An inside look into Paul Auster's art and craft, the inspirations and obsessions, mesmerizing and dramatic in turn. A remarkably candid, and often surprisingly dramatic, investigation into one writer's art, craft, and life, *A Life in Words* is rooted in three years of dialogue between Auster and Professor I. B. Siegumfeldt, starting in 2011, while Siegumfeldt was in the process of launching the Center for Paul Auster Studies at the University of Copenhagen. It includes a number of surprising disclosures, both concerning Auster's work and about the art of writing generally. It is a book that's full of surprises, unscripted yet amounting to a sharply focused portrait of the inner workings of one of America's most productive and successful writers, through all twenty-one of Auster's narrative works and the themes and obsessions that drive them.

The New York Trilogy is perhaps the most astonishing work by one of America's most consistently astonishing writers. The Trilogy is three cleverly interconnected novels that exploit the elements of standard detective fiction and achieve a new genre that is all the more gripping for its starkness. It is a riveting work of detective fiction worthy of Raymond Chandler, and at the same time a profound and unsettling existentialist enquiry in the tradition of Kafka or Borges. In each story the search for clues leads to remarkable coincidences in the universe as the simple act of trailing a man ultimately becomes a startling investigation of what it means to be human. The New York Trilogy is the modern novel at its finest: a truly bold and arresting work of fiction with something to transfix and astound every reader. 'Marks a new departure for the American novel.' *Observer* 'A shatteringly clever piece of work . . . Utterly gripping, written with an acid sharpness that leaves an indelible dent in the back of the mind.' *Sunday Telegraph* 'The New York Trilogy established him as the only author one could compare to Samuel Beckett.' *Guardian*

Claims of ideology's end are, on the one hand, performative denials of ideology's inability to end; while, on the other hand, paradoxically, they also reiterate an idea that 'ending' is simply what all ideologies eventually do. Situating her work around the intersecting publications of Daniel Bell's *The End of Ideology* (1960) and J.D. Salinger's *Franny and Zooey* (1961), Laurie Rodrigues argues that American novels express this paradox through nuanced applications of non-realist strategies, distorting realism in manners similar to ideology's distortions of reality, history, and belief. Reflecting the astonishing cultural variety of this period, *The American Novel After Ideology, 1961 - 2000* examines *Franny and Zooey*, Carlene Hatcher Polite's *The Flagellants* (1967), Leslie Marmon Silko's *Almanac of the Dead* (1991), and Philip Roth's *The Human Stain* (2001) alongside the various discussions around ideology with which they intersect. Each novel's plotless narratives, dissolving subjectivities, and cultural codes

organize the texts' peculiar relations to the post-ideological age, suggesting an aesthetic return of the repressed.

Spiritual communication with words is tricky because all words are based upon conceptual duality. Thus, to usefully encourage resonance with the One, spiritual teachings and Self conception must avoid subconscious programming away from oneness. Part one of this book illumines you to avoid carelessly using words, even as prayer, which can unwittingly confine the soul in false conception. Parts two to five enlarge upon this posture with insights into the nature of Truth; the images of nothingness we inhabit to evolve the One; why the human species exists; paradox and mystery impelling our endless conclusion.

Three New York Times bestsellers chronicle the rise of America's most influential Jewish families as they transition from poor immigrants to household names. In his acclaimed trilogy, author Stephen Birmingham paints an engrossing portrait of Jewish American life from the colonial era through the twentieth century with fascinating narrative and meticulous research. The collection's best-known book, "Our Crowd" follows nineteenth-century German immigrants with recognizable names like Loeb, Sachs, Lehman, Guggenheim, and Goldman. Turning small family businesses into institutions of finance, banking, and philanthropy, they elevated themselves from Lower East Side tenements to Park Avenue mansions. Barred from New York's gentile elite because of their religion and humble backgrounds, they created their own exclusive group, as affluent and selective as the one that had refused them entry. The Grandees travels farther back in history to 1654, when twenty-three Sephardic Jews arrived in New York. Members of this small and insulated group—considered the first Jewish community in America—soon established themselves as wealthy businessmen and financiers. With descendants including poet Emma Lazarus, Barnard College founder Annie Nathan Meyer, and Supreme Court Justice Benjamin N. Cardozo, these families were—and still are—hugely influential in the nation's culture, politics, and economics. In "The Rest of Us," Birmingham documents the third major wave of Jewish immigration: Eastern Europeans who swept through Ellis Island between 1880 and 1924. These refugees from czarist Russia and Polish shtetls were considered barbaric, uneducated, and too steeped in the traditions of the "old country" to be accepted by the well-established German American Jews. But the new arrivals were tough, passionate, and determined. Their incredible rags to riches stories include those of the lives of Hollywood tycoon Samuel Goldwyn, Broadway composer Irving Berlin, makeup mogul Helena Rubenstein, and mobster Meyer Lansky. This unforgettable collection comprises a comprehensive account of the Jewish American upper class, their opulent world, and their lasting mark on American society.

