When historian Goodwin was six years old, her father taught her how to keep score for 'their' team, the Brooklyn Dodgers, which forged a lifelong bond between father and daughter. Set in the suburbs of New York in the 1950s, *Wait Till Next Year* is a coming-of-age memoir in the era of Jackie Robinson, Pee Wee Reese and Duke Snider, when baseball truly was a national pastime that brought whole communities together. With her radio by her side and scorecard to hand, she recreates the postwar era, when the corner store was a place to share stories and neighborhoods were equally divided between Dodger, Giant, and Yankee fans. Weaved between the games and the seasons, Goodwin tells the story of a changing America – from the lunacy of the Cold War alarm drills to McCarthy and the Rosenberg trials – as well as her own loss of innocence encapsulated by her mother's death, her father's lapse into despair and the Dodger's departure from Brooklyn in 1957 following the destruction of the iconic Ebbets Field stadium. Poignant, unsentimental and deeply eloquent, *Wait Till Next Year* is a profound memoir about childhood and loss, baseball, and the power of sport to bind families and heal loss and reveal as metaphor the evolving heart of a nation.

So says Laszlo Bock, former head of People Operations at the company that transformed how the world interacts with knowledge. This insight is the heart of *WORK RULES!*, a compelling and surprisingly playful manifesto that offers lessons including: Take away managers' power over employees Learn from your best employees-and your worst Hire only people who are smarter than you are, no matter how long it takes to find them Pay unfairly (it's more fair!) Terrorists deploy a range of communication methods and harness reliable communication theories to create strategic messages that persuade peaceful individuals to join their groups and engage in violence. While explaining how they accomplish this, the book lays out a blueprint for developing counter-messages perfectly designed to conquer such violent extremism and terrorism. Using this basis in persuasion theory, a socio-scientific approach is generated to fight terrorist propaganda and the damage it causes.

An instructive and marvelously entertaining chronicle of a puppy's first year, by the executive editor of The New York Times One sparkling summer day, Jill Abramson brought home a nine-week-old golden retriever named Scout. Over the following year, as she and her husband raised their adorable new puppy, Abramson wrote a hugely popular column for The New York Times's website about the joys and challenges of training this rambunctious addition to their family. Dog-lovers from across the country inundated her with e-mails and letters, and the photos they sent in of their own dogs

became the most visited photo album on the Times's site in 2009. Now Abramson has gone far beyond the material in her column and written a detailed and deeply personal account of Scout's first year. Part memoir, part manual, part investigative report, *The Puppy Diaries* continues Abramson's intrepid reporting on all things canine. Along the way, she weighs in on such issues as breeders or shelters, adoption or rescue, raw diet or vegan, pack-leader gurus like Cesar Millan or positive-reinforcement advocates like Karen Pryor. What should you expect when a new puppy enters your life? With utterly winning stories and a wealth of practical information, *The Puppy Diaries* provides an essential road map for navigating the first year of your dog's life.

The "terrifically good" (The New York Times Book Review) finale in the New York Times bestselling Red Sparrow trilogy continues the dangerous entanglements of Russian counterintelligence chief Dominika Egorova and her lover, CIA agent Nate Nash, on the hunt for a Russian agent working in the US government. Russian president Vladimir Putin is planning the covert assassination of a high-ranking US official with the intention of replacing him with a mole whom Russian intelligence has cultivated for more than fifteen years. Catching wind of this plot, Dominika, Nate, and their CIA colleagues must unmask the traitor before he or she is able to reveal that Dominika has been spying for years on behalf of the CIA. Any leak, any misstep, will expose her as a CIA asset and result in a one-way trip to a Moscow execution cellar. Ultimately, the lines of danger converge on the spectacular billion-dollar presidential palace on the Black Sea during a power weekend with Putin's inner circle. Does Nate sacrifice himself to save Dominika? Does Dominika forfeit herself to protect Nate? Do they go down together? With a plot ripped from tomorrow's headlines, *The Kremlin's Candidate* is "both timely and timeless; an espionage tale that takes the reader behind and beyond the headlines of Russia's assault on America" (Nelson DeMille).

