

## Toronto Notes

Two histories of the University of Toronto have been published, one in 1906 and one in 1927. Since the latter volume appeared, no comprehensive history of the University has been published. Given the size of the University and the complexity of the task, this is not entirely surprising. But, after sixty-six years, this gap in the intellectual history of Canada has been filled, and we are delighted to announce publication, in March of 2002, of Martin Friedland's new history of one of Canada's most important educational and cultural institutions. The author of several books on legal history, Professor Friedland brings to this task an accomplished eye and ear and a status as a long time member of the University community. Professor Friedland's text is accompanied by over 200 maps, drawings and photographs. Published to coincide with the University's 175th anniversary, *The University of Toronto: A History* tells the story of the university in the context of the history of the nation of which it is a part, weaving the stories of the people who have been a part of this institution – people who make up a who's who in the history of Canada. Anyone who attended the University or who is interested in the growth of Canada's intellectual heritage will enjoy this compelling and magisterial history.

Essential Med Notes is a clinical complement and resource for medical trainees. This 37th edition features substantial revisions to the main text, figures, graphics, and evidence-based medicine boxes of all 31 chapters across Primary, Medicine, and Surgery. Key Features Comprehensive medical textbook, concisely written, with in-depth coverage of 31 medical specialties comprehensively updated and edited by over 200 students and 100 staff/faculty. Three separate volumes of the textbook – Primary, Medicine, and Surgery – provide readers with lighter, more portable books for their studies. Essential Med Notes website ([essentialmednotes.com](http://essentialmednotes.com)), which offers readers complementary colored atlases, practice questions, and other useful resources for each medical specialty. Common medical acronyms and abbreviations list included at the beginning of each textbook, as an easy-to-use reference and guide to the texts. The companion Clinical Handbook (included in this package) – a condensed and practical guide to common clinical problems seen in clinics, the OR, and hospital wards. This portable resource is essential for clerkship; it is the perfect resource to prepare you for all your clinical rotations. The handbook includes the STAT Notes, which is a step-by-step approach to 30 common ward scenarios and the ultimate guide to managing on-call issues. The Clinical Handbook is included in this eBook package.

**NATIONAL BESTSELLER** • An audacious, darkly glittering novel set in the eerie days of civilization's collapse—the spellbinding story of a Hollywood star, his would-be savior, and a nomadic group of actors roaming the scattered outposts of the Great Lakes region, risking everything for art and humanity. Soon to be a Max Original Limited Series on HBO Max. A National Book Award Finalist • A PEN/Faulkner Award Finalist  
Kirsten Raymonde will never forget the night Arthur Leander, the famous Hollywood actor, had a heart attack on stage during a production of *King Lear*. That was the night when a devastating flu pandemic arrived in the city, and within weeks, civilization as we know it came to an end. Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of

art and humanity alive. But when they arrive in St. Deborah by the Water, they encounter a violent prophet who will threaten the tiny band's existence. And as the story takes off, moving back and forth in time, and vividly depicting life before and after the pandemic, the strange twist of fate that connects them all will be revealed. Look for Emily St. John Mandel's new novel, *Sea of Tranquility*, coming in April 2022!

Dealing with the 'Toronto Blessing' (TB) was one of the most traumatic periods of my life. It only lasted a few years, but its vileness still last 25 years later, because though the 'Blessing' left, it morphed into countless other movements and fake 'revivals' which continue even now. True charismaticism is ungodly and unbiblical, and damages thousands of souls a year. Wherever the TB came to town, it brought with it a circus of evil that destroyed huge numbers of churches. So, though this is an archive book, it is highly pertinent. Christians MUST know how the charismatic movement arose and what it did, because it is a fake movement claiming to be of God. It is not! It is a vile deception that ruins lives.

Fonds 2511 includes Bay Street Primitive Methodist Church, Alice Street Primitive Methodist Church, Sherbourne Street Methodist Church, Carlton Street Methodist Church.

