Have you ever gotten to the point in your life where one day is like all the rest? Where the individuality, excitement and purpose of every moment is drained of its promising complexion? Through work, school, family and routine, people strive more and more to "get by" rather than "get going." But God didn't intend for it to be like this. Every precious second in a day, all 86,400 of them, is a gift from Him to us. Our lives, that we whittle away with routine and complacency, are meant for so much more. 86,400 is the instigator for a renewed life of

intention and relevance-ultimately making the most out of every single day. By showcasing how she and Christians who carry either celebrity or inspirational significance manage their daily gift, Lavaille effectively teaches readers how they can fulfill God's intended purpose. Joseph Charles Philpot M.A. was born on the 13th September 1802 at Ripple Rectory in Kent. He was educated at Worcester College, Oxford, and was subsequently elected a Fellow. He went on to Ireland as a tutor for a private family, and, having been saved by grace, began his ministry in the Church of England. He seceded from that Church in 1835, and the same year aligned himself with the Strict and Particular Baptists, being baptized by John Warburton on his 33rd birthday. He became pastor of the Stamford and Oakham congregations in 1838 and ministered faithfully until poor health ended his pastoral ministry in 1864. He went to his reward on 9th December 1869, a beloved and respected leader amongst the Strict and Particular Baptists where his memory is still cherished. As well as his pastoral work, he was also editor of the Gospel Standard which gained considerable influence and prominence under his leadership. The organisation still publishes his works, and much of what we have from him today was first written for that publication. These devotions have been available on various websites for some time, but to my knowledge there has not been a printed edition using the King James Version of the bible available for many years. I believe the devotions are very close to the original publications, with only some paragraph divisions and occasional sentence splittings added by this arranger to make the devotions easier to follow for 21st Century

readers. Philpot's original but now veteran language and grammar has been left largely unaltered with only the spelling being returned to British English, some archaic words very carefully replaced, and no simplification. The Scripture quotes at the beginning of each portion use the original King James Version, with a few of the contractions removed to print the full verse rather than just a couple of words. Philpot himself often paraphrased, tending to follow the pattern of the Geneva Bible of 1560, so where odd words differ from the KJV in the body of his portions, this may well be the cause and origin. A handful of the devotions seem quite short, and may have been truncated in the past. However, checking all the versions available to me has not revealed any additional text, so any missing text may now have been lost forever. I trust that you will find these devotions as encouraging and challenging as I do, and that they will strengthen you in your faith as they have done for many thousands of Christian readers over the years. The truth contained within them is as precious and real today as it was when first written, and remains fresh and pertinent with repeated reading. You will be able to re-read this volume many times during your life and will always be surprised to find something new that you missed first time round. Noel Pogson May 2017

. *Renewal of Life by Transmission*. The most notable distinction between living and inanimate things is that the former maintain themselves by renewal. A stone when struck resists. If its resistance is greater than the force of the blow struck, it remains outwardly unchanged. Otherwise, it is shattered into smaller bits. Never does the stone attempt to react in such a way that it may maintain itself against the blow, much less so as to render the blow a contributing factor to its own continued action. While the living thing may easily be crushed by superior force, it none the less tries to turn the energies which act upon it into means of its own further

existence. If it cannot do so, it does not just split into smaller pieces (at least in the higher forms of life), but loses its identity as a living thing. As long as it endures, it struggles to use surrounding energies in its own behalf. It uses light, air, moisture, and the material of soil. To say that it uses them is to say that it turns them into means of its own conservation. As long as it is growing, the energy it expends in thus turning the environment to account is more than compensated for by the return it gets: it grows. Understanding the word "control" in this sense, it may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up. Life is a self-renewing process through action upon the environment.

My purpose for writing this book is to leave a legacy of a man who was truly remarkable. My journal consists of the 30 odd years we spent together, all the adventures and travels.

WHEN IT COMES TO LOVE, SOMETIMES IT TAKES THE HEAD YEARS TO DISCOVER WHAT THE HEART HAS ALWAYS KNOWN When Forbes Branson was a young man ready for something new. A senior in high school, he was the golden boy. Heir to a fortune, he knew what his life was going to be. But he wanted adventure first. A year to do what he wanted, where he wanted before college. An unexpected betrayal would change everything. Sophie Lipton was fifteen the first time she set foot on the Branson ranch. Dragged from one place to another, never having more than one pair of shoes or enough to eat, the moment she saw the wide open spaces, she felt she could breathe for the first time in her life. It was the home she always dreamed of. But her happiness came at a price. To stay in her new home, Sophie had to keep somebody else's lies. Lies that would eventually tear apart a family. And tear apart her friendship with Forbes. Coming home is never easy-especially after twelve years. Forbes isn't the same young man. He found his adventure-and more. Weary, he's ready to settle into a slower, calmer life. Working on his family's ranch and taking the job as Chief of Police sounds like a piece of cake after the things he had seen and done. Sophie isn't the quiet girl Forbes remembers. She's grown into a strong, confident woman. A woman used to being in charge.

The Branson ranch is her territory now. If Forbes thinks he's going to waltz back in and take over, he's going to find out fast that Sophie is no pushover. Twelve years ago, they shared one goodbye kiss. More sweet than passionate. Now, as adults it's a whole new game. The attraction between them is undeniable. Just as they begin to move forward, the past has other ideas. Secrets rarely stay buried forever. Lies. Betrayal. Maybe even murder. Before Forbes and Sophie can think about the future, they will need to deal with the past. Together.

