Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. Day trading is not gambling or an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere. At the beginning of my trading career, a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from \$1 to over \$55 in just two days. Two days! I was a beginner at the time. I was the amateur. I purchased 1,000 shares at \$4 and sold them at over \$10. On my very first beginner trade, I made \$6,000 in a matter of minutes. It was pure luck. I honestly had no idea what I was doing. Within a few weeks I had lost that entire \$6,000 by making mistakes in other trades. I was lucky. My first stupid trade was my lucky one. Other people are not so lucky. For many, their first mistake is their last trade because in just a few minutes, in one simple trade, they lose all of the money they had worked so hard for. With their account at zero, they walk away from day trading. As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced

traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly, committed to making money. Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know. I've experienced all of these scenarios. In *How to Day Trade for a Living*, I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. In this book, I use simple and easy to understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market. This book is definitely NOT a difficult, technical, hard to understand, complicated and complex guide to the stock market. It's concise. It's practical. It's written for everyone. You can learn how to beat Wall Street at its own game. And, as a purchaser of my book, you will also receive a membership in my community of day traders at www.vancouver-traders.com. You can monitor my screen in real time, watch me trade the strategies explained in his book, and ask questions of me and other traders in our private chat room. I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my Author page on Amazon. It's honest. You'll see I lose some days. You can read the reviews of my book. FOREX TRADING The Beginners Guide to Making It Big With Forex Trading In this book, you will find all the basic information you need to get started down the path to trading success.

WHY TRADE FOREX? With average daily turnover of US \$5 trillion, forex is the most traded financial market in the world. A true 24-hour market from Sunday 5 PM ET to Friday 5 PM ET, forex trading begins in Sydney, and moves around the globe as the business day begins, first to Tokyo, London, and New York. Unlike other financial markets, investors can respond immediately to currency fluctuations, whenever they occur - day or night. In any business or moneymaking venture, preparation and foreknowledge are the keys to success. Without this sort of insight, the attempt to make a profitable financial decision can only end in disaster and failure, regardless of your level of motivation and determination or the amount of money you plan to invest. In the stock market, this rule applies to the nth degree, as you are investing your own money in what could be considered a high risk wager, and you are playing with fire if you do not have at least a general background knowledge of how it functions.

Everyone has to start somewhere in the business of making money with money. You must have the right information from the very first day if you want to become successful in this business. You don't need to know everything all at one time nor could you, and you certainly don't have to learn how to trade every asset class there is. You don't need to become an expert in every conceivable aspect of trading. You should concentrate on becoming a specialist versus being a generalist. **Beginners Guide to Self-Directed Day Trading** is short; it takes the complexities of learning financial market trading and pares it down to the essentials. "How to Trade Forex and Currency Markets: A Beginner's Guide to Professional Forex Trading" is a practical and easy-to-follow workbook for people interested in forex (foreign exchange) trading. Geared for newcomers to currency trading, the book takes its readers through the fundamentals of the market and provides easily-understood explanations of basic principles and terminology. One particularly interesting feature that distinguishes Zac Zarr's book from other publications on forex trading is that it provides its readers with a novel way of gaining insight into market developments. As Zarr points out early in the book, forex trading is the playground of two basic types of traders: individuals like Zarr (and presumably his readers), and what he terms the "big players." It's a dramatically uneven playing field, pitting relatively inexperienced amateurs trading alone with their own limited funds against corporate professionals trading with the advice and copious budgets of their employers. The ability of these solitary traders to influence the directions of markets is negligible, while the big players have the money and the volume to place their collective hands on the steering wheel. So, Zarr concluded early in his ten-year trading career, if you can't beat them, join them - not by applying for a job with your corporate competitors, but by getting inside their heads and figuring out how they think. That way, you can not only understand their moves, you can also anticipate them. Unlike some of his counterparts, Zac Zarr is no snake oil salesman. He offers no wild promises of amazing profits for just following a few simple directions. Zarr does, however, establish a warm and empathetic relationship with his readers as he provides straightforward step-by-step explanations with hundreds of examples based on his own real-life forex trading experiences. Although "How to Trade Forex and Currency Markets: A Beginner's Guide to Professional Forex Trading" was written primarily for beginners, it's a book that many veteran traders will also want to read to

The amount of time it takes to learn and become successful in the financial market trading business is different for everyone. From the very first day you get interested in investing and trading it can be a long road, it can also be verrrry expensive road should you start or continue to make some of the beginner mistakes detailed in this book. As a beginner this book can help you keep it simple and filter the huge amount of information out there down to only what you need to know right away and then can work towards adding more information and studies as you go. My philosophy is to start small and build on success have limited exposure while you hone your skills, then progress as you become more competent. There are a lot of pre-education and pre-trading decisions you will need to make before you spend any money on trading or capitalize an account to trade live with. This book delivers a basic comprehensive guide to the proper tools and resources needed to help give a beginner with no knowledge the best information to make some of those hardest decisions. This book does an excellent job in explaining the very first things a new investor and trader needs to know before they even do anything. It is meant to be a spring board for the very first educational information that someone brand new to trading needs for a baseline to get started from. If you need to learn the trading business from the ground up then this book is definitely a good starting point for you. I encourage you to read it as many times as it takes for it to become clear to you as to what you do and do not need to learn to be successful in this business from the start. There are no money back guarantees in the financial markets however you must know the right information from the start to have a chance of becoming consistently profitable and financially successful.

Most financial trading books read more like an infomercial than a book – this is different Would you jump out of an airplane without a parachute? Then why would you start making trades online before you learned what you were doing? It's crazy! But with deep discount brokers making it look so easy for individual investors, it's no wonder consumers today are lulled into a false sense of security. You can't rely on outdated textbooks and strategies anymore. But if you adapt, you can make a considerable fortune with these new market conditions. Here's just a fraction of what you'll discover inside: The best brokerage accounts for swing traders (setting this up right can save you \$1000+ a year in commissions) How social media moves asset prices, and how to always be first to act on these (do this and you'll almost always ensure lower entry prices than your competition) The only 3 strategies you need for swing trading success (despite what everyone else tells you, it's these 3 which will bring 90% of your profits) How to always ensure the right entry position for a trade How to spot under or overvalued stocks with 99% accuracy The "magic trading number": If you win this percentage of your trades, you'll make massive profits (lower than you think) The secret to finding your trading edge (hint: the risk-reward ratio isn't enough) When to invest, and more important when NOT to invest like Warren Buffett The 10 best traders to follow on Twitter for maximum profit opportunities The #1 thing new traders miss about aftermarket trading. Get this right and you'll have a huge advantage How to set a proper stop loss so you don't get stopped out prematurely. One of the biggest mistakes new traders make is having a stop loss which is too tight. Do this instead and you'll profit when the market moves in your favor. The "zen trader" strategy which makes you immune to losses (which although rare, will occur with any trading plan) A useful, yet
