A GOOD MORNING AMERICA BOOK CLUB PICK “Chandler Baker, queen of the feminist thriller, has delivered once again! The Husbands is a poignant exploration of what it would take for women to have it all.” —Sally Hepworth, bestselling author of The Good Sister To what lengths will a woman go for a little more help from her husband? Nora Spangler is a successful attorney but when it comes to domestic life, she packs the lunches, schedules the doctor appointments, knows where the extra paper towel rolls are, and designs and orders the holiday cards. Her husband works hard, too... but why does it seem like she is always working so much harder? When the Spanglers go house hunting in Dynasty Ranch, an exclusive suburban neighborhood, Nora meets a group of high-powered women—a tech CEO, a neurosurgeon, an award-winning therapist, a bestselling author—with enviably supportive husbands. When she agrees to help with a resident's wrongful death case, she is pulled into the lives of the women there. She finds the air is different in Dynasty Ranch. The women aren't hanging on by a thread. But as the case unravels, Nora uncovers a plot that may explain the secret to having-it-all. One that's worth killing for. Calling to mind a Stepford Wives gender-swap, New York Times bestselling author of Whisper Network Chandler Baker's The Husbands imagines a world where the burden of the “second shift” is equally shared—and what it may take to get there. “Utterly engrossing and thoroughly

timely, *The Husband's Secret* is both a gripping, well-crafted mystery and an insightful critique of motherhood and marriage in the modern age--working mothers everywhere will feel seen in the best possible way." —Kimberly McCreight, *New York Times* bestselling author of *A Good Marriage*

The #1 *New York Times* bestseller that has all America talking: as seen/heard on CNN's Fared Zakaria GPS, Morning Joe, CBS This Morning, The Bill Simmons Podcast, Rich Roll, and more. "The most important business—and parenting—book of the year." —*Forbes* "Urgent and important. . . an essential read for bosses, parents, coaches, and anyone who cares about improving performance." —Daniel H. Pink Shortlisted for the *Financial Times/McKinsey Business Book of the Year Award* Plenty of experts argue that anyone who wants to develop a skill, play an instrument, or lead their field should start early, focus intensely, and rack up as many hours of deliberate practice as possible. If you dabble or delay, you'll never catch up to the people who got a head start. But a closer look at research on the world's top performers, from professional athletes to Nobel laureates, shows that early specialization is the exception, not the rule. David Epstein examined the world's most successful athletes, artists, musicians, inventors, forecasters and scientists. He discovered that in most fields—especially those that are complex and unpredictable—generalists, not specialists, are primed to excel. Generalists often find their path late, and they juggle many interests rather than focusing on one. They're also more creative, more agile, and able to make connections their more specialized peers can't see. Provocative, rigorous, and engrossing, *Range* makes a compelling case for actively cultivating inefficiency. Failing a test is the best way to learn. Frequent quitters end up with the most fulfilling careers. The most impactful inventors cross

domains rather than deepening their knowledge in a single area. As experts silo themselves further while computers master more of the skills once reserved for highly focused humans, people who think broadly and embrace diverse experiences and perspectives will increasingly thrive.

Buy the Paperback Version of this Book and get the Kindle Book version for FREE We all struggle with getting things done. The burden of this fast-paced and busy world only adds weight on our shoulders, and it seems like no matter how many things we do, there is always a new pile of stuff waiting for us to take care of. But while some of us are stuck in the whirlpool of daily obligations, tasks, and endless chores, others struggle with the previous stage - figuring out what it is they need to do. Regardless of which stage you are in, the single most successful tool for getting things done is the to-do list. The to-do list is the best time-honored system that offers simple effectiveness. There are four steps to every well-created to-do list: 1. Figure out the tasks that you need to do and in which order 2. Write them down 3. Complete them 4. Cross them out And that's it. After you take advantage of this simple but super powerful tool for getting things done, you will not only have a lot less on your plate, but you will also be relieved from stress and anxiety. Or at least that's what is expected when creating a to-do list. The reality is sometimes the opposite. For many people, the to-do list ends up adding more stress and decreasing motivation for completing the tasks written. This mainly happens because people rush their way through the first two steps too quickly, then the third one never comes. Failing to organize what actually needs to get done is like making the worst dinner ever. You cannot simply grab everything from your fridge, whisk it together, put it in a pan, and expect a mouthwatering taste. In the same manner don't be fooled into thinking that writing random tasks without any order will result in getting everything done. If you have a to-do list but haven't managed to cross anything important out, do not blame your busy schedule - blame your poor to-do list. Using this guide, you will be able to learn how to put your life in order and to maximize your time using to-do-lists. Cannot seem to pinpoint what's wrong with your list? Grab this copy and start your journey towards a more productive life!

