12 True Crime Stories of Murder & Mayhem Fourth Book of the True Crime Case Histories Series (2020) If you've read the previous volumes of the True Crime Case Histories series, you know that I like to start with a brief word of warning. The stories included in this book are truly depraved and shocking. They are not for the squeamish. Many true crime television shows and news articles often leave out the gruesome details, simply because they may be too much for the average viewer or reader. With my books, I try not to leave out the details no matter how vicious they may have been. This volume features twelve of the most incomprehensible stories of the last sixty years. Trying to understand the motivation behind murders like these can be an exercise in futility. But one thing is for sure, - the stories in this volume will keep you turning pages.

Every year, we look back in horror at the sheer evil mankind is capable of, and 2017 was no different. Across the world, but particularly in the United States, startlingly horrific crimes have almost become commonplace, causing us to double-lock our doors at night and look over our shoulders, wondering if we're safe, no matter how crowded or well-lit our location is. In this true crime release, we've compiled some of the most gripping and gruesome crime stories of 2017. Some of the horrible stories you will read about includes: A Florida serial killer stalked a close-knit suburb of Tampa, killing Seminole Heights residents seemingly at random. A member of a neo-Nazi organization used his vehicle to kill a protestor in Charlottesville, Virginia, more than 50 years after the world defeated Hitler's racist rise to power. A couple was sentenced to death for brutalizing a 10-year-old girl for years, beating her, depriving her of food, forcing her to walk on the hot pavement of a sizzling summer in Arizona, only to let her die in an airtight box overnight, her punishment for eating a Popsicle without asking after sweltering in 115-degree heat. Two young girls were smart enough to record pictures and audio of a man suspected in their deaths, evidence that will hopefully soon solve their murders. A blood-soaked man carried his mother's decapitated head into a grocery store, attacking a clerk and stabbing him as well before being apprehended from police. The UK was rocked by terrorist bombings that turned joyous moments deadly in an instant. The death of Charles Manson gave us an opportunity to look back at the bloody mayhem inspired by a murderous man with a messiah complex.

A real-life thriller in the vein of *The Devil in the White City*, Kate Winkler Dawson's debut *Death in the Air* is a gripping, historical narrative of a serial killer, an environmental disaster, and an iconic city struggling to regain its footing. London was still recovering from the devastation of World War II when another disaster hit: for five long days in December 1952, a killer smog held the city firmly in its grip and refused to let go. Day became night, mass transit ground to a halt, criminals roamed the streets, and some 12,000 people died from the poisonous air. But in the chaotic aftermath, another killer was stalking the streets, using the fog as a cloak for his crimes. All across London, women were going missing--poor women, forgotten women. Their disappearances caused little alarm, but each of them had one thing in common: they had the misfortune of meeting a quiet, unassuming man, John Reginald Christie, who invited them back to his decrepit Notting Hill flat during that dark winter. They never left. The eventual arrest of the "Beast of Rillington Place" caused a media frenzy: were there more bodies buried in the walls, under the floorboards, in the back garden of this house of horrors? Was it the fog that had caused Christie to suddenly snap? And what role had he played in the notorious double murder that had happened in that same apartment building not three years before--a murder for which another, possibly innocent, man was sent to the gallows? The Great Smog of 1952 remains the deadliest air pollution disaster in world history, and John Reginald Christie is still one of the most unfathomable serial killers of modern times. Journalist Kate Winkler Dawson braids these strands together into a taut, compulsively readable true crime thriller about a man who changed the fate of the death penalty in the UK, and an environmental catastrophe with implications that still echo today.

"[Red Notice] does for investing in Russia and the former Soviet Union what *Liar's Poker* did for our understanding of Salomon Brothers, Wall Street, and the mortgage-backed securities business in the 1980s. Browder's business saga meshes well with the story of corruption and murder in Vladimir Putin's Russia, making *Red Notice* an early candidate for any list of the

year's best books" (Fortune). "Part John Grisham-like thriller, part business and political memoir." —The New York Times This is a story about an accidental activist. Bill Browder started out his adult life as the Wall Street maverick whose instincts led him to Russia just after the breakup of the Soviet Union, where he made his fortune. Along the way he exposed corruption, and when he did, he barely escaped with his life. His Russian lawyer Sergei Magnitsky wasn't so lucky: he ended up in jail, where he was tortured to death. That changed Browder forever. He saw the murderous heart of the Putin regime and has spent the last half decade on a campaign to expose it. Because of that, he became Putin's number one enemy, especially after Browder succeeded in having a law passed in the United States—The Magnitsky Act—that punishes a list of Russians implicated in the lawyer's murder. Putin famously retaliated with a law that bans Americans from adopting Russian orphans. A financial caper, a crime thriller, and a political crusade, *Red Notice* is the story of one man taking on overpowering odds to change the world, and also the story of how, without intending to, he found meaning in his life.

