

To Sell Is Human The Surprising Truth About Persuading Convincing And Influencing Others

This business classic features straight-talking advice you'll never hear in school. Featuring a new foreword by Ariel Emanuel and Patrick Whitesell Mark H. McCormack, one of the most successful entrepreneurs in American business, is widely credited as the founder of the modern-day sports marketing industry. On a handshake with Arnold Palmer and less than a thousand dollars, he started International Management Group and, over a four-decade period, built the company into a multimillion-dollar enterprise with offices in more than forty countries. To this day, McCormack's business classic remains a must-read for executives and managers at every level. Relating his proven method of "applied people sense" in key chapters on sales, negotiation, reading others and yourself, and executive time management, McCormack presents powerful real-world guidance on • the secret life of a deal • management philosophies that don't work (and one that does) • the key to running a meeting—and how to attend one • the positive use of negative reinforcement • proven ways to observe aggressively and take the edge • and much more Praise for What They Don't Teach You at Harvard Business School "Incisive, intelligent, and witty, What They Don't Teach You at Harvard Business School is a sure winner—like the author himself. Reading it has taught me a lot."—Rupert Murdoch, executive chairman, News Corp, chairman and CEO, 21st Century Fox "Clear, concise, and informative . . . Like a good mentor, this book will be a valuable aid throughout your business career."—Herbert J. Siegel, chairman, Chris-Craft Industries, Inc. "Mark McCormack describes the approach I have personally seen him adopt, which has not only contributed to the growth of his business, but mine as well."—Arnold Palmer "There have been what we love to call dynasties in every sport. IMG has been different. What this one brilliant man, Mark McCormack, created is the only dynasty ever over all sport."—Frank Deford, senior contributing writer, Sports Illustrated

Break your revenue records with Silicon Valley's "growth bible" "This book makes very clear how to get to hyper-growth and the work needed to actually get there" Why are you struggling to grow your business when everyone else seems to be crushing their goals? If you needed to triple revenue within the next three years, would you know exactly how to do it? Doubling the size of your business, tripling it, even growing ten times larger isn't about magic. It's not about privileges, luck, or working harder. There's a template that the world's fastest growing companies follow to achieve and sustain much, much faster growth. From Impossible to Inevitable details the hypergrowth playbook of companies like Hubspot, Salesforce.com (the fastest growing multibillion dollar software company), and EchoSign—aka Adobe Document Services (which catapulted from \$0 to \$144 million in seven years). Whether you have a \$1 billion or a \$100,000 business, you can use the same insights as these notable companies to learn what it really takes to break your own revenue records. Pinpoint why you aren't growing faster Understand what it takes to get to hypergrowth Nail a niche (the #1 missing growth ingredient) What every revenue leader needs to know about building a scalable

The current way of treating people at work has failed. Globally, only 30% of employees are engaged in their jobs, and in this fast-paced world that's just not enough. The world's best companies understand this, and have been quietly treating people differently for nearly two decades. Now you can learn their secrets and discover The Engagement Bridge™ model, proven to build bottom line value for companies through sustainable employee engagement. Companies with the best cultures generate stock market returns of twice the general market and enjoy half the employee turnover of their peers. Their staff innovate more, deliver better customer service and, hands-down, beat the competition. These companies outperform and disrupt their markets. They break the rules of traditional HR, they rebel against the status quo. Build it has found these rebels and the rulebreakers. From small startups to global powerhouses, this book shows that courage, commitment, and a people-centric mindset, rather than money and resources, are what you need to turn an average business into a category leader. The book follows the clear and proven Engagement Bridge™ model, developed from working with thousands of leading companies worldwide on their own employee engagement journeys. The practical model highlights the areas that leaders need to examine in order to build a highly engaged company culture and provides a framework for success. Build it is packed with tips, tools and real-life examples from employers including NASDAQ, Unilever, IBM, KPMG, 3M, and McDonald's to help you start doing this not tomorrow, but today. Readers will learn: How employee engagement helps companies perform The key factors that drive engagement, and how they work together What the world's most rebellious companies have done to break the rules of traditional HR and improve engagement How to implement The Engagement Bridge™ model to boost productivity, innovation, and better decision-making Unique in this category, Build it is written from two sharply different perspectives. Glenn Elliott is a multi-award winning Entrepreneur of the Year, CEO and growth investor. He talks candidly about the mistakes and missteps he has made whilst building Reward Gateway into a \$300m category leader in employee engagement technology. Debra Corey brings 30 years experience in senior level HR roles at global companies such as Gap, Quintiles, Honeywell and Merlin Entertainments. She shares the practical tools and case studies that can kickstart your employee engagement plan, bringing her own pragmatic and engaging style to each situation.

