9/11. Tornadoes. Emergency preparedness. Whether explaining parts per million to a community exposed to contaminated groundwater or launching a campaign to encourage home carbon monoxide testing, an effective message is paramount to the desired result: an increased understanding of health risk. Communicating Environmental Risk in Multiethnic Communities is the first book to address the theory and practice of disseminating disaster warnings and hazard education messages to multiethnic communities. Authors Michael K. Lindell and Ronald W. Perry introduce theory-based reasoning as a basis for understanding warning dissemination and public education, devoting specific attention to the community context of emergency warning delivery and response. Through these principles of human behavior, readers can apply risk communication information to virtually any specific disaster agent with which they may be concerned. This volume is recommended for practitioners in private emergency management and federal, state, and local governments, as well as students studying risk

communication, health communication, emergency management, and environmental policy and management. Explores translation in the context of the multi-lingual, multi-ethnic late-Ottoman Mediterranean world. Fénelon, Offenbach and the Iliad in Arabic, Robinson Crusoe in Turkish, the Bible in Greek-alphabet Turkish, excoriated French novels circulating through the Ottoman Empire in Greek, Arabic and Turkish: literary translation at the eastern end of the Mediterranean offered worldly vistas and new, hybrid genres to emerging literate audiences in the nineteenth and early-twentieth centuries. Whether to propagate 'national' language reform, circulate the Bible, help audiences understand European opera, argue for girls' education, institute pan-Islamic conversations, introduce political concepts, share the Persian Gulistan with Anglophone readers in Bengal, or provide racy fiction to schooled adolescents in Cairo and Istanbul, translation was an essential tool. But as these essays show, translators were inventors, and their efforts might yield surprising results. Contrary to the generally positive view of "development" as a structural improvement in people's well-being, development policies, programs, and projects often affect people's lives in a negative way. Is there, then, a protection against such "development hazards?" The question is highly topical as about ten million people annually enter the cycle of forced displacement and relocation due to development projects. Their lack of access to decision-making on development policies is part of the problem. In this context, the internationally declared right to development might offer a solution as it stipulates free and meaningful participation. The analyses of this thesis show that the official and international consensus on the moral ideas behind the right to development is insufficient to guarantee both the proliferation and implementation of that discourse at the grass root level.

In Indonesia, efforts towards implementation reflect different dynamics entailing competing encounters between all stakeholders, which sometimes are unfavorable to the poor. Notably, the enforcement of the right to development - as both a legal resource and a political instrument to change development practices - needs to be firmly rooted in an enabling, rather than adverse, national environment. While opening a new dialogue on the right to development as an instrument to combat development hazards, this book reveals the complex interface between human rights and development as actually practiced.

'Andreas Fischer provides a thoroughly documented guide to Joyce's life in Zurich and to the influence of the city on his work, with many anecdotes that give the flavour of Zurich in Joyce's day. His handbook will be of value to students and professional scholars of Joyce for the biographical material it provides as background to Joyce's work. It will be especially useful to the many visitors to Zurich who want to see the city as Joyce knew it.' - David Spurr, University of Geneva, Switzerland

This book offers a comprehensive account of James Joyce and Zurich, one of the four cities (including Dublin, Trieste and Paris) in which he spent significant parts of his life. As a refugee during World War I, Joyce wrote a substantial part of *Ulysses* in Zurich and subsequently visited the city regularly during the 1930s. Finally, a refugee for the second time, he died there on 13 January 1941 and is buried in Fluntern Cemetery. This guide is conceived both as a book that may be read in its entirety or consulted selectively for specific information. An introduction and three chapters, *Joyce in Zurich*, *Zurich in Joyce* and *Zurich after Joyce*, are followed by sixty alphabetically ordered articles on people, places, institutions and events relevant to Joyce during his time in Zurich. Linked by cross-references and an index, they provide a rich, kaleidoscopic view of Joyce's Zurich.

This historical survey enquires into the style, structure, presuppositions, and purposes of etymological enquiries over the past two centuries, and contrasts them with the practice of etymology in Antiquity and the Middle Ages.

