Holm oak (*Quercus ilex* L.) forests and woodlands have been considered as a paradigm for Mediterranean terrestrial ecosystems. In the western part of the Mediterranean Basin, these forests and woodlands occupy large areas and thus play a very important role in the landscape. A number of research projects from the Centre d'Ecologie Fonctionnelle et Evolutive (CEFE), the Centre de Recerca Ecológica i Aplicacions Forestals (CREAF), and from many other laboratories are currently focusing on *Q. ilex* ecosystems, and a number of problems have appeared concerning not only basic knowledge but also management aspects. For this reason, the CEFE and the CREAM decided to jointly organize the workshop on *Quercus ilex* L. Ecosystems, which was held in Montpellier and Barcelona in September 1990. The present volume consists of a selection of papers presented during the workshop and other papers contributed after the workshop. The papers are divided into five sections: Biogeography and History; Structure, Productivity and Dynamics; Water Relationships; Nutrient Cycling; and Management.

Careers in International Affairs, now in its eighth edition, is the ultimate job hunting guide for anyone hoping to work in the U.S. government, international organizations, business, or nonprofits. This thoroughly revised edition provides up-to-date descriptions and data about careers in the global workplace and how to find them—along with nearly 300 organization profiles. In addition to a remarkably broad and deep list of organizations and contacts, Careers in International Affairs offers insight and guidance from a career counselor, a graduate student, and practitioners in the international affairs community on networking, interviewing, finding a mentor, and choosing the best graduate school. The book also presents numerous firsthand perspectives on various career sectors from those who have found their own international niche—from young professionals to senior policymakers. It is designed to encourage international job seekers to think about what they know and what talents they have to offer, to widen their horizons and reveal all the possibilities, to help them realize that the future could hold several careers, and to remind them that it is never too early—or too late—to consider the variety of options that await them around the world. Careers in International Affairs is published in cooperation with Georgetown University's School of Foreign Service, the oldest and largest school of

international affairs in the United States.
