Using the SMART method, which O'Toole developed and used at the FBI, we can confidently know how to: Respond to a threat in any situation Hire someone who will work inside your home like a contractor or housekeeper Figure out whether a prospective employee is a safe bet Know whom you can trust with your children An especially useful book for women living alone, parents who are concerned about their children's safety, and employers worried about employees who might go postal, *Dangerous Instincts* gives us the tools used by professionals to navigate potentially hazardous waters. Like *The Gift of Fear* and *The Sociopath Next Door*, it will appeal to anyone looking to make the right call in an ever-threatening world.

NATIONAL BOOK AWARD FINALIST • NATIONAL BESTSELLER • A twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history, from the author of *The Lost City of Z*. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history.

The FBI Ten Most Wanted Fugitives list arose from a conversation held in late 1949 between J. Edgar Hoover, Director of the FBI, and William Kinsey Hutchinson who were discussing ways to promote capture of the FBI's "toughest guys". For sixty years, the FBI has sought the public's assistance in a special way through one of our most effective and longest running publicity programs, which, since 1950, has led to the location of more than 460 of our nation's most dangerous criminals. "The voice that narrates *In the Name of the Children: An F.B.I. Agent's Relentless Pursuit of the Nation's Worst Predators*, which Rinek wrote with the journalist Marilee Strong, sounds warm and humane, qualities missing from much crime writing. Their book is a professional job, filled with illuminating details about the day-to-day operations of the bureau." —New York Times Book Review FBI Special Agent Jeff Rinek had a gift for getting child predators to confess. All he had to do was share a piece of his soul . . . In *In the Name of the Children* gives an unflinching look at what it's like to fight a never-ending battle against an enemy far more insidious than terrorists: the predators, lurking amongst us, who seek to harm our children. During his 30-year career with the FBI, Jeff Rinek worked hundreds of investigations involving crimes against children: from stranger

abduction to serial homicide to ritualized sexual abuse. Those who do this kind of work are required to plumb the depths of human depravity, to see things no one should ever have to see—and once seen can never forget. There is no more important—or more brutal—job in law enforcement, and few have been more successful than Rinek at solving these sort of cases. Most famously, Rinek got Cary Stayner to confess to all four of the killings known as the Yosemite Park Murders, an accomplishment made more extraordinary by the fact that the FBI nearly pinned the crimes on the wrong suspects. Rinek's recounting of the confession and what he learned about Stayner provides perhaps the most revelatory look ever inside the psyche of a serial killer and a privileged glimpse into the art of interrogation. In the Name of the Children takes readers into the trenches of real-time investigations where every second counts and any wrong decision or overlooked fact can have tragic repercussions. Rinek offers an insider's perspective of the actual case agents and street detectives who are the boots on the ground in this war at home. By placing us inside the heart and mind of a rigorously honest and remarkably self-reflective investigator, we will see with our own eyes what it takes—and what it costs—to try to keep our children safe and to bring to justice those who prey on society's most vulnerable victims. With each chapter dedicated to a real case he worked, In the Name of the Children also explores the evolution of Rinek as a Special Agent—whose unorthodox, empathy-based approach to interviewing suspects made him extraordinarily successful in obtaining confessions—and the toll it took to have such intimate contact with child molesters and murderers. Beyond exploring the devastating impact of these unthinkable crimes on the victims and their families, this book offers an unprecedented look at how investigators and their loved ones cope while living in the specter of so much suffering.

Across the Mitten and through the Upper Peninsula, the Wolverine State has witnessed some thrilling and historic federal cases. In Detroit, FBI agents took point investigating the kidnapping (and safe return) of a GM executive's son and in a manhunt for an armed killer in the north woods near Escanaba. The Bureau was called in to discover who poisoned patients at the Ann Arbor Veterans Hospital and for a grisly double homicide solved by a persistent and determined fingerprint examiner. Michigan agents spearheaded the first-ever investigation and prosecution of an Internet threat, and legendary football coach Bo Schembechler inspired an epic international undercover operation targeting the illegal distribution of steroids. Retired Special Agent Greg Stejskal recalls these stories and others from more than thirty years as a G-man in Michigan.

