**Patriotic History and the (Re)Nationalization of Memory** Kornelia Kończal,A. Dirk Moses,2023-06-27 This book charts and traces state-mandated or state-encouraged “patriotic” histories that have recently emerged in many places around the globe. Such “patriotic” histories can revolve around both affirmative interpretations of the past and celebration of national achievements. They can also entail explicitly denialist stances against acknowledging responsibility for past atrocities, even to the extent of celebrating perpetrators. Whereas in some cases “patriotic” history takes the shape of a coherent doctrine, in others they remain limited to loosely connected narratives. By combining nationalist and narcissist narratives, and by disregarding or distorting historical evidence, “patriotic” history promotes mythified, monumental, and moralistic interpretations of the past that posit partisan and authoritarian essentialisms and exceptionalisms. Whereas the global debates in interdisciplinary memory studies revolve around concepts like cosmopolitan, global, multidirectional, relational, transcultural, and transnational memory, to mention but a few, the actual socio-political uses of history remain strikingly nation-centred and one-dimensional. This volume collects fifteen case studies of such “nationalizations of history” ranging from China to the Baltic states. They highlight three features of this phenomenon: the ruthlessness of methods applied by many state authorities to impose certain interpretations of the past, the increasing discrepancy between professional and political approaches to collective memory, and the new “post-truth” context. This book will be of interest to students and researchers of international politics, the radical right and global history. It was originally published as a special issue of the Journal of Genocide Research.

**Post-communist Nostalgia** Marii Nikolaeva Todorova,Zsuzsa Gille,2010 Although the end of the Cold War was greeted with great enthusiasm by people in the East and the West, the ensuing social and especially economic changes did not always result in the hoped-for improvements in people's lives. This led to widespread disillusionment that can be observed today all across Eastern Europe. Not simply a longing for security, stability, and prosperity, this nostalgia is also a sense of loss regarding a specific form of sociability. Even some of those who opposed communism express a desire to invest their new lives with renewed meaning and dignity. Among the younger generation, it surfaces as a tentative yet growing

curiosity about the recent past. In this volume scholars from multiple disciplines explore the various fascinating aspects of this nostalgic turn by analyzing the impact of generational clusters, the rural-urban divide, gender differences, and political orientation. They argue persuasively that this nostalgia should not be seen as a wish to restore the past, as it has otherwise been understood, but instead it should be recognized as part of a more complex healing process and an attempt to come to terms both with the communist era as well as the new inequalities of the post-communist era.

**New Perspectives on Yugoslavia** Dejan Djokić, James Ker-Lindsay, 2010-10-04 Nearly twenty years after it ceased to exist as a multinational federation, Yugoslavia still has the power to provoke controversy and debate. Bringing together contributions from twelve of the leading scholars of modern and contemporary South East Europe, this volume explores the history of Yugoslavia from creation to dissolution. Drawing on the very latest historical research, this book explains how the country came about, how it evolved and why, eventually, it failed. From the start of the twentieth century, through the First World War, the interwar years and the Second World War, to the road to socialism under President Tito and the wars of Yugoslav succession in the 1990s, this volume provides up to date analysis of the causes and consequences of a range of events that shaped the development of this remarkable state across its various iterations. The book concludes by examining post-conflict relations in the era of European integration. Traversing ninety years of history, this volume presents a fascinating story of how a country that once served as the model for multiethnic states around the world has now become a byword for ethno-national fragmentation and conflict. Contributors include Dejan Djokić, James Ker-Lindsay, Connie Robinson, Mark Cornwall, John Paul Newman, Tomislav Dulić, Stevan K. Pavlowitch, Dejan Jović, Nebojša Vladislavljević, Florian Bieber, Jasna Dragović-Soso and Eric Gordy.

**EU, Europe Unfinished** Zlatan Krajina, Nebojša Blanuša, 2016-09-23 Explores the rapidly changing relationship between the Balkans and the EU in a time of crisis

**Sensitive Objects** Jonas Frykman, Maja Povrzanovic Frykman, 2016-04-12 Some objects seem especially personal and important to us - be it a quickly packed suitcase, an inherited vase, or a photograph. In *Sensitive Objects* the authors discuss when, how, and why particular objects appear as 'sensitive'. They do so by analyzing the objects' affective charging in the context of historically embedded practices. *Sensitive Objects* is a contribution to the upcoming field of 'affect research' that has so far been dominated by psychology and cultural studies, and the authors examine the potential for epistemic gain by connecting the studies of affect with the studies of material culture. The contributors, predominantly ethnologists and anthropologists, use fieldwork to examine how people project affects onto material objects and explore how objects embody or trigger affects and produce affective atmospheres.

