William Gibson, author of the extraordinary multiaward-winning novel Neuromancer, has written his most brilliant and thrilling work to date . . . The Mona Lisa Overdrive. Enter Gibson's unique world—lyric and mechanical, sensual and violent, sobering and exciting—where multinational corporations and high tech outlaws vie for power, traveling into the computer-generated universe known as cyberspace. Into this world comes Mona, a young girl with a murky past and an uncertain future whose life is on a collision course with internationally famous Sense/Net star Angie Mitchell. Since childhood, Angie has been able to tap into cyberspace without a computer. Now, from inside cyberspace, a kidnapping plot is masterminded by a phantom entity who has plans for Mona, Angie, and all humanity, plans that cannot be controlled . . . or even known. And behind the intrigue lurks the shadowy Yazuka, the powerful Japanese underworld, whose leaders ruthlessly manipulate people and events to suit their own purposes . . . or so they think.

Set in the year 2023, the book follows Alcide Nikopol who returns to Paris after spending 30 years frozen in space as a punishment for dodging the draft. The Paris he once knew is now ruled by fascist dictator J. F. Choublanc, the city is swarming with aliens, decaying and succumbing to chaos. At the same time, a flying pyramid-shaped space craft is hovering over Paris. It is inhabited by Egyptian gods who ask for fuel from the local authorities, as their pyramid vessel has run out of gas. In return for this service Choublanc wants immortality from the gods. One renegade god, Horus, meets up with the disillusioned Nikopol in the Metro and they agree Horus may control Nikopol's body. Together they go on a journey to oppose the corrupt and megalomaniacal powers of the 21st century.

As ancient immortals are left reeling, a modern Athena and Hermes search the world for answers in Mortal Gods, the second Goddess War novel by Kendare Blake, acclaimed author of Anna Dressed in Blood. Ares, god of war, is leading the other dying gods into battle. Which is just fine with Athena. She's ready to wage a war of her own, and she's never liked him anyway. If Athena is lucky, the winning gods will have their immortality restored. If not, at least she'll have killed the bloody lot of them, and she and Hermes can die in peace. Cassandra Weaver is a weapon of fate. The girl who kills gods. But all she wants is for the god she loved and lost to return to life. If she can't have that, then the other gods will burn, starting with his murderer, Aphrodite. The alliance between Cassandra and Athena is fragile. Cassandra suspects Athena lacks the will to truly kill her own family. And Athena fears that Cassandra's hate will get them all killed. The war takes them across the globe, searching for lost gods, old enemies, and Achilles, the greatest warrior the world has ever seen. As the struggle escalates, Athena and Cassandra must find a way to work together. Because if they can't, fates far worse than death await. The present volume contains the proceedings of the Seventh International East-West Symposium of New Testament Scholars in Moscow 2016. Its contributions are devoted to different aspects of the question of the relation between history and theology in New Testament and extracanonical Gospel literature. They deal with problems regarding the impact of critical historical approaches for New Testament theology, the relation between the Gospels' claim for truth and historical facts, Orthodox receptions of the Gospel literature, and the presentation of "the" Gospel in Byzantine liturgy.

The first-draft Alien screenplay by William Gibson, the founder of cyberpunk, turned into a novel by Pat Cadigan, the Hugo Award-Winning "Queen of Cyberpunk." William Gibson's never-

before-adapted screenplay for the direct sequel to *Aliens*, revealing the fates of Ripley, Newt, the synthetic Bishop, and Corporal Hicks. When the Colonial Marines vessel *Sulaco* docks with space station and military installation *Anchorpoint*, a new form of *Xenomorph* appears. Written by Hugo Award-winning novelist and "Queen of Cyberpunk" Pat Cadigan, based on Gibson's never-produced first draft. The *Sulaco*-on its return journey from LV-426-enters a sector controlled by the "Union of Progressive Peoples," a nation-state engaged in an ongoing cold war and arms race. U.P.P. personnel board the *Sulaco* and find hypersleep tubes with Ripley, Newt, and an injured Hicks. A *Facehugger* attacks the lead commando, and the others narrowly escape, taking what remains of Bishop with them. The *Sulaco* continues to *Anchorpoint*, a space station and military installation the size of a small moon, where it falls under control of the military's Weapons Division. Boarding the *Sulaco*, a team of Colonial Marines and scientists is assaulted by a pair of *Xenomorph* drones. In the fight Ripley's cryotube is badly damaged. It's taken aboard *Anchorpoint*, where Ripley is kept comatose. Newt and an injured Corporal Hicks are awakened, and Newt is sent to Gateway Station on the way to Earth. The U.P.P. sends Bishop to *Anchorpoint*, where Hicks begins to hear rumors of experimentation-the cloning and genetic modification of *Xenomorphs*. The kind of experimentation that could yield a monstrous hybrid, and perhaps even a Queen. ALIEN 3 TM & (c) Twentieth Century Films. All rights reserved.

There's something wrong with Jerry's madcap, and the psychosis doesn't go away when it's disconnected. Allie ends up undergoing treatment at a "dry-cleaner", and she is faced with a stark choice - jail, for her illegal use of the madcap; or training to become a Mindplayer herself. During training Allie becomes familiar with the Pool - a cohesive, though shifting mental landscape jointly constructed by a number of minds; and more disturbingly encounters McFlor, who has been mind-wiped, so that his adult body is inhabited by a mind only two hours old. And as a fully-fledged Mindplayer Allie has to choose between the many specialist options open to her - Reality Affixing or Pathosfinding; Thrillseeking or Dreamfeeding.

