The world and its economics is more global today than it was 10 years ago. Products and goods are being shipped and received from country to country more than ever before. In this global process one key person that is needed is a Freight Broker and his or her service. Freight Brokerage firms are more in demand now than ever before. My name is George A. Stewart, I am 43 years old, I worked 12 years as a store manager for Burger King Restaurant, a truly dead end job. Just like most jobs in the market today I used to put in plenty of hours that unfortunately, did not translate into money. I understand that everyone has bad days at work; for me it was not an ordinary occasional dissatisfaction but a genuine mismatch. Working for long hours and under constant stress was taking a toll on my health and to make matters worse I was earning \$36,500 per year, which was barely enough to feed myself, my wife and three children. Most of the time, I felt like I was dangling from a cliff. My turning point was the day I met a certain customer in my restaurant who seemed to be doing very well despite the hard economic times the whole country was going through. After a little chitchat, I found out he was a freight broker and that he was earning a decent living while working a few

hours. At that point I did not know anything about freight brokerage or that a profession like that even existed. I therefore decided to do some research about it and the more I learned the more my interest grew and within a matter of weeks I was completely hooked up. Before I knew it, I took time off work to begin my training in freight brokerage. After my training, I decided to quit my job at burger king and took up a job as a freight agent working under an established freight broker. My job included looking for new clients, taking orders and matching shippers with carriers. In one year or so I felt that I had enough experience and contacts to start my own firm. I then applied for the required licenses at FMCSA and started small. Starting my own firm was definitely not easy but I found it much better than working at burger king. My first client was a contact I had made from working as a freight agent. After a lot of hard work I finally started getting more clients, and in 6 months I could finally relax because my business had finally taken off. I was earning around \$120,000 every year, which, I must confess, was really good for starters. Now that I can work for fewer hours per day, my stress level has gone down and health wise, I am on the road to recovery. I can take better care of my family and also spend a lot more time with them. In this book, I outlined every steps about How to become a successful Freight Broker that anyone can understand and follow.

What does it mean to be gay ... and a Christian? Beginning with how the Bible describes the Church, author Nate Collins outlines a vision for community life that challenges Christians to examine obstacles that inhibit spiritual unity. This new vision calls straight and non-straight believers alike to patterns of Christian obedience that respect and honor their similarities and differences. In addition, Collins provides a theological framework for understanding how Genesis 1-2 describes both gender and sexuality. He then unpacks biblical concepts like desire, lust, and temptation, and applies them to modern constructs like sexual attraction and orientation. Collins explores the theme of identity, focusing on facets of personal identity that are central to the experience of Christian gender minorities. He looks at what Scripture says about the formation and function of Christian identity, highlighting several theological and sociological tensions. Collins writes for believers who have a traditional sexual ethic

Big Rig Business Startup How to Start, Run & Grow a Successful Trucking Company After losing my corporate job in 2008, I went through the toughest time of my life. At the time my wife pregnant with our third child, and my monthly unemployment check wasn't enough to cover our house and two car notes. In desperation, I decided to go to a local trucking school and get my CDL. I found my first driving job a week after I got out of school. I still remember my first paycheck was just \$55 shy of what I was making at my corporate desk job. I was hysteric, I was happy, I knew this was my new found life and freedom, and no one was going to take it away from me. Long story short, after two years of working for other companies, I decided to start my own trucking company, and I started out as an owner-operator. In 2013, I decided it was time for me to grow and time for me to get off the road and spend some time with my kids. This was when I entered the second phase of my business life. I started to buy one tractor

every three months as I was hiring great drivers that are professional, family oriented and serious about making money. By 2016 I had 12 trucks on the road, and this is also the year when my net earning passed \$350,000 mark. To me, the 350K mark was always a benchmark, why? Because I knew that was the salary of the CEO of the company, I used to work for. Last year, I received a call from a business broker, who asked me for a 10-minute meeting. He had brought an offer from a big trucking company, to buy my company. But I didn't even remotely think about selling my company. Instead, I was talking to the bank and was in the process of finalizing a loan for four new tractors with trailers. Once again, long story short, after I refused their initial offer, they came back with an offer that no reasonable man can refuse, and I consider myself a very reasonable man. The income potential is truly amazing and yes, if you can hire the right people, you will not only see significant growth, high net income but the satisfaction that you don't get from many other jobs and businesses. What I shared in this book, are the steps I went through myself, I wrote from my own experience and shared a step by step process that is easy and simple to follow, and best of all you can get started with very little funding. Freight Forwarder Business Startup How to Start, Run & Grow a Successful Freight Forwarding Business The global freight forwarding market has been seeing a steady growth of around 5% for last four years in a row now. This trend is expected to continue and grow bigger. With all the new trade deals like TPP (Trans-Pacific Partnership), TAP (Trans-Atlantic Partnership) and many other similar trade deals between countries are bringing the whole world into one marketplace. According to Transportation Intelligence, a leading logistics research firm, in 2013 the freight forwarding industry was at 129 Billion, but as of today, it has grown by another 16-20 billion more. This is an industry that in my opinion still in its infancy, with TPP, TAP and many other global trade agreements, the need for such services will grow higher every year. Another rapid growth I see in this business is from all the Amazon FBA(Fulfilled By Amazon) business owners, most of who buy their merchandise from China. Now Amazon never accepts merchandise directly from a foreign country, so each and every piece of merchandise has to come through a freight forwarder/broker. This way the merchandise can get relabeled and shipped to various Amazon warehouses.
