The author of *Book of Shadows* digs deep into the practices and principles of Witchcraft to provide a comprehensive guidebook that anyone—novices and seasoned practitioners alike—can use to incorporate the beauty and power of Wicca into their own daily lives. Phyllis Currott's first book, *Book of Shadows*, was an inspirational, spiritual memoir that chronicled her journey from Ivy League-educated, New York City attorney to Wiccan High Priestess. By inviting readers of all faiths to share in her own personal transformation, Phyllis debunked many of the myths surrounding Wicca and revealed it for what it really is: a spiritual movement whose tenets of Goddess worship and reverence for Nature were a great deal more accessible and familiar than she'd ever expected. Far from being just another mechanical spell book, *Witch Crafting* is the first book to offer readers not only the how-to of Witchcraft, but also the why-to, explaining the profound spiritual tenets behind Wiccan techniques. Filled with both traditional and innovative shamanic practices, Phyllis also provides an empowering new definition of magic and reexamines the ethics under which Witchcraft is practiced, offering a groundbreaking alternative to the Threefold Law. With enchanting stories from Currott's own experiences, *Witch Crafting* will also teach you how to:

- Master the secret arts of effective spellcasting
- Create sacred space and personal rituals
- Perform divinations for spiritual insight and earthly success
- Tap into the power of altered states, such as dreaming, meditation, prayer, and trance
- Keep a magical journal and create your own Book of Shadows

Rich with detailed advice for making magic, working with Nature, and finding the Divine within, as well as thought-provoking evaluations of this remarkable spirituality, *Witch Crafting* is the special volume that you've been searching for. Whether you are a beginner or have been practicing Witchcraft for years, whether you worship in a coven or on your own, *Witch Crafting* is the ideal handbook for you, or anyone seeking to unlock the divine power that makes real magic happen and experience the ecstasy, energy, and gifts of the Universe more fully.

Coral Glynn arrives at Hart House, an isolated manse in the English countryside, early in the very wet spring of 1950, to nurse the elderly Mrs. Hart, who is dying of cancer. Hart House is also inhabited by Mrs. Prence, the perpetually disgruntled housekeeper, and Major Clement Hart, Mrs. Hart's war-ravaged son, who is struggling to come to terms with his latent homosexuality. When a child's game goes violently awry in the woods surrounding Hart House, a great shadow—love, perhaps—descends upon its inhabitants. Like the misguided child's play, other seemingly random events—a torn dress, a missing ring, a lost letter—propel Coral and Clement into the dark thicket of marriage. A period novel observed through a refreshingly gimlet eye, Coral Glynn explores how quickly need and desire can blossom into love, and just as quickly transform into something less categorical. Borrowing from themes and characters prevalent in the work of mid-twentieth-century British women writers, Peter Cameron examines how we live and how we love—with his customary empathy and wit.

What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in Second Life, and games like *World of Warcraft* spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

"Very few of the inhabitants of the Sardinian town of Abacrastra survive to old age. By tradition they are cursed, fated to take their own lives with belts or ropes, called by a Voice that says Ajo, get ready, for your time has come' Beneitta Trunzone is destined for the nunnery to fulfil an ancient family tradition, but she doesn't want to give herself to God. Beneitta would rather give herself to Bustianu Chitarra, who knows how to jive and dresses like the Beatles, so when the Voice calls she dons her nun's habit, puts on Day Tripper', and buys her final one way ticket. Bantine Pica rises to be mayor, but after a disastrous late-night card game he attaches a rope to the flagpole on his mayoral balcony and jumps. Even the town's undertaker perishes, lowering himself dejectedly into a grave, a rope around his neck. As town clerk Battista Graminzone has recorded Abacrastra's births, deaths and suicides for decades now retired, he has sat down to tell these many stories of misfortune, including that of his own grandfather, found one morning hanging from a large oak,

ears nibbled by field mice. Grounded in dozens of clinical studies that associate a low Emotional Intelligence with poor eating habits—including eating past fullness, eating when you're angry or bored, and overeating favorite foods—*Eat.Q.* offers hope and help that works for anyone, no matter how many times they've tried to manage emotional eating in the past. The book brings a completely different perspective than available books by combining the information gained from the human genome with that derived from parallel metagenomic studies, and new results from investigating the effects of these microbes on the host immune system. Although there are a number of books that focus on the human genome that are currently available, there are no books that bring to the forefront the mix of the human genome and the genomes and metagenomes of the microbial species that live within and on us.

Archestratos of Gela was the author of a mock-epic poem, most likely entitled the *Hedupatheia* or *Life of Luxury*, that presented itself as a gastronomic tour of the Mediterranean world. Written sometime in the first two-thirds of the fourth century BCE, the *Hedupatheia* was widely read in the late classical and early Hellenistic periods and was translated into Latin by Ennius, through whom it influenced the work of later Roman poets including Horace. It survives today in fragments totalling about 330 lines. The *Hedupatheia* is a fundamental source for our understanding not only of fourth-century literature but also of the significance of food and dining and the reception of epic poetry in late classical society. This edition is based on a fresh examination of the manuscripts and is the first to combine an authoritative critical text of the fragments with a translation, a detailed philological and historical commentary, and an extensive introduction situating the poem in its literary, social, and cultural context.

These days, it's often easier to avoid face-to-face contact in favor of technological shortcuts. But as Michael Gelb argues in this compelling, entertaining book, the meaningful relationships that come from real interaction are the key to creating innovative ideas and solving our most intractable problems. In *The Art of Connection*, Gelb offers readers seven methods of developing this essential rapport in their professional and personal lives. Each chapter covers specific techniques and illustrates them with memorable stories, relevant scientific research, and hands-on exercises that allow readers to apply their new skills. Most important, Gelb reminds us that developing rapport with others is not just a business tool to enhance productivity but a valuable end in itself. He guides us to cultivate the skills we all need to deepen our relationships, broaden our humanity, and transform our lives.