Nonstop Metropolis, the culminating volume in a trilogy of atlases, conveys innumerable unbound experiences of New York City through twenty-six imaginative maps and informative essays. Bringing together the insights of dozens of experts—from linguists to music historians, ethnographers, urbanists, and environmental journalists—amplified by cartographers, artists, and photographers, it explores all five boroughs of New York City and parts of nearby New Jersey. We are invited to travel through Manhattan's playgrounds, from polyglot Queens to many-faceted Brooklyn, and from the resilient Bronx to the mystical kung fu hip-hop mecca of Staten Island. The contributors to this exquisitely designed and gorgeously illustrated volume celebrate New York City's unique vitality, its incubation of the avant-garde, and its literary history, but they also critique its racial and economic inequality, environmental impact, and erasure of its past. Nonstop Metropolis allows us to excavate New York's buried layers, to scrutinize its political heft, and to discover the unexpected in one of the most iconic cities in the world. The dramatic trilogy has been flourishing for some time now in new works and revivals of older works by American, British, and European playwrights. This book analyzes recent American works by Caucasian, African American, Asian American, and Hispanic American men and women. There are five chapters beginning with *Opposing Families* (trilogies of, e.g., Lanford Wilson, Foote, Machado, and McCraney are examined). Carson, Rabe, and McLaughlin are among those in the *Classical Reimaginings* chapter while Coen, Berc, and Wolfe constitute the *Medieval Reimaginings* chapter. Van Itallie, Havis, Rapp, and Hwang, among others, create *New Forms*. LaBute, Fierstein, and Nelson, among others, create *New Selves*. The concluding chapter is devoted to Ruhl's *Passion Play*, which spans 400 years of theatre-creating from Elizabethan England to Hitler's Germany to the Reagan era in America.

This carefully crafted ebook: "LITTLEPAGE MANUSCRIPTS – Complete Trilogy: *Satanstoe*, *The Chainbearer* & *The Redskins*" is formatted for your eReader with a functional and detailed table of contents. The Littlepage Manuscripts follow three generations of a Dutch-originated family settling in America, beginning in the mid-eighteenth century. The trilogy is a fictional biography of the Littlepage family which explores the 18th century colony of New York. Novels focus mainly on issues of land ownership and the displacement of American Indians as the United States moves westward. Critical to the trilogy of these novels, is the sense of expansion through the measuring and acquisition of land by civilization.

Narratives in these fictional manuscripts reveal a lot about the mentality of the people at that point in history. *Satanstoe* is the first novel of the trilogy with Mr. Cornelius Littlepage as the main narrator. His writings and descriptions paint the idyllic picture of the life of Dutch colonists. *The Chainbearer* is the second book in a trilogy, narrated by Mordaunt Littlepage. The title represents the man who carries the chains in measuring the land, helping civilization to grow from the wilderness. Here is described cultural lack of understanding Native Americans had for European concepts of land ownership. *The Redskins* is the final part of the trilogy with Mr. Hugh Roger Littlepage as narrator. This book closes the series of the Littlepage Manuscripts, which have been given to the world as containing a fair account of the comparative sacrifices of time, money, and labor, made respectively by the landlord and the tenants, on a New York estate. James Fenimore Cooper (1789-1851) was a prolific and popular American writer of the early 19th century. His historical romances of frontier and Indian life created a unique form of American literature. His best-known works are five historical novels of the frontier period known as the *Leatherstocking Tales*.