Trying to remember a bunch of details and tasks isn't the best use of your brainpower. By collecting all of your tasks in one place, you can reserve your mental energy for work that drives significant results, both in your professional life and your personal life. To start, productivity expert Maura Thomas takes us through an exercise called "brain dumping," which will clear your mind of all the things you're trying to remember you have to do—all the things that are distracting you or keeping you up at night. She then shows us the right way to use a calendar, the tools you'll need to succeed, and a better way of categorizing your tasks in order to identify the best use of your time and inspire you to take action. This is not another book on time management; this is a book on how to take back control of your busy life. Not only will you be focusing on the things that truly matter, but you'll also experience boosts in your mood and mindset—you'll feel more in control and less overwhelmed; you'll feel a greater sense of accomplishment now that you're focusing on what's truly important to you.

The aim of this book is to quickly empower you to make better decisions by giving you step-by-step explanations of the best techniques. We always make decisions under uncertainty and pressure, especially in business. We need faster and better

decisions to cope, but we don't have the time to learn how to make them well. That is where I come in. I wrote this book to allow you to make better decisions without spending weeks studying theory and practice. THE INTRODUCTION gives you a snapshot of two decision-making biases, of the worst mistake you can do when making decision, and a lesson taken straight from philosophy. - Decision Biases (why your brain isn't always your friend in decisions) - The Worst Mistake in Decision-Making - A Lesson From Another Time THE FIRST CHAPTER looks at frameworks of reference, meaning how you can apply decision-making to achieve your goals, for example how and why some decisions are able to automatically give you a competitive advantage. - The OODA Loop - The Recognition-Primed Decision Model - GROW or the John Whitmore Model - The PDSA Cycle CHAPTERS 2 TO 5 look at separate phases of decision-making: understanding your context, understanding the problem, generating solutions and selecting one option out of many. 2 - CONTEXT Contexts can be very different - and there is no one size fits all approach, which is why this book provides you with five. - SWOT and PEST - TELOS - Porter's Five Forces - Causal Loops Diagrams 3 - PROBLEM ASSESSMENT Before making decisions, then, you need to work on finding out exactly what you are trying to solve. This chapter gives you 5 tools to do so: - Root Cause Analysis: Ishikawa's Diagram and the 5 Whys Technique - Pareto Analysis - Kipling Method (5W1H) - CATWOE 4 - GENERATING IDEAS In "pure" decision-making, little attention is given to this phase, as it belongs to a different field: creativity. This book includes two tools: - Zwicky's Box - SCAMPER 5 - WEIGHING ALTERNATIVES This book gives you six tools for this, each one with its specificities: - Weights and Factors: the Grid Analysis and the KT Matrix - The Paired Comparison Analysis - The Quantitative Strategic Planning Matrix - The Analytic Hierarchy Process - The Eisenhower Matrix CHAPTER 6 AND 7 look at group decisions, meaning whether it's a good idea to make decisions in a group and, if it is, how that group should make decisions. 6 - DO YOU NEED YOUR TEAM? You can either involve your team in decisions or exclude them. Often, managers are torn between these two options - you have three tools to help you though: - The Vroom-Yetton-Jago Model - The Hoy-Tarter Model - The Hersey-Blanchard Model 7 - GROUP TECHNIQUES To be used when making decisions in a group is necessary. - The Nominal Group Technique - The Delphi Method - Hartnett's Consensus-Oriented Decision-Making Model - The Stepladder Technique - DeBono's Six Thinking Hats - The Charette Procedure - RAPID CHAPTERS 8 AND 9 look at decisions in corporate strategy and analyse a decision's consequence 8 - CORPORATE STRATEGY These decision tools have all been developed for corporations, but they still hold value for smaller businesses. - The BCG Matrix - The Advantage Matrix - The GE Matrix - Blind Spot Analysis 9 - CONSEQUENCES In other words: "how can I make sure that the decision I made is the best one and will work in my specific situation?" Unfortunately nobody can answer this. Any decision method can only skew the odds of having made the right decision in your favour. That said, there are a few techniques you can apply. - Impact Assessment - Plus-Minus-Interesting - Decision Trees - Cost-Benefit Analysis - Futures Wheel Tips and tricks to cut down your to-do list and avoid procrastination Are you prone to delaying all those projects you need to complete? In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In *Grit*, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among *Grit's* most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Winningly personal, insightful, and even life-changing, *Grit* is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).