Yuval Noah Harari Kindred is the definitive guide to the Neanderthals. Since their discovery more than 160 years ago, Neanderthals have metamorphosed from the losers of the human family tree to A-list hominins. Rebecca Wragg Sykes uses her experience at the cutting-edge of Palaeolithic research to share our new understanding of Neanderthals, shoving aside clichés of rag-clad brutes in an icy wasteland. She reveals them to be curious, clever connoisseurs of their world, technologically inventive and ecologically adaptable. Above all, they were successful survivors for more than 300,000 years, during times of massive climatic upheaval. Much of what defines us was also in Neanderthals, and their DNA is still inside us. Planning, co-operation, altruism, craftsmanship, aesthetic sense, imagination, perhaps even a desire for transcendence beyond mortality. Kindred does for Neanderthals what Sapiens did for us, revealing a deeper, more nuanced story where humanity itself is our ancient, shared inheritance.

NAMED A BEST BOOK OF 2018 BY THE FINANCIAL TIMES A groundbreaking take on how complexity causes failure in all kinds of modern systems--from social media to air travel--this practical and entertaining book reveals how we can prevent meltdowns in business and life "Endlessly fascinating, brimming with insight, and more fun than a book about failure has any right to be, Meltdown will transform how you think about the systems that govern our lives. This is a wonderful book."--Charles Duhigg, author of The Power of Habit and Smarter Faster Better A crash on the Washington, D.C. metro system. An accidental overdose in a state-of-the-art hospital. An overcooked holiday meal. At first glance, these disasters seem to have little in common. But surprising new research shows that all these events--and the myriad failures that dominate headlines every day--share similar causes. By understanding what lies behind these failures, we can design better systems, make our teams more productive, and transform how we make decisions at work and at home. Weaving together cutting-edge social science with riveting stories that take us from the frontlines of the Volkswagen scandal to backstage at the Oscars, and from deep beneath the Gulf of Mexico to the top of Mount Everest, Chris Clearfield and András Tilcsik explain how the increasing complexity of our systems creates conditions ripe for failure and why our brains and teams can't keep up. They highlight the paradox of progress: Though modern systems have given us new capabilities, they've become vulnerable to surprising meltdowns--and even to corruption and misconduct. But Meltdown isn't just about failure; it's about solutions--whether you're managing a team or the chaos of your family's morning routine. It reveals why ugly designs make us safer, how a five-minute exercise can prevent billion-dollar catastrophes, why teams with fewer experts are better at managing risk, and why diversity is one of our best safeguards against failure. The result is an eye-opening, empowering, and entirely original book--one that will change the way you see our complex world and your own place in it.

Wall Street Journal bestseller “A welcome revelation.” --The Financial Times Award-winning Wharton Professor and Choiceology podcast host Katy Milkman has devoted her career to the study of behavior change. In this ground-breaking book, Milkman reveals a proven path that can take you from where you are to where you want to be, with a foreword from psychologist Angela Duckworth, the best-selling author of Grit. Change comes most readily when you understand what's standing between you and success and tailor your solution to that roadblock. If you want to work out more but find exercise difficult and boring, downloading a goal-setting app probably won't help. But what if, instead, you transformed your workouts so they became a source of pleasure instead of a chore? Turning an uphill battle into a downhill one is the key to success. Drawing on Milkman's original research and the work of her world-renowned scientific collaborators, How to Change shares strategic methods for identifying and overcoming common barriers to change, such as impulsivity, procrastination, and forgetfulness. Through case studies and engaging stories, you'll learn:

- Why timing can be everything when it comes to making a change
- How to turn temptation and inertia into assets
- That giving advice, even if it's about something you're struggling with, can help you achieve more

Whether you're a manager, coach, or teacher aiming to help others change for the better or are struggling to kick-start change yourself, How to Change offers an invaluable, science-based blueprint for achieving your goals, once and for all.

