NOW A #1 NEW YORK TIMES BESTSELLER! An unflinching, darkly funny, and deeply moving story of a boy, his seriously ill mother, and an unexpected monstrous visitor. At seven minutes past midnight, thirteen-year-old Conor wakes to find a monster outside his bedroom window. But it isn't the monster Conor's been expecting-- he's been expecting the one from his nightmare, the nightmare he's had nearly every night since his mother started her treatments. The monster in his backyard is different. It's ancient. And wild. And it wants something from Conor. Something terrible and dangerous. It wants the truth. From the final idea of award-winning author Siobhan Dowd-- whose premature death from cancer prevented her from writing it herself-- Patrick Ness has spun a haunting and darkly funny novel of mischief, loss, and monsters both real and imagined.

In a riveting narrative set in fifteenth-century Korea, two brothers discover a shared passion for kites. Kee-sup can craft a kite unequalled in strength and beauty, but his younger brother, Young-sup, can fly a kite as if he controlled the wind itself. Their combined skills attract the notice of Korea's young king, who chooses Young-sup to fly

the royal kite in the New Year kite-flying competition--an honor that is also an awesome responsibility. Although tradition decrees, and the boys' father insists, that the older brother represent the family, both brothers know that this time the family's honor is best left in Young-sup's hands. This touching and suspenseful story, filled with the authentic detail and flavor of traditional Korean kite fighting, brings a remarkable setting vividly to life. AUTHOR'S NOTE.

Dual immersion, a popular new way to cultivate bilingualism, is capturing the attention of parents and educators alike. By bringing together children from diverse backgrounds to learn each other's languages in a natural setting, it has proved far more effective at cultivating fluency than traditional approaches. But how do these programs actually work? What goes on

in dual immersion classrooms? And what is it that makes them so effective? *Diary of a Bilingual School* answers these questions with a unique mix of narratives and analysis. Depicting a year in the life of a second-grade classroom, it demonstrates what can happen when the instruction is bilingual and the curriculum is constructivist. The book focuses on Chicago's Inter-American Magnet School, one of the nation's most acclaimed dual immersion programs, where children thrive in an environment that unlocks their intellectual curiosity and enthusiasm for learning. Simultaneously, without conscious effort, they become proficient in two languages and at home in a culture that differs from their own. For those who want to discover the benefits of dual immersion for their children or for their students -- or who want to learn more about child-centered approaches to teaching -- *Diary of a Bilingual School* is a must.

From prescient proto-selfies to COVID and AI: the democratic portraiture of Gillian Wearing One of the most influential conceptual artists of her generation, Gillian Wearing first gained recognition in the 1990s for groundbreaking photographs and videos that recorded the confessions and interactions of ordinary people she befriended through chance encounters. In its candor and psychological intensity, her work extends the traditions of portraiture initiated by Sander, Weegee and Arbus. Yet in her ongoing attention to technology's role in the presentation of self, Wearing has presciently identified defining aspects of contemporary visual culture, from reality television to the rise of the selfie. Published for Wearing's first North American retrospective, Gillian Wearing: Wearing Masks traces the acclaimed artist's practice from her earliest Polaroids and videos to her most recent production, including large-scale photographic

self-portraits of Wearing in the guise of other artists; a more intimate body of self-portraits titled Lockdown; and installations and commissioned public sculpture. Essays by co-curators Jennifer Blessing and Nat Trotman provide an overview of Wearing's oeuvre, and a "self-interview" by Wearing offers a revealing firsthand account of the artist's practice, including her ongoing project Your Views (2013-), in which she has recently responded to the COVID-19 pandemic, and her exploration of AI technology in the video work Wearing, Gillian (2018). Gillian Wearing (born 1963) became associated with the Young British Artists (YBAs) after graduating from Goldsmiths College in 1990, and went on to win the Turner Prize in 1997. She works equally in photography, video, sculpture, installation and, most recently, painting. Wearing became well known early on for her now-landmark piece Signs that say what you want them to say and not Signs that say what someone else wants you to say (1992-93), for which she photographed almost 200 strangers with placards of their own making.

All fiction is character-driven, according to William Bernhardt. How can you use characters to create dynamic fiction that will captivate readers? This book explains the relationship between character and plot, and how the perfect melding of the two produces a mesmerizing story.