The award-winning, #1 internationally bestselling new novel by the author of *The Perfect Nanny*, about a woman in an interracial marriage whose fierce desire for autonomy parallels her adopted country's fight for independence The world of men is just like the world of botany. In the end, one species dominates another. One day, the orange will win out over the lemon, or vice versa, and the tree will once again produce fruit that people can eat. In her first new novel since *The Perfect Nanny* launched her onto the world stage and won her acclaim for her "devastatingly perceptive character studies" (*The New York Times Book Review*), Leila Slimani draws on her own family's inspiring story for the first volume in a planned trilogy about race, resilience, and women's empowerment. Mathilde, a spirited young Frenchwoman, falls in love with Amine, a handsome Moroccan soldier in the French army during World War II. After the war, the couple settles in Morocco. While Amine tries to cultivate his family farm's rocky terrain, Mathilde feels her vitality sapped by the isolation, the harsh climate, the lack of money, and the mistrust she inspires as a foreigner. Left increasingly alone to raise her two children in a world whose rules she does not understand, and with her daughter taunted at school by rich French girls for her secondhand clothes and unruly hair, Mathilde goes from being reduced to a farmer's wife to defying the country's chauvinism and repressive social codes by offering medical services to the rural population. As tensions mount between the Moroccans and the French colonists, Amine finds himself caught in the crossfire: in solidarity with his Moroccan workers yet also a landowner, despised by the French yet married to a Frenchwoman, and proud of his wife's resolve but ashamed by her refusal to be subjugated. All of them live in the country of others--especially the women, forced to live in the land of men--and with this novel, Leila Slimani issues the first salvo in their emancipation.

The Greek Trilogy of Luis Alfaro gathers together for the first time the three 'Greek' plays of the MacArthur Genius Award-winning Chicana playwright and performance artist. Based respectively on Sophocles' *Electra* and *Oedipus*, and Euripides' *Medea*, Alfaro's *Electricidad*, *Oedipus El Rey*, and *Mojada* transplant ancient themes and problems into the 21st century streets of Los Angeles and New York, in order to give voice to the concerns of the Chicana and wider Latinx communities. From performances around the world including sold-out runs at New York's Public Theater, these texts are extremely important to those studying classical reception, Greek theatre and Chicana writers. This unique anthology features definitive editions of all three plays alongside a comprehensive introduction which provides a critical overview of Luis Alfaro's work, accentuating not only the unique nature of these three 'urban' adaptations of ancient Greek tragedy but also the manner in which they address present-day Chicana and Latinx socio-political realities across the United States. A brief introduction to each play and its overall themes precedes the text of the drama. The anthology concludes with exclusive supplementary material aimed at enhancing understanding of Alfaro's plays: a 'Performance History' timeline outlining the performance history of the plays; an alphabetical 'Glossary' explaining the most common terms in Spanish and Spanglish appearing in each play; and a 'Further Reading' list providing primary and secondary bibliography for each play. The anthology is completed by a new interview with Alfaro which addresses key topics such as Alfaro's engagement with ancient Greek drama and his work with Chicana communities across the United States, thus providing a critical contextualisation of these critically-acclaimed plays. William Dean Howells (1837-1920) was an American realist author and literary critic. He wrote his first novel, *Their Wedding Journey*, in 1871, but his literary reputation really took off with the realist novel *A Modern Instance*, published in 1882, which describes the decay of a marriage. His 1885 novel *The Rise of Silas Lapham* is perhaps his best known, describing the rise and fall of an American entrepreneur in the paint business. His social views were also strongly reflected in the novels *Annie Kilburn* (1888) and *A Hazard of New Fortunes* (1890). While known primarily as a novelist, his short story "Editha" (1905) - included in the collection *Between the Dark and the Daylight* (1907) - appears in many anthologies of American literature. Howells also wrote plays, criticism, and essays about contemporary literary figures such as Ibsen, Zola, Verga, and, especially, Tolstoy, which helped establish their reputations in the United States. He also wrote critically in support of many American writers. It is perhaps in this role that he had his greatest influence.