**European National Identities** Roland Vogt, Wayne Cristaudo, Andreas Leutzsch, 2014-02-04 Making sense of the perplexing diversity of Europe is a challenging task. How compatible are national identities in Europe? What makes Europe European?

What do Europeans have in common? *European National Identities* explores the diversity of European states, nations, and peoples. In doing so, the editors focus on the origins and elements of different national identities in Europe and different themes of national self-understanding. Each chapter contributes a unique view of national identities gravitating around myth, historical experiences and traumas, values, ethnic and linguistic differences, and religious fault lines. This work grounds European national identities within cultural, historical, and political dynamics, which makes the work approachable for many readers, including historians, sociologists, and political scientists. In addition, the editors illustrate that national identities continue to be a source of contention and a challenge to political developments, the demands of immigrants and minorities, and the dynamics of European integration. This book draws particular attention to identity shifts and conflicts within individual European countries.

Post-Socialist Political Graffiti in the Balkans and Central Europe Mitja Velikonja, 2019-10-30 This theoretically and empirically grounded book uses case studies of political graffiti in the post-socialist Balkans and Central Europe to explore the use of graffiti as a subversive political media. Despite the increasing global digitisation, graffiti remains widespread and popular, providing with a few words or images a vivid visual indication of cultural conditions, social dynamics and power structures in a society, and provoking a variety of reactions. Using qualitative and quantitative methods, as well as detailed interdisciplinary analyses of patriotic, extreme-right, soccer-fan, nostalgic, and chauvinist graffiti and street art, it looks at why and by whom graffiti is used as political media and to/against whom it is directed. The book theorises discussions of political graffiti and street art to show different methodological approaches from four perspectives: context, author, the work itself, and audience. It will be of interest to the growing body of literature focussing on (sub)cultural studies in the contemporary Balkans, transitology, visual cultural studies, art theory, anthropology, sociology, and studies of radical politics.

**Myth, Identity, and Conflict** Anamaria Dutceac Segesten, 2011-09-16 *Myth, Identity, and Conflict: A Comparative Analysis of Romanian and Serbian Textbooks*, by Anamaria Dutceac Segesten, is an examination of how history and politics became entangled in Romania and Serbia. Segesten's findings confirm the presence of mythologized versions of the past in the history textbooks of both countries over the entire fifteen-year period studied (1992-2007), despite claims for professionalization of textbook-making. Ultimately, *Myth, Identity, and Conflict*, by Anamaria Dutceac Segesten, questions the alleged power of history textbooks to make a difference in ethnically divided societies prone to conflicts.

**A History of Modern Political Thought in East Central Europe** Balázs Trencsenyi, Michal Kopeček, Luka Lisjak Gabrijelčič, Maria Falina, Mónika Baár, 2018-11-10 *A History of Modern Political Thought in East Central Europe* is a synthetic work, authored by an international team of researchers, covering twenty national cultures and 250 years. It goes beyond the conventional nation-centered narratives and presents a novel vision especially sensitive to the cross-cultural entanglement of

political ideas and discourses. Its principal aim is to make these cultures available for the global 'market of ideas' and revisit some of the basic assumptions about the history of modern political thought, and modernity as such. The present volume is the final part of the project, following Volume I: Negotiating Modernity in the 'Long Nineteenth Century', and Volume II, Part I: Negotiating Modernity in the 'Short Twentieth Century' (1918-1968) (OUP, 2018). Its starting point is the defeat of the vision of 'socialism with a human face' in 1968 and the political discourses produced by the various 'consolidation' or 'normalization' regimes. It continues with mapping the exile communities' and domestic dissidents' critical engagement with the local democratic and anti-democratic traditions as well as with global trends. Rather than achieving the coveted 'end of history', however, the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike. Thus, instead of a comfortable conclusion pointing to the European integration of most of these countries, the book closes with a reflection on the fragility of democracy in this part of the world and beyond.