A riveting narrative of Wall Street buccaneering, political intrigue, and two of American history's most colossal characters, struggling for mastery in an era of social upheaval and rampant inequality. It seemed like no force in the world could slow J. P. Morgan's drive to power. In the summer of 1901, the financier was assembling his next mega-deal: Northern Securities, an enterprise that would affirm his dominance in America's most important industry-the railroads. Then, a bullet from an anarchist's gun put an end to the business-friendly presidency of William McKinley. A new chief executive bounded into office: Theodore Roosevelt. He was convinced that as big business got bigger, the government had to check the influence of the wealthiest or the country would inch ever closer to collapse. By March 1902, battle lines were drawn: the government sued Northern Securities for antitrust violations. But as the case ramped up, the coal miners'

union went on strike and the anthracite pits that fueled Morgan's trains and heated the homes of Roosevelt's citizens went silent. With millions of dollars on the line, winter bearing down, and revolution in the air, it was a crisis that neither man alone could solve. Richly detailed and propulsively told, *The Hour of Fate* is the gripping story of a banker and a president thrown together in the crucible of national emergency even as they fought in court. The outcome of the strike and the case would change the course of our history. Today, as the country again asks whether saving democracy means taming capital, the lessons of Roosevelt and Morgan's time are more urgent than ever.

Toby and Sox The heartwarming tale of a little boy with autism and a dog in a million Random House

In 1897, Britain responded to the killing of a group of officials by razing an empire to the ground. The men had been travelling to the ancient Kingdom of Benin, in what is now Nigeria, when they were ambushed and killed by local soldiers. Just six weeks later, the British had exacted their revenge, set Benin aflame, exiled the king and annexed the territory. They also made off with some of Africa's greatest works of art. This is the story of the 'Benin Bronzes', their creation, removal, and what should happen to them now. When first exhibited in London they caused a sensation and helped reshape European attitudes towards Africa, challenging the prevailing view of the continent as 'backward' and without culture. But seeing them in the British Museum today is, in the words of one Benin City artist, like 'visiting relatives behind bars'. In a time of fevered debate about the legacies of empire, loot, museums and history, what does the future hold for the Bronzes themselves?

"I just feel better now Sox is here. Before, I felt like I wanted to die. I couldn't even go to parties. Then Sox came along. It feels like our hearts are connected – I love him so much." Toby When Toby Turner was excluded from school for the third time for hitting

and kicking his teachers, his family hit rock bottom. Toby, who has autism, felt so upset by his own aggression, he told his parents they would be better off without him. Terrified, Toby's mum gave up her job as a nursery nurse to teach him at home while they found a place for him in a special school. Eventually, the only way the family could get Toby out of the house was by giving him headphones, sunglasses and a cap to block out the world. After a difficult few years, the family was thrown a lifeline by the charity Dogs for Good, which introduced Toby to Sox. The adorable three-year-old Labrador Golden Retriever was trained by the charity to help children with autism. Within two weeks, he had turned Toby's life around. Together, as a family unit, and with Sox by their side, the Turners have learned to enjoy life again.

LeFlore recounts his early life as a street criminal and prison inmate and describes his present experiences as a major-league baseball star

Lola was a buckshot-riddled stray, lost on a Memphis highway. Cody was rejected from seven different homes. Ace had been sprayed with mace and left for dead on a train track. They were deemed unadoptable. Untrainable. Unsalvageable. These would become the same dogs America relied on when its worst disasters hit. In 1995, Wilma Melville volunteered as a canine search-and-rescue (SAR) handler with her Black Labrador Murphy in the aftermath of the Oklahoma City bombing. At the time, there were only fifteen FEMA certified SAR dogs in the United States. Believing in the value of these remarkable animals to help save lives, Wilma knew many more were needed in the event of future major disasters. She made a vow to help 168 dogs receive search-and-rescue training in her lifetime—one for every Oklahoma City victim. Wilma singlehandedly established the National Disaster Search Dog Foundation (SDF) to meet this challenge. The first canine candidates—Ana, Dusty, and Harley—were a trio of golden retrievers with behavioral problems so severe the dogs were considered irredeemable and unadoptable. But with patience, discipline, and love applied during training, they proved to have the ability, agility, and stamina to graduate as SARs. Paired with a trio of firefighters, they were among the first responders searching the ruins of the World Trade Center following 9/11—setting the standard for the more than 168 of the SDF's search-and-rescue dogs that followed. Beautiful and heart-wrenching, Hero Dogs is the story of one woman's dream brought to fruition by dedicated volunteers and firefighters—and the bonds they forged with the incredible rescued-turned-rescuer dogs to create one of America's most vital resources in disaster response.

NEW YORK TIMES EDITORS' CHOICE • A Pulitzer Prize-winning historian takes us as close as we have ever been to the real John F. Kennedy in this revelatory biography of the iconic, yet still elusive, thirty-fifth president. "An utterly incandescent study of

one of the most consequential figures of the twentieth century.”—Jill Lepore, author of *These Truths: A History of the United States*

WINNER OF THE ELIZABETH LONGFORD PRIZE • NAMED BIOGRAPHY OF THE YEAR BY *The Times* (London) • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The Sunday Times* (London) • *New Statesman* • *The Daily Telegraph* • *Kirkus Reviews*