"There is no other group anywhere in the country as mobile and as well organized as the Dixie Mafia" - Agent James Duff, Georgia State Organized Crime Intelligence Unit (1974) Deep in the heart of Dixie lies a hidden evil. Its tentacles stretch from state to state, from county to county. The Dixie Mafia has produced infamous outlaws, bank robbers, and murderers. The story contains tidbits from each of their lives and even includes the story of a famous sheriff, but this book is not about them. Silenced by the Dixie Mafia is about a big sister who has fought for answers for over five decades. It's about a father who was an ex-alcoholic turned into a gambling addict. A father's decisions would lead to the death of his disabled son and eventually lead to his own demise. Now left alone to find answers and make sense of the chaos is a brave little southern belle named Phyllis. Tying back to the ambush of Sheriff Buford Pusser on August 12, 1967, this story will change history as we know it. The world knew nothing about the Dixie Mafia until the murders of Judge Vincent Sherry and his wife Margaret in 1987. This public assassination brought this band of ruthless criminals into view, but the truth was still hidden until the death of the Andersons.

The FBI veteran behind the Russia investigation draws on decades of experience hunting foreign agents in the United States to lay bare the threat posed by President Trump. Candice DeLong has been called a real-life Clarice Starling and a female Donnie Brasco. She has been on the front lines of some of the FBI's most gripping and memorable cases, including being chosen as one of the three agents to carry out the manhunt for the Unabomber in Lincoln, Montana. She has tailed terrorists, gone undercover as a gangster's moll, and posed as the madam for a call-girl ring. Now for the first time she reveals the dangers and rewards of being a woman on the front lines of the world's most powerful law enforcement agency. She traces the unusual career path that led her to crime fighting, and recounts the incredible obstacles she faced as a woman and as a fledgling agent. She takes readers step by step through the profiling process and shows how she helped solve a number of incredible cases. The story of her role as a lead investigator on the notorious Tylenol Murderer case is particularly compelling. Finally, she gives the true, insiders story behind the investigation that led to the arrest of the Unabomber including information that the media can't or won't reveal. A remarkable portrait of courage and grace under fire, Special Agent offers a missing chapter to the annals of law enforcement and a dramatic and often funny portrait of an extraordinary woman who has dedicated her heart and soul to the crusade against crime. Candice DeLong's Top Cases: 1. TYMURS-(Bureau acronym for Tylenol Murders) 8 victims, 1982. 2. F.A.L.N. Terrorist Organization, 1981-84. 3. The FBI's pioneer of criminal profiling reflects on his forty-year career during which he pursued and studied such criminals as Charles Manson and David Berkowitz and devoted his time to helping the wrongfully convicted.

In 1971, a skyjacker with a briefcase bomb demanded a \$200,000 ransom and a parachute. Then he vanished out the jet's back door and became an instant legend. Now a determined citizen sleuth has assembled a forty-member cold case team, spearheaded by former FBI agents, to solve the mystery of D. B. Cooper. And after a five-year quest, they believe they have succeeded--with a fugitive at trail's end. The team's relentless investigation and final confrontation with the mystery man serve as the bookends in The Last Master Outlaw. The subject's astonishing life story as a daredevil fills the remaining chapters, the bulk of which comes from the heartwarming, gut-wrenching accounts of six of his women--two former wives; his only sister; a befriended college coed; a "getaway gal" he met up with during two more FBI escapes, both again involving planes; and a Hollywood producer who was also his cocaine-trade partner. Buckle your seatbelts as this Jekyll-and-Hyde ladies' man travels through five countries, utilizing more than a dozen identities, wigs, and fake mustaches while engaging in a half-dozen careers and raising three families. LEARN THE TRUE STORY OF ONE OF THE FBI PROFILERS WHO COINED THE PHRASE "SERIAL KILLER" Face-to-face with some of America's most terrifying killers, FBI veteran Robert K. Ressler learned how to identify the unknown monsters who walk among us -- and put them behind bars. In *Whoever Fights Monsters*, Ressler—the inspiration for the character Agent Bill Tench in David Fincher's hit TV show *Mindhunter*—shows how he was able to track down some of the country's most brutal murderers. Ressler, the FBI Agent and ex-Army CID colonel who advised Thomas Harris on *The Silence of the Lambs*, used the evidence at a crime scene to put together a psychological profile of the killers. From the victims they choose to the way they kill to the often grotesque souvenirs they take with them—Ressler unlocks the identities of these vicious killers. And with his discovery that serial killers share certain violent behaviors, Ressler goes behind prison walls to hear bizarre first-hand stories from countless convicted murderers, including Ted Bundy, John Wayne Gacy; Edmund Kemper; and Son of Sam. Getting inside the mind of a killer to understand how and why he kills is one of the FBI's most effective ways of helping police bring in killers who are still at large. Join Ressler as he takes you on the hunt for the world's most dangerous psychopaths in this terrifying journey you will not forget.