**A History of Yugoslavia** Marie-Janine Calic, 2019-02-15 Why did Yugoslavia fall apart? Was its violent demise inevitable? Did its population simply fall victim to the lure of nationalism? How did this multinational state survive for so long, and where do we situate the short life of Yugoslavia in the long history of Europe in the twentieth century? *A History of Yugoslavia* provides a concise, accessible, comprehensive synthesis of the political, cultural, social, and economic life of Yugoslavia—from its nineteenth-century South Slavic origins to the bloody demise of the multinational state of Yugoslavia in the 1990s. Calic takes a fresh and innovative look at the colorful, multifaceted, and complex history of Yugoslavia, emphasizing major social, economic, and intellectual changes from the turn of the twentieth century and the transition to modern industrialized mass society. She traces the origins of ethnic, religious, and cultural divisions, applying the latest social science approaches, and drawing on the breadth of recent state-of-the-art literature, to present a balanced interpretation of events that takes into account the differing perceptions and interests of the actors involved. Uniquely, Calic frames the history of Yugoslavia for readers as an essentially open-ended process, undertaken from a variety of different regional perspectives with varied composite agenda. She shuns traditional, deterministic explanations that notorious Balkan hatreds or any other kind of exceptionalism are to blame for Yugoslavia's demise, and along the way she highlights the agency of twentieth-century modern mass society in the politicization of differences. While analyzing nuanced political and social-economic processes, Calic describes the experiences and emotions of ordinary people in a vivid way. As a result, her groundbreaking work provides scholars and learned readers alike with an accessible, trenchant, and authoritative introduction to Yugoslavia's complex history.

*Work and the Challenges of Belonging* Floya Anthias, Mojca Pajnik, 2014-06-26 This book engages with migrant work in globalizing economies, both in the EU and worldwide, to explore the relationships between work and the complexity of migrant belonging in transnational spaces. Migrant experiences related to global labour market structures are understood in

the context of transnational and national policy frames that largely determine the production of migrant work as poorly paid, precarious, and accompanied by low status and inadequate social protection. Special foci include issues of temporality, circularity and precarity; solidarity and belonging; migrants' strategies for coping with restrictive migration and economic policies; and practices and patterns relating to the commodification of migrant work. The book also discusses some of the analytical and political problems of migration and labour market discourses and practices, particularly in relation to developments around new forms of exclusion, securitization and ethnicization of migrant work. *Work and the Challenges of Belonging* is cross-disciplinary and comparative, engaging with theoretical, empirical and policy approaches.

*The Unwanted Europeanness?* Branislav Radeljić, 2021-01-18 Can we be optimistic about the future of Europe? To what extent has the European integrationist project affected the discourse about the core and the (semi-)periphery? Why does the European Union struggle with its own, and the neighbouring, Other? These are some of the questions addressed in this thought-provoking volume about the dilemmas surrounding the ever-uncertain European unity. A wide range of contributors have drawn upon invaluable sources and data to examine a broad selection of official discords and discrepancies characterizing the EU's relations with the Balkans, East-Central Europe, and beyond. Moreover, past events have shaped present political and socioeconomic cooperation (or its deficiencies), with no reason to believe that these present challenges will not further influence future arrangements at a supranational or intergovernmental level. Whichever the period, questions of belonging, solidarity, and the (un)wanted Other have remained relevant and have continued to penetrate discussions. In addition to complementing the existing analyses of European developments, the present findings are of great relevance for researchers, policymakers, and general readership. In fact, they are essential if we want to see Europe develop.

**Post-Yugoslav Literature and Film** Gordana P. Crnkovic, 2014-03-27 The 1990s violence in the Former Yugoslavia, the worst in Europe since World War II, triggered the conversion of multi-ethnic, multi-religious, and cosmopolitan areas of idiosyncratic and independent socialism into regions of xenophobic nationalism, wars, and, afterwards, Western-style democracy and capitalism. Unified by their artistic response to these cataclysmic changes, post-Yugoslav literary works and films have much to offer the wider world. Crnkovic reveals select post-Yugoslav literary and cinema works as groundbreaking exploratory achievements of global relevance. She presents post-Yugoslav literature and film as art that makes us aware of previously unconsidered things that bring us wars, and those that constitute part of the tapestry of peace. She foregrounds the radical potential of art to change and enrich the global landscapes of concepts, sensitivities, and politics. As such her book is important not only for those interested in this region, but also for all those wanting to discover and engage with world literature and cinema, and willing to encounter the potential of great new art to illuminate and challenge the world we live in.