There are killers who stalk their prey, learning all they can about an intended target before striking. Some commit the act of murder out of hatred or revenge for someone in their lives. Killers like Detlev Guenzel searched for like-minded souls who would allow them to indulge in their deepest darkest fantasies. Then of course, there are those who brutally murder for no apparent reason whatsoever. Each of the four true crime murder cases in this true crime anthology are all different from each other in many ways. The wife who was cast aside for a much younger model; the vore who sought out a willing participant in the act of consensual homicide and cannibalism; the young man who butchered his elderly neighbours; and the man whose partners either disappeared or turned up dead over the period of 54 years. For these true crime murder stories we delve into the background of each killer, the acts they committed, and the criminal investigation that brought them down. We look at why they killed, even when there seems to be no apparent motive. True murder cases like these are hard to fathom, and will leave you wondering about the horrors of humanity. True crime stories are the most frightening of all, as you discover what people have the capability of doing to others. This is a prequel to Jack Rosewood's best true crime books series, *True Crime Stories*.

Muchnick lays bare the murder-suicide of Chris Benoit, his wife Nancy, and their seven-year-old son, Daniel. The Benoit murder-suicide in 2007 was one of the most shocking stories of that year in any realm, and a seminal event in the history of wrestling. Featured on episode SEVENTEEN of the *My Favorite Murder* Podcast "Irvin Muchnick is hell-bent on discovering the essence of the cover-ups, the nuts and bolts of the investigations..."-- *Wrestling Observer* "The Ultimate Historical Edition" extends the 2009 true crime account by connecting it to it to someone who was then a bit player in the wrestling world: Donald Trump. A new introduction reflects on Trump's business ties to WWE's McMahon family, how wrestling "attitude" came to define the populist, demagogic Trump presidency, and their similar scandal management playbooks. Muchnick -- the author of *Wrestling Babylon* and a co-author of *Benoit: Wrestling with the Horror That Destroyed a Family and Crippled a Sport* --drilled down deep into public records

and interviewed dozens of witnesses, inside and outside wrestling, to put together the authoritative account of the events of the gruesome June 2007 weekend in Fayette County, Georgia, during which World Wrestling Entertainment superstar Chris Benoit murdered his wife Nancy and their seven-year-old son Daniel, before proceeding to kill himself. But this book goes beyond the crime itself to answer some of the most important questions behind it. The biography of Benoit, a wrestler's wrestler, makes it clear that his tragedy was a microcosm of the culture of drugs and death behind the scenes of one of North America's most popular brand of sports entertainment. The author probes the story of the massive supplies of steroids and human growth hormone found in his home -- all prescribed by a "doctor to the stars" who got indicted by the U.S. Drug Enforcement Administration, and all dismissed by a WWE "wellness policy" that promoted everything except its talent's wellness. The Benoit case led to unprecedented scrutiny of wrestling's overall health and safety standards, by Congressional investigators and others, and this book is the primary source of what they found and what they should continue to look for.

Real-life is stranger and more frightening than fiction, and this book serves to cement that principal even further. In this compilation, there are eleven cases of some of the most deplorable, unjust and violent crimes I've come across. From cannibals to rapists to the sickest, most twisted criminals you've not yet heard of, you'll read about them all in this book. I'll tell you the story of Rurik Jutting, a British banker living in Hong Kong who held two women hostage, tortured them and raped them over a number of days. You'll learn about Issei Sagawa, a Japanese cannibal who killed and ate a woman - but walks free on the streets today. Then there's the vile three-week torture of an Australian woman who, when she was eventually rescued, paramedics initially thought she was dead. You can also read about the 'Hello Kitty' murder, which is as bizarre as it sounds - and as equally haunting. But please be warned, the cases in this book are highly disturbing and include graphic and distressing descriptions. Please take this trigger warning seriously as this book depicts horrific crimes that involve sexual abuse, domestic abuse, child abuse and graphic violence throughout. This book is intended to explore the evil in this world and expose the heinous behaviour some people are capable of. Please heed this warning before continuing to read. The book fits under the following categories: Serial Killers True Crime Murder and Mayhem True Murder Cases True Crime Biography Eight True Crime Stories of Murder & Mayhem First Book of the True Crime Case Histories Series (2019) A quick word of warning. The true crime short stories within this book are unimaginably gruesome. I have done my best to include full details of these stories no matter how sickening they may be. In these true crime stories you'll find that truth really is more strange and vastly more disturbing than fiction. In my first book as a true crime author I've

