Mira Fedor and her friends stand in the eye of the hurricane, and everything in the Orion League remains in flux. Mira is pregnant, and her gestation is proceeding at an inhuman pace. As she hides out on her bioship, Insignia, it seems clear that the extropist's procedures have had unforeseen effects—but will her child be more than human? As secrets are revealed and conspiracies exposed about the attack on Araldis, Mira wonders if there is still time to thwart one last master plan. The pieces are all in place; all that remains is for each side to commit to its endgame. But there is one question nobody has thought to ask: Will the Sole Entity—God—play by the rules? It is the epic conclusion to what the Sydney Morning Herald called “Space opera supreme.” Marianne de Pierres's epic series the Sentients of Orion has been called “a grand space opera” (Times Literary Supplement) and “brilliant in all senses of the word” (Sean Williams). All four books were short-listed for the prestigious Aurealis Award, with the final book winning for Best Novel. Tapi mereka bertiga diberi kesempatan kedua—untuk bekerja pada sebuah agensi yang keberadaannya tidak diketahui siapa pun. Tujuannya: mencegah perjalanan waktu menghancurkan sejarah.... Continuing the heart-pounding, time-bending action of the TimeRiders series, The Eternal War brings readers back to a pivotal time period in American history: the Civil War. Only this alternate history is one where a young Abraham Lincoln has somehow followed Liam into the present from 1831, and the entire course of American history has changed. Every chess player loves to attack the enemy King. Your goal is clear, your thinking is concrete, your creativity is flowing and direct victory is just around the corner. Few things in life are better than successfully conducting a blistering attack on your opponent's King! But how good are you actually at attacking? Have you ever analysed your efforts? Looked at calculation errors, missed opportunities and derailed efforts? After the immense success of his award-winning classic Chess Strategy for Club Players, Herman Grooten has now written an equally accessible follow-up primer on attacking chess. He teaches you how to spot opportunities, exploit weaknesses, bringing your forces to the frontline and striking at the right moment. Grooten concentrates on training the most valuable skills for this process: visualizing, structuring, anticipating, calculating, memorizing and other mental aspects. This is not just another collection of useful thematic

moves and motifs but a complete and highly structured course of attacking techniques. And with fantastic new examples, clear explanations and many instructive exercises. Giri won the Dutch Championship four times. Other tournament wins include the Wijk aan Zee B-Group in 2010, a shared first place in Malmö 2011 and a victory in Reggio Emilia 2011/12. In 2014 Giri shared second place in Wijk aan Zee. He won the individual bronze medal for his first-board performance for the Dutch team at the 41st Chess Olympiad in Tromsø in Norway. He finished second at the strong Qatar Masters Open. In 2016 he qualified for the Candidates Tournament in Moscow, where he ended on 50%, with fourteen draws. Giri has an all-round playing style and a strong technique. He likes to fight until the end in seemingly harmless positions, trying to squeeze blood from a stone. But whenever he sees an opportunity, he can be a very sharp tactician as well. Try this training app and play the same winning moves as Anish Giri. This app offers you one hundred training exercises, in positions where Giri turned the game in his favour. The puzzles start at a moderate level and gradually get more difficult. Don't give up!

We think we will be happy when we have some downtime-when we can finally go on vacation, disconnect, shut down. But in this provocative book, Todd Buchholz will convince you that what you really want is to chase your tail-even if you never catch it. Weaving in everything from neuroeconomics to evolutionary biology to renaissance art to General Motors, Buchholz will convince you that the race to compete has not only made us taller and smarter, it's what we love and need. Among the book's many counterintuitive takeaways are: \* Put off retirement-it can make you stupid. \* We all need to be control freaks. \* In-house competition is actually great for morale. \* Never let the ninth place team take home a trophy. Witty, breezy, and very funny, Todd Buchholz shows that it's the race itself that literally delivers the rush, even if we never reach the finish line.
