The world has been changing for millions of years. Times we can only see through the writers of history and stories passed on from generation to generation, along with the physical ruins left behind. While the human race has evolved and excelled in technology through time, so have those who drift within the shadows. Wars have been fought, lands conquered, and people enslaved. One conflict, one struggle for ultimate power over all has been quietly smoldering within the dark reaches of the earth for thousands of years. Some walk among us; they are rumored to be nearly invincible, superior to all creatures that inhabit our world. With strength that surpasses the world's strongest of warriors, these bloodthirsty, fanged, humanlike beings are now coming out of the shadows to take what they believe should have been theirs from the beginning. Among one of the world's largest, most secretive military operations, one soldier finds himself captured in a facility controlled by the fanged monsters. After welcoming the congregation, the priest continued to announce the opening hymn, making no mention of why he had replaced Father Carmichael for the service. It raised the curiosity in Connie, especially as the rest of

the congregation seemed relaxed and familiar with the priest addressing them. As the service continued, Connie found herself looking around the church to see if Father Carmichael had arrived. Peering through two pillars adjacent to their pew, her gaze fell upon a commemorative plaque set in the wall beyond. In bold script cut into the stone, Connie focused on the name of the church's founder. She stared, stunned at the words "In memory of Father Carmichael," followed by the dates of his life span several centuries earlier.

This book is a collection of short fictional stories, written with the only purpose of entertaining and stimulating our human curious imagination. If at bedtime it helps to sleep, that is surely an added bonus.

A tale that explores events surrounding an alien invasion that crumbles the world's system of order, igniting a war between humans and the Extraterrestrial invaders that remains constant advancing six (6) decades. Submerged in a futile war where loss outweighs victory, the united human resistance develops the technology to travel to the past in order to cautiously manipulate sciences, technology and key

events to accelerate human evolution that has resulted in creating superhuman anomalies that fill the ages. When a gifted child is born in the future marking the turn of tides in the war, the technology is called upon to hide the child the only place he would be safe from the enemy, in the past (our present) before the invasion. The threads of fate are tempted as fictional mayhem pours into our reality when the child's whereabouts are lost. A human resistance commander with specialized telekinetic abilities is sent back to locate and retrieve the child now grown into a young man as the alien evaders influence a hunt of their own. The story unfolds as the actions of the exigent retrieval mission brings together a few complicated individuals along with some unwanted intervention. The commander and other influenced paths cross becoming an immense battle to defeat the marionettes' game of a powerful, affluent, egocentric immortal, with ambitions to seize the child's power and place in destiny as his own; forging himself as mankind's only deity.

The monster under the bed is real. In fact, all the monsters are real, as well as the heroes and everything in between because all Fiction is real and exists in a dimension called Story. However, plenty of them hang out in the Mortal world, living both innocent and nefarious lives. This might not mean much to the average Mortal unaware of the Fictional characters living among them, but for The Last Scion--the only Mortal that can kill those Fictional characters--things are about to become very complicated. Tessa Battle is that Mortal. Upon her return to Lore, Oregon after years bouncing around boarding schools in Europe, Tessa had her sights set on simple things like shoe shopping, finding a hot boyfriend, and eating as many pancakes as humanly possible. However, the Last Scion mantle Tessa just got saddled with is not making any of that easy, and as Tessa and her new friends are about to learn, Story is long from done with her, no matter

how much she'd like to deny her destiny. With more than one monster chasing her and questionable characters like The Snow Queen and Robin Hood as her allies, Tessa is going to need all the superpowers she inherited just to stay alive. And maybe, just maybe, it's a GOOD thing that behind her back, Stories call her THE STORYKILLER.

When seventeen-year-old orphaned shapechanger Tessa Gray is kidnapped by the villainous Mortmain in his final bid for power, the London Institute rallies to save her, but is beset by danger and betrayal at every turn.

DIX, MASON, CHASE... So inappropriate. So naughty. So heartsqueezingly romantic. NY Times Best-selling Training Tessa, plus Controlling Krysta, and Mastering Mari novellas now together in one Hot Texas Bosses value bundle! Training Tessa: After her employer goes out of business, Tessa Greer is so desperate for work she leaves Michigan and travels to Houston where jobs seem more available. She's thrilled to land the "Receptionist Plus" position at Maddox Brothers Inc. So thrilled, in fact, she doesn't read the contract. She's shocked by the punishments her handsome new bosses dole out for her very minor mistakes. She's even more shocked at how aroused she becomes when they discipline her. And with Dixon Maddox, Tessa finds herself wanting him to take her farther than she's ever gone before. Controlling Krysta: Grad student Krysta James takes a receptionist job with Maddox Brothers, Inc., but since she's lost her scholarship, she's still not sure how she'll afford to finish her doctorate. She tries to ignore the heat she feels whenever she's near her strange boss Mason Maddox, determined not to allow herself to fall for another selfish rich guy after what happened last time. Dix notices Mason's attraction to Krysta and tells her the heart-wrenching story behind his brother's unusual behavior. Against her better judgment, Krysta signs a contract with Dix to do anything his brother asks of her in return for the money

she needs to finish her education. But just as Krysta gets to know Mason and discovers the lovable side he was keeping under wraps, he finds evidence that she's betrayed him. And if she chooses to stay at his ranch, she will be punished.

