Although the diagnosis of schizophrenia is not a welcome one and comes with unexpected changes to life, there are also lighthearted moments. This book is about a mother's journey with her son, who not only is subject to a mental illness, but experiences the devastating effects of brain surgery gone wrong. The Core Curriculum for Ambulatory Care Nursing (3rd Edition) has been organized and expanded to address the educational needs of nurses new to the specialty and those with experience, as well as to provide a review for those who seek specialty certification as an ambulatory care nurse.

Injury is an increasingly significant health problem throughout the world, accounting for 16 per cent of the global burden of disease. The public health burden of death and disability from injury is particularly notable in low and middle income countries. These guidelines seek to establish practical and affordable standards applicable to injury or trauma care worldwide, whether in rural health posts, small hospitals, hospitals staffed by specialists or tertiary care centres. It sets out a list of key trauma treatment services designed to be achievable in all settings, and defines the various human and physical resources required. It also includes a number of recommendations for methods to promote such standards including training, performance improvement, trauma team organisation and hospital inspection.