John C. Maxwell, #1 New York Times bestselling author, helps readers take the first steps to living a life that matters in INTENTIONAL LIVING. We all have a longing to be significant. We want to make a contribution, to be a part of something noble and purposeful. But many people wrongly believe significance is unattainable. They worry that it's too big for them to achieve. That they have to have an amazing idea, be a certain age, have a lot of money, or be powerful or famous to make a real difference. The good news is that none of those things is necessary for you to achieve significance and create a lasting legacy. The only thing you need to achieve significance is to be intentional. And to do that, all you need to do is start. You can't make an impact sitting still and doing nothing. Every major accomplishment that's ever been achieved started with a first step. Sometimes it's hard; other times it's easy, but no matter what, you have to do it if you want to get anywhere in life. In INTENTIONAL LIVING, John Maxwell will help you take that first step, and the ones that follow, on your personal path through a life that matters.

What is a winning strategy? Why do some people, families, and organizations take a dive, some merely survive, while others thrive? What leads up to a disaster or collapse? Why do some squander success, while others continue to elevate? How do we build a solid foundation that assures solid, authentic growth? *Me We Do Be* is the result of research that has spanned twenty-five years at the intersection of sociology and economics. Specifically, I have explored what behaviors lead to disaster, recovery, or prosperity. As an economist, I measure the financial effects caused by disasters and other detrimental conditions. In other words, when disaster strikes, I am often called in to compute the business and real estate damages. Appraisers measure value, but I measure the loss of value. Moreover, also being a sociologist, I keep my eye on the people behind the statistics as I develop the strategies to move forward. It is a narrow consulting niche involving research, valuation, negotiation, and strategy, and it has provided unique access to interesting people and places around the globe. The journey began in the 1980s when I was a graduate student at UCLA studying leadership and business models. In the 1990s, I directed a national practice at the world's largest consulting firm. My research expanded as I walked the reactors at Chernobyl and cut through the jungles around the Bikini Atoll radioactive nuclear test sites. I have worked on cases ranging from the O. J. Simpson and JonBenet Ramsey crime scenes to the bizarre Heaven's Gate Cult mass-suicide mansion. In the 2000s, there was more. I was stunned as I stood on a curb in New York and watched smoke billowing from the World Trade Center and picked up debris on a rural field in

Pennsylvania where Flight 93 had crashed on 9-11. I walked the beaches stained by the BP Oil Spill and inspected thousands of homes torn apart by Hurricane Katrina. As a socio-economist I have worked on these and hundreds of other cases around the world. More importantly, I have studied their ultimate resolution. While some reporters drop in and rush off to the next story, I have stayed to talk to the people long after the news vans drive away. Furthermore, I have been an adviser in countless boardrooms where we discussed cases involving billions of dollars. A crisis exposes a person's or organization's true character, and this yields some invaluable insights. In all, I had accumulated a mountain of information and I wanted to organize it within a practical framework. My objective was to find a model that children could understand and that a CEO would take seriously. I considered using the ancient Greek paradigm of "ethos, pathos, and logos" and a more modern framework of "mental, social, spiritual, and physical." Of course, there was the standard, "mind, body, and soul," as well as many other models. All of these struck me as good, but none of them struck me as complete. It was as if they were playing some of the keys of the piano, but not the whole keyboard. I simply wanted a clear, complete framework. My quest for the ideal model ultimately came to me on the Marianas Islands as I sat in deep thought for three consecutive days. The answer was simple: Just as all great structures have four cornerstones, there are four cornerstones of all great pursuits. These can be summed up as Me We Do Be. Me refers to habits that build quality thinking and wisdom, We habits build relationships, Do habits build productivity, and Be habits build the future. In the pages that follow, I will use this Me We Do Be framework as we explore some of the most fascinating places on Earth, learn from the experiences of some extraordinary people, and look at classic behavioral research. This is all

set out within the four Me We Do Be sections, twenty-one short chapters, and about one hundred individual lessons. The objective of each lesson is to encourage discussion on essential life skills. On top of that, more than five thousand people from all fifty states, Australia, and the United Kingdom participated in our Rich Habits Survey.¹ Here, my research staff and I surveyed professionals, students, stay-at-home moms, retirees, the unemployed, and multi-millionaires. We studied dozens of rituals ranging from writing thank-you notes to eating together as a family. We then statistically correlated various habits with different measures of success such as education, wealth, quality relationships, and an overall sense of happiness. Obviously, some people define success as making money. I joke that money doesn't make anyone happy, but it's a great way to be miserable! However, some might define success as a happy family life, finding true love, or winning a competition. Some see success as contributing to a worthy cause, completing a degree, or mastering a musical instrument. Others view success as healing from an emotional wound, beating cancer, or connecting with the divine. Some see success as being a leader or building a huge name for themselves, while others just want the satisfaction of quietly doing great work. Many define success as a combination of things. I respect the perception that there is no one-size-fits-all for success. Here, we define what success means to us individually, but in so doing, we will look at the foundational elements that apply to us all. The research and science is clear: however you define "success," daily habits, rituals, and routines are the key to either tragedy or triumph. Just as one bad habit ripples out until a life is destroyed, it is also true that one new good habit can ripple out and create something magnificent. Today's habits, rituals, and routines are tomorrow's destiny, and minor adjustments bring major rewards. Indeed, the four cornerstones