Cyberpunk has brought us films like Blade Runner, Tron, and The Matrix, and it has brought us now-classic novels like Snow Crash and Neuromancer. It continues to be a powerful theme in contemporary literature as writers imagine a gritty, dark, wild, and wicked future where body modification, seedy elements, omniscient corporations, and a few down-luck anti-heroes are always having it out. Inside the covers of this book, readers find stories by the best and the finest cyberpunk writers — from foundational authors like Bruce Sterling and William Gibson to new voices like Cory Doctorow — all of whom write with the fire and zeal that powers the best cyberpunk writing. Here are stories about society gone wrong and society saved, about soulless humans and soulful machines, about futures worth fighting for and futures that do nothing but kill. Welcome to your cyberpunk world. Welcome to your cyberpunk world.

More than 40 years after its publication, the 1963 Beeching Report on British railways remains controversial for recommending the closure of a third of Britain’s railways. In this book, Charles Loft examines: why the nationalized railways were in such dire financial straits by 1963 how government work on future transport needs led to conclusions which would have cut Britain’s

railways down by thousands of miles what difficulties eventually halted attempts by Conservative and Labour governments to implement these cuts. This book will be invaluable to anyone interested in how transport policy is made or how it has arrived at its current state and sheds fascinating new light on the working of government, the economy and the mood of the times under Churchill, Eden, Macmillan and Wilson.

The New York Times bestselling author of A History of the World in 100 Objects brings the world of Shakespeare and the Tudor era of Elizabeth I into focus We feel we know Shakespeare's characters. Think of Hamlet, trapped in indecision, or Macbeth's merciless and ultimately self-destructive ambition, or the Machiavellian rise and short reign of Richard III. They are so vital, so alive and real that we can see aspects of ourselves in them. But their world was at once familiar and nothing like our own. In this brilliant work of historical reconstruction Neil MacGregor and his team at the British Museum, working together in a landmark collaboration with the Royal Shakespeare Company and the BBC, bring us twenty objects that capture the essence of Shakespeare's universe. A perfect complement to A History of the World in 100 Objects, MacGregor's landmark New York Times bestseller, Shakespeare's Restless World highlights a turning point in human history. This magnificent book, illustrated throughout with more than one hundred vibrant color photographs, invites you to travel back in history and to touch, smell, and feel what life was like at that pivotal moment, when humankind leaped into the modern age. This was an exhilarating time when discoveries in science and technology altered the parameters of the known world. Sir Francis Drake's circumnavigation map allows us to imagine the age of exploration from the point of view of one of its most ambitious navigators. A bishop's cup captures the most sacred and divisive act in Christendom. With A History of the World in 100 Objects, MacGregor pioneered a new way of telling history through artifacts. Now he trains his eye closer to home, on a subject that has mesmerized him since childhood, and lets us see Shakespeare and his world in a whole new light.

Science fiction has recently been identified as providing the narrative paradigm for postmodernity. This volume of essays combines theoretical discussions of the nature of science fiction, with specific studies of utopian and dystopian narratives. Alongside of this, the essays here address feminist and African American issues, the envisioning of radical alternative realities and futures, cyborgs, cyberpunk and cyber-space, age and aging, hybridity and monstrosity, and contemporary society and the postmodern condition. It's a doctor's duty to "do no harm," but in a world where healthcare is completely in the hands of the government, meet physicians whose main mission is taking life instead of giving it. Lieutenant Jaye Osgood is lucky to have a good government job. It offers him and his family of five all the comforts of a good life: security, money and access. Until now

he had never questioned the tasks he carried out for the Ministry of Health: missions that tore families apart-all in the name of the greater good. But then his own family unit is placed in jeopardy, and Osgood must risk it all to save the ones he loves. The Kevorkian Oath is a cautionary tale of the potential perils of government-run healthcare.

Sierra Sandison, Miss Idaho 2014, is best known for launching the #showmeyourpump campaign and proudly wearing her insulin pump on the Miss America stage. Sierra now travels the country, speaking at schools, diabetes conferences, and keynoting at various events. She tells audiences of her journey from diagnosis to the Miss America stage, and spreads her message of overcoming adversity, as well as loving the things that make us unique, rather than hiding the things that make us different. Now, with the launch of her new book, Sugar Linings: Finding the Bright Side of Type 1 Diabetes, she hopes to send a new message: one of hope and positivity for diabetics and non-diabetics alike. She tells her story, and also discusses the positive sides of living with type 1 diabetes: finding strength, making connections, and sometimes even forming priceless friendships with others facing similar challenges. She discusses how diabetes can help one discover his or her passion and a way to make a difference in the world, develop a greater ability to show compassion and empathy, and other sugar linings that can make each of our journeys with diabetes a little less gloomy. By illustrating the sugar linings that can hold true for anyone--not just the ones unique to becoming Miss Idaho--Sierra aims to bring hope to those who may be facing a new diagnosis, and anyone else who may have a cloud casting an uncertain, but daunting forecast for his or her future.