Inhaltsangabe:Abstract: Paul Auster's New York Trilogy, published in one volume for the first time in England in 1988 and in the U.S. in 1990 has been widely categorised as detective fiction among literary scholars and critics. There is, however, a striking diversity and lack of consensus regarding the classification of the trilogy within the existing genre forms of the detective novel. Among others, Auster's stories are described as: metaanti-detective-fiction; mysteries about mysteries; a strangely humorous working of the detective novel; very soft-boiled; a metamystery; glassy little jigsaws; a mixture between the detective story and the nouveau roman; a metaphysical detective story; a deconstruction of the detective novel; antidetective-fiction; a late example of the anti-detective genre; and being related to 'hard-boiled' novels by authors like Hammett and Chandler. Such a striking lack of agreement within the secondary literature has inspired me to write this paper. It does not, however, elaborate further on this diversity of viewpoints although they all seem to have a certain validity and underline the richness and diversity of Auster's detective trilogy; neither do I intend to coin a new term for Auster's detective fiction. I would rather place *The New York Trilogy* within a more general and open literary form, namely postmodern detective fiction. This classifies Paul Auster as an American writer who is part of the generation that immediately followed the 'classical literary movement' of American postmodernism' of the 60s and 70s. His writing demonstrates that he has been influenced by the revolutionary and innovative postmodern concepts, characterised by the notion of 'anything goes on a planet of multiplicity' as well as by French poststructuralism. He may, however, be distinguished from a 'traditional' postmodern writer through a certain coherence in the narrative discourse, a neo-realistic approach and by showing a certain responsibility for social and moral aspects going beyond mere metafictional and subversive elements. Many of the ideas of postmodernism were formulated in theoretical literary texts of the 60s and 70s and based on formal experiments include the attempt of subverting the ability of language to refer truthfully to the world, and a radical turning away from coherent narrative discourse and plot. These ideas seem to have been internalized by the new generation of postmodern writers of the 80s to such [...]

Called "a masterpiece" by *The New York Times*, the acclaimed trilogy from Tove Ditlevsen, a pioneer in the field of genre-bending confessional writing Tove Ditlevsen is today celebrated as one of the most important and unique voices in twentieth-century Danish literature, and *The Copenhagen Trilogy* (1969–71) is her acknowledged masterpiece. *Childhood* tells the story of a misfit child's single-minded determination to become a poet; *Youth* describes her early experiences of sex, work, and independence. *Dependency* picks up the story as the narrator embarks on the first of

her four marriages and goes on to describe her horrible descent into drug addiction, enabled by her sinister, gaslighting doctor-husband. Throughout, the narrator grapples with the tension between her vocation as a writer and her competing roles as daughter, wife, mother, and drug addict, and she writes about female experience and identity in a way that feels very fresh and pertinent to today's discussions around feminism.

Ditlevsen's trilogy is remarkable for its intensity and its immersive depiction of a world of complex female friendships, family and growing up—in this sense, it's Copenhagen's answer to Elena Ferrante's Neapolitan Novels. She can also be seen as a spiritual forerunner of confessional writers like Karl Ove Knausgaard, Annie Ernaux, Rachel Cusk and Deborah Levy. Her trilogy is drawn from her own experiences but reads like the most compelling kind of fiction. Born in a working-class neighborhood in Copenhagen in 1917, Ditlevsen became famous for her poetry while still a teenager, and went on to write novels, stories and memoirs before committing suicide in 1976. Having been dismissed by the critical establishment in her lifetime as a working-class, female writer, she is now being rediscovered and championed as one of Denmark's most important modern authors, with "Tove fever" gripping readers.

A deeply flawed individual, J. D. Brewster was afflicted with chronic, intrusive, dark and violent thoughts that alienated the medical student from not only his colleagues, but also from everyone he had ever known. His life was already disintegrating when he somehow miraculously survived a murder attempt that sadly left him with not only serious permanent physical injuries, but also with a seething hatred and an all-consuming compulsion to seek revenge. Engrossed in the brutal and dehumanizing clinical clerkship rotations, Brewster spirals downward into an ever-deepening quagmire of moral despair. Upon the death of his fiancé, worsening spiritual isolation propels Brewster to embrace the secret clinical justice system that was hiding amongst the shadows at the Gulf Coast College of Medicine. After successfully recruiting several other grievously traumatized victims of violent crimes, Brewster successfully orchestrates a shocking act of vigilante retribution within the very halls of an institution that was auspiciously dedicated to the art of medical care. In this final installment of a medical thriller trilogy, a dispirited medical student is willing to sacrifice a promising career to become a vigilante, but in the end, he must eventually face the truth as his life comes full circle.