Criminologists are increasingly exploring nontraditional objects, sources of information, methods of analyzing this information, and explanatory frameworks for helping guide analysis and interpretation. One such nontraditional object is the "fictional reality." Fictional realities are fictional social realities, such as those found in novels and film. There is a precedent for the analytical and pedagogical use of "fictional realities" in criminology, but in general this has been limited to seeing fiction and film as a stock of readily accessible and useful examples rather than as complex objects to be deconstructed and theorized. This book will tell you about a variety of famous criminal cases that the FBI use criminology to catch the crimes. In this book, you can find: Hannibal Lecter Joseph Paul Franklin The FBI's Role Takes Shape The Birth of Behavioral Analysis in the FBI Ted Bundy's Campaign of Terror Wayne Williams and the Atlanta Child Murders Andrew Cunanan Murders a Fashion Icon The FBI and Jeffrey Dahmer Mad Bomber George Metesky George "Machine Gun" Kelly

Draws on agent interviews about famous FBI cases to reveal the Bureau's inner workings and some of its most deeply held secrets.

Certain criminal cases have a life of their own. Despite the passage of years they continue their hold on the public imagination, either because of the personalities involved, the depravity of the crime, doubts over whether justice was done, or the tantalizing fact that no one was ever caught... Now John Douglas, the foremost investigative analyst and criminal profiler of our time, turns his attention to eight of the greatest mysteries in the history of crime, including those of Jack the Ripper, The Boston Strangler and JonBenet Ramsey. Taking a fresh look at the established facts, Douglas and Olshaker dismantle the conventional wisdom regarding these most notorious of crimes and rebuild them - with astonishing results.

In 1971, a man known as DB Cooper hijacked a Northwest Orient airliner flying from Portland, Oregon to Seattle, Washington. After exchanging the passengers at SEA-TAC airport for \$200,000 and four parachutes, Cooper instructed the pilots to fly him to "anywhere in Mexico." A few minutes after take-off, he lowered the aft staircase and jumped into the chilly, rainy night skies north of Portland. He has never been seen since, and his identity is still unknown. After forty years of investigation the FBI still doesn't know who Cooper was or if he survived, and nothing has ever been found of the skyjacking-no parachutes, no body or clothes, nor any of the money, except for \$5,800 a young boy found eight years later buried on a Columbia River beach. Adding to the intrigue, no one knows how the money got there or when. As a result, it is as if Cooper came from nowhere and returned there when he made his getaway. Now after years of research and writing, a comprehensive case history of the skyjacking is available, and the reader can examine the facts of the case, and assess the FBI's efforts to find DB Cooper. Shockingly, the Bureau's investigation has been crippled by lost evidence, inaccurate record-keeping, and ineffective leadership. As we learned in 9-11, the FBI has difficulty "connecting the dots" in complicated investigations that span multiple jurisdictions, and the same is true with DB Cooper. For example: the FBI gave DB Cooper a 40-hour head start before anyone went looking for him in the woods of southeast Washington State. More troubling, critical evidence has been lost-the eight cigarette butts Cooper left on the plane, which would give us his DNA profile via the dried saliva. Perhaps more disturbing, though, the cigarette butts went missing after their true value was realized in 2002, along with the documentation on the FBI's findings. In addition, the FBI's chief technical expert, Earl Cossey, was murdered in 2013 when his credibility plummeted as Internet sleuths revealed his fraudulent and deceptive history, and how the FBI was duped. Or was it? But this book is more than a true-crime thriller. "DB Cooper and the FBI" reveals how law enforcement truly functions in our country, and so it delivers a measure of justice to the arrogant, the hubristic, and the guilty.

