman and Butterfly Man, The Man Who Married The Moon, A Legend Of Multnomah Falls, What's This? My Balls

Take a magic carpet ride into the delightful world of Sufi storytelling with these best-loved tales from Persian literature and lore, in which images of madness, passionate love, and self-sacrifice convey the inner experiences of the soul that has surrendered to the Divine Beloved. The tales are retold from the celebrated works of Sufi poets and spiritual masters such as Rumi, Attar, Nizami, and Jami, as well as anecdotes about these famous masters.

Here rests a happy man, that is to say, a man of high birth and position, which was very lucky for him, otherwise he would have been scarcely worth notice. It is beautiful to observe how wisely nature orders these things. He walked about in a coat embroidered all over, and in the drawing-rooms of society looked just like one of those rich pearl-embroidered bell-pulls, which are only made for show; and behind them always hangs a good thick cord for use. This man also had a stout, useful substitute behind him, who did duty for him, and performed all his dirty work. And there are still, even now, these serviceable cords behind other embroidered bell-ropes. It is all so wisely arranged, that a man may well be in a good humor.

These 57 tales (with seven variants) gathered between 1931 and 1936 include major cycles dealing with Creation and Coyote, minor tales, and additional stories derived from Spanish and Mexican tradition. The tales are of two classes: holy tales said by some to explain the origin of ceremonies and holy powers, and tales which have to do with the creation of the earth, the emergence, the flood, the slaying of monsters, and the origin of customs. As Goodwin was the first anthropologist to work with the White Mountain Apache, his insights remain a primary source on this people.

"Focuses on less well-known stories...includes information on similar heroes"--ProtoView. Csenge Virag Zalka, a Hungarian storyteller, has collected 55 folktales from around the world about supernatural abilities like superhuman strength, invulnerability, flying, heightened senses, speed, invisibility, healing, agility, precognition, telepathy, fire manipulation, teleportation, water powers, and shifting. These tales represent powers that people have dreamed of, conjured up and strived for through the ages. Many of the powers are present in popular culture, making the superheroes who wield them the direct descendants of characters such as the princess

who could see through walls or the invulnerable Isfandiyar. Zalka excluded stories about magic or about gods with divine powers, and focused on less well-known stories. She included information on similar heroes, the ability in the story, sources of the powers, the origin of the story, teachings in it, the recommended age group, sources, variants, and comments.

This book, which was first published in 1918, consists of literary translations of San Carlo Apache mythological tales. The myths include the creation of the earth, the birth of the culture hero and his ridding the world of monsters, and myths explaining the origins of certain ceremonies. The tales were collected from two chief San Carlos informants, namely Antonio, “a very well informed man of advanced age who dictated freely;” and Albert Evans, “a man of middle age speaking sufficient English to translate his own texts.” “The myths of the Apache are of two sorts: First, there are several important narratives, the most typical of which explains the origin of the earth, and of its topography, the birth of the Culture Hero and his activities in freeing the world of monsters. To the second class belong the myths explaining the origin of definite ceremonies. These myths in their more complete versions are known only to those who celebrate the ceremonies in question and are perhaps integral parts of the rituals. The myth of the woman who became a deer is typical of this class. “The tales divide into those which are wholly native and those that, in part at least, are of European origin. The Apache themselves recognize some of these tales as ‘Mexican’ but claim other

such stories as Apache. Without a knowledge of European folklore a complete segregation of the European elements is impossible. The footnotes point out the more obvious foreign tales or incidents.”—Pliny Earle Goddard, Introduction

This gorgeous book is a collection of 43 Indian folk-tales superbly illustrated by W. Heath Robinson. These tales were originally collected by William Crooke but are retold here by W. D. Rouse to delight children. Rouse has chosen to keep this selection confined to the Beast Stories which are particularly interesting as being mostly indigenous and little affected by so-called Aryan influence. Any changes made by Rouse have been included in a notes section which also include the sources of each tale alongside a few obvious parallels or references to literature of the subject. Tales include: The Talking Thrush, The Judgment of the Jackal, The Camel's Neck, The Foolish Wolf, The Grateful Goat, The King of Mice, The Bull and the Bullfinch and many more. These wonderful tales are accompanied by many beautiful and intricate black and white illustrations by W. Heath Robinson. An English cartoonist and illustrator, best known for drawings of ridiculously complicated machines – for achieving deceptively simple objectives. Such was (and is) his fame, that the term 'Heath Robinson' entered the English language during the First World War, as a description of any unnecessarily complex and implausible contrivance. Originally published in 1899, we are now republishing it here as part of our 'Pook Press' imprint, celebrating the golden age of illustration in children's literature.