We're all in Sales now: we all spend time trying to persuade others to part with resources although most of the time we don't even realise it. Parents sell their kids on going to bed. Spouses sell their partners on mowing the lawn. We go online to sell ourselves on social media sites. In this new book Daniel Pink explores the ways in which we can all improve our sales skills, in every area of our lives.

“Stories that both dazzle and edify... This book is not just about life, but about discovery itself. It is about error and hubris, but also about wonder and the reach of science.” —Siddhartha Mukherjee, New York Times Book Review

We all assume we know what life is, but the more scientists learn about the living world—from protocells to brains, from zygotes to pandemic viruses—the harder they find it is to locate life's edge. Carl Zimmer investigates one of the biggest questions of all: What is life? The answer seems obvious until you try to seriously answer it. Is the apple sitting on your kitchen counter alive, or is only the apple tree it came from deserving of the word? If we can't answer that question here on earth, how will we know when and if we discover alien life on other worlds? The question hangs over some of society's most charged conflicts—whether a fertilized egg is a living person, for example, and when we ought to declare a person legally dead. Life's Edge is an utterly fascinating investigation that no one but one of the most celebrated science writers of our generation could craft. Zimmer journeys through the strange experiments that have attempted to re-create life. Literally hundreds of definitions of what that should look like now exist, but none has yet emerged as an obvious winner. Lists of what living things have in common do not add up to a theory of life. It's never clear why some items on the list are essential and others not. Coronaviruses have altered the course of history, and yet many scientists maintain they are not alive. Chemists are creating droplets that can swarm, sense their environment, and multiply. Have they made life in the lab? Whether he is handling pythons in Alabama or searching for hibernating bats in the Adirondacks, Zimmer revels in astounding examples of life

at its most bizarre. He tries his own hand at evolving life in a test tube with unnerving results. Charting the obsession with Dr. Frankenstein's monster and how Coleridge came to believe the whole universe was alive, Zimmer leads us all the way into the labs and minds of researchers working on engineering life from the ground up.

A special 25th anniversary edition of the extraordinary international bestseller, including a new Foreword by Paulo Coelho. Combining magic, mysticism, wisdom and wonder into an inspiring tale of self-discovery, *The Alchemist* has become a modern classic, selling millions of copies around the world and transforming the lives of countless readers across generations. Paulo Coelho's masterpiece tells the mystical story of Santiago, an Andalusian shepherd boy who yearns to travel in search of a worldly treasure. His quest will lead him to riches far different—and far more satisfying—than he ever imagined. Santiago's journey teaches us about the essential wisdom of listening to our hearts, of recognizing opportunity and learning to read the omens strewn along life's path, and, most importantly, to follow our dreams.

Learn why selling is part of human nature-- and part of every job! Selling used to be the exclusive territory of professional salesmen who had dedicated their lives and careers to a sales-driven industry. But acclaimed author Daniel Pink argues that those days are gone! *To Sell is Human* (2013) outlines the cultural shift which has integrated sales as a necessary role in almost every job. Pink also expounds on this theory and identifies what he calls the “new ABCs of sales.”

NATIONAL BOOK AWARD FINALIST • NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history.

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

We're all selling something every day, whether at work or closer to home. But with advanced technology and mass competition, it's never been harder to capture people's attention. That's why we need to develop our sales mind: mastering our innate selling skills will help us cut through the noise in any situation. Drawing on the wisdom of psychology, mindfulness and cultural history, as well as a lifetime in sales, Helen Kensett has created 48 beautifully illustrated tools to help you: - become more focused, and develop a more mindful approach - gather crucial knowledge about your buyer, market and what you're selling - identify and communicate clearly the key aspects of your pitch - up your creativity, generate the best ideas and close the deal. From quick tricks for getting focused to simple skills like writing killer emails, Sales Mind is full of practical tools, real world tips and psychological insights to help you improve your selling at every step.