Mastering Mari: Dr. Chase Maddox never felt a connection to another person like the one he felt with Mari—a girl he met at summer camp when they were teenagers. The innocent afternoon they spent alone together confirmed to him they were soul mates. She left the next day with his phone number, promising to call him soon and to meet him at camp the next year. But he never heard from her. For fifteen years, he's been unable to learn her full name, unable to contact her...unable to forget. When she walks into his office one day as his new medical supply sales rep, he's elated, sure his soul mate will remember him, even though he's changed drastically since his days as a small, scrawny teenager. When she doesn't know him at all, his mind reverts to dark fantasies in which he controls her, making her bend to his will, teasing and tormenting her body until she realizes no one can bring her pleasure like he can. Then, he'll send her away as revenge for the pain she caused him. Although Marissa feels an instant connection and is incredibly aroused by Chase's demands, they are stepping way beyond the bounds of professional behavior. Besides, she's sure he's enjoying flaunting his dominance over the new sales rep. She has to stop this before it goes any farther, and the best way is to turn the account over to someone else. When he suddenly has another new sales rep, Chase is livid at being rejected by Mari again. Until he attends his cousin Mason's 4th of July party, and Krysta "introduces" him to her friend Marissa. Now, all Chase has to do to make his darkest fantasies come true is entice Mari to his own secluded ranch house, right up the road. - \*These stories are for entertainment purposes only and depict extremely hot, but inappropriate, office behavior.

Don't try this at work. If you don't like spankings, bondage, bdsm, domination or wealthy cowboy businessmen in your erotic romance, this book is not for you. If you do, however, these Hot Texas Bosses will be right up your alley.

The professor-turned-profiler warns them not to look in the shadows for a monster lurking there. In this book, Carr unravels the biography of the archaeologist Tessa Verney Wheeler, a charming, tiny woman whose untimely death left her archaeological career overshadowed by her distinguished husband, Sir Mortimer Wheeler. Despite a short career of just over twenty years, Verney Wheeler published and excavated extensively while simultaneously developing new archaeological techniques, brought archaeology into the lives of the general public through her connections with

the Press and the encouragement of site tours, and was an inspiring teacher to an impressive roster of students. In this biography, her life is recovered through an examination of her written work, archives, sites, and photographs, as well as through the memories of those who knew her. By means of a discussion of the very personal life and work of one woman, Carr explores the role of women in early British archaeology, resulting in a fascinating picture of a woman and a vivid evocation of the interwar period in London and Wales. From her work retraining colliery navvies as archaeological diggers in Roman amphitheatres on the Welsh borders, to cheap omelettes with her students at the Lyons Corner House on Piccadilly in London, Verney Wheeler crossed social and physical borders with a grace and appeal that remains very palpable today.

The book contributes to an understanding of an educational shift prevalent in our society toward creating humanizing conditions through pedagogy, that will seek co-existence within the lines of policy while influencing system-wide change.

This is an engaging discussion about the functions of education, drawing on a range of educational situations. "Education as a Global Concern" introduces the issues covered by this exciting new series, "Education as a Humanitarian Response". Colin Brock challenges the existing functions of education as widely and conventionally perceived, and promotes the notion of education as a humanitarian response as the prime function. He will examine the educational situations of a range of human groups that are marginalized or excluded from mainstream provision and will also consider the idea that 'humane' means 'appropriate'. This series presents an authoritative, coherent and focused collection of texts to introduce and promote the notion of education as a humanitarian response as a prime function of educational activity. The series takes a holistic interpretation of education, dealing not only with formal schooling and other systemic provisions in the mainstream, but rather with educational reality - teaching and learning in whatever form it comes at any age.

The book is the result of a five-year project that culminated (within the first three years) in doctoral research interrogating language competency for meaningful mathematics instruction at upper primary

level conducted at University of Stellenbosch in 2017; and this book in the succeeding two years. The initial research project received countrywide coverage in several South African media outlets including Times Live and Radio 2000.
