Until comparatively recent times very little had been written for the viola as a solo instrument. Our contemporary composers have done a great deal to remedy this situation. Bax, Beresowsky, Bliss, Bloch, Delius, Hindemith, Honegger, Milhaud, Vaughan Williams, Walton and many others have contributed important sonatas, suites and concertos for the viola. Many new works are constantly being added. This new literature has placed new demands upon the violist, who in the past found a place only as an orchestra or chamber music player. Higher standards of technical perfection are required. It therefore occurred to me that the "Scalesystem" published by the eminent pedagogue and violinist Carl Flesch, regarded as a standard work by violinists the world over, would be equally valuable to violists if translated into their medium. I have undertaken this task with the encouragement of Professor Carl Flesch. The publishers and I hope that it will be found useful by performers and teachers of the viola. the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that

International human rights law is founded on the premise that all persons, by virtue of their essential humanity, should enjoy all human rights. Exceptional distinctions, for example between citizens and non-citizens, can be made only if they serve a legitimate State objective and are proportional to the achievement of the objective. Non-citizens can include: migrants, refugees and asylum seekers, victims of trafficking, foreign students, temporary visitors and stateless people.

This publication looks at the diverse sources of international law and emerging international standards protecting the rights of non-citizens, including international conventions and reports by UN and treaty bodies

The former professional surfer tells his own story On the surface he was Tom Carroll, dreamer, brilliant surfer, Australian sports hero, fitness fanatic, businessman, family man, and big wave charger. But inside turned the terrible wheel of drug addiction--part family curse, part legacy of the footloose surf culture he'd done so much to legitimize. Tom's family and friends struggled with him, kept his secrets, and looked on in anger and fear as the wheel began to grind him down. Then a window opened, but getting through it made charging Pipeline look like a piece of cake. This is the story of an unlikely moral education: of humility, family, damage, brotherhood, youth, stupidity, glory, single-mindedness, and surrender, and about the feeling of water moving under a surfboard, how it can bind past to present and make sense of lives.

This text addresses some of the major problems related to population growth and to the development of the workforce in the Gulf Cooperation Council - Saudi Arabia, Kuwait, Bahrain, Qatar, the United Arab Emirates and Oman.
