Kawasaki charts a complete blueprint for the beginning evangelist that covers such topics as how to define a cause (whether it is a business, like Windham Hill Records or the Body Shop, or a public interest concern, like the National Audubon Society or Mothers Against Drunk Driving), how to identify good and bad enemies, how to deliver an effective presentation, and how to find, train, and recruit new evangelists. A revolutionary memoir about domestic abuse by the award-winning author of *Her Body and Other Parties* *In the Dream House* is Carmen Maria Machado’s engrossing and wildly innovative account of a relationship gone bad, and a bold dissection of the mechanisms and cultural representations of psychological abuse. Tracing the full arc of a harrowing relationship with a charismatic but volatile woman, Machado struggles to make sense of how what happened to her shaped the person she was becoming. And it’s that struggle that gives the book its original structure: each chapter is driven by its own narrative trope—the haunted house, erotica, the bildungsroman—through which Machado holds the events up to the light and examines them from different angles. She looks back at her religious adolescence, unpacks the stereotype of lesbian relationships as safe and utopian, and widens the view with essayistic explorations of the history and reality of abuse in queer relationships. Machado’s dire narrative is leavened with her characteristic wit, playfulness, and openness to inquiry. She casts a critical eye over legal proceedings, fairy tales, *Star Trek*, and Disney villains, as well as iconic works of film and fiction. The result is a wrenching, riveting book that explodes our ideas about what a memoir can do and be.

And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.

In *Who Is the Dreamer Who Dreams the Dream? A Study of Psychic Presences*, James Grotstein integrates some of his most important work of recent years in addressing

fundamental questions of human psychology and spirituality. He explores two quintessential and interrelated psychoanalytic problems: the nature of the unconscious mind and the meaning and inner structure of human subjectivity. To this end, he teases apart the complex, tangled threads that constitute self-experience, delineating psychic presences and mystifying dualities, subjects with varying perspectives and functions, and objects with different, often phantasmagoric properties. Whether he is expounding on the Unconscious as a range of dimensions understandable in terms of nonlinear concepts of chaos, complexity, and emergence theory; modifying the psychoanalytic concept of psychic determinism by joining it to the concept of autochthony; comparing Melanie Klein's notion of the archaic Oedipus complex with the ancient Greek myth of the labyrinth and the Minotaur; or examining the relationship between the stories of Oedipus and Christ, Grotstein emerges as an analyst whose clinical sensibility has been profoundly deepened by his scholarly use of mythology, classical thought, and contemporary philosophy. The result is both an important synthesis of major currents of contemporary psychoanalytic thought and a moving exploration of the nature of human suffering and spirituality.

An investigation into the brain's chemistry and the mechanisms of chemically altered states of consciousness. In this book, J. Allan Hobson offers a new understanding of altered states of consciousness based on knowledge of how our brain chemistry is balanced when we are awake and how that balance shifts

when we fall asleep and dream. He draws on recent research that enables us to explain how psychedelic drugs work to disturb that balance and how similar imbalances may cause depression and schizophrenia. He also draws on work that expands our understanding of how certain drugs can correct imbalances and restore the brain's natural equilibrium. Hobson explains the chemical balance concept in terms of what we know about the regulation of normal states of consciousness over the course of the day by brain chemicals called neuromodulators. He presents striking confirmation of the principle that every drug that has transformative effects on consciousness interacts with the brain's own consciousness-altering chemicals. In the section called "The Medical Drugstore," Hobson describes drugs used to counteract anxiety and insomnia, to raise and lower mood, and to eliminate or diminish the hallucinations and delusions of schizophrenia. He discusses the risks involved in their administration, including the possibility of new disorders caused by indiscriminate long-term use. In "The Recreational Drugstore," Hobson discusses psychedelic drugs, narcotic analgesia, and natural drugs. He also considers the distinctions between legitimate and illegitimate drug use. In the concluding "Psychological Drugstore," he discusses the mind as an agent, not just the mediator, of change, and corrects many erroneous assumptions and practices that hinder the progress

of psychoanalysis.

College junior Sara Barnes thought her life was totally under control. All she had to worry about was her final exams, Christmas shopping, applying to medical school – and what to do about the cute freshman in the next dorm with a crush on

her. Everything was going according to plan, until the night she started seeing other people's dreams. It's bad enough that Sara is learning more than she ever needed to know about her friends and classmates, watching their most secret fantasies whether she wants to or not. Much worse are the other dreams, the ones she sees nearly every night, featuring a strange, terrifying man who commits unspeakable crimes. Now Sara wonders if she's the only witness to a serial killer – and the only one who knows when and where he's going to strike next. Dream Student is the prequel to the Dream Doctor Mysteries.

Using the philosophy of non-duality as a framework, Anoop Kumar takes you on an exploration of identity, the core factor that is at the heart of not only spirituality, but also science, philosophy, religion, and every other facet of life, including washing the dishes on Saturday night after the guests leave. But identity isn't only about us. It also influences what we see of the world around us. What is this world, after all? How does it relate to who we are and how we experience the world? As we explore these questions, the falseness of the dichotomy of you and the world around you is exposed. We are now upon a time in which our perspectives on spirituality, science, philosophy, and religion have evolved

enough to stand together in the glare of the spotlight as we ask the most practical of questions: What is the common truth among all these? How does it change my life right now? How does it change the world? Is This a Dream? includes a