We're all in Sales now Parents sell their kids on going to bed. Spouses sell their partners on mowing the lawn. We sell our bosses on giving us more money and more time off. And in astonishing numbers we go online to sell ourselves on Facebook, Twitter and online dating profiles. Relying on science, analysis and his trademark clarity of thought, Daniel Pink shows that sales isn't what it used to be. Then he provides a set of tools, tips, and exercises for succeeding on each new terrain: six new ways to pitch your idea, three ways to understand another's perspective, five frames that can make your message clearer, and much more.

A new edition based on the timeless business classic—updated to help today's readers succeed more quickly in a rapidly changing world. For decades, The One Minute Manager® has helped millions achieve more successful professional and personal lives. While the principles it lays out are timeless, our world has changed drastically since the book's publication. The exponential rise of technology, global flattening of markets, instant communication, and pressures on corporate workforces to do more with less—including resources, funding, and staff—have all revolutionized the world in which we live and work. Now, Ken Blanchard and Spencer Johnson have written The New One Minute Manager to introduce the book's powerful, important lessons to a new generation. In their concise, easy-to-read story, they teach readers three very practical secrets about leading others—and explain why these techniques continue to work so well. As compelling today as the original was thirty years ago, this classic parable of a young man looking for an effective manager is more relevant and useful than ever.

New York Times Bestseller An exciting--and encouraging--exploration of creativity from the author of When: The Scientific Secrets of Perfect Timing The future belongs to a different kind of person with a different kind of mind: artists, inventors, storytellers-creative and holistic "right-brain" thinkers whose abilities mark the fault line between who gets ahead and who doesn't. Drawing on research from around the world, Pink (author of To Sell Is Human: The Surprising Truth About Motivating Others) outlines the six fundamentally human abilities that are absolute essentials for professional success and personal fulfillment--and reveals how to master them. A Whole New Mind takes readers to a daring new place, and a provocative and necessary new way of thinking about a future that's already here.

In this provocative book, New York Times and Wall Street Journal bestselling author Daniel H. Pink offers a fresh look at the art and science of persuasion. Physicians sell patients on a remedy. Lawyers sell juries on a verdict. Teachers sell students on the value of an education. Entrepreneurs persuade funders, writers convince readers, coaches cajole players. Parents convince their kids to clean. Spouses convince their partners to control the kids. And in astonishing numbers and with ferocious energy, we go online to sell ourselves—on Facebook pages, Twitter accounts, and Match.com profiles. Whether we're entrepreneurs, employees, parents or partners, we spend our days trying to move others. We're all in sales now. But this is not really a book about sales. This is a book about understanding why we do the things we do. To Sell Is Human will change how you see your world and transform what you do at work and at home. It offers vivid examples and stories that provide you with tools and practical tips to put these ideas into action.

While a Vice President at Salesforce, David Priemer had an epiphany during one of the company's high-pressure selling periods: the very sales tactics they were using were not working on him. Yes, the numbers still showed results, but through brute force rather than elegance and efficiency. Priemer also discovered that his sales colleagues were spending far more time on leads that did not convert to sales than on those that did. His company--and his entire profession--was acting with more than enough gusto, but without enough awareness and empathy. They were not selling the way they buy. *Sell the Way You Buy* is about much more than putting yourself in the customer's shoes. Customers don't always know what they want or need, or they may be seeking a solution for something that isn't their core problem. They suffer from status quo bias, from recency bias, from confirmation bias. And meanwhile, the state of overwhelming choice has most products and solution providers adrift in the "Sea of Sameness." In today's world, almost everyone is in sales, but as Priemer realized, we don't teach it. *Sell the Way You Buy* will show you how to ask questions, how to listen, how to tell a compelling brand story, and how to talk to customers (how to talk to people). Priemer reveals scientifically supported methods to understand the customer, identify their needs, and move them toward the right solution--all the while teaching you to avoid all the reasons why the average person doesn't like salespeople. In short, to sell the way you buy.