"I was the summer that man first walked on the moon. I was very young back then, but I did not believe there would ever be a future..." Spanning three generations, Moon Palace is the story of Marco Stanley Fogg and his quest for identity in the modern world. Moving from the concrete canyons of Manhattan to the cruelly beautiful landscape of the American West, it is a meditation on and re-examination of America, art and the self, by one of America's foremost authors.

This is a story about the lives of six men from the 'View' who formed a pact, and vowed they all would become the finest amongst New York's finest and survive to maintain the 'circle of friends' and the conflicts they endure when fighting crime involves their childhood friends. It is these types of relationships that are deeply rooted and sometime unexplainable. They are more than just oxymoron expressions. They depicted the good and the bad, the hero and the villain, the cop and the crimina

eReader with a functional and detailed table of contents. In his first novel Howells introduces to us the March Family from Boston, a newly married couple. The story follows Basil and Isabel March on their honeymoon journey to New York and Hudson River, then west to Niagara Falls and finally to Quebec and Montreal. The story continues in *A Hazard of New Fortunes* when Marches, now with children, move from Boston to New York. The book, which takes place in late 19th century New York City, tells the story of Basil March, who finds himself in the middle of a dispute between his employer, a self-made millionaire and his old German teacher, an advocate for workers' rights. Finally, the story of the March family is completed in *Their Silver Wedding Journey* where Howells follows Basil and Isabel on their trip to Germany. William Dean Howells (1837-1920) was an American realist author, literary critic, and playwright. Nicknamed "The Dean of American Letters", he was particularly known for his tenure as editor of the *Atlantic Monthly* as well as his own prolific writings, including the Christmas story "Christmas Every Day", and the novels *The Rise of Silas Lapham* and *A Traveler from Altruria*. Howells is known to be the father of American realism, and a denouncer of the sentimental novel. He was the first American author to bring a realist aesthetic to the literature of the United States. His stories of Boston upper crust life set in the 1850s are highly regarded among scholars of American fiction.

A graphic novel classic with a new introduction by Art Spiegelman Quinn writes mysteries. The *Washington Post* has described him as a "post-existentialist private eye." An unknown voice on the telephone is now begging for his help, drawing him into a world and a mystery far stranger than any he ever created in print. Adapted by Paul Karasik and David Mazzucchelli, with graphics by David Mazzucchelli, Paul Auster's groundbreaking, Edgar Award-nominated masterwork has been astonishingly transformed into a new visual language.

New York Times 100 Notable Books of 2018 • Amazon Editors' Top 100 of 2018 Rachel Cusk, the award-winning and critically acclaimed author of *Outline* and *Transit*, completes the transcendent literary trilogy with *Kudos*, a novel of unsettling power. A woman writer visits a Europe in flux, where questions of personal and political identity are rising to the surface and the trauma of change is opening up new possibilities of loss and renewal. Within the rituals of literary culture, Faye finds the human story in disarray amid differing attitudes toward the public performance of the creative persona. She begins to identify among the people she meets a tension between truth and representation, a fissure that accrues great dramatic force as *Kudos* reaches a profound and beautiful climax. In this conclusion to her groundbreaking trilogy, Cusk unflinchingly explores the nature of family and art, justice and love, and the ultimate value of suffering. She is without question one of our most important living writers.

'It was a wrong number that started it . . .' Chosen as one of the '100 Most Important Comics of the Century', Faber is proud to publish the graphic novel *City of Glass* for the first time in the UK. As Art Spiegelman explains in his new introduction, David Mazzucchelli and Paul Karasik 'created a strange doppelganger of the original book' and 'a breakthrough work.' Paul Auster's Edgar Award-nominated masterwork has been astonishingly transformed into a new visual language.