started with a few of the stories that have haunted me for some time. Some of these stories are unbelievable in their brutality while others are astounding in the stupidity of the killers. You'll find a story of a religious evangelical christian who would rather strangle his wife and two young boys than lose his prominent job with the church. Then there's the story of a man that fills his wife's orifices with grease so she will be flammable from the inside. There's the story of the small-town doctor that goes through the unbelievable lengths of performing surgery on himself to avoid going to jail for raping his patients. Plus there're more stories of Serial Killers terrorizing cities and crime scenes that bring investigators and seasoned police to tears. This collection of stories are from all around the globe and have no common thread between them other than that they are both thought provoking and disturbing. The stories included in this anthology are dark and creepy and will leave you with a new understanding of just how fragile the human mind can be. The stories include: Fred Grabbe, James Patterson Smith, Dr. John Schneeberger, Chris Coleman, Michelle Bica, Mary Bell, Graham Dwyer, Lawrence Bittaker and Roy Norris (The Toolbox Killers). While some would say that American serial killer Cary Stayner was influenced by family tragedy - his already-troubled family was shattered when his brother was abducted for seven years and held as a sex slave before his heroic return inspired the miniseries "I Know My First Name Is Steven" - in reality, Cary Stayner's true crime story is much more ominous. The handsome, outdoorsy guy with a love for marijuana, nude beaches and the Sierra Nevada mountain range where he once spotted Bigfoot had been harboring fantasies of brutally killing women years before his brother's abduction turned the Stayner family upside down. And in the annals of historical serial killers, Stayner's story stands out, because for months he made one of the most beautiful places on earth a nightmare for women when California's majestic Yosemite National Park became his own devil's playground, and he finally found himself unable to control his long-suppressed urges. Because he didn't look menacing, the man one FBI agent compared to actor Tom Laughlin in "Billy Jack" was able to gain the trust of his victims, and three vacationing women who were staying at the lodge where he lived and worked during the busy tourist season and a nature-loving teacher who help kids become stewards of the land she loved made that fatal mistake before they were savagely, sadistically murdered. The biography of serial killer Cary Stayner and his psychopathic crime spree leaves spine-tingling chills, because as far as the outside world was concerned, he was a fairly normal guy who found himself uncontrollably compelled to kill. Stayner has been on death row in California's famed San Quentin for more than 10 years, but for the families of his victims, no punishment is just enough to make up for the vibrant lives Stayner took, making him one of the most depraved American serial killers in

contemporary history.

A “necessary and brilliant” (NPR) exploration of our cultural fascination with true crime told through four “enthraling” (The New York Times Book Review) narratives of obsession. In *Savage Appetites*, Rachel Monroe links four criminal roles—Detective, Victim, Defender, and Killer—to four true stories about women driven by obsession. From a frustrated and brilliant heiress crafting crime-scene dollhouses to a young woman who became part of a Manson victim’s family, from a landscape architect in love with a convicted murderer to a Columbine fangirl who planned her own mass shooting, these women are alternately mesmerizing, horrifying, and sympathetic. A revealing study of women’s complicated relationship with true crime and the fear and desire it can inspire, together these stories provide a window into why many women are drawn to crime narratives—even as they also recoil from them. Monroe uses these four cases to trace the history of American crime through the growth of forensic science, the evolving role of victims, the Satanic Panic, the rise of online detectives, and the long shadow of the Columbine shooting. Combining personal narrative, reportage, and a sociological examination of violence and media in the 20th and 21st centuries, *Savage Appetites* is a “corrective to the genre it interrogates” (The New Statesman), scrupulously exploring empathy, justice, and the persistent appeal of crime.

From the critically acclaimed author of *Invisible City* and *Conviction*, *The Missing Hours* is a novel about obsession, privilege, and the explosive consequences of one violent act. From a distance, Claudia Castro has it all: a famous family, a trust fund, thousands of Instagram followers, and a spot in NYU’s freshman class. But look closer, and things are messier: her parents are separating, she’s just been humiliated by a sleazy documentary, and her sister is about to have a baby with a man she barely knows. Claudia starts the school year resolved to find a path toward something positive, maybe even meaningful – and then one drunken night everything changes. Reeling, her memory hazy, Claudia cuts herself off from her family, seeking solace in a new friendship. But when the rest of school comes back from spring break, Claudia is missing. Suddenly, the whole city is trying to piece together the hours of that terrible night.

