Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! "Iceberg, Right Ahead!" Only 160 minutes passed between the time a sailor on lookout duty uttered these chilling words and the moment when the mighty ocean liner Titanic totally disappeared into the cold, dark waters of the North Atlantic. This century-old tragedy, which took more than 1,500 lives, still captivates people in the twenty-first century. Seventy-three years separate the two major Titanic events—the 1912 sinking of the vessel and the dramatic 1985 discovery of the wreck by Robert Ballard. But additional stories about the victims, survivors, rescuers, reporters, investigators, and many others show the far-reaching effects this tragedy had on society. Award-winning author Stephanie Sammartino McPherson has collected numerous personal accounts of the event, including the knighted man who spent the rest of his life in seclusion because he was accused of dishonorable

behavior in a lifeboat, the stewardess who survived two shipwrecks and a mid-ocean collision, and the New York Times executive who sent multiple reporters to meet the rescue ship, thus earning a national reputation for his newspaper. She also links the Titanic tragedy to changes in regulations worldwide. After a Senate Inquiry and a British trial attempted to assign blame for the disaster, new laws on ship safety were put in place. A group of nations also banded together to form an ice patrol, eventually leading to the formation of the U.S. Coast Guard. Even the most avid Titanic fans will learn something new as McPherson brings the reader up to date on the politics and intrigue still surrounding the wreck—including what modern science can reveal about what really happened to the ship and who was at fault. Prepare to follow the never-ending story of the Titanic into its second century.

In this New York Times bestseller, the author of *A Night to Remember* and *The Miracle of Dunkirk* revisits the Titanic disaster. Walter Lord's *A Night to Remember* was a landmark work that recounted the harrowing events of April 14, 1912, when the British ocean liner RMS Titanic went down in the North Atlantic Ocean, a book that inspired a classic movie of the same name. In *The Night Lives On*, Lord takes the exploration further, revealing information about the ship's last hours that emerged in the decades that followed, and separating myths from facts. Was the ship really christened before setting sail on its maiden voyage? What song did the band play as water spilled over the bow? How did the ship's wireless operators fail so badly, and why did the nearby Californian, just ten miles away when the Titanic struck the iceberg, not come to the rescue? Lord answers these questions and more, in a gripping investigation of the night when approximately 1,500 victims were lost to the sea.

Books have been written, films made, we have raised the Titanic and watched her go down again on numerous occasions, but out of the wreckage Frances Wilson spins a new epic: when the ship hit the iceberg on 14 April 1912 and a thousand men prepared to die, J Bruce Ismay, the ship's owner and inheritor of the White Star fortune, jumped into a lifeboat with the women and children and rowed away to safety. Accused of cowardice, Ismay became, according to

one headline, 'The Most Talked-of Man in the World'. The first victim of a press hate campaign, his reputation never recovered and while other survivors were piecing together their accounts, Ismay never spoke of his beloved ship again. With the help of that great narrator of the sea, Joseph Conrad, whose Lord Jim so uncannily predicted Ismay's fate - and whose manuscript of the story of a man who impulsively betrays a code of honour and lives on under the strain of intolerable guilt went down with the Titanic - Frances Wilson explores the reasons behind Ismay's jump, his desperate need to make sense of the horror of it all, and to find a way of living with lost honour. For those who survived the Titanic the world was never the same again. But as Wilson superbly demonstrates, we all have our own Titanics, and we all need to find ways of surviving them.