The first-ever full reckoning with Marvel Comics' interconnected, half-million-page story, a revelatory guide to the "epic of epics"—and to the past sixty years of American culture—from a beloved authority on the subject who read all 27,000+ Marvel superhero comics and lived to tell the tale "Brilliant, eccentric, moving and wholly wonderful. . . . Wolk proves to be the perfect guide for this type of adventure: nimble, learned, funny and sincere. . . . All of the Marvels is magnificently marvelous. Wolk's work will invite many more alliterative superlatives. It deserves them all." —Junot Díaz, *New York Times Book Review* The superhero comic books that Marvel Comics has published since 1961 are, as Douglas Wolk notes, the longest continuous, self-contained work of fiction ever created: over half a million pages to date, and still growing. The Marvel story is a gigantic mountain smack in the middle of contemporary culture. Thousands of writers and artists have contributed to it. Everyone recognizes its protagonists: Spider-Man, the Avengers, the X-Men. Eighteen of the hundred highest-grossing movies of all time are based on parts of it. Yet not even the people telling the story have read the whole thing—nobody's supposed to. So, of course, that's what Wolk did: he read all 27,000+ comics that make up the Marvel Universe thus far, from Alpha Flight to Omega the Unknown. And then he made sense of it—seeing into the ever-expanding story, in its parts and as a whole, and seeing through it, as a prism through which to view the landscape of American culture. In Wolk's hands, the mammoth Marvel narrative becomes a fun-house-mirror history of the past sixty years, from the atomic night terrors of the Cold War to the technocracy and political division of the present day—a boisterous, tragicomic, magnificently filigreed epic about power and ethics, set in a world transformed by wonders. As a work of cultural exegesis, this is sneakily significant, even a landmark; it's also ludicrously fun. Wolk sees fascinating patterns—the rise and fall of particular cultural aspirations, and of the storytelling modes that conveyed them. He observes the Marvel story's progressive visions and its painful stereotypes, its patches of woeful hackwork and stretches of luminous creativity, and the way it all feeds into a potent cosmology that echoes our deepest hopes and fears. This is a huge treat for Marvel fans, but it's also a revelation for readers who don't know Doctor Strange from Doctor Doom. Here, truly, are all of the marvels.

goodbye to the old sales adage, “Always Be Closing,” and learn the new ABC’s of selling: Attunement, Buoyancy, and Clarity • Illustrative case studies provide a practical framework for all walks of life from traditional salespeople to “non-sales sellers”—teachers, doctors and parents. In *To Sell is Human*, Pink draws on social science to redefine the rules of selling, offering thought-provoking insights on how and why the art of the deal has changed. Pink contends that the line between seller and customer has blurred, and everyone, no matter the occupation, spends most of their time selling something—an idea, an agenda, an item—to somebody. A fresh perspective on the art of selling, *To Sell is Human* is essential reading for anyone seeking to improve their ability to successfully move others in their professional or personal life. 30 Minute Expert Series *To Sell is Human ...in 30 Minutes* is the essential guide to quickly understanding the modern landscape of selling as outlined in Daniel H. Pink’s best-selling book, *To Sell is Human: The Surprising Truth About Moving Others*. Designed for those whose desire to learn exceeds the time they have available, 30 Minute Expert Series enable readers to rapidly understand the indispensable ideas behind critically acclaimed books.

Brian Tracy, one of the top professional speakers and sales trainers in the world today, found that his most important breakthrough in selling was the discovery that it is the "Psychology of Selling" that is more important than the techniques and methods of selling. Tracy's classic audio program, *The Psychology of Selling*, is the best-selling sales training program in history and is now available in expanded and updated book format for the first time. Salespeople will learn: "the inner game of selling" how to eliminate the fear of rejection how to build unshakeable self-confidence Salespeople, says Tracy, must learn to control their thoughts, feelings, and actions to make themselves more effective.

Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. *Pinocchio, The Tale of a Puppet* is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinocchio. It includes 40 illustrations.

Pink, the #1 bestselling author of *Drive* and *To Sell Is Human*, unlocks the scientific secrets to good timing to help you flourish at work, at school, and at home. Everyone knows that timing is everything. But we don't know much about timing itself. Our lives are a never-ending stream of "when" decisions: when to start a business, schedule a class, get serious about a person. Yet we make those decisions based on intuition and guesswork. Timing, it's often assumed, is an art. In *When: The Scientific Secrets of Perfect Timing*, Pink shows that timing is really a science. Drawing on a rich trove of research from psychology, biology, and economics, Pink reveals how best to live, work, and succeed. How can we use the hidden patterns of the day to build the ideal schedule? Why do certain breaks dramatically improve student test scores? How can we turn a stumbling beginning into a fresh start? Why should we avoid going to the hospital in the afternoon? Why is singing in time with other people as good for you as exercise? And what is the ideal time to quit a job, switch careers, or get married? In *When*, Pink distills cutting-edge research and data on timing and synthesizes them into a fascinating, readable narrative packed with irresistible stories and practical takeaways that give readers compelling insights into how we can live richer, more engaged lives.