Feedback from users suggest this resource book is more comprehensive and more practical than many others in the market. One of its strengths is that it was written by trainees in internal medicine who understand the need for rapid access to accurate and concise clinical information, with a practical approach to clinical problem solving. The annual must-have study guide for students preparing for the Canadian and US medical licensing exams *The Toronto Notes 2011* is the most comprehensive resource available that focuses on exam preparation for the MCCQE Part 1 and the USMLE Step 2. Written in a concise, easy-to-read style, this annually revised text includes relevant clinical information on 29 medical subspecialties. Emphasizing evidence-based medicine with summaries of the latest landmark clinical trials, the 2011 edition includes additional resources such as three titles in the *Clinical Handbook* series and a wealth of online resources. Features Companion online resources include practice questions for the written and oral exam, a color atlas, a heart sounds tutorial, approach to ultrasound, and more Three separate pocket reference guides in the *Clinical Handbook* series highlight common clinical management scenarios and offer valuable tips on clerkship basics Website includes easy-to-search online version of the text Pages are three-hole punched making it easy to organize and carry

Access to the web version will be included with the purchase of the 2008 Toronto Notes A comprehensive online neuroanatomy atlas (Functional Neuroanatomy), which includes MRI images (with the option to show labels), brainstem and spinal cord slices, vascular territories, angiograms, surface anatomy, and more

From the New York Times bestselling author of Rules of Civility, a novel about a man who is ordered to spend the rest of his life inside a luxury hotel--a beautifully transporting novel. The mega-bestseller with more than 2 million readers, soon to be a major television series "Perhaps the ultimate quarantine read . . . A Gentleman in Moscow is about the importance of community; the distance of a kind act; and resilience. It's a manual for getting through the days to come." --O, The Oprah Magazine In 1922, Count Alexander Rostov is deemed an unrepentant aristocrat by a Bolshevik tribunal, and is sentenced to house arrest in the Metropol, a grand hotel across the street from the Kremlin. Rostov, an indomitable man of erudition and wit, has never worked a day in his life, and must now live in an attic room while some of the most tumultuous decades in Russian history are unfolding outside the hotel's doors. Unexpectedly, his reduced circumstances provide him entry into a much larger world of emotional discovery. Brimming with humor, a glittering cast of characters, and one beautifully rendered scene after another, this singular novel casts a spell as it relates the count's endeavor to gain a deeper understanding of what it means to be a man of purpose.

A Map to the Door of No Return is a timely book that explores the relevance and nature of identity and belonging in a culturally diverse and rapidly changing world. It is an insightful, sensitive and poetic book of discovery. Drawing on cartography, travels, narratives of childhood in the Caribbean, journeys across the Canadian landscape, African ancestry, histories, politics, philosophies and literature, Dionne Brand sketches the shifting borders of home and nation, the connection to place in Canada and the world beyond. The title, A Map to the Door of No Return, refers to both a place in imagination and a point in history -- the Middle Passage. The quest for identity and place has profound meaning and resonance in an age of heterogeneous identities. In this exquisitely written and thought-provoking new work, Dionne Brand creates a map of her own art.

Toronto Notes for Medical Students is proud to present the 35th Edition of the highly successful Essential Med Notes textbook series. This text presents the most comprehensive resource available that focuses on exam preparation for the MCCQE Part 1 and the USMLE Step 2. Written in a concise, easy-to-read style, this annually revised text includes relevant clinical information on 29 medical subspecialties.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record

began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*, and the *Congressional Globe (1833-1873)*