This monograph presents a view on grammaticalisation radically different from standard views centering around the cline of grammaticality. Grammar is seen as a complex sign system, and, as a consequence, grammatical change always comprises semantic change. What unites morphology, topology (word order), constructional syntax and other grammatical subsystems is their paradigmatic organisation. The traditional concept of an inflexional paradigm is generalised as the structuring principle of grammar. Grammatical change involves paradigmatic restructuring, and in the process of grammatical change morphological, topological and constructional paradigms often connect to form complex paradigms. The book introduces the concept of connecting grammaticalisation to describe the formation, restructuring and dismantling of such complex paradigms. Drawing primarily on data from Germanic, Romance and Slavic languages, the book offers both a broad general discussion of theoretical issues (part one) and three case studies (part two).

The colonial heritage and its renewed aftermaths – expressed in the inter-American experiences of slavery, indigeneity, dependence, and freedom movements, to mention only a few aspects – form a

common ground of experience in the Western Hemisphere. The flow of peoples, goods, knowledge and finances have promoted interdependence and integration that cut across borders and link the countries of North and South America together. The nature of this transversally related and multiply interconnected region can only be captured through a transnational, multidisciplinary, and comprehensive approach. The Routledge Handbook to the History and Society of the Americas explores the history and society of the Americas, placing particular emphasis on collective and intertwined experiences. Forty-four chapters cover a range of concepts and dynamics in the Americas from the colonial period until the present century: The shared histories and dynamics of Inter-American relationships are considered through pre-Hispanic empires, colonization, European hegemony, migration, multiculturalism, and political and economic interdependences. Key concepts are selected and explored from different geopolitical, disciplinary, and epistemological perspectives. Highlighting the contested character of key concepts that are usually defined in strict disciplinary terms, the Handbook provides the basis for a better and deeper understanding of inter-American entanglements. This multidisciplinary approach will be of interest to a broad array of academic scholars and students in history, sociology, political science cultural, postcolonial,

gender, literary, and globalization studies.

The final chapter in the electrifying Stockholm Noir Trilogy, which has been translated into more than thirty languages worldwide: here is the no-holds-barred, rapid-fire tale of a supreme struggle for the legacy of the Swedish underworld, as the power, honor, and respect commanded by Stockholm's largest criminal organization are passed from father to daughter. Jorge was making a living as a drug dealer until he was caught and thrown into prison. Recently released and warned to keep out of trouble, he's already bored with his new existence: selling lattes and cappuccinos at a café. Who wouldn't be? But Jorge has a plan, and big money looms on the horizon if he can pull off one final audacious heist and flee the country before the police close in.

Meanwhile, Deputy Inspector Martin Hägerström—entrusted with a secret mission, code name Operation Tide—has gone deep undercover as a disgraced cop turned corrections officer. He's slowly earning the trust of Stockholm's imprisoned expert money launderer, Johan Westlund. A career criminal with a taste for the jet-setting lifestyle, JW is a dangerous man to befriend, one who may demand more loyalty than Hägerström had planned on offering. Natalie is the twenty-two-year-old daughter of Radovan Kranjic, the Serbian crime boss who rules Sweden's underworld. When an assassin threatens Radovan's life, Natalie is hurled into a

chaotic struggle for control of her father's empire—and the competition is fierce. Who will rise to power in the voracious hunt for money, prestige, and luxury to become Stockholm's new king—or queen—of crime?

On a lonely Christmas a nephew remembers his beloved great-aunt and realizes the value of her legacy, a message of advice revealing the true spirit of the season.

Contemporary Issues in Marketing provides an innovative approach to learning about key marketing concepts based on a collaboration with Marketing Week. This book provides an overview of the main elements of marketing together with the key issues in contemporary marketing, explored through the reproduction of significant clippings from Marketing Week. Questions on these clippings can be used as assignments and seminar topics, whilst answers and possible 'problem solving' approaches are suggested.
