Concept Cars is an illustrated guide to 70 of the most creative products of car design. From the science fiction inspired concept cars of the 1950s to the remarkably innovative designs of the present day, here are the cars that push the boundaries of automotive design to the limit. Featured are designs that opened the doors to future innovations, as well as the cars that actually made it to production, such as the new VW Beetle and the Porsche Boxster. Key car designers such as Norman Bel Geddes, the "father of streamlining," and Peter Schreyer, the man responsible for the Audi TT, are covered as well. 190 color photographs and illustrations are included in this discovery of the fantastic, the extraordinary, and just plain outlandish creations of the automotive industry.

The children of an assassinated emperor try to stay alive and avenge their father's death while continuing down their individual life-paths, one in a monastery, another training with elite soldiers, and one appointed a minister determined to prove herself to

her people.

After learning that her life's purpose is to fulfill a prophecy to save our world, Roam finds that she is pregnant- and missing the love of her life with all of her heart. Logan, her best friend, stands by her, helping her to find a way back to West... despite his own love for her. On a journey that will take her to another body and life in 1955 and, eventually, to another world, Roam will discover that before she can rise and protect our world and her child from an immortal evil...She must fall.

A Memoire By: Col. Robert W. Reeves, USAF (Ret.) Bob Reeves was born in Spokane, WA, December 12, 1929. His parents moved to Portland OR in 1936, and he attended elementary and and graduated high school there. He then attended Oregon State College and graduated with a B.S. Degree in Agriculture in 1952. He was then commissioned in the USAF and entered active duty in August of that year. He completed pilot training in December, 1953. He is a Command Pilot and served in both the, Korean and Vietnam conflicts. Bob commanded the 14th Tactical Reconnaissance Squadron in SEA, was Deputy Commander for Operations and Training at Tyndall AFB, and was Deputy Commander for Operations, 23d NORAD Region at Duluth, MN, a joint U.S. and Canadian command where he retired in April, 1977. He and Nancy then returned to Panama City where they built a home in Parker, a suburb. Bob was employed by Sowell Aviation Company and served in many line and managerial positions over the next 12 years. He taught instrument and ATP, initiated a seaplane course, worked in sales and finally taught the ATP Ground school. After full retirement, Bob got into civic service jobs. He worked three years for Catholic

Services three days a week trucking in donations and selling in the warehouse on Saturdays. He then volunteered at the Tyndall AFB pharmacy and worked there for six years. Bob was a member of Rotary and served as club president twice, was a District Governor for a one year term and was active both at district and zone levels. He was also a member of the Daedalians and served as Flight Captain for two years. After 43 years in the house in Parker, they sold the house and bought a condo, Harbour Village, at St. Andrews in Panama city.

The photos in this edition are black and white. There comes a time in every automobile's life when the engine just doesn't perform as it should anymore. It may be burning oil, it may be leaking, the compression may be so low that it only starts on cold days, or maybe it just isn't very efficient anymore. When all of this happens, you have to decide whether to just dump the car and replace it, or add some new life to your old car by rebuilding the engine. Rebuilding the engine in any used car, much less a classic, seems like a much more attractive option when you can save a lot of money by doing it yourself.

Sometimes the savings are the difference between keeping your car or letting it go. If you want to keep you car running strong and lasting for years, this is the book for you. A part of CarTech's Workbench Series, "How to Rebuild Any Automotive Engine" covers the basics of any engine rebuild in more than 400 photos of step-by-step instruction. Subjects covered include preparation and tool requirements, engine removal, engine disassembly, machine work and clean-up, short-block assembly, final engine assembly, installation, start-up, and break in. Also visited are the options of purchasing crate engines, remanufactured engines, and performance upgrades. This book applies to all cars on the road that feature an internal combustion engine. Spend a little on this book and save hundreds of dollars down the road.

When you insert a straight stick in water, you will be surprisedly find that the stick appears bent. Yet, this is in fact an optical illusion resulting from the refraction of light. Nature always hides her secret with attractive veiling. This may also be true for the motion of objects. Although everything around us appears to move in a continuous and lawful way, it is in all probability that their motion is discontinuous and random in reality as the microscopic phenomena reveal. This book presents a clear exposition of the intriguing idea of random discontinuous motion and its implications for quantum theory and relativity. Once you realize that motion is actually discontinuous and random, you may finally understand the mysterious quantum world, where an electron can pass through two slits at the same time. I fully agree with your idea of discontinuous movement. ---- Antoine Suarez, Center for Quantum Philosophy, Zurich The idea of using discontinuous motion as a realist interpretation of quantum mechanics is original. If it can be made to work, it would add an interesting new ontology to our stock of quantum mechanical interpretations. ---- Reviewer of *Foundations of Physics* Its very existence is at any rate, an excellent illustration of the extent to which physical data force us to depart from commonsense ideas when we try to depict reality "as it really is". ---- Bernard d'Espagnat, University of Paris-Orsay