Equal parts travelogue and pandemic guide, journalist Ethan Lou examines the societal effects of COVID-19 and takes us on a mesmerizing journey around a world that will never be the same. Visiting Beijing in January to see his dying grandfather, Canadian journalist Ethan Lou unknowingly walks into a state under siege. In his journey out of China and into other hot zones in Asia and Europe, he finds himself witnessing the very earliest stages of a virus that will forever change the world as we know it. Lou argues that Coronavirus will have a far greater impact than SARS, for example, simply because China is now many more times integrated with the increasingly interconnected world. Over decades, globalization has crafted a world painfully sensitive and susceptible to shocks such as this pandemic. A crisis like it has thus been long overdue--and we have yet to see it unfold fully. In our integrated world, events that may previously be isolated now ripple farther and wider and in ways we do not expect and cannot foresee. We have not seen the worst, and if and when we outlast this pandemic, nothing will ever be the same--not just healthcare systems but also economies, politics and culture. Decisions now--or indecisions--will shape and define the world for decades. These ideas are fleshed out through the virus's spawning and how it spread, the unprecedented measures to contain it and an examination of past pandemics and other crises and how they shaped the world--and an argument for why this one's different. Lou shows how drastically the virus has transformed the world and charts the greater and more radical shifts to come. His ideas and arguments are framed around his journey around the world, whose path the virus seemed to follow until he landed safely in quarantine in a small town in Germany where he was able to take stock and start telling his story.

Essential Med Notes 2021 Clinical complement and resource for medical trainees Thieme Concise and easy to use, *USMLE Step 2 Secrets*, by prolific author Theodore X. O'Connell, MD, is an effective, high-yield review for achieving success on this high-stakes exam. The *Essential Med Notes Clinical Handbook 2021* is a pocket-sized resource containing concise and up-to-date clinical data for on-the-spot information to assist with daily clinical encounters. Each chapter begins with a basic approach to history and physical examination, followed by common presentations and associated investigations and treatments. A pharmacology chapter at the beginning of the book provides a quick reference for commonly used medications across all specialties. The Common Procedures chapter offers helpful insight into the most commonly used medical procedures. The STAT Notes chapter offers a step-by-step approach to 30 common ward scenarios and is the ultimate guide to managing on-call issues. This book is the perfect portable complement for high-yield information contained within the *Essential Med Notes* textbooks!

Provides a critical exploration of Mircea Eliade's notion of the sacred by referencing the work of Bernard Lonergan.

Large-scale development is once again putting Toronto's waterfront at the leading edge of change. As in other cities around the world, policymakers, planners, and developers are envisioning the waterfront as a space of promise and a prime location for massive investments. Currently, the waterfront is being marketed as a crucial territorial wedge for economic ascendancy in globally competitive urban areas. *Reshaping Toronto's Waterfront* analyses how and why 'problem spaces' on the waterfront have become 'opportunity spaces' during the past hundred and fifty years. Contributors with diverse areas of expertise illuminate processes of development and provide fresh analyses of the intermingling of nature and society as they appear in both physical forms and institutional arrangements, which define and produce change. *Reshaping Toronto's Waterfront* is a fundamental resource for understanding the waterfront as a dynamic space that is neither fully tamed nor wholly uncontrolled.

When Julia Zarankin saw her first red-winged blackbird at the age of thirty-five, she didn't expect that it would change her life. Recently divorced and auditioning hobbies during a stressful career transition, she stumbled on birdwatching, initially out of curiosity for the strange breed of humans who wear multi-pocketed vests, carry spotting scopes and discuss the finer points of optics with disturbing fervour. What she never could have predicted was that she would become one of them. Not only would she come to identify proudly as a birder, but birding would ultimately lead her to find love, uncover a new language and lay down her roots. *Field Notes from an Unintentional Birder* tells the story of finding meaning in midlife through birds. The book follows the peregrinations of a narrator who learns more from birds than she ever anticipated, as she begins to realize that she herself is a migratory species: born in the former Soviet Union, growing up in Vancouver and Toronto, studying and working in the United States and living in Paris. Coming from a Russian immigrant family of concert pianists who believed that the outdoors were for "other people," Julia Zarankin recounts the challenges and joys of unexpectedly discovering one's wild side and finding one's tribe in the unlikeliest of places. Zarankin's thoughtful and witty anecdotes illuminate the joyful experience of a new discovery and the surprising pleasure to be found while standing still on the edge of a lake at six a.m. In addition to confirmed nature enthusiasts, this book will appeal to readers of literary memoir, offering keen insight on what it takes to find one's place in the world.
