Winner of the Aurealis Award for Best Science Fiction novel—the fourth Sentients of Orion book. "Beautifully written . . . a serious series for a new generation" (Falcata Times). Mira Fedor and her friends stand in the eye of the hurricane, and everything in the Orion League remains in flux. Mira is pregnant, and her gestation is proceeding at an inhuman pace. As she hides out on her bioship, Insignia, it seems clear that the extropist's procedures have had unforeseen effects—but will her child be more than human? As secrets are revealed and conspiracies exposed about the attack on Araldis, Mira wonders if there is still time to thwart one last master plan. The pieces are all in place; all that remains is for each side to commit to its endgame. But there is one question nobody has thought to ask: Will the Sole Entity—God—play by the rules? It is the epic conclusion to what the Sydney Morning Herald called "Space opera supreme." Marianne de Pierres's epic series the Sentients of Orion has been called "a grand space opera" (Times Literary Supplement) and "brilliant in all senses of the word" (Sean Williams). All four books were short-listed for the prestigious Aurealis Award, with the final book winning for Best Novel. "*A Long Ride Coming*" is a deeply personal memoir filled with poignancy and tinged with wry humor. The book takes the reader on a 1,900 mile bicycle ride from the Golden Gate Bridge to the Mexican border and then from Canada through Washington, Oregon, and California. The journey meets steep, challenging terrain and memorable, once-in-a-lifetime characters. But the book is much more than a story about a bicycle trip. "*A Long Ride Coming*" unveils a tribute to a father who died when the author was just 18 years old. When told by a doctor to keep the news of his father's terminal illness a secret, the deception led to nearly 50 years of regret and despair. Testing his stamina and age, the bike ride begins at the Golden Gate Bridge on September 11, 2014 and ends nearly exactly one year later on the Golden Gate. In between, the author finds solace and a fitting tribute to a father who died too soon. From the book: The doctor left the room and left my mother, my brother, and myself to fend for ourselves. Fend off such assaults as when just a few days later, the surgeon summoned us to his office. My father was still in the hospital, still reeling from his surgery, when the doctor in all of his professorial genius opined that we were not to tell my father of his terminal disease.

"Keep it to yourselves," he said in whispered, conspiratorial, haunting tones. "The patient shouldn't know. If he did, his last few months would be even more uncomfortable." So when my father returned home and for a brief time felt good and hopeful, even going back to work for several days, his wife and two sons had the insufferable burden of lying to him. "I'm so damn glad the worst part is over," he'd say during his short reprieve. "I told you I'm going to beat this thing..." But we were committed to obeying doctor's orders, committed to the code of silence.

Now in paperback--the first volume in a mesmerizing new trilogy which introduces a group of teens, who call themselves Midnighters, living in a world that is frozen in time and inhabited by dark creatures that lurk in the shadows.