A collection of news and feature articles from the Bureau's public website.

From John Douglas--the legendary FBI criminal profiler, #1 New York Times bestselling author, and inspiration for the Netflix show Mindhunter--comes a chilling journey inside the mind and crimes of Larry Gene Bell, one of the most dangerous serial killers Douglas confronted, and the desperate effort to identify and catch him. On May 31, 1985, two days before her high school graduation, Shari Smith was abducted from the driveway of her family home in South Carolina. Based on the crime scene and the abductor's repeated and taunting calls to the family, law enforcement quickly realized they were dealing with a sophisticated and highly dangerous criminal. A letter arrived the next day entitled "Last Will & Testament," in which Shari, knowing she was to be murdered, wrote bravely and achingly of her love for her parents, siblings, and boyfriend, saying that while they would miss her, she knew they would persevere through their faith. The abduction rocked her quiet town, triggering a massive manhunt and bringing in the FBI, which enlisted profiler John Douglas. A few days later, a phone call told the family where they could find Shari's body. Then nine-year-old Debra May Helmick was kidnapped from her yard, confirming the harsh realization that Smith's murder was no random act. A serial killer was evolving, and the only way to stop him would be to use the study of criminal behavior to anticipate his next move

before he could kill again. Douglas devised a risky and emotionally fraught strategy to use Shari's lookalike older sister Dawn as bait to draw out the unknown subject. Dawn and her parents courageously agreed. One of the most haunting investigations of Douglas's storied career, this case details how the eerily accurate profile he created--alongside his carefully crafted and stage-managed manipulation of the killer's psychology--combined with dedicated police work and cutting-edge forensic science to end a reign of criminal terror. As Shari's family took incredible personal risks to lure her killer from the shadows, Douglas and the FBI pushed criminal profiling to its limits, culminating in one of his most dramatic and effective confrontations with a sadistic and remorseless killer.

In late 2001, the Enron Corporation—a darling of the financial world, a company whose executives were friends of presidents and the powerful—imploded virtually overnight, leaving vast wreckage in its wake and sparking a criminal investigation that would last for years. Kurt Eichenwald transforms the unbelievable story of the Enron scandal into a rip-roaring narrative of epic proportions, taking readers behind every closed door—from the Oval Office to the executive suites, from the highest reaches of the Justice Department to the homes and bedrooms of the top officers. It is a tale of global reach—from Houston to Washington, from Bombay to London, from Munich to Sao Paolo—laying out the unbelievable scenes that twisted together to create this shocking true story. Eichenwald reveals never-disclosed details of a story that features a cast including George W. Bush, Dick Cheney, Paul O'Neill, Harvey Pitt, Colin Powell, Gray Davis, Arnold Schwarzenegger, Alan Greenspan, Ken Lay, Andy Fastow, Jeff Skilling, Bill Clinton, Rupert Murdoch and Sumner Redstone. With its you-are-there glimpse into the secretive worlds of corporate power, Conspiracy of Fools is an all-true financial and political thriller of cinematic proportions.

In *Public Enemies*, bestselling author Bryan Burrough strips away the thick layer of myths put out by J. Edgar Hoover's FBI to tell the full story—for the first time—of the most spectacular crime wave in American history, the two-year battle between the young Hoover and the assortment of criminals who became national icons: John Dillinger, Machine Gun Kelly, Bonnie and Clyde, Baby Face Nelson, Pretty Boy Floyd, and the Barkers. In an epic feat of storytelling and drawing on a remarkable amount of newly available material on all the major figures involved, Burrough reveals a web of interconnections within the vast American underworld and demonstrates how Hoover's G-men overcame their early fumbles to secure the FBI's rise to power.