Made in Yugoslavia Danijela Š. Beard, Ljerka V. Rasmussen, 2020-06-01 *Made in Yugoslavia: Studies in Popular Music*

serves as a comprehensive and thorough introduction to the history, sociology, and musicology of popular music in Yugoslavia and the post-Yugoslav region across the twentieth and twenty-first centuries. The book consists of chapters by leading scholars and covers the major figures, styles, and social contexts of music in the region that for most of the past century was known as Yugoslavia. Exploring the role played by music in Yugoslav art, culture, social movements, and discourses of statehood, this book offers a gateway into scholarly explanation of a key region in Eastern Europe. An introduction provides an overview and background on popular music in Yugoslavia, followed by chapters in four thematic sections: Zabavna-Pop; Rock, Punk, and New Wave; Narodna (Folk) and Neofolk Music; and the Politics of Popular Music Under Socialism.

Europe and the Post-Yugoslav Space Branislav Radeljic, 2016-04-22 Charting the path from intervention to integration Europe and the Post-Yugoslav Space examines the role of Europeanization on the development of the countries of the former Yugoslavia. Slovenia, Croatia, Macedonia, Montenegro, Serbia, Bosnia and Herzegovina and Kosovo may have a shared history but their experiences, views and attitudes to European integration vary dramatically. Opinion within each state is often equally as keenly divided as to the benefits of active membership. The debate within each country and their comparative differences in approach provide fascinating case studies on the importance and relevance of the EU and the effectiveness of Europeanization. A wide range of contributors with significant experience gained within the EU as well as their country of origin use their expert understanding of the language and cultures of the countries concerned to provide detailed and rich insights into the troubled history and potential of the post-Yugoslav space.

*Retracing Images* Daniel Šuber, Slobodan Karamanic, 2012-01-06 Drawing on visual materials (film, art, graffiti, street-art, public advertisement, memorials), the essays of this collection offer detailed views on the cultural and political dynamics that preceded and emerged in the wake of the Yugoslav conflicts of the 1990s.

*Researching Yugoslavia and its Aftermath* Branislav Radeljić, Carlos González-Villa, 2021-06-14 In *Researching Yugoslavia and its Aftermath*, a common thread is the authors' path through the time and space context in which fieldwork has taken place. Accordingly, this collection tackles problems that have always existed but have not been dealt with in a single volume. In particular, it examines a range of methodological questions arising from the contributors' shared concerns, and thus the obstacles and solutions characterising the relationship between researchers and their objects of study. Being an interdisciplinary project, this book brings together highly regarded historians, sociologists, anthropologists, political scientists, cultural and social theorists, as well as experts in architecture and communication studies. They share a belief that the awareness of the researcher's own position in fieldwork is a precondition of utmost significance to comprehend the evolution of objects of study, and hence to ensure transparency and ultimate credibility of the findings. Moreover, the contributors come from diverse backgrounds, including authors from the former Yugoslavia and others who have made their

way to the region after starting their research careers; some from universities in the area, others from institutions in the Global North. Here, they explore cross-cutting issues such as the repercussions of gender, nationality, institutional affiliation and the consequences of their entry into the field. This is examined in terms of the results of the research and the ethical aspect of the relationship with the object of study, as well as the implications of the chosen time framework in the methodological design and the clash between this decision and the interests of the actors studied.

**The Future of (Post)Socialism** John Frederick Bailyn, Dijana Jelača, Danijela Lugarić, 2018-10-09 If socialism did not end as abruptly as is sometimes perceived, what remnants of it linger today and will continue to linger? Moreover, if postsocialism is an umbrella term for the uncertain times of various transitions that followed in socialism's wake, how might the post be rendered complicated by the notion that the unfinished business of socialism continues to influence the trajectory of the future? *The Future of (Post)Socialism* examines this unfinished business through various disciplinary and transdisciplinary approaches that seek to illuminate the postsocialist future as a cultural and social fact. Drawn from the fields of history, ethnology, anthropology, sociology, economics, political science, education, linguistics, literature, and cultural studies, contributors analyze various cultural forms and practices of the formerly socialist cultural spaces of Eastern Europe. In so doing, they question the teleology of linear transitional narratives and of assumptions about postsocialist linear progress, concluding that things operate more as continued interruptions of a perpetually liminal state rather than as neat endings and new beginnings.
