This work is an original and critical analysis of Sikh literature from a feminist perspective. It begins with Guru Nanak's vision of Transcendent Reality and concludes with the mystical journey of Rani Raj Kaur, the heroine of a modern Punjabi epic. The eight chapters of the book approach the Sikh vision of the Transcendent from historical, scriptural, symbolic, mythological, romantic, existential, ethical, and mystical perspectives. Each of these discloses the centrality of the woman, and show convincingly that Sikh Gurus and poets did not want the feminine principle to serve merely as a figure of speech or literary device; it was intended rather to pervade the whole life of the Sikhs. The present work bolsters the claim that literary symbols should be translated into social and political realities, and in so doing puts a valuable feminist interpretation on a religious tradition which has remained relatively unexplored in scholarly literature.

The familiar old world of classical music, with its wealthy donors and ornate concert halls, is changing. The patronage of a wealthy few is being replaced by that of corporations, leading to new unions of classical music and contemporary capitalism. In *Composing Capital*, Marianna Ritchey lays bare the appropriation of classical music by the current neoliberal regime, arguing that artists, critics, and institutions have aligned themselves—and, by extension, classical music itself—with free-market ideology. More specifically, she demonstrates how classical music has lent its cachet to marketing schemes, tech firm-sponsored performances, and global corporate partnerships. As Ritchey shows, the neoliberalization of classical music has put music at the service of contemporary capitalism, blurring the line between creativity and entrepreneurship, and challenging us to imagine how a noncommodified musical practice might be possible in today's world.

Look behind the scenes of fifty celebrated songs, from an estimated repository of over one lakh!'De de khuda ke naam pe': when Wazir Mohammed Khan sang these words in India's first talkie, *Alam Ara*, he gave birth to a whole new industry of composers, lyricists and singers, as well as an entirely new genre of film-making that is quintessentially Indian: the song-and-dance film. In the eight decades and more since then, Hindi film songs have enraptured listeners all over the world. From 'Babul mora, naihar chhooto jaye' (*Street Singer*, 1938) to 'Dil hai chhota sa' (*Roja*, 1992); from the classical strains of 'Ketaki gulab' (*Basant Bahar*, 1956) featuring Bhimsen Joshi to the disco beats of Nazia Hassan's 'Aap jaisa koi' (*Qurbani*, 1981); from the pathos of 'Waqt ne kiya' (*Kaagaz Ke Phool*, 1959) to the exuberance of the back-to-back numbers in *Hum Kisise Kum Naheen* (1977), here is an extraordinary compilation, peppered with trivia, anecdotes and, of course, the sheer joy of music. Find out answers to questions like: With which unreleased film did Kishore Kumar turn composer? In which song

picturization was dry ice first used? Which all-time classic musical was initially titled Full Boots? Where was the title song of An Evening in Paris shot? The idea for which song originated when the film-maker visited Tiffany's in London? Which major musical partnership resulted from the celebrations around an award function for a commercial jingle for Leo Coffee? How many of your favourites find mention here? Make your own list!

Almost from the moment, some five centuries ago, that their religion was founded in the Punjab by Guru Nanak, Sikhs have enjoyed a distinctive identity. This sense of difference, forged during Sikhism's fierce struggles with the Mughal Empire, is still symbolised by the 'Five Ks' ('panj kakar', in Punjabi), those articles of faith to which all baptised Sikhs subscribe: uncut hair bound in a turban; comb; special undergarment; iron bracelet and dagger (or kirpan) - the unique marks of the Sikh military fraternity (the word Sikh means 'disciple' in Punjabi). Yet for all its ongoing attachment to the religious symbols that have helped set it apart from neighbouring faiths in South Asia, Sikhism amounts to far more than just signs or externals. Now the world's fifth largest religion, with a significant diaspora especially in Britain and North America, this remarkable monotheistic tradition commands the allegiance of 25 million people, and is a global phenomenon. In her balanced appraisal, Nikky-Guninder Kaur Singh reviews the history, theology and worship of a community poised between reconciling its hereditary creeds and certainties with the fast-paced pressures of modernity. She outlines and explains the core Sikh beliefs, and explores the writings and teachings of the Ten Sikh Gurus in Sikhism's Holy Scriptures, the Sri Guru Granth Sahib (more usually called just the 'Granth'). Further chapters explore Sikh ethics, art and architecture, and matters of gender and the place of women in the tradition. The book attractively combines the warm empathy of a Sikh with the objective insights and acute perspectives of a prominent scholar of religion.