The legendary FBI criminal profiler and international bestselling author of *Mindhunter* and *The Killer Across the Table* returns with this timely, relevant book that goes to the heart of extremism and domestic terrorism, examining in-depth his chilling pursuit of, and eventual prison confrontation with Joseph Paul Franklin, a White Nationalist serial killer and one of the most disturbing psychopaths he has ever encountered. Worshippers stream out of an Midwestern synagogue after sabbath services, unaware that only a hundred yards away, an expert marksman and avowed racist, antisemite and member of the Ku Klux Klan, patiently awaits, his hunting rifle at the ready. The October 8, 1977 shooting was a forerunner to the tragedies and divisiveness that plague us today. John Douglas, the FBI's pioneering, first full-time criminal profiler, hunted the shooter—a white supremacist named Joseph Paul Franklin, whose Nazi-inspired beliefs propelled a three-year reign of terror across the United States, targeting African Americans, Jews, and interracial couples. In addition, Franklin bombed the home of Jewish leader Morris Amitay, shot and paralyzed Hustler magazine publisher Larry Flynt, and seriously wounded civil rights leader Vernon Jordan. The fugitive supported his murderous spree robbing banks in five states, from Georgia to Ohio. Douglas and his writing partner Mark Olshaker return to this disturbing case that reached the highest levels of the Bureau, which was fearful Franklin would become a presidential assassin—and haunted him for years to come as the threat of copycat domestic terrorist killers increasingly became a reality. Detailing the dogged pursuit of Franklin that employed profiling, psychology and meticulous detective work, Douglas and Olshaker relate how the case was a make-or-break test for the still-experimental behavioral science unit and revealed a new type of, determined, mission-driven serial killer whose only motivation was hate. A riveting, cautionary tale rooted in history that continues to echo today, *The Killer's Shadow* is a terrifying and essential exploration of the criminal personality in the vile grip of extremism and what happens when rage-filled speech evolves into deadly action and hatred of the "other" is allowed full reign. *The Killer's Shadow* includes an 8-page color photo insert.

LARGE PRINT EDITION Jim Ingram is to the FBI what Elliot Ness was to the Treasury Department—a larger-than-life symbol of American justice, a Klan-busting crime fighter who was involved with some of the highest profile FBI cases of the 1950s, 1960s and 1970s. In his memoir Ingram provides insider information about those cases. Jim Ingram was the primary source in journalist Jack Nelson's 1993 bestselling book, "Terror in the Night: The Klan's Campaign Against the Jews," which focused on the FBI's infiltration of the Klan in an effort to protect Mississippi Jews. Jim Ingram passed away in August 2009 of cancer, but worked on this memoir with co-author James L. Dickerson right up until his death. Following his death, the FBI supplied Dickerson with more than 1,400 pages of previously classified documents. Interestingly, after nearly 30 years with the FBI, Ingram was brought out of retirement in the 2000s as a cold-case investigator of Mississippi civil rights-era murders, casting him into his fifth decade of crime fighting. In this memoir, Jim Ingram provides insider information on the above high-profile cases and others, along with a personal perspective on his nearly 30-year career of law enforcement. During that career, he headed up the FBI offices in New York and Chicago, and was in charge of the violent crimes civil rights desk in Mississippi in the 1960s, and served in the 1970s as deputy assistant FBI director in Washington, DC. In the later years of his career, he became the FBI's top expert on terrorism. This book discloses, for the first time, how he

secretly trained U.S. Army and U.S. Air Force personnel on terrorism. After his retirement from the FBI, Ingram served as Public Safety Commissioner for the State of Mississippi, which put him in charge of the Highway Patrol. had been heavily infiltrated by the KKK while he was head of the civil rights desk in Mississippi. Appointed by Governor Kirk Fordice, a conservative Republican with a penchant for abrasiveness, Ingram became good friends with the man despite their political differences. Ingram's memories of the governor's tempestuous marital conflicts add spice to a book that revolves around the major crimes of the past century.