By the time of his assassination in 1963, John F. Kennedy stood at the helm of the greatest power the world had ever seen, a booming American nation that he had steered through some of the most perilous diplomatic standoffs of the Cold War. Born in 1917 to a striving Irish American family that had become among Boston’s wealthiest, Kennedy knew political ambition from an early age, and his meteoric rise to become the youngest elected president cemented his status as one of the most mythologized figures in American history. And while hagiographic portrayals of his dazzling charisma, reports of his extramarital affairs, and disagreements over his political legacy have come and gone in the decades since his untimely death, these accounts all fail to capture the full person. Beckoned by this gap in our historical knowledge, Fredrik Logevall has spent much of the last decade searching for the “real” JFK. The result of this prodigious effort is a sweeping two-volume biography that properly contextualizes Kennedy amidst the roiling American Century. This volume spans the first thirty-nine years of JFK’s life—from birth through his decision to run for president—to reveal his early relationships, his formative experiences during World War II, his ideas, his writings, his political aspirations. In examining these pre-White House years, Logevall shows us a more serious, independently minded Kennedy than we’ve previously known, whose distinct international sensibility would prepare him to enter national politics at a critical moment in modern U.S. history. Along the way, Logevall tells the parallel story of America’s midcentury rise. As Kennedy comes of age, we see the charged debate between isolationists and interventionists in the years before Pearl Harbor; the tumult of the Second World War, through which the United States emerged as a global colossus; the outbreak and spread of the Cold War; the domestic politics of anti-Communism and the attendant scourge of McCarthyism; the growth of television’s influence on politics; and more. *JFK: Coming of Age in the American Century, 1917–1956* is a sweeping history of the United States in the middle decades of the twentieth century, as well as the clearest portrait we have of this enigmatic American icon. John Cheever spent much of his career impersonating a perfect suburban gentleman, the better to become one of the foremost chroniclers of postwar America. Written with unprecedented access to essential sources—including Cheever’s massive journal, only a fraction of which has ever been published—*Bailey’s Cheever* is a stunning example of the biographer’s art and a brilliant tribute to an essential author.

From the front page of The New York Times to YouTube, Dr. Wafa Sultan has become a force radical Islam has to reckon with. For the first time, she tells her story and what she learned, first-hand, about radical Islam in A God Who Hates, a passionate memoir by an outspoken Arabic woman that is also a cautionary tale for the West. She grew up in Syria in a culture ruled by a god who hates women. "How can such a culture be anything but barbarous?", Sultan asks. "It can't", she concludes "because any culture that hates its women can't love anything else." She believes that the god who hates is waging a battle between modernity and barbarism, not a battle between religions. She also knows that it's a battle radical Islam will lose. Condemned by some and praised by others for speaking out, Sultan wants everyone to understand the danger posed by A God Who Hates.

The hilarious and heartwarming, respectful and thought-provoking memoir of a college student's semester at Liberty University, the "Bible Boot Camp" for young evangelicals, that will inspire believers and nonbelievers alike. No drinking. No smoking. No cursing. No dancing. No R-rated movies. Kevin Roose wasn't used to rules like these. As a sophomore at Brown University, he spent his days fitting right in with Brown's free-spirited, ultra-liberal student body. But when Roose leaves his Ivy League confines to spend a semester at Liberty University, a conservative Baptist school in Lynchburg, Virginia, obedience is no longer optional. Liberty is the late Reverend Jerry Falwell's "Bible Boot Camp" for young evangelicals, his training ground for the next generation of America's Religious Right. Liberty's ten thousand undergraduates take courses like Evangelism 101 and follow a forty-six-page code of conduct that regulates every aspect of their social lives. Hoping to connect with his evangelical peers, Roose decides to enroll at Liberty as a new transfer student, chronicling his adventures in this daring report from the front lines of America's culture war. His journey takes him from an evangelical hip-hop concert to a spring break mission trip to Daytona Beach (where he learns to preach the gospel to partying coeds). He meets pastors' kids, closet doubters, Christian rebels, and conducts what would be the last print interview of Rev. Falwell's life.

The third design book from the TV and social media star and author of *Habitat* and *Down to Earth*, *Feels Like Home* explores the emotional connection that a home can have to a person's life. A house is a feeling. That is the conceit behind designer Lauren Liess's third book, which explores the emotional connection between the way we decorate our homes and our daily lives. She advises readers to think beyond just the objects in their homes and explore how design informs an intentional, happy, and authentic life. The book includes practical design information, with never-before-seen

case studies on a variety of homes including a beach cottage, a farmhouse, a home in the woods, a Spanish colonial, and other more traditional homes. Each case study explores a hardworking design aspect (such as proportion, scale, and color), while also focusing on the emotional aspect of the home. The chapters are inspired by the following themes: comfort, calm, excitement, belonging, carefree, love, and contentment.