This beautiful prose of imaginative expedition into worldly marital permutation, packed as 'Meant To Be Together', reveals the truism of a popular adage that "there is no competition in destiny. It also lends persuasive credence to the common belief among different cultures, tribes, traditions, and even religions, that somebody must properly locate his or her destiny, in order to succeed in the world. Anyone who fails to tow from his or destiny, will never get anything right, until perhaps, sheer providence shows mercy in directing such person to retrace or get grip of their destiny, to put things straight and moving without problem. Such is the plight of the two principal actors at the centre of this product of fiction. - Joe and Sonia - separated by worldly frailty and lust of lucre but reunited for a blissful marriage by destiny, what a wonderful and great influence of destiny in the affairs of man! This piece of interesting story will surely make an avid reader keen to get stuck just to know the very end of this tortuously winding journey of two intimate soul mates, blown apart by forces possibly within their control, but eventually reintegrated by forces beyond their widest imagination and human manipulations.

In this autobiography, also titled The Story of My Experiments with Truth, Mohandas K. Gandhi recounts his life from childhood up until 1921, noting that "my life from this point onward has been so public that there is hardly anything about it that people do not know." HarperCollins chose this work as one of the "100 Most Important Spiritual Books of the 20th Century." The pursuit of truth was a guiding principle for Gandhi. He states

that it "is not my purpose to attempt a real autobiography. I simply want to tell the story of my numerous experiments with truth, and as my life consists of nothing but those experiments, it is true that the story will take the shape of an autobiography." He also notes that this "will of course include experiments with non-violence, celibacy and other principles of conduct believed to be distinct from truth."

The study of South Asian music falls under the purview of ethnomusicology, whereas that of South Asian literature falls under South Asian studies. As a consequence of this academic separation, scholars rarely take notice of connections between South Asian song and poetry. Modernizing Composition overcomes this disciplinary fragmentation by examining the history of Sinhala-language song and poetry in twentieth-century Sri Lanka. Garrett Field describes how songwriters and poets modernized song and poetry in response to colonial and postcolonial formations. The story of this modernization is significant in that it shifts focus from India's relationship to the West to little-studied connections between Sri Lanka and North India.

Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form." India is the largest film producing country in the world and its output has a global reach. After years of marginalisation by academics in the Western world, Indian cinemas have moved from the periphery to the centre of the world cinema in a comparatively short space of time. Bringing together contributions from leading scholars in the field, this Handbook looks at the complex reasons for this remarkable journey. Combining a historical and thematic approach, the Handbook discusses how Indian cinemas need to be understood in their historical unfolding as well as their complex relationships to social, economic, cultural, political, ideological, aesthetic, technical and institutional discourses. The thematic section provides an up-to-date critical narrative on diverse topics such as audience, censorship, film distribution, film industry, diaspora, sexuality,

film music and nationalism. The Handbook provides a comprehensive and cutting edge survey of Indian cinemas, discussing Popular, Parallel/New Wave and Regional cinemas as well as the spectacular rise of Bollywood. It is an invaluable resource for students and academics of South Asian Studies, Film Studies and Cultural Studies. Insightful and heart-warming, this classic book is written for those who seek to know God better. It unfolds life-impacting, biblical truths and has been called a "soul-stirring celebration of the pleasures of knowing God."

Why do Hindus revere the cow? Must Hindus be vegetarian? Hinduism is the world's oldest religion, yet the word 'Hindu' was never used before the 18th century by Hindus to describe themselves. It is defined as polytheistic, but Gandhi declared that a Hindu needn't believe in any god. It is a religion as much of myth as of history – it has no founder, no single authoritative book, even few central doctrines. Introducing Hinduism offers a guide to the key philosophical, literary, mythological and cultural traditions of the extraordinarily diverse faith. It untangles the complexities of Hinduism's gods and goddesses, its caste system and its views on sex, everyday life and asceticism. Vinay Lal and Borin Van Loon's hugely enjoyable tour through Hinduism also explores its links with and differences from Buddhism, Jainism and other religions, the resurgence of Hindu extremism, the phenomenon of Bollywood and the overseas Hindu diaspora.