stepmothers turn children into geese and tsars ask dangerous riddles, with help or hindrance from magical dolls, cannibal witches, talking skulls, stolen wives, and brothers disguised as wise birds. Half the tales here are true oral tales, collected by folklorists during the last two centuries, while the others are reworkings of oral tales by four great Russian writers: Alexander Pushkin, Nadezhda Teffi, Pavel Bazhov and Andrey Platonov. In his introduction to these new translations, Robert Chandler writes about the primitive magic inherent in these tales and the taboos around them, while in the afterword, Sibelan Forrester discusses the witch Baba Yaga. This edition also includes an appendix, bibliography and notes. Translated by Robert Chandler and Elizabeth Chandler With Sibelan Forrester, Anna Gunin and Olga Meerson

Did you know that if you look closely around Scafell Pike in the winter you might find a great dragon? Or that hidden in the forest around Egremont you might catch a glimpse of the fabled fairy folk? What, you don't believe me? Read these tales then take a look for yourself. This collection is full of stories that Taffy has told over the years, and that children love to hear time and again. Including a gang of smugglers and an ugly-face pulling competition, not only will children love to read them, or listen to them being read, the tales will also stimulate an interest in the area, and help children engage with their own surroundings.

Vernon and Irene Castle popularized ragtime dancing in the years just before World War I and made dancing a respectable pastime in America. The whisper-thin, elegant Castles were trendsetters in many ways: they traveled with a black orchestra, had an openly lesbian manager, and were animal-rights advocates decades before it became a public issue. Irene was also a fashion innovator, bobbing her hair ten years before the flapper look of the 1920s became popular. From their marriage in 1911 until 1916, the Castles were the most famous and influential dance team in the world. Their dancing schools and nightclubs were packed with society figures and white-collar workers alike. After their peak of white-hot fame, Vernon enlisted in the Royal Canadian Flying Corps, served at the front lines, and was killed in a 1918 airplane crash. Irene became a movie star and appeared in more than a dozen films between 1917 and 1922. The Castles were depicted in the Fred Astaire–Ginger Rogers movie *The Story of Vernon and Irene Castle* (1939), but the film omitted most of the interesting and controversial aspects of their lives. They were more complex than posterity would have it: Vernon was charming but irresponsible, Irene was strong-minded but self-centered, and the couple had filed for divorce before Vernon's death (information that has never before been made public). Vernon and Irene Castle's *Ragtime Revolution* is the fascinating story of a

couple who reinvented dance and its place in twentieth-century culture.

If you had told Helen two years ago that she would be getting up at 6 a.m. on Sundays to swim in a freezing reservoir and spending her Saturday nights unshowered and covered in mud in a pub, she would have spat out her champagne. For someone who didn't even own a pair of flat shoes (and definitely no waterproofs), Helen would soon find she had a lot to learn. Join Helen on her hilarious and soul-searching journey as she swaps a life of cocktail bars and dating for the challenges and exhilaration of triathlons, trail runs, obstacle races, long-distance cycles and ocean swims... and sets herself the seemingly impossible goal of qualifying as a Team GB triathlete.

These early works by various authors were written between the Middle Ages and the early 20th century and we are now republishing them with a brand new introduction as part of our Cryptofiction Classics series. 'The Wolf in the Moonlight' contains a collection of short stories about the charismatic creature, the wolf, and includes 'The White Wolf of the Hartz Mountains' by Frederick Marryat (1839), 'The Wolf' by Guy de Maupassant (1882), 'Olalla' by Robert Louis Stevenson (1885), and many more. Homo sapiens and canis lupus have a long and chequered history together. Amongst early agricultural societies, the wolf was widely feared for its tendency to devastate supplies of livestock. This fear was passed down through the generations, codified in countless legends and folktales, so that, by the Early Middle Ages, as academic and wolf expert Beryl Rowland puts it, the wolf was established as the “universal baleful symbol.” The Cryptofiction Classics series contains a collection of wonderful stories from some of the greatest authors in the genre, including Ambrose Bierce, Arthur Conan Doyle, Robert Louis Stevenson, and Jack London. From its roots in cryptozoology, this genre features bizarre, fantastical, and often terrifying tales of mythical and legendary creatures. Whether it be giant spiders, werewolves, lake monsters, or dinosaurs, the Cryptofiction Classics series offers a fantastic introduction to the world of weird creatures in fiction.