The explosive memoir of an FBI field operative who has worked more undercover cases than anyone in history. Within FBI field operative circles, groups of people known as "Special" by their titles alone, Michael R. McGowan is an outlier. 10% of FBI Special Agents are trained and certified to work undercover. A quarter of those agents have worked more than one undercover assignment in their careers. And of those, less than 10% of them have been involved in more than five undercover cases. Over the course of his career, McGowan has worked more than 50 undercover cases. In this extraordinary and unprecedented book, McGowan will take readers through some of his biggest cases, from international drug busts, to the Russian and Italian mobs, to biker gangs and contract killers, to corrupt unions and SWAT work. Ghost is an unparalleled view into how the FBI, through the courage of its undercover Special Agents, nails the bad guys. McGowan infiltrates groups at home and abroad, assembles teams to create the myths he lives, concocts fake businesses, coordinates the busts, and helps carry out the arrests. Along the way, we meet his partners and colleagues at the FBI, who pull together for everything from bank jobs to the Boston Marathon bombing case, mafia dons, and, perhaps most significantly, El Chapo himself and his Sinaloa Cartel. Ghost is the ultimate insider's account of one of the most iconic institutions of American government, and a testament to the incredible work of the FBI.

So there we were hunkered down in our offices far below the Firearms Unit struggling to outsmart the bastards. And, boy, did we need each other. We had this image of armor, that the work of poring over photographs of absolutely anguishing, terrifying killings didn't bother us. Most of the time we couldn't even eat our lunches or sleep at night Fortunately, our work was a kind of glue which held us together. The horrible work bonded us in a way no other work could-Special Agent James T. Reese, FBI Behavioral Science Unit

When law enforcement struggles to solve a serial murder, arson, rape, or child abduction, and is making little headway, it turns to the FBI's legendary Behavioral Science Unit (BSU) at the FBI Academy in Quantico, Virginia. Over the past three decades, more than thirty members of this elite team have worked to capture countless elusive criminals. Rarely have they been appreciated. Never has their story been told. Now, at the suggestion of Stephen Band, the current Chief of the BSU, the inside story has been written by John Campbell, former BSU Chief (1989-1992,) and Don DeNevi, author of many highly acclaimed true-crime books. In a fascinating account, full of quiet heroics and grisly criminal details, the authors describe the difficult work of the tireless professionals who have devoted their careers to investigating and analyzing the deeds and personalities of the macabre psychopaths who haunt our streets. In contrast to well-known fictional depictions, like *Silence of the Lambs* and *The X-Files*, DeNevi and Campbell's real-life perspective shows that the true story is more engrossing, indeed astonishing, than any movie or novel. The authors reveal how this crack unit developed a new technique, from a combination of psychological profiling and old-fashioned detective work, which succeeded in cracking a host of difficult cases, including serial murders, hostage taking, and terrorism. Readers experience what it is like to crawl into the twisted minds of notorious criminals, as psychological profilers must do to learn their motivations, patterns, and probable next move. This unique oral history will provide fascinating reading for fans of *C.S.I.*, *Profiler*, and other similar dramas, and is also a long overdue and fitting tribute to the heroic men and women of the Behavioral Science Unit, who fight everyday to keep Americans safe. Don DeNevi (Menlo Park, CA) is the author, or coauthor, of thirty-two books, including *Mob Nemesis-How the FBI Crippled Organized Crime* (with FBI Special Agent in Charge Joe Griffin) and *Riddle of the Rock: The Only Successful Escape from Alcatraz*. Having previously taught in the criminal justice department at San Francisco State University, he now teaches and counsels the condemned on San Quentin's death row. John H. Campbell, Ph.D. (St. Cloud, MN), is a professor in the criminal justice department at St. Cloud State University and the former Unit Chief of the FBI's Behavioral Science Unit.

The author of this book played a major part in the FBI's development of psychological profiles for serial killers, he even invented the term serial killer. Whilst Thomas Harris made Ressler's work famous in fiction, Ressler did it for real.