Tisane e dolci rimedi. Calendario 2017 Tisane e dolci rimedi per il corpo e lo spirito. Calendario 2017 Regimen Sanitatis Salernitanum Franklin Classics Trade Press

From the mid-sixteenth century onwards, the Italian Protomedicato tribunals, Colleges of Physicians, or Health Offices (jurisdiction varied from state to state) required charlatans to submit their wares for inspection and, upon approval, pay a licence fee in order to set up a stage from which to perform and sell them. The licensing of charlatans became an administrative routine. As far as the medical magistracies were concerned, charlatans had a defineable identity, constituting a specific trade or occupation. This book studies the way charlatans were represented, by contemporaries and by historians, how they saw themselves and, most importantly, it reconstructs the place of charlatans in early modern Italy. It explores the goods and services charlatans provided, their dealings with the public and their marketing strategies. It does so from a range of perspectives: social, cultural, economic, political, geographical, biographical and, of course, medical. Charlatans are not just some curiosity on the fringes of medicine: they offered health care to an extraordinarily wide sector of the population. Moreover, from their origins in Renaissance Italy, the Italian ciarlato was the prototype for itinerant medical practitioners throughout Europe. This book offers a different look at charlatans. It

is the first to take seriously the licences issued to charlatans in the Italian states, compiling them into a 'charlatans database' of over 1,300 charlatans active throughout Italy over the course of some three centuries. In addition, it makes use of other types of archival documents, such as trial records and wills, to give the charlatans a human face, as well as a wide range of artistic and printed sources, not forgetting the output of the charlatans themselves, in the form of handbills and pamphlets.

Words of wisdom from Charlie Munger—Warren Buffett's longtime business partner and the visionary Vice Chairman of Berkshire Hathaway—collected and interpreted with an eye towards investing by David Clark, coauthor of the bestselling Buffettology series. Born in Omaha, Nebraska in 1924 Charlie Munger studied mathematics at the University of Michigan, trained as a meteorologist at Cal Tech Pasadena while in the Army, and graduated magna cum laude from Harvard Law School without ever earning an undergraduate degree. Today, Munger is one of America's most successful investors, the Vice Chairman of Berkshire Hathaway, and Warren Buffett's business partner for almost forty years. Buffett says "Berkshire has been built to Charlie's blueprint. My role has been that of general contractor." Munger is an intelligent, opinionated business man whose ideas can teach professional and amateur investors how to be successful in finance and life. Like *The Tao of Warren Buffett* and *The Tao of Te Ching*, *The Tao of Charlie Munger* is a compendium of pithy quotes including, "Knowing what you don't know is more useful than being brilliant" and "In my whole life, I have known no wise people who didn't read all the time—none, zero." This collection, culled from interviews, speeches, and questions and answers at the Berkshire Hathaway and Wesco annual meetings, offers insights into Munger's amazing financial success and life philosophies. Described by Business Insider as "sharp in his wit and investing wisdom," Charlie Munger's investment tips, business philosophy, and rules for living are as unique as his life story; intelligent as he clearly is; and as successful as he has been.

"Unravel Italy's idiosyncrasies and experience its essence in a book that topples communication barriers and provides an idiom-inspired road map to life in the Bel Paese. Drawn from her column in *The Florentine* newspaper, Linda Falcone's *If They Are Roses* is the sequel to the best-selling *Italians Dance* and *I'm a Wallflower*. It clues into a country in which affection is abundant, jobs are scarce, art is more available than oxygen and soccer and style are one and the same. It explores a language worth deciphering: being a 'doctor' has nothing to do with medicine, 'My mother!' is a substitute for 'My god!' and al dente pasta proves a moral dilemma"--

The history of shrubs, as revealed here, is as fascinating as the drinks are refreshing. These sharp and tangy infusions are simple to make and use, as you'll discover with these recipes. Mix up some Red Currant Shrub for a Vermouth Cassis, or Apple Cinnamon Shrub to mix with seltzer, or develop your own with Michael Dietsch's directions and step-by-step photographs. Wonderful!!" —Amy Stewart, author of *The Drunken Botanist*

Bellydance is incredibly popular today, but many prejudices remain about this art because it is not understood deeply enough. In the *Secret Language of Bellydance*, the author Maria Strova, renown dancer and master teacher, reveals the inner meaning of this dance, far beyond the taboos of the body and the imaginary images of the harem - where the dance is erroneously considered to have originated. This confusion has influenced, not always in a positive way, the image of bellydance even today. But where did bellydance originate? What inspired its gestures, what is the meaning of the veil, the jewel on the navel or the serpentine movements? "Everything in bellydance is secretly intentional and its movements hide an eternal language," affirms the author.

From this concept, she takes the reader on a fascinating journey into its prehistoric roots in the Neolithic Age. Imbued with a sacred character, the dance was part of ancient conception and birth rites and sought to explore the cyclic and cosmic processes of life. To illustrate this "original image," Maria Strova utilizes the symbols of the dance: belly, omphalos or navel, waist, breasts, hands, eyes, hair, veil, spiral, serpent, and the elements earth, air, fire and water. All of the images are used as a key to reveal the poetic language of bellydance and its collection of myths, verse, secrets and personal experiences. In the actual practice of bellydance, this symbolic approach playfully calls on the imagination to reconnect us, through movement, with the instinctive, sensual and sacred wisdom of the body. Dance becomes a powerful instrument which reveals the profound life of the belly.
