Time, Money and Fractions 1-2 Barbara Bando Irvin, School Zone, 2019-07 Does your child know how many dimes make a dollar? You can count on this workbook to cover coin values and other skills pertaining to money. You can also count on being surprised at how much your child will learn about time and fractions in this lively, 64-page skill-building workbook. The skills typically taught in Grades 1 and 2 are right here: counting and comparing amounts of money to 99 cents, telling time by the hour, half hour, and quarter hour, plus identifying halves, thirds, and fourths of regions and groups. The workbook is aligned with the Common Core State Standards for Mathematics, a comprehensive and progressive set of learning objectives created to help students succeed in math. At the bottom of each workbook page is a cross-reference to the Common Core grade level and domain or skill area that the activity practices. The workbook is also consistent with Principles and Standards for School Mathematics, a publication by the National Council for Teachers of Mathematics (NCTM), and it is compatible with Singapore math pedagogy. The lessons are planned in learning sequence; skills introduced in one lesson build on those taught in previous lessons. It's a perfect way to introduce, review, and maintain essential math skills.

Sight Word Fun! 1 School Zone,2019-07-18 Sight Word Fun 1 Deluxe Edition Workbook Sounding words out is just one

piece of learning to read. Sight Word Fun, an I Know It! workbook, contains simple, entertaining activities that will help your child understand the meaning of sight words and recognize differences in spelling. Sight words are not phonetic, which makes them more difficult to learn. For example, this, them, that, and there look much the same to a beginning reader. Most sight words, such as what, where, and when, can be learned only by reading practice. One activity is making new words from the ending letters of a sight word. Young learners can also say words then write them, find sound-alike words, spot words with other words in them, or finish words and sentences correctly. This workbook offers plenty of ways to help your child memorize sight words.

Reading Readiness K-1 Joan Hoffman, School Zone, 2018-01-08 Long or short, big or tall, when I read, I can learn it all! Just think how excited your child will be when he or she is ready to read, just like the big kids! We all know that there is no ability more essential to your child's school success than reading. Starting with identifying sizes and shapes and growing all the way to matching sentences with pictures, your young explorer will soon learn there's a whole world out there ready to jump off the page when one can read. Matching, classifying, understanding letter sounds, recognizing words, determining story order...it's all here in this 64-page workbook.