There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Rader's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill, such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering

many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims, the background of each killer, or the suspects in some cases such as the Zodiac killer, their trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers.

As we navigate our way into 2020, it's time to look back at the events that rocked the headlines through 2019. Month by month, chapter by chapter, crime shaped the world, and the world learned that tragedy and terrorism could occur anywhere at any time. Perhaps the most significant event in this book was the Christchurch Mosque shootings, not only because of the horrendous death toll but because it struck a country that had never seen or experienced anything like it before. That sense of safety was gone, and it was apparent that terrorists were everywhere. The death of a serial killer was seen as a welcome relief to many, and even in his final days, he taunted the world with his claims of innocence. Other serial killers were finally caught, and to some, justice couldn't come fast enough. It was another year of mass killings, and sadly, more school shootings. Will they ever come to an end? There have been a lot of cases where someone has just snapped, taking the lives of others before ending their own. In this book, you will find details of the most serious crimes from 2019 from each corner of the globe. You will be shocked, and you will be saddened, but most of all, you will see that justice does sometimes prevail.

The haunting true story of the elusive serial rapist turned murderer who terrorized California during the 70s and 80s, and of the gifted journalist who died tragically while investigating the case—which was solved in April 2018. Introduction by Gillian Flynn • Afterword by Patton Oswalt “A brilliant genre-buster.... Propulsive, can’t-stop-now reading.” —Stephen King For more than ten years, a mysterious and violent predator committed fifty sexual assaults in Northern California before moving south, where he perpetrated ten sadistic murders. Then he disappeared, eluding capture by multiple police forces and some of the best detectives in the area. Three decades later, Michelle McNamara, a true crime journalist who created the popular website TrueCrimeDiary.com, was determined to find the violent psychopath she called “the Golden State Killer.” Michelle pored over police reports, interviewed victims, and embedded herself in the online communities that were as obsessed with the case as she was. *I’ll Be Gone in the Dark*—the masterpiece McNamara was writing at the time of her sudden death—offers an atmospheric snapshot of a moment in American history and a chilling account of a criminal mastermind and the wreckage he left behind. It is also a portrait of a woman’s obsession and her unflinching pursuit of the truth. Utterly original and compelling, it has been hailed as a modern true crime classic—one which fulfilled Michelle's dream: helping unmask the Golden State Killer. Over 800 entries examine the facts, evidence, and leading theories of a variety of unsolved murders, robberies, kidnappings, serial killings, disappearances, and other crimes.

It's just astounding." — Paula Hawkins, author of *Into the Water* and *The Girl on the Train* "This book is a marvel. The Fact of a Body is equal parts gripping and haunting and will leave you questioning whether any one story can hold the full truth." — Celeste Ng, author of the New York Times bestselling *Everything I Never Told You* and *Little Fires Everywhere* Before Alex Marzano-Lesnevich begins a summer job at a law firm in Louisiana, working to help defend men accused of murder, they think their position is clear. The child of two lawyers, they are staunchly anti-death penalty. But the moment convicted murderer Ricky Langley's face flashes on the screen as they review old tapes—the moment they hear him speak of his crimes -- they are overcome with the feeling of wanting him to die. Shocked by their reaction, they dig deeper and deeper into the case. Despite their vastly different circumstances, something in his story is unsettlingly, uncannily familiar. Crime, even the darkest and most unsayable acts, can happen to any one of us. As Alex pores over the facts of the murder, they find themselves thrust into the complicated narrative of Ricky's childhood. And by examining the details of Ricky's case, they are forced to face their own story, to unearth long-buried family secrets, and reckon with a past that colors their view of Ricky's crime. But another surprise awaits: They weren't the only one who saw their life in Ricky's. An intellectual and emotional thriller that is also a different kind of murder mystery, *THE FACT OF A BODY* is a book not only about how the story of one crime was constructed -- but about how we grapple with our own personal histories. Along the way it tackles questions about the nature of forgiveness, and if a single narrative can ever really contain something as definitive as the truth. This groundbreaking, heart-stopping work, ten years in the making, shows how the law is more personal than we would like to believe -- and the truth more complicated, and powerful, than we could ever imagine.