A fascinating look into the life and work of controversial French novelist Irène Némirovsky Irène Némirovsky succeeded in creating a brilliant career as a novelist in the 1930s, only to have her life cut short: a "foreign Jew" in France, she was deported

in 1942 and died in Auschwitz. But her two young daughters survived, and as adults they brought their mother back to life. In 2004, *Suite française*, Némirovsky's posthumous novel, became an international best seller; some critics, however, condemned her as a "self-hating Jew" whose earlier works were rife with anti-Semitic stereotypes. Informed by personal interviews with Némirovsky's descendants and others, as well as by extensive archival research, this wide-ranging intellectual biography situates Némirovsky in the literary and political climate of interwar France and recounts, for the first time, the postwar lives of her daughters. Némirovsky's Jewish works, Suleiman argues, should be read as explorations of the conflicted identities that shaped the lives of secular Jews in twentieth-century Europe and beyond.

'This extensively revised edition of *A Handbook of Comparative Social Policy* provides up-to-date and valuable insights on key concepts and issues, such as globalization, crime, diversity, housing, child poverty, gender inequality, and social policy regimes. To write about these topics, editor Patricia Kennett has gathered an excellent team of researchers, who deal with both the developing and the advanced industrial world. Students of comparative social policy would benefit from engaging with this illuminating Handbook.' Daniel Béland, JohnsonShoyama Graduate School of Public Policy, Canada

The current context of social policy is one in which many of the old certainties of the past have been eroded. The predominantly inward-looking, domestic preoccupation of social policy has made way for a more integrated, international and outward approach to analysis which looks beyond the boundaries of the state. It is in this context that this Handbook brings together the work of key commentators in the field of comparative analysis in order to provide comprehensive coverage of contemporary debates and issues in cross-national social policy research. Organized around five themes, this thoroughly revised and updated second edition explores the contextual, conceptual, analytical and processual aspects of undertaking comparative social research. The contributions highlight specific areas of comparative social policy including child poverty and well-being, patterns of housing provision and housing inequalities, and social protection in East Asia as well as crime and criminology in a

global context. The authors of the Handbook explore continuing and emerging themes as well as issues which are of particular relevance to understanding the contemporary social world. International in scope, this authoritative Handbook presents original cutting-edge research from leading specialists and will become an indispensable source of reference for anyone interested in comparative and international social research. It will also prove a valuable study aid for undergraduate and postgraduate students from a range of disciplines including social policy, sociology, politics, urban studies and public policy.

Kaplan's, 5-Steps, Crash Course and the others are great resources for reviewing at the end, but Tamm's Textbook Tools accompanies students all year long. This AP World History companion is filled with vocab and assignments that follow the Bentley text throughout the year, chapter-by-chapter. It can be used for regular weekly assignments or review. It can be used on short notice if there is a sub, or be done as homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers started putting the majority of their content online, it opened a niche for traditional paper assignments, a void filled by this series. The textbook itself can be written in ink or electrons, but students still need to write and keep notes for themselves, and portfolios still matter. These activities challenge students to apply the concepts

and give examples, diagramming each chapter as it comes. Facebook message or email (HUDSONFLA@gmail.com) if you want bulk pricing for a class set.

This report demonstrates the relationship between sexual health, human rights and the law. Drawing from a review of public health evidence and extensive research into human rights law at international, regional and national levels, the report shows how states in different parts of the world can and do support sexual health through legal and other mechanisms that are consistent with human rights standards and their own human rights obligations.

Based on Bentley and Ziegler's best-selling, comprehensive survey text, *Traditions & Encounters: A Brief Global History* provides a streamlined account of the cultures and interactions that have shaped world history. An effective part structure organizes developments into seven eras of global history, putting events into perspective and creating a framework for cross-cultural comparisons, while the strong themes of traditions (the formations and development of the world's major societies) and encounters (cross-cultural interactions and exchanges) bring focus to the human experience and help turn the giant story of world history into something more manageable. With an engaging narrative, visual appeal, extended pedagogy, and a strong emphasis on critical thinking, this concise version offers enhanced flexibility and affordability without sacrificing