Winner of the Barbara and David Zalaznick Book Prize in American History Winner of the Excellence in American History Book Award Winner of the Fraunces Tavern Museum Book Award From the bestselling author of the *Liberation Trilogy* comes the extraordinary first volume of his new trilogy about the American Revolution Rick Atkinson, author of the Pulitzer

Prize-winning *An Army at Dawn* and two other superb books about World War II, has long been admired for his deeply researched, stunningly vivid narrative histories. Now he turns his attention to a new war, and in the initial volume of the *Revolution Trilogy* he recounts the first twenty-one months of America's violent war for independence. From the battles at Lexington and Concord in spring 1775 to those at Trenton and Princeton in winter 1777, American militiamen and then the ragged Continental Army take on the world's most formidable fighting force. It is a gripping saga alive with astonishing characters: Henry Knox, the former bookseller with an uncanny understanding of artillery; Nathanael Greene, the blue-eyed bumpkin who becomes a brilliant battle captain; Benjamin Franklin, the self-made man who proves to be the wildest of diplomats; George Washington, the commander in chief who learns the difficult art of leadership when the war seems all but lost. The story is also told from the British perspective, making the mortal conflict between the redcoats and the rebels all the more compelling. Full of riveting details and untold stories, *The British Are Coming* is a tale of heroes and knaves, of sacrifice and blunder, of redemption and profound suffering. Rick Atkinson has given stirring new life to the first act of our country's creation drama.

From the author of the forthcoming *4 3 2 1: A Novel* – a spare, powerful, intensely visionary novel about the bare-bones conditions of survival in a distant and unsettling future, Anna Blume is on a mission in an unnamed city of chaos and disaster. Its destitute inhabitants scavenge garbage for food and shelter, no industry exists, and an elusive government provides nothing but corruption. Anna wades through the filth to find her long-lost brother, a one-time journalist who may or may not be alive. New York Times bestselling author Paul Auster (*The New York Trilogy*) shows us a disturbing Hobbesian society in this dystopian, post-apocalyptic novel.

From the author of the international best seller *An Instance of the Fingerpost*, *Arcadia* is an astonishing work of imagination. In Cold War England, Professor Henry Lytten, having renounced a career in espionage, is writing a fantasy novel that dares to imagine a world less fraught than his own. He finds an unlikely confidante in Rosie, an inquisitive young neighbor who, while chasing after Lytten's cat one day, stumbles through a doorway in his cellar and into a stunning and unfamiliar bucolic landscape—remarkably like the fantasy world Lytten is writing about. There she meets a young boy named Jay who is about to embark on a journey that will change both their lives. Elsewhere, in a dystopian society where progress is controlled by a corrupt ruling elite, the brilliant scientist Angela Meerson has discovered the potential of a powerful new machine. When the authorities come knocking, she will make an important decision—one that will reverberate through all these different lives and worlds.

The Civil War is the American Iliad. Lincoln, Stonewall Jackson, Grant, and Lee still stand as

heroic ideals, as stirring to our national memory as were the legendary Achilles and Hector to the world of the ancient Greeks. In their bestselling, action-packed and painstakingly researched Civil War series, Newt Gingrich and William R. Forstchen examine some of the great "what-ifs" of American history: Could Lee have defeated the Union Army at Gettysburg and led the South to triumph in the war? For the first time ever The Gettysburg Trilogy combines all three books in the Civil War Series. Gettysburg, the series' first installment, opens in 1863 as General Robert E. Lee and his Army of Northern Virginia are poised to attack the North and claim the victory that could end the brutal conflict. The soldiers in the line, Yank and Reb, know that this will be the great challenge, the decisive moment that will decide whether a nation will die, or be created, and both sides are ready and willing to lay down their lives for their Cause. Grant Comes East continues the story of a Confederate victory at Gettysburg, as General Lee marches on Washington, DC, and launches an assault against one of the largest fortifications in the world. At the same time, Lincoln appoints General Ulysses S. Grant commander of all Union forces. Grant, fresh from his triumph at Vicksburg, races east, bringing with him his hardened veterans from Mississippi to confront Lee. Finally, Never Call Retreat concludes this tour de force story of true heroism and glory in America's most trying hour with an epic, week-long showdown between Grant and Lee as each man struggles to bring victory to his name, his men, and his country. Also included are excerpts from the first two books in Newt Gingrich and William F. Forstchen's Revolutionary War Series: To Try Men's Souls and Valley Forge.