In the early 1940s, the city of Chicago was in the midst of a one man crime wave. But this crime wave was unlike any other in Chicago history. It was not perpetrated by a seasoned gangster like Al Capone or sophisticated serial killer like John Wayne Gacy: the offender in question was an unassuming teenager named William George Heirens. Before Heirens' crime spree was over, he burglarized over 300 hundred homes and murdered three innocent people. In this true crime murder book you will learn the details of Heirens' rampage through the city of Chicago and what drove him to become one of the most disturbed psychopaths and sociopaths in the annals of all true crime stories. At first glance, as an American serial killer, Heirens may not appear as formidable as others since he only claimed three victims. He was also much younger the average serial killer and was a nice looking young man when he was arrested. But the truly frightening aspect of Heirens' story is how a seemingly normal child, with a stable home, can evolve into a petty criminal and eventually to the status of serial killer. A close examination of Heirens' life will reveal that beneath the facade of normalcy lurked a vicious killer waiting to be unleashed on the hapless citizens of Chicago. This book will at times shock and disturb you, but you will not be able to put it down once you read the first page! Truly, you will see a youth who was well on his way to becoming a killer at an early age. So sit back and prepare to enter the mind of a truly disturbed youth as you read this unique Chicago serial killer's biography."

Eastern North Carolina is a land of contrasts, and its crime stories bear this out. A lovelorn war hero or a stalker? Conniving wife or consummate homemaker? Murder or suicide? The answers can be as puzzling as the questions. Mystery author Cathy Pickens details an assortment of quirky cases, including a duo of poisoning cases more than one hundred years apart, a band of folk hero swamp outlaws, sex swingers and a couple of mummies. Each story has, in its way, helped define Eastern North Carolina and its history.

Based on a true story, this edition of Devil's Knot will tie-in to a major motion picture starring Academy Award winners Reese Witherspoon and Colin Firth. This riveting portrait of a small Arkansas town recounts the all-too-true story of a brutal triple murder and the eighteen-year imprisonment of three innocent teenagers. For weeks in 1993, after the grisly murders of three eight-year-old boys, police in West Memphis, Arkansas, seemed stumped. Then suddenly, detectives charged three teenagers - alleged members of a satanic cult - with the killings. Despite the witch-hunt atmosphere of the trials and a case that included stunning investigative blunders, the teenagers, who became known as the West Memphis Three, were convicted. Jurors sentenced Jason Baldwin and Jessie Misskelley to life in prison and Damien Echols, the accused ringleader, to death. The guilty verdicts were popular in their home state - even upheld on appeal - and all three remained in prison until their unprecedented release in August 2011. In Devil's Knot, award-winning investigative journalist Mara Leveritt presents the most comprehensive, insightful reporting ever done on this story - one of the greatest miscarriages of justice in American legal history. In-depth research, meticulous reconstruction of the investigation and close-up views of its key participants unravel the many tangled knots of this endlessly shocking case.

and ask her to write my story." In perhaps the first true-crime book written at the victim's request, Ann Rule untangles a web of lies and brutality that culminated in the murder of Sheila Blackthorne Bellush—a woman Rule never met, but whose shocking story she now chronicles with compassion, exacting detail, and unvarnished candor. Although happily ensconced in a loving second marriage, and a new family of quadruplets, Sheila never truly escaped the vicious enslavement of her ex-husband, multi-millionaire Allen Blackthorne, a handsome charmer— and a violent, controlling sociopath who subjected Sheila to unthinkable abuse in their marriage, and terrorized her for a decade after their divorce. When Sheila was slain in her home, in the presence of her four toddlers, authorities raced to link the crime to Blackthorne, the man who vowed to monitor Sheila's every move in his obsessive quest for power and revenge.

This "superbly written true-crime story" (Michael Lewis, *The New York Times Book Review*) masterfully brings together the tales of a serial killer in 1970s Alabama and of Harper Lee, the beloved author of *To Kill a Mockingbird*, who tried to write his story. Reverend Willie Maxwell was a rural preacher accused of murdering five of his family members, but with the help of a savvy lawyer, he escaped justice for years until a relative assassinated him at the funeral of his last victim. Despite hundreds of witnesses, Maxwell's murderer was acquitted--thanks to the same attorney who had previously defended the reverend himself. Sitting in the audience during the vigilante's trial was Harper Lee, who spent a year in town reporting on the Maxwell case and many more trying to finish the book she called *The Reverend*. Cep brings this remarkable story to life, from the horrifying murders to the courtroom drama to the racial politics of the Deep South, while offering a deeply moving portrait of one of our most revered writers.