Widely acclaimed for its engaging style and provocative perspective, this book has helped thousands transform their working lives. Now including a 30-page resource guide that explains the basics of working for oneself. It's about fulfillment. A revolution is sweeping America. On its front lines are people fed up with unfulfilling jobs, dysfunctional workplaces, and dead-end careers. Meet today's new economic icon: the free agent-men and women who are working for themselves. And meet your future. It's about freedom. Free agents are the marketing consultant down the street, the home-based "mompreneur," the footloose technology contractor. Already 30 million strong, these 21st-century pioneers are creating lives with more meaning-and often more money. Free Agent Nation is your ticket to this world. It's about time. Now, you can discover: The kind of free agent you can be-"soloist," "temp," or "microbusiness"-and how to launch your new career. How to get the perks you once received from your boss: health insurance, office space, training, workplace togetherness, even water cooler gossip. Why the free agent economy is increasingly a woman's world-and how women are flourishing in it. The transformation of retirement-how older workers are creating successful new businesses (and whole new lives) through the Internet.

You can follow the beaten path and call yourself an entrepreneur or you can blaze your own trail and really be one. When Derek Sivers started CD Baby, he wasn't planning on building a major business. He was a successful independent musician who just wanted to sell his CDs online. When no one would help him do it, he set out on his own and built an online store from scratch. He started in 1998 by helping his friends sell their CDs. In 2000, he hired his first employee. Eight years later, he sold CD Baby for \$22 million. Sivers didn't need a business plan, and neither do you. You don't need to think big; in fact, it's better if you don't. Start with what you have, care about your customers more than yourself, and run your business like you don't need the money.

Look out for Daniel Pink's new book, *When: The Scientific Secrets of Perfect Timing* #1 New York Times Business Bestseller #1 Wall Street Journal Business Bestseller #1 Washington Post bestseller From the bestselling author of *Drive* and *A Whole New Mind*, and teacher of the popular MasterClass on Sales and Persuasion, comes a surprising--and surprisingly useful--new book that explores the power of selling in our lives. According to the U.S. Bureau of Labor Statistics, one in nine Americans works in sales. Every day more than fifteen million people earn their keep by persuading someone else to make a purchase. But dig deeper and a startling truth emerges: Yes, one in nine Americans works in sales. But so do the other eight. Whether we're employees pitching colleagues on a new idea, entrepreneurs enticing funders to invest, or parents and teachers cajoling children to study, we spend our days trying to move others. Like it or not, we're all in sales now. *To Sell Is Human* offers a fresh look at the art and science of selling. As he did in *Drive* and *A Whole New Mind*, Daniel H. Pink draws on a rich trove of social science for his counterintuitive insights. He reveals the new ABCs of moving others (it's no longer "Always Be Closing"), explains why extraverts don't make the best salespeople, and shows how giving people an "off-ramp" for their actions can matter more than actually changing their minds. Along the way, Pink describes the six successors to the elevator pitch, the three rules for understanding another's perspective, the five frames that can make your message clearer and more persuasive, and much more. The result is a perceptive and practical book--one that will change how you see the world and transform what you do at work, at school, and at home.

In 1967, after a session with a psychiatrist she'd never seen before, eighteen-year-old Susanna Kaysen was put in a taxi and sent to McLean Hospital. She spent most of the next two years in the ward for teenage girls in a psychiatric hospital as renowned for its famous clientele—Sylvia Plath, Robert Lowell, James Taylor, and Ray Charles—as for its progressive methods of treating those who could afford its sanctuary. Kaysen's memoir encompasses horror and razor-edged perception while providing vivid portraits of her fellow patients and their keepers. It is a brilliant evocation of a "parallel universe" set within the kaleidoscopically shifting landscape of the late sixties. *Girl, Interrupted* is a clear-sighted,

unflinching document that gives lasting and specific dimension to our definitions of sane and insane, mental illness and recovery.
