Winner of the Stubbendieck Great Plains Distinguished Book Prize 2019 selection for the One Book One Nebraska and All Iowa state reading programs "Genoways gives the reader a kitchen-table view of the vagaries, complexities, and frustrations of modern farming...Insightful and empathetic." —Milwaukee Journal Sentinel The family farm lies at the heart of our national identity, and yet its future is in peril. Rick Hammond grew up on a farm, and for forty years he has raised cattle and crops on his wife's fifth-generation homestead in Nebraska, in hopes of passing it on to their four children. But as the handoff nears, their family farm—and their entire way of life—are under siege on many fronts, from shifting trade policies, to encroaching pipelines, to climate change. Following the Hammonds from harvest to harvest, Ted Genoways

explores the rapidly changing world of small, traditional farming operations. He creates a vivid, nuanced portrait of a radical new landscape and one family's fight to preserve their legacy and the life they love.

Pull on your wellies, grab your flat cap and join Jeremy Clarkson in this hilarious and fascinating behind-the-scenes look at the farm we're all obsessed with Welcome to Clarkson's farm. An idyllic spot offering picturesque views across the Cotswolds, bustling hedgerows and natural springs, it's the perfect plot of land for someone to delegate the actual, you know, farming to someone else while he galivants around the world in cars. Until one day, Jeremy decided he would do the farming himself. After all, how hard could it be? . . . Faced with suffocating red tape, biblical weather, local objections, a global pandemic and his own frankly staggering ignorance of how to 'do farming', Jeremy soon realises that turning the farm around is going to take more than splashing out on a massive tractor. Fortunately, there's help at hand from a large and (mostly) willing team, including girlfriend Lisa, Kaleb the Tractor Driver, Cheerful Charlie, Ellen the Shepherd and Gerald, his Head of Security and Dry Stone Waller. Between them, they enthusiastically cultivate crops, rear livestock and hens, keep bees, bottle spring water and open a farm shop. But profits remain elusive. And yet while the farm may be called Diddly Squat for good reason, Jeremy soon begins to understand that it's worth a whole lot more to him than pounds, shillings and pence . . . Praise for Clarkson's Farm: 'The best thing Clarkson's done . . . It pains me to say this' THE GUARDIAN 'Shockingly hopeful' THE INDEPENDENT 'Even the most committed Clarkson haters will find him likeable here' THE TELEGRAPH 'Quite lovely' THE TIMES

What is it about old tractors that is so fascinating and entrancing? The sounds and smells of these old relics? The hunt to find the rarest of models? Or simply the memories such machines evoke? The Magic of Old Tractors explores this intriguing world and is essential reading for anyone with a passion for classic tractors.

The little grey Fergie is Britain's best-loved tractor, the light user-friendly machine that finally replaced the horse on farms. This highly illustrated account covers the full history of Harry Ferguson's tractor products from his pioneering work before the 1930s to the merger with Massey in 1957. The author has had access to fresh archive material and has interviewed many of the surviving men who were associated with Ferguson. The appeal of the Fergie lay in its lightness and utility, and also in the system of mechanized farming of which it was a part. Throughout the book, reference is made to the

implements which lay at the heart of the system. Stuart Gibbard has won "Tractor and Machinery" magazine's award for the best British tractor book five years running.

The fearsome iron giant becomes a hero when he challenges a huge space monster.

When a flood causes a family to be stranded in their car, Farmer John's tractor is the only vehicle that is able to rescue the family.

The image of 20 mules hauling a train of wagons was once as popular as the golden arches are today. Everyone knew what it meant. It was the trademark of Pacific Coast Borax's most famous product, a laundry additive called Twenty Mule Team Borax.

The company's advertising was dependent on one important fact: the connection between the Twenty Mule Team and America's most notorious desert, Death Valley. From 1883 to 1888, teams of mules and wagons hauled borax out of the famed valley on the California-Nevada border. During those years, the teams were not famous; they were just a common means of transportation.

After all, it was not the first time 20 mules hauled borax and it was not the longest or the most treacherous path. So what happened? How did this common form of transportation (the big-rig truck of its day) become transformed into an American icon? That is the story of this book.

In this beautifully illustrated history of Ford's tractors, author and photographer Randy Leffingwell celebrates the Ford family of tractors from their development to modern day.
