Guidance on how to turn those flashes of inspiration into finished pieces, from the author of *Writing Down the Bones* and *Wild Mind*. Referencing her own experiences both as a writer and as a student of Zen, Natalie provides insight into the struggles and demands of turning ideas into concrete form. Her guidance addresses ways to overcome writer's block, deal with the fear of criticism and rejection, get the most from working with an editor, and improve one's writing by reading accomplished authors. She communicates this with her characteristic humor and compassion, and a deep respect for writing as an act of celebration. This ebook features an illustrated biography of Natalie Goldberg, including rare photos and never-before-seen documents from the author's personal collection.

visual art, and reportage that grapples with weather in all its dimensions: its danger and its beauty, why it happens and what it means. WINNER OF THE PEN/E. O. WILSON LITERARY SCIENCE WRITING AWARD • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY SAN FRANCISCO CHRONICLE, KIRKUS REVIEWS, AND SHELF AWARENESS Weather is the very air we breathe—it shapes our daily lives and alters the course of history. In *Thunder & Lightning*, Lauren Redniss tells the story of weather and humankind through the ages. This wide-ranging work roams from the driest desert on earth to a frigid island in the Arctic, from the Biblical flood to the defeat of the Spanish Armada. Redniss visits the headquarters of the National Weather Service, recounts top-secret rainmaking operations during the Vietnam War, and examines the economic impact of disasters like Hurricane Katrina. Drawing on extensive research and countless interviews, she examines our own day and age, from our most personal decisions—Do I need an umbrella today?—to the awesome challenges we face with global climate change. Redniss produced each element of *Thunder & Lightning*: the text, the artwork, the covers, and every page in between. She created many of the images using the antiquated printmaking technique copper plate photogravure etching. She even designed the book's typeface. The result is a book unlike any other: a spellbinding combination of storytelling, art, and science. Praise for *Thunder & Lightning* “[An] aesthetically charged and deeply researched account . . . a wild rainstorm of a book, pelting the reader with ideas and inspiration.”—Nature “A gorgeous and illuminating