A decade ago, the customizable ringtone was ubiquitous. Almost any crowd of cell phone owners could produce a carillon of tinkly, beeping, synthy, musicalized ringer signals. Ringtones quickly became a multi-billion-dollar global industry and almost as quickly faded away. In *The Ringtone Dialectic*, Sumanth Gopinath charts the rise and fall of the ringtone economy and assesses its effect on cultural production. Gopinath describes the technical and economic structure of the ringtone industry, considering the transformation of ringtones from monophonic, single-line synthesizer files to polyphonic MIDI files to digital sound files and the concomitant change in the nature of capital and rent accumulation within the industry. He discusses sociocultural practices that seemed to wane as a result of these shifts, including ringtone labor, certain forms of musical notation and representation, and the creation of musical and artistic works quoting ringtones. Gopinath examines "declines," "reversals," and "revivals" of cultural forms associated with the ringtone and its changes, including the Crazy Frog fad, the use of ringtones in political movements (as in the Philippine "Gloriagate" scandal), the ringtone's narrative function in film and television (including its striking use in the films of the Chinese director Jia Zhangke), and the ringtone's relation to pop music (including possible race and class aspects of ringtone consumption). Finally, Gopinath considers the attempt to rebrand ringtones as "mobile music" and the emergence of cloud computing.

Emma, first published in 1816, was written when Jane Austen was at the height of her powers. In a novel remarkable for its sparkling wit and modernity, Austen presents readers with two of literature's greatest comic creations—the eccentric Mr. Woodhouse and that quintessential bore,

Miss Bates. Here, too, we have what may well be Jane Austen's most profound characterization: the witty, imaginative, self-deluded Emma, a heroine the author declared "no one but myself will much like," but who has been much loved by generations of readers. Delightfully funny, full of rich irony, Emma is regarded as one of Jane Austen's finest achievements.

First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company. Readers gain a solid understanding of Newtonian dynamics and its application to real-world problems with Pytel/Kiusalaas' ENGINEERING MECHANICS: DYNAMICS, 4E. This edition clearly introduces critical concepts using learning features that connect real problems and examples with the fundamentals of engineering mechanics. Readers learn how to effectively analyze problems before substituting numbers into formulas. This skill prepares readers to encounter real life problems that do not always fit into standard formulas. The book begins with the analysis of particle dynamics, before considering the motion of rigid-bodies. The book discusses in detail the three fundamental methods of problem solution: force-mass-acceleration, work-energy, and impulse-momentum, including the use of numerical methods. An attempt to portray the well known Sikh achievers in their respective fields throughout the twentieth century and before.

Yesterday's Melodies Today's Memories is a rare collection of profiles of all important music-makers of the Hindi Film Industry between 1931 and 1970. It not only gives a biographical background of each music artiste, but it goes further to interview many of the surviving giants and completes the task by listing some of the best songs with which that person is associated. Here are singers that include the whole gamut from KL Saigal to Asha Bhosle, lyricists that include Sahir and Gulzar, music composers from Naushad to RD Burman, artistes that were part-time singers and full time actors like Ashok Kumar, melody queens like Noor Jahan and Lata Mangeshkar, gentlemen lyricists like Prem Dhawan and gentlemen singers like Manna Dey, mischief-makers like Kishore Kumar and rebels without pause like OP Nayyar and Majrooh Sultanpuri. In fact, this book is a house in which all these great talents live happily, each in a separate room, given space for self-expression. The serious research that has gone into this book is evident as you move from one chapter to another, opening layers after layers presented non-seriously. Over 100 music makers are presented this way and many more in a huge single chapter.

An attempt to analyze the events of the alleged scandal which took place in the Indian stock market during 1992.

About a helpless Sikh girl kidnapped by Muslim invaders in 18th century.

"North Indian poetry, music, religion, and politics come to life in *Bodies of Song*, a textual and ethnographic work on the oral traditions of Kabir, one of the great fifteenth-century iconoclastic poet of Hindi literature. Linda Hess's book provides stories of individuals and families, villages and towns, religious and secular organizations, castes and communities of those who sing,

hear, celebrate, revere, and dispute about Kabir"--

An excellent work detailing with notes the thoughts of Allama Iqbal in his famous work. The text features extensive notes and gives an introduction to each poem.

If you want to learn to play the keyboard, you certainly need this book. This book enables you to play songs in a step by step manner using the Scientific Pitch Notation System (C, D, E, F, G, A, B). Songs of Kabir Rabindranath Tagore - Kabir lived in the 15th Century (1440-1518); born to Mohammadan parents; he came under the influence of the famous Hindu saint; Sri Ramananda and delved deep into the mysteries of Hindu mysticism. A true worshipper of God; he emphasized the purity of mind and selfless devotion to God. He openly opposed the weaknesses of both Hinduism and Islam. During his life time he composed many poems. They are usually two line couplets; known as dohas; recited by many scholars even today to denote some deep philosophical truths. All these songs of Kabir were translated into English by none other than Rabindranath Tagore; the mystic poet and the Noble Laureate; the first edition; published by The Macmillan Company; 1915; New York. This book shall prove to be an asset for the Kabir lovers who can't enjoy his writings in Hindi.
